M. R. Ry. K. S. SRINIVASA PILLAY AVI.

CHAIRMAN,

Municipal Council,

Tanjore.

To,

The Sanitary Engineer
to Government
Madras

SIR,

I understand that after defraying the cost of the water works of this town as they have been executed, there will be a very considerable saving (about Rs 20000 as I am told) from the amount allotted therefor. You must be aware that there are several parts of the town which are not reached by the waterworks. Such as the Palliagacharam village, Sungen - Thavilhan street and the Pookkara streets, not to say anything about the complaints of the people that even in those places where pipes have been laid the number of the existing taps is extremely insufficient. As all

RK pay RK

parts of the town has the water tax,
it seems to me that the Municipality
is bound to do its utmost to supply
them all with water.

2. In these circumstances, I have
the honor to suggest that the best way
of utilizing the expected surplus
would be to spend it on extending
the works in as many directions
as possible.

3. I request therefore that you will
kindly recommend Government
to use the money for the purposes
suggested by me.

I have &c

SIR,

In enclosing copy of a letter, I have
this day addressed to the Sanitary
Engineer, I have the honor to request
that the Government will be pleased
to approve of my suggestion for
utilizing the expected saving (if any)
from the allotment for the Tanjore water
works in the manner indicated by
me viz. for extending the works to
those parts of the town which have not
now been reached by them.

GOVERNMENT OF MADRAS.

No. 139
OFFICE OF SANITARY ENGINEER,
Fort St. George, 14 January 1896.

From
J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,
SANITARY ENGINEER TO GOVERNMENT,

To
The Chairman, Municipal Council,
Tanjore.

SIR,
With reference to your No. 39 of 10th January 1896
I have the honor to inform you that it is likely there
will be a surplus of the amount you mention but
that I am anxious to close accounts before making
any proposals. We omitted some works thinking
the estimate was too small for instance Cementing the
Engine House and fencing around it have not
been done. These will not cost much. meantime if
you will kindly indicate the exact sites where you
think extra fountain should be erected and pipes
laid I shall have estimates prepared & when accounts
are more nearly closed I will write Government and
advise as you suggest. I think there would be great
advantage if we had a small service reservoir on the
high ground so that the pipes could always be kept
full

full at night and pumping at night would then never
be necessary as it might become under present arrangements.
This might cost Rs 10,000 and Rs 10,000 more would be
sufficient for the extension. Please say if you agree
in the above recommendation.

I have the honor to be,

Sir,
Your most obedient Servant

Letter No. 368 of 1896

From

The Sanitary Engineer
to Government

To

The Chairman
Municipal Council
Bangalore

Dated 17 January 1896

No. 139

Re -

Subject

Informing that there
will be a saving from the
amount allotted for Bangalore
Water Works & suggesting
certain measures for its
utilization.

S. E. 6-9-95-1,000.

No. 368

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,

Fort St. George, 7 February 1896.

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government
Local and Municipal Department.

SIR,

With reference to your No. 152 of the 5th Instant
I have the honor to enclose a copy of my reply to the
Chairman, Municipal Council, Bangalore as to the
utilization of the expected saving from the Bangalore
Water Works. The Chairman has not yet communicated
his views on my suggestion.

2.

The savings are expected to amount to
Rs 20,000, but the exact sum can be determined only
after the works are completely finished and the
accounts finally closed.

I have the honor to be,

Sir

Your most obedient Servant

J. A. Jones

Sanitary Engineer to Government
