No. 2822

OFFICE OF SANITARY ENGINEER,

Fort St. George, 30 Sept 1895.

Local & Municipal
CURRENT No. 2753

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,
SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government
Local and Municipal Department.

SIR,

With reference to the Water Works Bye-laws under Act IV of 1884 proposed by the Municipal Council of Madura and published in the Madura District Gazette, August 1895, I have the honor to draw attention to these and to Form A.

2. Bye-law No. 4. The word "meter" is an addition by the Council and this makes the Bye-law inconsistent with Bye-law No. 8. The word should be omitted and the word "water" should be substituted for the word "pipes" — (Vide Bye-laws as adopted for Cuddapah G.O. No. 180 M dated 12th February 1891 Local and Municipal after review by the Advocate General.)

3. The Bye-law in the above quoted G.O regarding public Tanks has been altogether omitted in the proposed Madura Bye-laws — it should be

be included.

4. Form A - I would suggest the omission in the second paragraph of the words "Viz 15 gallons per head", as the Council may from time to time alter the amount to be supplied free of charge (and the Bye laws would also require alteration) and because that amount should bear a definite relation to the Amount of Water Tax paid and not to the house population. The house might be a hotel or public building or the population might be fluctuating In any case there is no necessity for the words.

5. It is not known whether the Council has by any resolution decided that an amount of 15 gallons per head is allowable free - The amount at present being used is only 4 gallons per head.

6. The last portion of the paragraph is altogether unnecessary - it does not require any agreement with any person to whom water is supplied to allow the Council to limit the amount; power to do this is given by section 147(2) - nor should the rate for non domestic purposes be mentioned as the Chairman may contract at any time on such terms as he sees fit - section 147(3).

7. I think the paragraph ought to

to be altered to read thus

In case of a domestic supply only

(1) I agree not to use water in excess of the quantity allowed by the Council under section 147(1).

8. If there is to be a contract for a non-domestic supply the following para should be added

(2) I further contract and agree to pay for a supply of water for non domestic purposes over and above the domestic supply amounting to —— gallons per diem for which I agree to pay at the rate of —— per 1000 gallons.

9. I however see no reason for the rejectio of the Form A as adopted at Cuddapah and referred to in clause (one) of these Bye-Laws (See G.O above quoted a copy is enclosed)

10. I conclusion I think that if the Counci propose to charge Re1 per 100 gallons, the rate is such as to debar anyone from using water for non-domest purposes, the rate in Madras being 2 as per 1000 gallon or 1/80 of the proposed Madura rate.

I have the honor to be

Madura.

Sir,

Adverting to G. O No: 698 M. Mis: dated 26th April 1895, I have the honor to forward herewith copy of the Bye-laws as amended by the Municipal Council, with reference to the suggestions and objections received in respect of them, after their publication in the District Gazette in the manner prescribed by Section 256(1) of Act IV of 1884 and to request that Government will be pleased to sanction their adoption in their revised form.

2. Copy of the resolution of the Municipal Council on the Subject is herewith sent for the information of Government.

3. A copy of the Draft Bye-laws published in the District Gazette is also submitted as directed.

I have the honor to be,
Sir,
Your most obedient Servant,

Chairman

Water Works.

Bye-laws under Act IV of 1884

I House Service.

1. Applications under Section 147(1) and (3) for the supply of water, shall be in writing in the Form A hereunto annexed, and shall be signed by the applicant, and by the owner of the building if the applicant be merely the occupier thereof.

2. Every application should be accompanied by the payment to the Municipal Council of such a fee not exceeding Rs 3/- for the preparation of an estimate of the cost of laying the water pipes as the Council may fix. Upon such payment, the estimate shall be prepared

under

[illegible]

× × ×

374. Read Mahazarnamah from the residents of the Town, suggesting some alterations in the Water-Works Bye-laws published in the District Gazette.

Also letter from the Sanitary Engineer to Government proposing certain amendments to the Bye-laws with the endorsement of the Under Secretary to Government thereon.

Resolved that in Bye-law No. 4 the words "pipes are laid" be omitted and the words "Water is laid on", be substituted and the following be added after the word "stop cock" viz, "the value of which shall be paid by the applicant but the cost of keeping the meter alone in repair will be borne by the Municipality" and that Bye-law No. 8, be omitted altogether, and that the following Bye-laws be added as Nos. 9 & 10.

9 "No tank filled free of charge by the Municipal Water Works shall be used for any other purpose than bathing, swimming and the washing of such clothes as the person washing them may be wearing at the time".

No 10. Water from public tanks may be carried away in chatties but shall not be taken or baled from such tanks for the purposes detailed in the latter part of section 147 (5) and that the Form A. be adopted as amended.

Resolved also that ten gallons of water per head be supplied free of charge for domestic purposes and that any quantity taken in excess thereof or for non-domestic purposes be charged at four annas and at one Rupee respectively for every 1000 gallons or fractions thereof.

The charge for extra water is excessive. The rate levied in the Madras Municipality I understand is only annas 2 for every 1000 gallons.

Resolved also that Resolution No. $\frac{50}{5.2.95}$, and $\frac{242}{28.7.95}$ be cancelled and that the Bye-laws as now amended be adopted and forwarded to Government for Confirmation.

FOR ORDERS.

The Chairman, Municipal Council, Madura, submits for the approval of Government under section 255(3) of the District Municipalities Act, a set of bye-laws in connection with the water works, adopted by the Council and published under section 256(1), in the Madura District Gazette of August 1895. The first of the letters read above contains the suggestions of the Sanitary Engineer, and the Municipal Council has modified the draft bye-laws accordingly.

2. No.8 of the bye-laws circulated with G.O., No.180 M., dated 13th February 1891, has been omitted, but the others have been adopted, No.4, however, being somewhat altered. This latter bye-law as now altered, lays it down that every house to which water is laid on should be provided with a meter, the cost of which should be paid by the applicant. As the object of fixing

a meter is only"to ascertain if there be waste or misuse of water supplied by the Municipal Council",(sec.148), it does not appear necessary to have one,except in those places where the Council has reason to believe that water is wasted. It will therefore be sufficient if a provision similar to that in the first sentence of the model bye-law No.8 is made authorising the Municipal Council to fix a meter wherever necessary. It is moreover inequitable that the cost of a meter should be paid by the applicant,as bye-law No.4 now provides.The cost of a meter is ~~generally~~ high ⊗ ~~ranging from £ to £~~ and, it would be a great hardship if a rate payer wishing to have house service pipes ~~necessarily~~ had to pay for a meter also, The result of enforcing this rule will be that very few would apply to have service pipes,and the object of introducing a piped supply into the town would be defeated. Further,as the Municipal Council is bound to ascertain and check any waste or misuse of water,it is but reasonable that the cost of the meter which is necessary for this purpose should be borne by it. Under these circumstances,it is submitted that the additions made to bye-law No.4 may be struck out and that bye-law No.8 in G.O.,No.180 M.,dated 13th February 1891,may be inserted.

⊗ Please see page 4 of the catalogue [illegible]

3. The charges proposed for water taken for nondomestic purposes is excessive and should be reduced as recommended by the Sanitary Engineer.

As to charging for the meter see Mr Jones' remarks in para. 15 of his letter on the Cuddapah byelaw page 3 of G.O. 13/2/91 no. 180 M. where he points out that a meter is expensive & to charge for it, when it might be only a short time in use wd. cause great hardship. He adds that in Madras the ~~cost~~ ~~value & the~~ meters ~~the~~ soon repay themselves by the extra amount recovered for water used. I therefore agree with the ~~offr~~ U.S. that byelaw 4 shd. in this respect be amended to conform with No. 8 of the Cuddapah byelaws (G.O. ibid) & until then run thus:—

"Each house to wh. water is laid on "shall be provided at the cost of the "applicant with a separate service pipe & "stopcock.

"The M.C. may fix a meter to any service "pipe whenever & for such a length of time "as it may consider such fixture to be "necessary. The cost of fixing & removing "such meter shall be paid by the "occupier of the dwelling to which the "service pipe is attached; or in the case "of a service pipe laid down for the supply "of water for other than domestic purposes "by the person on whose application the

I see that in G.O. 26.4.95 ~~22/3/95~~ no 698 M. para 3 it was suggested that the owner of the house shd pay for the meter: but for the reasons given I think this may be reconsidered, & the charge met by the Mty. as proposed.

service pipe was laid

"No two houses whether the property of one owner or not" ~~etc~~ et seq. as in the Municipal draft.

In form A – the form of application the "etc" after "cost of the pipes" shd. be replaced by more specific words. No contract shd. contain an "etc".

The agreement does not specify the rate but the Resoln. of 17/11/95 proposes to charge 4 as for every 1000 gallons in excess of 10 for domestic purposes & R1 for every 1000 gallons for non domestic purposes.

It may be pointed out that the ~~se~~ last rate ~~s~~ especially is excessive.

Current No. 2983 M of 1895, dated 30 Sept., from Sanitary Engineer

" " 73 M " 1896, " 20 Dec. 95 " Chairman M. C. Madura.

" " " 189 , " , "

ORDER. No. 299 Muni. Dt. 19-2-96

The bye-laws will be referred to the Municipal Council for revision with reference to the following remarks.

(1) Byelaw No. 4. By this it is proposed to fix meters, as well as service pipes & stop cocks at the cost of the applicant. The cost of a meter ~~This~~ is, it is considered, not a reasonable charge; ~~[illegible]~~ its actual cost is ~~which is the cost of a meter~~ very ~~large~~ high, & it may be in use only a short time; moreover ~~but~~ it is the municipality rather than the occupier of the house who benefits by its application. A meter is intended to ascertain or check any waste or misuse of water.

It has been found in Madras that the apparatus ~~[illegible]~~ soon repays its cost to the Muncy. by the extra amount recovered for water used. In modification therefore of para. 3 of G.O. 26.4.95 No. 698 M. the Govt. considers that the charge shd. be borne by the Mty.

The bye law might therefore run as follows:

"Each house to which water is laid on
"shall be provided at the cost of the applicant
"with a separate service pipe & stop-cock.
"The M. C. may fix a meter to any service pipe
"whenever & for such a length of time as it may
"consider such fixture to be necessary. The cost

fixing or removing such meter shall be paid by the occupier of the dwelling to which the service pipe is attached; or in the case of a service pipe laid down for the supply of water for other than domestic purposes, by the person on whose application the service pipe was laid. No two houses whether the property of one owner or not shall be supplied through the same service pipe"

(2) Form A. The word "etcetera" after the word "cost of the pipes" should ~~not be used~~ ~~as no contract ought to contain such an indefinite term. It should either be omitted, or~~ be replaced by ~~more~~ specific words.

2. ~~In the~~ The form of agreement does not ~~provide for~~ specify the rate at which ~~the charges for~~ water is to be ~~made is not specified~~ charged, but by the resolution of the Council No 374 of 17.12.95 the rate ~~is~~ appears to be fixed at 4 as per 1000 gallons in excess of ten gallons per diem (for domestic purposes) at Re 1 per 1000 gals. (for non-domestic purposes). These rates are high. The latter rate especially is excessive, & should be reduced. It is pointed out for the guidance of the council that the rate ~~in~~ charged by the Madras Muny is only 2 as per 1000 gallons.
