Current No. 1006 of 95. Office of the Municipal Council, CONJEEVERAM, 29th November 1895.

FROM M. R. Ry. A. Deri Kachariyaru, for a. B. A. CHAIRMAN, MUNICIPAL COUNCIL, CONJEEVERAM.

TO The Chief Secretary to Government, Madras.

Through the collector and the Sanitary Commissioner for Madras.

Adverting to the resolution of the Municipal Council, Conjeeveram held at its meeting dated 22nd November 1895, I beg to submit that this Municipality has provided the town with twenty-nine latrines, of which twenty are of moveable corrugated iron sheets and nine inasonry. Thirteen are still wanted. This will give a total number of forty-two latrines for the use of 42,548 people of this town as per Census of 1891 at one for every 1000 persons which is the minimum fixed by Government vide Concluding portion of para 53 of G.O. No. 1847, 1848 M. Local and Municipal dated 1st December 1895.

2. In para 4(a) of the Inspection notes of the Sanitary Commissioner embodied in G.O. No. 952 M. Local and Municipal dated 7th June 1895, the Sanitary Commissioner recommends the purchase of latrines of Standard plans of the Sanitary Engineers or of Mr. Donaldson, Presidency Jail, Calcutta. Further, Considering the inadequacy of the amount allotted for the requirements of the town under Conservancy, the same Officer, in his letter No. 575 dated

15th March 1895, recorded in G. O. No. 619 M. M. dated
6th April 1895, suggests the desirability of setting aside
a fixed sum annually for two or three years in view to
securing an adequate and better supply of plant.

3. The cost of each latrine of standard plan
amounts to more than Rs 700 or 800. The provision of
Rs 720 in the current budget would hardly meet the
construction of a single latrine of the proposed plan,
whereas three or four more or less ones can be purchased
for the said allotment. If the Council is permitted
to continue the present mode of supplying the town with
iron latrines, in course of three or four years the requirements
of the town will be fulfilled in reference to latrine
accommodation. If on the other hand, the Council is
required to keep up to the new proposal of standard
plans, the present financial condition of the
Municipality will not permit the purchase
of the required number for several years to
come.

4. Under these circumstances, I beg to
solicit the sanction of Government for
the adoption of the present pattern of iron sheet
latrines

latrines in the best sanitary state as may be advised
by the Sanitary Commissioner.

5. A copy of the Council's resolution is herewith
submitted.

I have the honor to be
Sir
Your most obedient servant

ENCLOSURE.

SUBJECT.

Soliciting the sanction for adopting the
Iron Sheet-latrines in lieu of those of
Standard Plans recommended by the
Sanitary Commissioner for reasons stated
herein.

No. 28 of 1895-96.

Extract from Minutes of Proceedings of the Municipal
Council, Conjeeveram, passed at its General Meeting
held on Saturday the 23rd November 1895 at 4.30 P.M.

Read Progress report of works for October 1895.
Recorded with the following remarks.

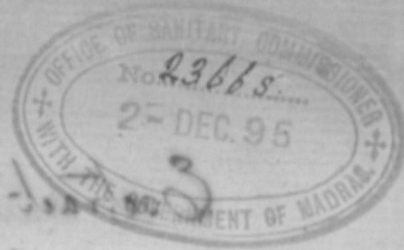

A letter be addressed to Government thro: Sanitary
Commissioner about Standard latrines, which
are too expensive.

No. 163
Office of Sanitary Commissioner,
Fort St. George, 27th January 1896.

From
SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,
SANITARY COMMISSIONER FOR MADRAS,

To
THE
Chief Secretary to Government,
Local & Municipal Department,
Fort St. George.

Enclosure.

SIR,

With reference to the enclosed
letter No 1006 dated 29th November 1895 from the
Chairman, Municipal Council, Conjeveram
herewith forwarded, I have the honor to state
that the latrines proposed to be erected in lieu
of those advised by the Sanitary Board or of
Mr Donaldson's pattern are merely "open space"
enclosures - the walls being formed of corrugated
iron. So far as sanitary results are concerned,
the Council might as well be satisfied with common
tatty latrines; provided they are protected from the
inroads of cattle by iron wire.

2. If, as the Municipality suggest,
they are unable to supply the necessary funds from
their current income, I would respectfully advise
that they be required to raise a loan that will
cover urgent requirements of conservancy. It seems
to me undesirable that a Body should undertake
to administer Act IV of 1884, without it being
arranged

Misc.

Order of 80.275 m
8.15-2-96
In the Sanitary
Engineer's letter recorded in G.O.
to 462 m. dated 5th April 1893,
it was stated that the cost of an
iron latrine according to the standard
design then approved was Rs 200,
but the Chairman now states that
the cost of a standard latrine
amounts to more than Rs 700 or
Rs 800. The Sanitary Engineer, with
he requested to report the cause
of this large difference in cost and
the probable amount which may
be required for providing each of
the movable iron latrines already
constructed by the Municipal
Council with impervious floors
according to the standard design.
