Sir,

In reply to your letter No P.W. 1067 dated 14th Instant, I have the honor to say that, when the Shadayankuppam Lock is abandoned, which will not be the case for several weeks yet, it seems to me that your establishment should be moved to the new Lock, 3 miles further to the north. There are insuperable objections to allow inferior Municipal subordinates the power to stop traffic on a Government canal, and endless trouble, illegal exactions, and delay to traffic would probably arise, if such a thing were permitted. I do not think Government would think of sanctioning such a system. A very close watch is kept on the Canal Navigation Establishment by Canal Inspecting officers, but the Municipal Establishment would be practically free of all superior control and I cannot recommend the introduction of any such unsatisfactory system, the utmost vigilance being necessary as it is to prevent abuses by inferior establishment empowered to stop traffic.

2. A copy of this correspondence will be forwarded to the Superintending Engineer and should you object to transfer your Establishment to the new Lock, I shall request the Superintending Engineer to send up the matter for the orders of Government.

But I would urge the early removal of your Establishment to Ennore, as great complaints will probably arise if boats are stopped by Municipal Establishment only.
