2. The Chairman now reports the resolution of the Council to take up some 20 acres of land and to lay out a new suburb thereon, it is also proposed to acquire sites in the quarters in order to complete the improvement given under the certain streets & to improve the market. It is roughly estimated that allotments of Rs 2000 or Rs 2500 will be requested to furnish a more detailed report of what is in detail project for the improvement of the Council's purpose to do, of the town, accompanied by a sketch, and of more accurate estimates of the cost of taking up the proposed sites. It is observed that portions of the burnt down quarter of the town will have to be required.

(From orders.) It is not clear whether the estimates include such acquisitions; probably not, as until the contemplated exchange has been carried out, no definite forecast can be made.

3. The Council's attention will be called to rule 8 - in G.O. No. 1698 of 18th September 96. requiring reports for the improvement of town sites. The Chairman and Mr. Comal Cocanada have submitted to the Land the Collector of Godavari for its approval. Dated 5/12/96

The Chairman, M.C. Cocanada.

FOR ORDERS.

In para 2 of G.O. No. 969 J. dated 6th June 1896, communicated with G.O. No. 1053 M dated 22nd June 1896, the attention of Municipal Council of Cocanada was drawn to the desirability of taking advantage of the clearance caused by the recent fire, to widen the streets and lanes in the part of the town affected by it.

2. The Municipal Council agreed to widen some of the streets by acquiring under the Land Acquisition Act such sites and portions of houses as were necessary for the purpose, but as the Government was of opinion that the Council's proposals did not deal adequately with the case and that full advantage should be taken of the opportunity to improve the town, the Chairman was asked to submit an estimate of the cost of acquiring the land required for widening the streets.

streets and lanes referred to G.O., No.
1359 M. dated 14th August 1896.

3. The Chairman estimates the cost of
acquiring a piece of land measuring 20
acres, in which it is proposed to allot
sites for those whose lands have to be
taken up for widening the streets, and
whose houses have been consumed by fire,
at Rs. 1000, and that of other sites for
widening the streets and improving the
market ^{at} Rs. 1,000 or Rs. 1,500. As the estimate
now submitted does not appear to be
complete, it is submitted that the Collector
may be asked to work out a full and detail-
ed estimate of the probable cost of widen-
ing the streets and lanes in the town
where necessary, with a view to improve the
town permanently.

We may ask the collector to furnish
a more detailed report, with a
sketch, of what the Council pro-
pose to do - accompanied by more
accurate estimate of the cost of acquiring
the ~~land acquisition~~ sites referred
to. Acquisitions on the burnt
down portion of the town will also
be necessary but perhaps they
mean to postpone that ^{to} until
it is seen how much they can
acquire by exchange. J.P. 26/11/96
