Return as requested.

It is presumed that the Madras Government think that Raichore Cantonment and Raichore are one. Hardly one passenger a month comes to the Cantonment from Bombay. The passengers could be examined at the Cantonment station, but arrangement would have to be made with the G.I.P.Railway authorities to detain the train. At present they stop for only about 3 minutes, not long enough time to examine the Passengers. Pending further instructions only Passengers arriving at the Cantonment station are examined.

Sir,

In continuation of this office telegram No 3090, dated 24th October 1896, I have the honor to enclose an extract of the remarks made by Lieut-Colonel Sorell, Commanding Raichore Cantonment, and to say that I think the examination of passengers from Bombay side to detect plague cases should be conducted at Raichore and not at Raichore Cantonment, as it would cause great inconvenience to the public, if the trains were halted at the Cantonment as well as at Raichore where a stop must be made for Railway purposes.

2. If this suggestion is adopted some other Medical man must be employed for the work of inspection, for the Medical Officer at the Cantonment could not act at Raichore.

I have the honor to be
Sir,
Your most obedient servant,
