CHAIRMAN,

Thro. the Divisional Officer,

TANJORE.

SIR,

With reference to paragraph 4 (5) of
G.O. dated 12th September 1895 No 1477 M, I have
the honor to furnish the following explanation.

2. The allotment for sanitation for the year
1894-95 was accordingly ^{to} the Revised Estimate
Rs 12950. This was accepted by Government in
G.O. dated 8th March 1895 No 378 M. So that
the only point requiring explanation is why
the expenditure under this head fell short of
the allotment by Rs 1772-15-10. The following
facts will I trust be found to furnish
a satisfactory explanation.

3. Firstly

3. Firstly. Under the head of "Conservancy Establishment" a provision of Rs 5215-0-0 had been made in the Revised Estimate, but the amount spent was Rs 4934-7-1. The balance of Rs 280-8-11 consisting entirely of fines and stoppages of pay on account of absence &c.

4. Secondly. On account of the "hire of rubbish carts" Rs 5765-0-0 had been provided in the Revised Estimate, which was nearly the same as the provision in the Budget Estimate. But owing to keen competition among the Contractors the monthly rate secured by the Municipality for the rubbish carts was Rs 5-5-4 per cart on an average. The Contractor supplied carts at this rate from the beginning of the Official year till the 19th September 1894 when his contract was cancelled. This rate was unprecedentedly low and could not have been foreseen

at the time of the budget and as the contract had been cancelled at the time of the submission of the Revised Estimate with the next years budget, and as it could not be definitely known what would be the actual expenditure for the remaining portion of the year, the budget figure seems to have been adopted for the Revised Estimate in spite of the fact that during nearly the whole of the first half of the year a very considerable saving had been effected in the hire paid for the carts. Even at this low rate the Contractor seems to have been paid only for four months from April to July 1894 and does not appear to have claimed the amount due to him for August and September. The unexpended portion of the allotment

under this head viz 966-15-9, therefore represents the saving above referred to plus what yet remains to be paid to the Contractor. The Government will thus see that whatever ground there may be for believing that the Contractor in question must have suffered by this transaction, the short expenditure does not mean that the sanitation of the town in any way suffered on that account.

5. Thirdly. Under the head of "Private scavenging" the actual expenditure fell short of the revised Estimate by Rs 353-14-0. In the Budget for 1894-95, twenty toties at a monthly cost of Rs 95 was provided for. The number of houses requiring

private service not having come up to the expectations of the Council, it was found sufficient to employ fourteen toties alone at a monthly cost of Rs 72-8-0. Owing to this a saving of Rs 270 was necessarily effected and the balance of Rs 83-14-0 represents fines and stoppages of pay on account of absence &c.

6. Fourthly. Under the head of 'Other Charges' such as Cholera &c there was a saving of Rs 171-9-2. This was principally due to the good fortune of the town in having got off with only a small number of cases of Cholera.

7. The Government will thus see that the short expenditure noticed in

The L. C. in question affords no
ground for supposing that the
sanitation was to any extent
neglected by the Council.
