From,

To

The Chief Secretary to Government,
Fort St. George,
Madras.

Sir,

With reference to G.O. No. 767 M. Mis. dated 10th May 1895, I have the honor to forward herewith the Resolution of the Municipal Council No. 21 dated 23rd July 1895 deciding that, as the present system is working satisfactorily, the appointment of a Chief Sanitary Inspector is unnecessary, at all events for the present.

2. This system was introduced in April 1894 and it had not been tried for a sufficient length of time when the Sanitary Commissioner inspected the town on the last occasion so as to enable him to form a correct opinion as

as to its success or otherwise.

3. One of the causes of the defective sanitation of the town was the giving of low wages to rubbish cart contractors which led them to supply weak and puny bulls hardly equal to the purpose for which they were intended, but this defect has now been remedied and the menial staff of Sweepers and Totties has also been strengthened to some extent.

4. The sanitation of each ward is now being looked after by the Ward Staff and by the Ward Councillor and their work is supervised by the Chairman assisted by the Manager as often as is necessary.

5. Two Sanitary Inspectors who were sent to the Medical College at Madras for training have returned and one of them who has passed the prescribed examinations and who has lately been appointed as Prosecuting Inspector has been instructed to devote his attention to Sanitation also, so that any suggestions made by him in that direction may be considered and given effect to.

6. It will be seen from the above that close supervision is being exercised over Sanitation and how the present system has worked may be judged from the next report of the Deputy Sanitary Commissioner who is expected very shortly.

7. But whatever care and labor may be taken or bestowed with regard to Sanitation it will necessarily be defective until the town is provided with a complete drainage system, the necessity for which is becoming greater day by day after the introduction of the water works.

8. If the Government should nevertheless insist upon the appointment of a Health Officer or Chief Sanitary Inspector the Council is prepared to reconsider its resolution on the subject.

I have the honor to be,
Sir,
Your most obedient Servant

Chairman (Delegate)

2. The reductions in the salaries of the sanitary Inspectors may be approved. As regards the entertainment of a Chief Sanitary Inspector on Rs 75-5-100, the municipal council is of opinion that it is not necessary, at all events for the present, but the Chairman says that the council is prepared to reconsider its resolution should the Government still consider it necessary. The council may therefore either be requested to do this, or allowed to go on as at present until the recent improvements in the conservancy system have had time to have effect. Orders are solicited. The San. Commr's notes will show that progress has been made.

2.* The last inspection notes of the Deputy Sanitary Commissioner show that the sanitation of the town is not by any means satisfactory. Several of the minor defects pointed out by him might probably have been remedied if the municipal council had then and there been advised of them; but this kind of advice is too much to expect of the existing staff of Sanitary Inspectors, or of the municipal manager who is said to supervise their work. The appointment of a duly qualified Chief Sanitary Inspector seems therefore to be highly desirable.

V.R.
1/2/96

There are at present ten Sanitary inspectors in the town, 3 on Rs 25, 3 on Rs 20, & 4 on Rs 15. The scavenging staff is only 108, including cart-men, private service scavengers etc. & the

I agree with the U.S. but think that Rs 20 p.m. is quite enough pay for any ward maistry, for that is what these men are — mere cooly drivers. Suggest now again in a civil way to the C. that they should have a proper Health officer

number of inspectors might easily be reduced by three, say one each on Rs 25, Rs 20, & Rs 15, thus effecting a saving of Rs 60 towards the proposed Chief San. Inspector's pay. The increased expense would be more than counterbalanced by the increased efficiency of the staff under properly trained supervision.

ORDER. No. 314 M mis dt 22-2-96

From the ~~last inspection notes,~~ ~~report~~ notes of the Dy. San. Commr. ~~after~~ on his inspection of the town of Madura on 14th & 19th Aug '95 it appears that the condition of the town is ~~not~~ far from ~~as~~ satisfactory as it should be. It was hoped that matters would improve under the supervision of the manager, a system, which ~~was sanctioned in G.O.~~ at the ~~instance~~ solicitation of the Mcly, the Govt. (G.O. No 1662 M dt 7-11-94) refrained from disturbing till it had a fair trial ~~but although this~~. The experience of the past year ~~system has been continued for nearly a~~ in wh. the system has ~~continuously~~ continued in ~~operation~~ force has not however ~~been~~ been favourable. The Dy. San. Commrs report on the town shows that the improvements effected in that time have not been extensive, & ~~that~~ Many of the defects pointed out are such as could would probably have been remedied ~~by the aid~~ if in the service of the Council there had been ~~of~~ some person possessing a certain knowledge of sanitary ~~&~~ & hygienic matters, to ~~& would~~ advise on & direct operations. ~~probably have been so remedied, had such a person been available on the spot.~~

2. For these reasons the Govt. regrets that it

cannot agree with the Council in its opinion that the present system is working satisfactorily, & that therefore no Chief Sany. Inspector is necessary. The Govt. will ~~In accordance~~ therefore ~~with the remark in para 8 of the Chairman's letter read above~~ be glad if the Council will be good enough ~~requested~~ to reconsider its resolution No. 201 of 23.7.95, ~~giving expression to the above opinion~~.

3. ~~It is observed that the present expenditure~~ Govt. reason that the staff of Sany. Inspectors can easily be reduced ~~[illegible]~~ both ~~in numbers & cost~~ ~~[illegible]~~ ~~for not only is~~ the present establishment ~~number~~ of inspectors appears to be excessive in comparison with the no. of ~~sweepers~~ scavengers that they have to supervise; ~~while also~~ if there is a properly qualified man to ~~supervise~~ direct their work, ~~Rs 20 p.m. is quite sufficient pay for ward-maistries, who will be quite capable of doing the work now performed by the present unqualified Sany. Inspts.~~ ~~Should be~~ the maximum pay of the competent ward-maistries (for that is what the present unqualified Sany. Inspector really are) the subordinate inspectors will become ~~& what~~ need not in any case exceed Rs 20. ~~who will be quite capable of performing the work required.~~
