No. M., JANUARY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT

READ—the following paper:—

From M.R.Ry. P. KRISTNASAMI AIYAR Avargal, B.A., Chairman, Municipal Council, Tinnevelly, to the Chief Secretary to Government (through the Revenue Divisional officer and Collector of Tinnevelly), dated 20th December 1895, No. 422.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1896–97, together with the revised estimate for the year 1895–96. Both were passed at a meeting of the council held on the 18th December 1895. Copy of the resolution is also enclosed.

REVISED ESTIMATE FOR 1895–96.

2. *Receipts.*—The total receipts amount to Rs. 26,080. This sum is less than that of the budget estimate by Rs. 450. The decrease occurs chiefly under items Tax on lands, Tax on carts and other vehicles without springs, Sale-proceeds of night-soil, Grants and contributions for normal stipends and for gymnasium and drawing-master grants, Other grants and contributions—(ii) Medical, Miscellaneous—(i) Private scavenging. The above decrease is to some extent counterbalanced by some increase under Sale-proceeds of medicines, Income from markets and slaughter-house, License fees, Fines under municipal and other Acts, Contributions from local boards—(ii) Medical, and Other grants and contributions—(iii) Other purposes. These variations are explained in Column 7, Statement VI.

3. *Charges.*—The total charges as shown in the budget were Rs. 27,160, but they now come only to Rs. 26,570. The decrease of Rs. 590 is mainly due to the fact that there was no necessity during the year to appoint toties for private scavenging under Grant III as it was expected at the time of the budget. This diminution is to some extent counterbalanced by excess expenditure under Grant I, Repairs to buildings (which expenditure could not be avoided and which was not foreseen at the time of the last budget), and a small increase under Grant V. The variations under each item of the expenditure are explained in column 7 of the Revised Estimate Statement VI.

BUDGET ESTIMATE FOR 1896–97.

4. *Receipts.*—The same rates and taxes are proposed to be levied as in the current year, except the tax on lands which is to be revised as stated in paragraph 5. The receipts for the ensuing year, excluding the opening balance, are estimated at Rs. 26,030, against Rs 26,080, the sum shown in the revised estimate for the current year. The former is taken at Rs. 50 less than the latter though counterbalanced by expected increases under sale-proceeds of night-soil, contribution for normal stipends and for gymnasium and furniture grants, and recoveries on account of private scavenging. The main diminutions are due to the fact that the council have taken the income from markets and slaughter houses at a moderate figure and also such high fines under municipal and other Acts and such high contribution under medical services cannot be expected.

5. *Tax on Lands.*—With reference to G.O., No. 2051, dated 6th December 1895, the tax on lands is to be revised in the current year itself and the revised mode of taxation will bring much less than the amount provided in the budget; hence the income under this head is taken, both in the revised estimate and in the estimate for the coming year 1896–97, at Rs. 350.

Receipts & Charges for 1896-97.

Resolved that the Budget Estimates of Receipts & Charges be passed with the following additions

(1) That the pay of the Engineering Assistant be increased from Rs 40 to Rs 50 per mensem

(2) An additional Scavenger be entertained on a Salary of Rs 4 per mensem

(3) An additional bill Collector be entertained on a Salary of Rs 7 per mensem

The above decrease is to some extent counterbalanced by some increase under Sale-proceeds of medicines, Income from markets and slaughter-house, License fees, Fines under municipal and other Acts, Contributions from local boards—(ii) Medical, and Other grants and contributions—(iii) Other purposes. These variations are explained in Column 7, Statement VI.

3. *Charges.*—The total charges as shown in the budget were Rs. 27,160, but they now come only to Rs. 26,570. The decrease of Rs. 590 is mainly due to the fact that there was no necessity during the year to appoint toties for private scavenging under Grant III as it was expected at the time of the budget. This diminution is to some extent counterbalanced by excess expenditure under Grant I, Repairs to buildings (which expenditure could not be avoided and which was not foreseen at the time of the last budget), and a small increase under Grant V. The variations under each item of the expenditure are explained in column 7 of the Revised Estimate Statement VI.

BUDGET ESTIMATE FOR 1896–97.

4. *Receipts.*—The same rates and taxes are proposed to be levied as in the current year, except the tax on lands which is to be revised as stated in paragraph 5. The receipts for the ensuing year, excluding the opening balance, are estimated at Rs. 26,030, against Rs 26,080, the sum shown in the revised estimate for the current year. The former is taken at Rs. 50 less than the latter though counterbalanced by expected increases under sale-proceeds of night-soil, contribution for normal stipends and for gymnasium and furniture grants, and recoveries on account of private scavenging. The main diminutions are due to the fact that the council have taken the income from markets and slaughter houses at a moderate figure and also such high fines under municipal and other Acts and such high contribution under medical services cannot be expected.

5. *Tax on Lands.*—With reference to G.O., No. 2051, dated 6th December 1895, the tax on lands is to be revised in the current year itself and the revised mode of taxation will bring much less than the amount provided in the budget; hence the income under this head is taken, both in the revised estimate and in the estimate for the coming year 1896–97, at Rs. 350.

6. *Rent of Buildings.*—The decrease under this item is due to the fact that two buildings rented out during the year, and which are dilapidated, are proposed to be demolished and the land to be included in Pennington market.

7. *Sale-proceeds of Night-soil.*—As the private scavenging will probably increase, more income is expected under this item.

8. *Sale-proceeds of Medicines.*—As the income under this item is precarious, a small sum is shown under this item.

9. The income from markets and slaughter-houses is calculated as mentioned in paragraph 4 *supra.*

10. *License Fees.*—The number of marriage pandals had increased during the current year and the same may not be expected during the next year. For being safe, a less income is shown under this item.

11. *Fines under Municipal and other Acts.*—This being a variable item, a less income is expected under this head.

12. *Grants and Contributions from Government—Education—Normal Stipends and Gymnasium and Drawing-master Grants.*—During the year the normal students and the drawing-master were appointed some months after the commencement of the year, but in the next year they will continue throughout the year; hence the increase under this item.

13. *Grants and Contributions from Local Boards*—(ii) *Medical.*—During the last year the net expenditure on account of dispensary was much increased. Consequently, the income under this head during the year was in excess and the same may not be expected during the next year; hence the less income under this head.

14. *Other Grants and Contributions*—(ii) *Medical.*—The difference under this item is owing to the reduced rate of interest on Lankerkana fund.

15. *Grants and Contributions—Other Purposes.*—During the year a contribution from the local police towards helping them with a branch drain to carry the sewage from the police lines was received and the same cannot be expected during the next year; hence no income is shown under this head.

16. (*b*) *Miscellaneous—Recoveries on account of Private Scavenging.*—The system is spreading rapidly and more houses are expected to be brought under the system during the next year; hence more income is expected under this head.

17. The other items of receipts do not call for special remark as the figures relating thereto for the next year tally very nearly with those given in the revised estimate.

18. *Charges—Grant I, Communications.*—A sum of Rs. 2,400, which is in excess of 50 per cent. of the estimated income from tolls, is provided under the items of new works and repairs for the upkeep of roads and streets as particularized in Statement II-A.

19. *Buildings.*—A sum of Rs. 350 is provided under new works for the construction of Panchama school-building, and a sum of Rs. 500 is provided under repairs for repairing the market and dispensary buildings. During the current year some of the public latrines which need urgent repairs are proposed to be repaired within the close of the year; hence the increase of Rs. 250 under the revised estimate.

20. *Drainage.*—In the town one or two main drains were constructed some years back and left in the middle, and water stagnates and gives rise to nauseous effluvia to the neighbourhood. It is proposed to proceed with their construction to some extent further. During the next year it is also proposed to construct petty drains in small streets and lanes to conduct drain and sewage water, which now render them filthy, into the main drains on the conditions mentioned in G.O., Mis. No. 1773 M., dated 28th October 1895; hence the provision of Rs. 1,000 under this head. Again the existing main drains are out of level in many places. Whatever may be the extent of flushing, water stagnates, and it is proposed to render the level even in many places; hence the provision of Rs. 500 under this head.

21. *Water-supply.*—In the hot season the people of the fifth ward feel inconvenience by scarcity of water. They have agreed to give the necessary land. To supply the want of water a well is proposed to be dug up; hence the provision of Rs. 200 under new works. The sum of Rs. 400 under the revised estimate was paid to the Sanitary Engineer on account of preliminary surveys, &c., being taken for a joint water-supply scheme. During the year certain boards, with inscriptions, had to be made for preventing the pollution of water in the reserved channel; hence the expenditure of Rs. 30 under Repairs—Contingencies in the revised estimate.

22. *Grant II.*—The proposals of the Educational department are adopted *in toto* with some additions. In 7, Miscellaneous (*a*), the Assistant Inspector provided a sum of Rs. 150; the Director in his endorsement has asked the council to raise the sum to Rs. 200. The reason is not stated; but subsequently the Assistant Inspector has suggested to the council to make provision for the rent of the Muhammadan Dahistani Islam school, which comes to Rs. 4 per mensem. If the increased provision by the Director is not meant to cover this item, a sum of Rs. 50 is added, making the total Rs. 250. This is meant by the council to cover also Rs. 60 per annum, the rent of the gymnasium ground. The other noticeable features are (1) the entertainment of normal students throughout the year, but not as partially as in the current year, (2) the contribution to the district board on account of remuneration to the Muhammadan inspecting schoolmaster for his inspection of the Muhammadan schools within the municipality, (3) the entertainment of the drawing-master throughout the year instead of as partially as in the current year, and (4) the provision for sessional schools. The sessional schools are pressed upon by Government to train unpassed teachers and the school is to be opened from 1st January, the cost under this head consisting of following items: (1) Rent of building, Rupee one per mensem, (2) Two annas contingencies per mensem, and (3) Remuneration to the inspecting schoolmaster for each teacher passed, which is taken at Rs. 50.

23. *Grant III, Hospitals and Dispensaries—(d) Sundries and Contingencies.*—During the current year the buildings, &c., had to be renewed; hence the increase of Rs. 30 in the revised estimate more than the budget. But in the next year certain articles necessarily required are to be purchased and accommodation is proposed also to be extended by renting the neighbouring buildings; hence the provision under this item is increased by Rs. 100. But the council are awaiting the order of Government regarding the entertainment of a lower-paid medical officer for the municipality: *vide* G.O., No. 820, dated 11th May 1895.

24. *Conservancy—Road-cleaning and Road-watering*—(*a*) (i) *Establishment.*—One additional scavenger at Rs. 4 per mensem is proposed to be appointed during the next year in consideration of sanitary improvements; hence the increase of Rs. 50 under this head. A proposition statement accompanies.

25. *Private Scavenging Establishment.*—As the system is spreading rapidly and as it may be more rigidly enforced during the next year, the number of toties will have to be increased; hence the sum of Rs. 2,220 provided in the budget for the current year is repeated for the next year, although the provided number of toties has not been entertained during the current year.

26. *Cholera Charges.*—On account of preventive measures adopted for checking the spread of cholera which broke out in a mild form, a sum of Rs. 50 in excess of the budget amount has been provided in the revised estimate for the current year, but the usual sum of Rs. 50 is alone provided for the coming year.

27. *Grant IV, Lighting Establishment* (*a*).—It is proposed to increase the pay of the lamp superintendent from Rs. 9 to Rs. 10 per mensem on account of increase of work to him owing to the extension of the town and the increase in the number of lamp-posts; hence the increase under this head.

28. *Grant VI, Office Establishment.*—During the current year a temporary clerk had to be appointed for a few months partly for assisting the third clerk on account of the revision of house-tax and partly for the arrangement of records; hence the increase of Rs. 40 in the revised estimate more than the budget amount of the year.

The council propose to add one more bill-collector on Rs. 7 per mensem on account of the extension of the town limits and as under existing orders the bills, &c., are to be served twice a year instead of once as formerly; hence the increase in the budget for the next year. A proposition statement accompanies.

29. As in the case of receipts, the other items of charges also call for no remark and I beg that the budget may meet with the approval of Government.

Cur. No. 3040-Gl.

Submitted.

2. The roads within the limits of this municipality are in a fair condition, and the sum provided in the budget estimate for 1896–97 for their repair seems to be adequate.

3. Drainage system is not working well here. Sewage-water stagnates everywhere and, what is worse, the drainage-water escapes finally into the river, thereby rendering the water lower down the course of the river very unhealthy. Steps will have to be taken by the council as early as possible to avert this evil.

4. This municipality is a compact and a small one and increase of pay to the lamp superintendent does not seem to be necessary. It is not desirable to increase the pay of an appointment on the ground that its occupant does his work properly. If he be found deserving he may be given an appointment carrying a higher salary.

(Signed) T. RAGHAVIAH,
Head-quarters Deputy Collector.

24*th December* 1895.

Endt. on Cur. No. 17-Gl.

Submitted to Government.

2. *Revised Estimate for* 1895–96—*Receipts.*—The decrease under tax on lands is due to the change of rates from $1\frac{1}{2}$ anna for 80 square yards to $7\frac{1}{2}$ per cent. of the rent value recently sanctioned by Government. The decrease under private scavenging fees is not satisfactory, but is an improvement on the figure of the previous year. The council has found it difficult to extend the system to all parts of the town; but it is to be hoped that the matter will receive continued and increasing attention.

3. Out of Rs. 2,400 provided in the budget for 1895–96 for communications (new works and repairs) only Rs. 1,144 has been expended up to the end of November. It is to be hoped that the balance of the allotment will be spent within the year.

4. *Budget Estimate of* 1896–97.—The provision of Rs. 1,500 under drainage on new works and repairs combined can be very usefully spent.

5. The additional establishment provided for in the estimate may be sanctioned.

6. The entry of 1896–97 in the heading of Statement VI is evidently a mistake for 1895–96.

(Signed) A. W. B. HIGGENS,
Collector.

Revised Estimate for 1895-96.

2. The current receipts and charges are now estimated at Rs 26,080 & Rs 26,570 respectively against Rs 26,530 & Rs 26,910 anticipated in the sanctioned budget. The decrease in the receipts occurs chiefly under private scavenging fees receipts and that in the charges under Grant III. The collections under the principal taxes and the expenditure on communications during the first eight months of the year were not satisfactory. The attention of the municipal council will be drawn to paras 2 & 3 of the collector's endorsement. The authority under which the temporary clerk, referred to in para 28 of the chairman's letter, was employed should be reported.

Budget-

Budget Estimate for 1896-97

3 Receipts. The receipts for the ensuing year are placed at Rs 26030 against Rs 26080 in the revised estimate.

4. Charges (1) The probable Charges are put down at Rs 29,260 against the revised estimate of Rs 26,570, the increase appearing under Grants I, II & III.

(2) Grant-II - The attention of the Director of Public Instruction will be drawn to the omission pointed out by the chairman in para 22 of his letter.

(3) Grant III - The remarks of the Surgeon General (~~the Sanitary Commissioner~~) on this portion of the budget will be awaited. Meanwhile the provision of Rs 10 for the Cutlers establishment will be struck out; with reference to C/o No. 974 dated 18th Jan. 1895.

(4) Grant-IV

The expenditure on lighting is very heavy being nearly 12 per cent. of the total receipts of the municipality. The Council should see whether this item cannot be reduced.

The entertainment of an additional Scavenger on Rs 9 is sanctioned. The attention of the municipal council will be drawn to the several suggestions in the Sanit. commissioner's letter read above

WBS 2.ii.96.

(4) Grant-IV - The proposed increase of 1 Rupee in the salary of the lamp Superintendent is allowed, but it is observed that

(5) Grant-V. The entertainment of an additional bill-collector on Rs 9 is sanctioned.

5. The budget as revised by Government, closes with a balance of Rs 11,100. Of this sum, however, Rs 10,000 are reserved for expenditure on the water supply scheme & the amount available for general purposes is Rs 1100 or 4.2 p.c of the estimated receipts.

DO No. 24/2/96

No. 239 M., 8TH FEBRUARY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. P. KRISHNASWAMI AIYAR Avargal, B.A., Chairman, Municipal Council, Tinnevelly, to the Chief Secretary to Government (through the Revenue Divisional Officer and Collector of Tinnevelly), dated 20th December 1895, No. 422.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1896–97, together with the revised estimate for the year 1895–96. Both were passed at a meeting of the council held on the 18th December 1895. Copy of the resolution is also enclosed.

REVISED ESTIMATE FOR 1895–96.

2. *Receipts.*—The total receipts amount to Rs. 26,080. This sum is less than that of the budget estimate by Rs. 450. The decrease occurs chiefly under items Tax on lands, Tax on carts and other vehicles without springs, Sale-proceeds of night-soil, Grants and contributions for normal stipends and for gymnasium and drawing-master grants, Other grants and contributions—(ii) Medical, Miscellaneous—(i) Private scavenging. The above decrease is to some extent counterbalanced by some increase under Sale-proceeds of medicines, Income from markets and slaughter-house, License fees, Fines under municipal and other Acts, Contributions from local boards—(ii) Medical, and Other grants and contributions—(iii) Other purposes. These variations are explained in Column 7, Statement VI.

3. *Charges.*—The total charges as shown in the budget were Rs. 27,160, but they now come only to Rs. 26,570. The decrease of Rs. 590 is mainly due to the fact that there was no necessity during the year to appoint toties for private scavenging under Grant III as it was expected at the time of the budget. This diminution is to some extent counterbalanced by excess expenditure under Grant I, Repairs to buildings (which expenditure could not be avoided and which was not foreseen at the time of the last budget), and a small increase under Grant V. The variations under each item of the expenditure are explained in column 7 of the Revised Estimate Statement VI.

BUDGET ESTIMATE FOR 1896–97.

4. *Receipts.*—The same rates and taxes are proposed to be levied as in the current year, except the tax on lands which is to be revised as stated in paragraph 5. The receipts for the ensuing year, excluding the opening balance, are estimated at Rs. 26,030, against Rs. 26,080, the sum shown in the revised estimate for the current year. The former is taken at Rs. 50 less than the latter, though counterbalanced by expected increases under sale-proceeds of night-soil, contribution for normal stipends and for gymnasium and furniture grants, and recoveries on account of private scavenging. The main diminutions are due to the fact that the council have taken the income from markets and slaughter-houses at a moderate figure and also such high fines under municipal and other Acts and such high contribution under medical services cannot be expected.

5. *Tax on Lands.*—With reference to G.O., No. 2051, dated 6th December 1895, the tax on lands is to be revised in the current year itself and the revised mode of taxation will bring much less than the amount provided in the budget; hence the income under this head is taken, both in the revised estimate and in the estimate for the coming year 1896–97, at Rs. 350.

6. *Rent of Buildings.*—The decrease under this item is due to the fact that two buildings rented out during the year, and which are dilapidated, are proposed to be demolished and the land to be included in Pennington market.

7. *Sale-proceeds of Night-soil.*—As the private scavenging will probably increase, more income is expected under this item.

8. *Sale-proceeds of Medicines.*—As the income under this item is precarious, a small sum is shown under this item.

9. The income from markets and slaughter-houses is calculated as mentioned in paragraph 4 *supra.*

10. *License Fees.*—The number of marriage pandals had increased during the current year and the same may not be expected during the next year. For being safe, a less income is shown under this item.

11. *Fines under Municipal and other Acts.*—This being a variable item, a less income is expected under this head.

12. *Grants and Contributions from Government—Education—Normal Stipends and Gymnasium and Drawing-master Grants.*—During the year the normal students and the drawing-master were appointed some months after the commencement of the year, but in the next year they will continue throughout the year; hence the increase under this item.

13. *Grants and Contributions from Local Boards*—(ii) *Medical.*—During the last year the net expenditure on account of dispensary was much increased. Consequently, the income under this head during the year was in excess and the same may not be expected during the next year; hence the less income under this head.

14. *Other Grants and Contributions*—(ii) *Medical.*—The difference under this item is owing to the reduced rate of interest on Langarkana fund.

15. *Grants and Contributions—Other Purposes.*—During the year a contribution from the local police towards helping them with a branch drain to carry the sewage from the police lines was received and the same cannot be expected during the next year; hence no income is shown under this head.

16. (*b*) *Miscellaneous—Recoveries on account of Private Scavenging.*—The system is spreading rapidly and more houses are expected to be brought under the system during the next year; hence more income is expected under this head.

17. The other items of receipts do not call for special remark as the figures relating thereto for the next year tally very nearly with those given in the revised estimate.

18. *Charges—Grant I, Communications.*—A sum of Rs. 2,400, which is in excess of 50 per cent. of the estimated income from tolls, is provided under the items of new works and repairs for the upkeep of roads and streets as particularized in Statement II-A.

19. *Buildings.*—A sum of Rs. 350 is provided under new works for the construction of Panchama school-building, and a sum of Rs. 500 is provided under repairs for repairing the market and dispensary buildings. During the current year some of the public latrines which need urgent repairs are proposed to be repaired within the close of the year; hence the increase of Rs. 250 under the revised estimate.

20. *Drainage.*—In the town one or two main drains were constructed some years back and left in the middle, and water stagnates and gives rise to nauseous effluvia to the neighbourhood. It is proposed to proceed with their construction to some extent further. During the next year it is also proposed to construct petty drains in small streets and lanes to conduct drain and sewage water, which now render them filthy, into the main drains on the conditions mentioned in G.O., Mis. No. 1773 M., dated 28th October 1895; hence the provision of Rs. 1,000 under this head. Again the existing main drains are out of level in many places. Whatever may be the extent of flushing, water stagnates, and it is proposed to render the level even in many places; hence the provision of Rs. 500 under this head.

21. *Water-supply.*—In the hot season the people of the fifth ward feel inconvenience by scarcity of water. They have agreed to give the necessary land. To supply the want of water a well is proposed to be dug up; hence the provision of Rs. 200 under new works. The sum of Rs. 400 under the revised estimate was paid to the Sanitary Engineer on account of preliminary surveys, &c., being taken for a joint water-supply scheme. During the year certain boards, with inscriptions, had to be made for preventing the pollution of water in the reserved channel; hence the expenditure of Rs. 30 under Repairs—Contingencies in the revised estimate.

22. *Grant II.*—The proposals of the Educational department are adopted *in toto* with some additions. In 7, Miscellaneous (*a*), the Assistant Inspector provided a sum of Rs. 150; the Director in his endorsement has asked the council to raise the sum to Rs. 200. The reason is not stated; but subsequently the Assistant Inspector has suggested to the council to make provision for the rent of the Muhammadan Dahistani Islam school, which comes to Rs. 4 per mensem. If the increased provision by the Director is not meant to cover this item, a sum of Rs. 50 is added, making the total Rs. 250. This is meant by the council to cover also Rs. 60 per annum, the rent of the gymnasium ground. The other noticeable features are (1) the entertainment of normal students throughout the year, but not as partially as in the current year, (2) the contribution to the district board on account of remuneration to the Muhammadan inspecting schoolmaster for his inspection of the Muhammadan schools within the municipality, (3) the entertainment of the drawing-master throughout the year instead of as partially as in the current year, and (4) the provision for sessional schools. The sessional schools are pressed upon by Government to train unpassed teachers and the school is to be opened from 1st January, the cost under this head consisting of the following items: (1) Rent of building, Rupee one per mensem, (2) Two annas contingencies per mensem, and (3) Remuneration to the inspecting schoolmaster for each teacher passed, which is taken at Rs. 50.

23. *Grant III, Hospitals and Dispensaries—(d) Sundries and Contingencies.*—During the current year the buildings, &c., had to be renewed; hence the increase of Rs. 30 in the revised estimate more than the budget. But in the next year certain articles necessarily required are to be purchased and accommodation is proposed also to be extended by renting the neighbouring buildings; hence the provision under this item is increased by Rs. 100. But the council are awaiting the order of Government regarding the entertainment of a lower-paid medical officer for the municipality: *vide* G.O., No. 820, dated 11th May 1895.

24. *Conservancy—Road-cleaning and Road-watering—*(*a*) (i) *Establishment.*—One additional scavenger at Rs. 4 per mensem is proposed to be appointed during the next year in consideration of sanitary improvements; hence the increase of Rs. 50 under this head. A proposition statement accompanies.

25. *Private Scavenging Establishment.*—As the system is spreading rapidly and as it may be more rigidly enforced during the next year, the number of toties will have to be increased; hence the sum of Rs. 2,220 provided in the budget for the current year is repeated for the next year, although the provided number of toties has not been entertained during the current year.

26. *Cholera Charges.*—On account of preventive measures adopted for checking the spread of cholera which broke out in a mild form, a sum of Rs. 50 in excess of the budget amount has been provided in the revised estimate for the current year, but the usual sum of Rs. 50 is alone provided for the coming year.

27. *Grant IV, Lighting Establishment* (*a*).—It is proposed to increase the pay of the lamp superintendent from Rs. 9 to Rs. 10 per mensem on account of increase of work to him owing to the extension of the town and the increase in the number of lamp-posts; hence the increase under this head.

28. *Grant V, Office Establishment.*—During the current year a temporary clerk had to be appointed for a few months partly for assisting the third clerk on account of the revision of house-tax and partly for the arrangement of records; hence the increase of Rs. 40 in the revised estimate more than the budget amount of the year.

The council propose to add one more bill-collector on Rs. 7 per mensem on account of the extension of the town limits and as under existing orders the bills, &c., are to be served twice a year instead of once as formerly; hence the increase in the budget for the next year. A proposition statement accompanies.

29. As in the case of receipts, the other items of charges also call for no remark and I beg that the budget may meet with the approval of Government.

Cur. No. 3040-Gl.

Submitted.

2. The roads within the limits of this municipality are in a fair condition, and the sum provided in the budget estimate for 1896–97 for their repair seems to be adequate.

3. Drainage system is not working well here. Sewage-water stagnates everywhere and, what is worse, the drainage-water escapes finally into the river, thereby rendering the water lower down the course of the river very unhealthy. Steps will have to be taken by the council as early as possible to avert this evil.

4. This municipality is a compact and a small one and increase of pay to the lamp superintendent does not seem to be necessary. It is not desirable to increase the pay of an appointment on the ground that its occupant does his work properly. If he be found deserving he may be given an appointment carrying a higher salary.

(Signed) T. RAGHAVIAH,
Head-quarters Deputy Collector.

24th December 1895.

Endt. on Cur. No. 17-Gl.

Submitted to Government.

2. *Revised Estimate for* 1895–96—*Receipts*.—The decrease under tax on lands is due to the change of rates from $1\frac{1}{2}$ anna for 80 square yards to $7\frac{1}{2}$ per cent. of the rent value recently sanctioned by Government. The decrease under private scavenging fees is not satisfactory, but is an improvement on the figure of the previous year. The council has found it difficult to extend the system to all parts of the town; but it is to be hoped that the matter will receive continued and increasing attention.

3. Out of Rs. 2,400 provided in the budget for 1895–96 for communications (new works and repairs) only Rs. 1,144 has been expended up to the end of November. It is to be hoped that the balance of the allotment will be spent within the year.

4. *Budget Estimate of* 1896–97.—The provision of Rs. 1,500 under drainage on new works and repairs combined can be very usefully spent.

5. The additional establishment provided for in the estimate may be sanctioned.

6. The entry of 1896–97 in the heading of Statement VI is evidently a mistake for 1895–96.

(Signed) A. W. B. HIGGENS,
Collector.

TINNEVELLY,
7th January 1896.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 15th January 1896, No. 288.

Adverting to the budget estimate of the Tinnevelly Municipality for 1896–97, I have the honour to state that the allotments made under the several heads of Grant II are sufficient and call for no remarks except that the provision of Rs. 50 for "Sessional schools" should be transferred from "Miscellaneous" to "Training schools." The net expenditure proposed on education is Rs. 3,340 (3,530—190) or a little above 15 per cent. of the estimated income from taxation, markets and rents.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 31st January 1896, No. 212-S.

I have the honour to state that the Tinnevelly Municipal Council proposes to spend next year Rs. 460 on vaccination and Rs. 9,440 on conservancy. The provision for the former object calls for no notice, while that for the latter is 36·3 per cent. of the estimated income. Adding the outlay on works of a sanitary nature budgeted under Grant I, the total expenditure on sanitation amounts to 44·3 per cent. But it is observed that the total income amounts to only Rs. 1–0–9 per head of the population, and considering the very backward condition of the town it is desirable the taxation be revised.

2. The salary proposed in Statement II-B for the sanitary inspector is not sufficient. It should be raised to Rs. 45 *plus* Rs. 15, horse allowance, to permit of a second-class certificated sanitary inspector being appointed. In lieu of the two sub-inspectors proposed, I would recommend the entertainment of a single third-grade sanitary inspector on Rs. 25 *plus* Rs. 7–8–0. The staff of conservancy peons should be raised from six to eight, one of these being detailed for duty at the night-soil depôt. The number of sweepers and scavengers should be fixed at 25 and 63 (19 for the private scavenging service and 44 for public latrines, &c). From the Sanitary Report for 1895 received from the Chairman this day, it is observed that there are only ten carts in use for the removal of rubbish from the town site. This number, being far below requirements, should at least be doubled.

3. It is proposed to spend Rs. 2,620 upon private scavenging, and it is estimated that, of this outlay, Rs. 1,500 only will be recovered. It is desirable that the fees for this service should be raised sufficiently to make it self-supporting. The sum of Rs. 1,120 thus saved could best be utilized by effecting other useful sanitary reforms in consultation with the District Sanitary Officer for the benefit of the rate-payers.

ORDER—No. 239 M., dated 8th February 1896.

The estimated receipts and charges of the Tinnevelly Municipality for 1896–97 as passed by Government are compared below with the budget and revised estimates for the year 1895–96 and the actuals of 1894–95:—

	Actuals, 1894–95.	Budget Estimate, 1895–96.	Revised Estimate, 1895–96.	Budget Estimate, 1896–97.

Total ..	38,987	38,600	40,890	40,350

REVISED ESTIMATE FOR 1895–96.

2. The current receipts and charges are now estimated at Rs. 26,080 and Rs. 26,570, respectively, against Rs. 26,530 and Rs. 26,910 anticipated in the sanctioned budget. The decrease in the receipts occurs chiefly under private scavenging fees and that in the charges under Grant III. The collections under the principal taxes and the expenditure on communications during the first eight months of the year were not satisfactory. The attention of the municipal council will be drawn to paragraphs 2 and 3 of the Collector's endorsement. The authority under which the temporary clerk referred to in paragraph 28 of the Chairman's letter was employed should be reported.

BUDGET ESTIMATE FOR 1896–97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 26,030 against Rs. 26,080 in the revised estimate.

4. *Charges.*—(1) The probable charges are put down at Rs. 29,260 against the revised estimate of Rs. 26,570, the increase appearing under Grants I, II and III.

(2) *Grant II.*—The attention of the Director of Public Instruction will be drawn to the omission pointed out by the Chairman in paragraph 22 of his letter.

(3) *Grant III.*—The remarks of the Surgeon-General on this portion of the budget will be awaited. Meanwhile the provision of Rs. 10 for the cutlers' establishment will be struck out, with reference to G.O., No. 97 L., dated 18th January 1895. The entertainment of an additional scavenger on Rs. 4 is sanctioned. The attention of the municipal council will be drawn to the several suggestions in the Sanitary Commissioner's letter read above.

(4) *Grant IV.*—The proposed increase of Re. 1 in the salary of the lamp superintendent is approved, but it is observed that the expenditure on lighting is very large, being nearly 12 per cent. of the total receipts of the municipality. The council should see whether this item cannot be reduced.

(5) *Grant V.*—The entertainment of an additional bill-collector on Rs. 7 is sanctioned.

5. The budget, as revised by Government, closes with a balance of Rs. 11,100. Of this sum, however, Rs. 10,000 are reserved for expenditure on the water-supply scheme, and the amount available for general purposes is Rs. 1,100, or 4·2 per cent. of the estimated receipts.

(True Extract.)
