Dup. 1 8/11/96

Sub of the transit and travelling allowance
of Deputy Inspectors of vaccination, etc,
and extension of joining time of the
Deputy Inspectors of Vaccination, etc.

Local and Municipal Department.

Current No 27592

For orders

The two cases are concisely and clearly stated in the Sanitary Commissioner's letter (Finl. Cur. No. 2440) and the Accountant General's letter (Finl. Cur. No. 2464). In the first case, as the joining time of 10 days allowed by Article 209 of the Civil Service Regulations has been exceeded by 12 days owing to circumstances beyond the control of the Deputy Inspector, the Vaccinator may be exempted from the loss of his appointment under the same article. In the second case, as the subordinate Vaccination Department is an organization intended almost exclusively for the local bodies, the transfers are made in their interests unlike those in the subordinate Medical Department, which is a general service organized to meet the requirements of Government and the local bodies, the travelling allowance and transit pay should be met from the funds of the local bodies in whose interests the transfers are made; but the charges on both occasions, that is, when proceeding to take ^{up} an appointment and when reverting to their own appointments, should be paid by the local body in whose interest the transfer was made and not by that body on

the

The papers will be returned to the Sanitary Department with the remainder that in the first case the Deputy Inspector of Vaccination is exempted from the loss of his appointment under Article 209 of the Civil Service Regulations and in the second case the Deputy Inspector of Vaccination is exempted from the loss of his appointment under Article 209 of the Civil Service Regulations.

It is recommended that the Deputy Inspector of Vaccination should be appointed to act as Deputy Inspector of Vaccination in the local body in whose interest the transfer was made and not by that body on

The Sanitary Department with the papers returned.

V.R.
7/11/96

14.

I think the A.C.'s suggestion the better that the t.a. & house allowances be paid by the body which the officer is proceeding to join. As the A.C. points out the rule being general in its application will be compensatory.

I agree - But why
 on earth was a
 man transferred from
 Richmond to there?

It is not always easy to decide finally some better arrange-
in whose interest a transfer want could have been
is made : it is often to the man than that. Apparently
interest of both bodies : in any case, the man ~~is~~ is a valuable
case the application of such a telegraph?
rule w^d give rise to correspondence.
if not dispute.

Surgeon Lieut. Col. W. G. King, M.B., C.M., D.S.H.

Sanitary Commissioner for Madras

To

The Chief Secretary to Government
Financial Department,
Ootacamund.

Sir,

I have the honour to forward herewith the accompanying letter from the Inspector of Vaccination and Deputy Sanitary Commissioner and to request that Government will, in the circumstances stated, be pleased to accord sanction to the exemption claimed.

2. The Vaccinator was relieved at Trichinopoly on the afternoon of the 13th April 1896 in view to his joining the acting appointment of Deputy Inspector of Vaccination, Ellore Range, Coimbatore District. It will be seen from his letter enclosed that he arrived at Rajahmundry on the 22nd idem and at Cocanada on the 28th for

for the purpose of reporting himself to the District
Sanitary Officer and President, District Board, Madras,
in obedience to this office order. On the 27th April,
he received orders from the District Medical and
Sanitary Officer at Rajahmundry to assume charge
of his duties at Ellore whether he proceeded
on the 28th, but owing to the absence of the
permanent incumbent on tour he was not
able to take charge of the Ellore range till
the 6th May.

3. It will thus be seen that the delay
in taking charge of his new duties was due
to circumstances over which Chinnaswami
Pillai had no control.

I have the honour to be,

Sir,

Your most obedient servant

W. G. King

reasonable.

Treasury Account Dept^r

From

F. B. Harrison Esq^r

Offg: Accountant-General to the
Government of Madras.

To

The Chief Secretary to Government,
Financial Department.

Sir,

In April last a first class vaccinator
of Trichinopoly attached to the Municipality
was appointed by the Inspector of Vaccination
to act as Deputy Inspector of Vaccination,
Ellore Range, Godavari District, an appoint-
ment under the Local Fund Board. He
claimed travelling allowance for the journey
from Trichinopoly to Ellore from Provincial
Funds, but in the absence of any distinct
order of Government in the matter, my
I attend the charge.

2. The only order on the subject of travelling allowance of members of the Vaccination Department that I can trace is the order contained in Government Order No. 968 Financial dated 16th May 1883. According to this, the expenses entailed by transfer of Deputy Inspectors of Vaccination made from one district to another, except on the special requisition of the Circle Board, should be borne by Provincial Funds.

3. I would here observe that the order as regards Deputy Inspectors of Vaccination was passed on the analogy of the rulings relating to Subordinate Medical Officers which have recently been amalgamated and issued in Government Order Local and Municipal No. 1481 L, dated 17th August 1896. The main principle underlying the rulings here, is that unless the transfer is made by or on the motion of the local authorities, the debit of travelling allowance shall be against Provincial Revenues. So far therefore the case of Deputy Inspectors of Vaccination and also of Vaccinators transferred from

Inspector of Vaccination may be held to be analogous to that of Subordinate Medical Officers.

4. But in the constitution of the services a difference exists. The Subordinate Medical Department is a general service organized and recruited to meet the requirements of Provincial, Local and Municipal Funds. It is not inconsistent therefore in the cases of Government Medical Subordinates to require the travelling charges to be borne by Provincial Revenues. The Vaccine Department on the other hand is an organization most entirely intended for Local and Municipal Funds, the only exception being Subordinates required for the Agency. The transfers are therefore made in the interests of local bodies, and as no provincial question arises it seems questionable whether under any circumstances, travelling charges should go against Provincial Funds.

5. In these cases it would

preferable to adopt the simple rule that
the transit pay and travelling allowance of an
officer shall be debited to the department he
proceeding to join. Applying this rule to
the present case, the Local Fund Board Ellore
will have to meet the transit pay and
travelling allowance of the vaccinator on the
occasion of his proceeding to join the acting
Commissioner of Deputy Inspector, while the
Chinopoly Municipality will have to meet
similar charges on the occasion of the return
money. It may be urged that the Trichy
Municipality had no interest in the
transfer and should therefore not be made to
pay any portion of the cost. But as the
rule will be general in its application, any
hardship in a particular case will
be counterbalanced when the circumstances of
the case are reversed.

I have the honour therefore to en-
quire whether Government is disposed to
adopt the suggestion above referred to
in the case of the members of the Vaccine
Department.

Department, or whether it desires to continue
that contained in the order of 16th May 1883
N^o 968 Financial bringing the cases of
Vaccinators also under it.

I have the honour to be,
Sir,

Your most obedient servant,
