PROCEEDINGS OF THE MADRAS GOVERNMENT.

** copy attached*

Read the following paper:-
From the Director of Public Instruction, No 7344, dated 13/7/96.

ORDER :- No 508, dated 19th August 1896.

The Director of Public Instruction's proposals do not commend themselves to Government.

2. The advantages which they are claimed to confer upon the Training School are (a) that they will rid it of the nuisance caused by the noise of passing traffic and (b) that they will provide it with a recreation ground.

3. The first advantage is inconsiderable, as to the second, even were additional space outside the site of the College required for a recreation ground (a necessity of which the Government is not at present convinced) it appears to the Government that the cost of the Director of Public Instruction's scheme would be very large and that the money expended upon it would do a great deal for the benefit of the Municipal Council for which the Council would pay a most disproportionate sum.

4. The scheme necessitates the acquisition of the houses and compounds through which the new road would pass and which are situated on the site required, the construction of some 330 yards of new road with culverts and drains, and the filling up of the Potters' Tank with earth from a tank at a distance which is not stated. The Municipal Council would benefit by having an unwholesome tank filled up and another tank cleansed and deepened free of cost and by having the main street of Innespettah relieved of much of its traffic, and in return it only offers to present the Government with the site of the Potters' Tank (which would seem already to belong to Government) and to maintain the main road when it is constructed (the length of the new road being about the same as that of the road already maintained).

(True Extract)

Signed J. F. Price
Chief Secretary

To

The Director of Public Instruction (with plan and enclosures)

[Extract from the Proceedings of the Municipal Council,
Rajahmundry, dated 8th February 1896.

Read letter No 1180 dated 26th January 1896 from E.P.
Metcalf Esq., Principal of Training College, forwarding
certain proposals for the improvement of the site for the
Training College and High School building .

Resolution No-dated 8th February 1896.

(2)

The proposals of Mr.Metcalf are approved. The Mangala-
-varapeta road will be joined to the Kanapativari road. The
cross road now joining the main and Mangalavarapeta roads
will be closed subject, of course, to the private right, if any,
of private individuals. A cross road with the necessary
drains and culverts will be made joining the main road and
the new road (the extension of the Mangalavarapeta road) along
the site of Chintalurivaris house. The Educational Department
will be allowed to deepen the Nagulu Tank to fill the potters
tank with that earth. The site reclaimed by this arrangement
will be handed over to Government on condition that the roads,
drains and culverts now proposed, be made by Government at its
cost on condition that they should be maintained by the
Municipality.]

...

Copy of [letter from the Principal, Rajahmundry College,
to the Director of Public Instruction, dated 4th March 1896
No 1269.

(3)

Considering the importance of the proposal referred to
in the accompanying resolution of the Municipal Council, Rajah-
-mundry, I have the honour to ask that a sanction of Govern-
-ment may be obtained for the construction of the necessary

works

(tentative sent)
and to be
forwarded to the
Director of Public Instruction

works therein referred to.]

I have &c.,

Principal.

(True Copy) D.Duncan

Director of Public Instruction.

.....

Copy of letter from the Director of Public Instruction,
No 7344, dated 13th July 1896:-

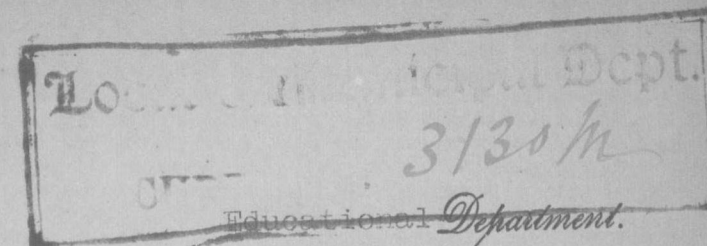

With reference to the enclosed copies of letters from
the Principal, Rajahmundry College, and of the Proceedings of the Municipal Council, Rajahmundry, I have the honour to request that you will be good enough to obtain the sanction of Government for the preparation of plans and an estimate by the Public Works Department for improvements and other works proposed by Mr. Metcalfe and agreed to by the Municipal Council in its Proceedings of the 8th February last. The alterations will, as observed by the Principal, save the College from the great annoyance now caused by passing carts and also admit of the formation of a recreation ground for the new Training College and High School students. The Municipal Council is prepared to hand over the site reclaimed on condition that Government bear the cost of the proposed roads, drains, culverts and other necessary works. Taking into consideration the several advantages which the College will derive from the proposed changes, I would strongly recommend that the initial cost of these works be borne by Government. It would hardly be fair to expect the Council to do more than what is necessary for maintaining in good repair, works which benefit mainly the Government Educational Institutions in the town.

2. I went over all these proposed improvements on the spot when I visited Rajahmundry last January. If carried out they will be of the utmost benefit to the new Training College.
