Office note.

This is the first house in a narrow lane. The place where it is proposed to take up a very narrow H pyal is wider considerably than the lane a little further on.

If the Council persist in taking the pyals they should pay for them, and not alienate to the houseowner a much larger piece of useful land. The matter appears to be a device by some subordinate to give this house owner a title to useful land beside his house!!

Let him get money if his pyal is taken, but it is not at all necessary to take it.

Sir,

I have the honor to submit that on the 18th June 1894 the Council resolved to take up the the plots marked red (as per plan) attached plan measuring 4.22 square yards of one J. Choodiah he and to give him in return site marked yellow measuring 14.66 square yards charging for the difference at Rs-8- a square yard (Copy of resolution enclosed).

2. Mr. Fato, the then Sub-Collector, was not disposed in favor of the Council's proposal on the ground that on personal inspection he did not see any necessity for acquiring the plot site and that the site proposed to be given in return had.

had much better be reserved for the Public,
and he requested the Council to reconsider
the matter.

3. The Council on reconsideration was of the
same opinion as before (Vide copy of resolution
enclosed. 17.11.96.) and the Council again resolved
on 12.7.96 on a reference from the Sub-Collector
that the plot site be taken up and that
the site required by the owner given him as
originally resolved (Vide Council's resolution enclosed)
to. I request you will be pleased to move
the Government to sanction the exchange and
alienation.

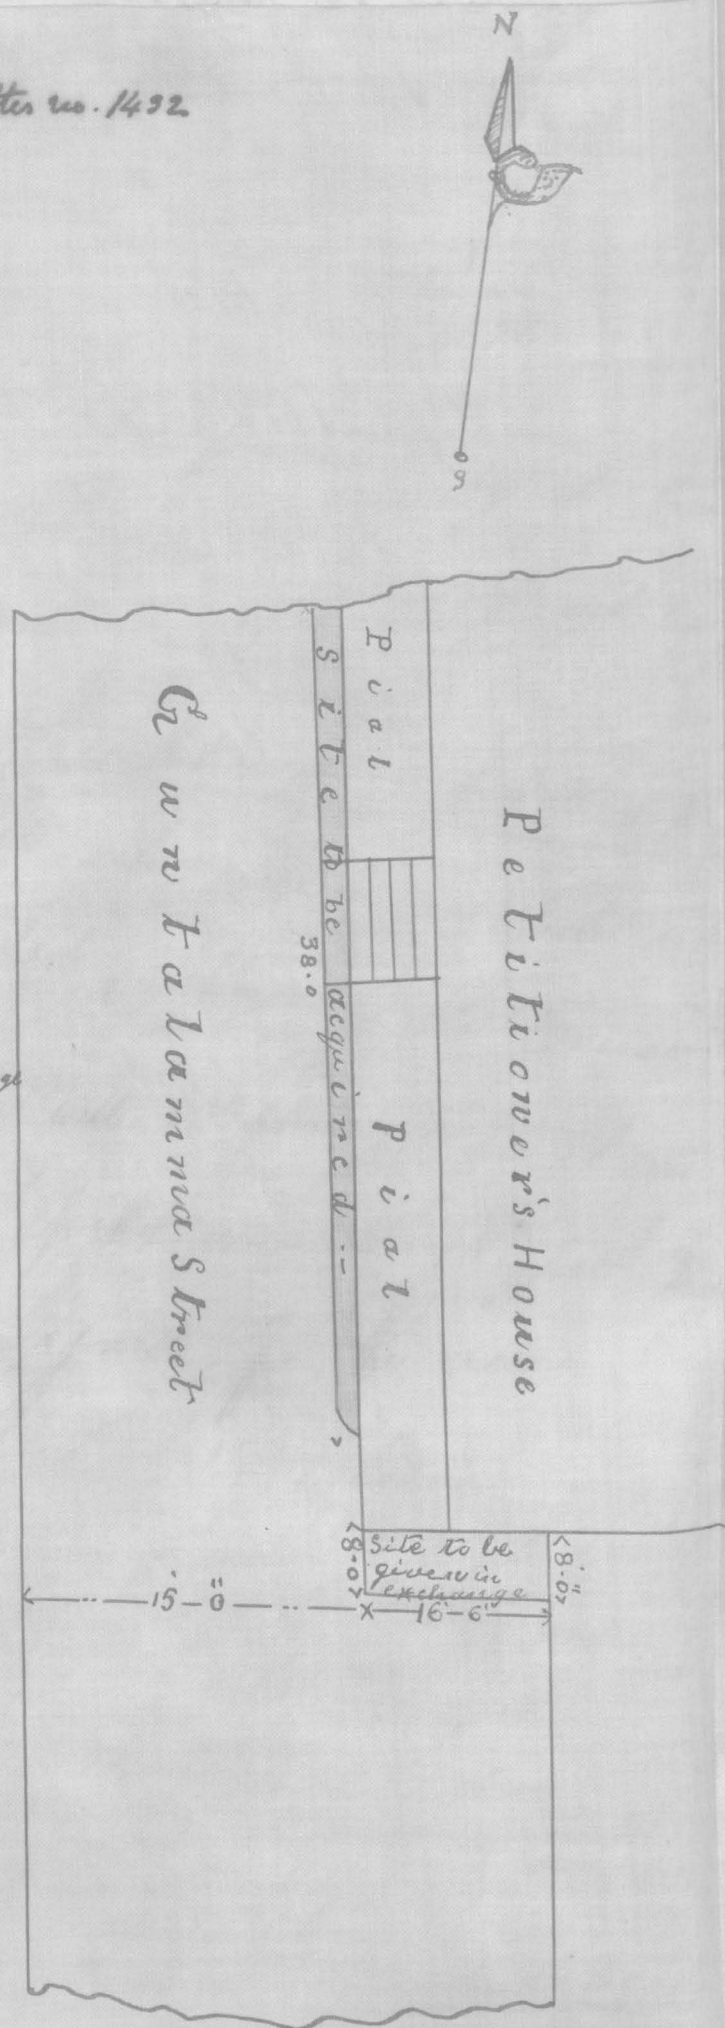

I have the honor to be,
Sir,

Resolution IV. (4) dated 17-11-94

The Council is still of opinion that the
pials should be acquired to widen the street.
In the same street some sites had been already
acquired, the object of the Council being to
have a bent road parallel to the main
road. The Council has agreed to grant the
site to Choodayya in lieu of the pials
granted to him, as it does not cause any
inconvenience.

namely that it seems hardly worth the
trouble of acquiring. But I do not
see the same objection to the proposed
that my late friends. The land to
be alienated is not larger than the

(3) The Chairman has said
that the route for the railway con-
necting the proposed station with
bridge with the Town Station will
pass this way and so the matter
need not be pressed now. But
I do not think it is at all
certain yet what course the new

(2) I have seen the site. The field, which forms an encroachment, is so very narrow that it seems hardly worth the trouble of acquiring. But I do not see the same objection to the proposed that Mr. Lake found. The land to be alienated is not larger than the portion acquired.

(3) The Chairman now says that the route for the railway connecting the proposed Godawari bridge with the Town Station will pass this way and so the matter need not be pressed now. But I do not think it is at all certain yet what course the new line will take ^{through} the town.

(4) After Mr. Lake had expressed his opinion, the Council allowed the matter to lie over and still pre-occupied by this Office on 7.9.95!!

I cannot offer any opinion. I would point out however that according to the plan the site to be given in exchange is 10 sq. yds larger than that to be acquired.
