Karur Municipal office
26th December 1895

Chairman

No. 318 M., 94 FEBRUARY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Chief Secretary to Government (through the Revenue Officer of the Division, Coimbatore District), dated 26th December 1895, No. 25.

I have the honour to submit herewith the budget estimate of the Karúr Municipality for the year 1896–97, together with the revised estimate for the current year.

2. The Government in reviewing the budget estimate for the current year in their order No. 511 M., dated 21st March 1895, directed that every effort should be made to improve the finances by developing the revenues. The rise in the receipts under all heads for the year 1895–96 will show that no endeavour was spared by the council to develop the income.

REVISED ESTIMATE.

3. The grand total of receipts for the current year, including the opening balance, is estimated at Rs. 19,450, showing an advance of Rs. 2,960 over the budget. The rise occurs under all heads, and the important items in which it is noticeable are the following :—

		Rs.
(*a*)	Opening balance	+ 960
(*b*)	Tax on buildings	+ 500
(*c*)	„ on lands	+ 230
(*d*)	„ on vehicles with springs	+ 120
(*e*)	„ on animals	+ 60
(*f*)	„ on carts	— 40
(*g*)	Tolls	+ 300
(*h*)	Ferry rents	+ 100
(*i*)	Fees under Act II of 1888	+ 60
(*j*)	Sale-proceeds of night-soil, street refuse	+ 130
(*k*)	Income from markets	+ 150
(*l*)	Cart-stand fees	+ 210
	Grants and Contributions—	
(*m*)	Municipal schools—Salary grants	— 70
(*n*)	Medical—Local boards	+ 200
(*o*)	Private scavenging	— 40

(*a*) The rise in the opening balance is due to the actual receipts under the head of tolls and taxes on buildings for the last year having increased, while the estimated expenditure to the extent of Rs. 270 under buildings was not incurred.

(*b*) and (*c*) The revision of house and land tax registers in the current year and collections of arrears account for the increase.

(*d*), (*e*) and (*f*) There has been an increase of twenty spring vehicles to make up for the fall of the same number under carts without springs. Vehicles with springs gradually displace country carts in towns. The tax is not, however, below the actuals of 1894–95.

(*g*) The tolls were leased out for Rs. 5,606, or Rs. 500 more than they were expected to fetch, and a sum of Rs. 500, being a portion of the tolls remitted in the year 1893–94, was recovered. The district board having claimed their share on what was collected in the previous year but was embezzled, a deduction of Rs. 400 on this account is made.

(*f*) The difference is due to the sale of land used for storing rubbish on the Coimbatore road, for which the sanction of Government has been obtained.

(*g*) The fall in the proceeds of the sale of sweepings is due to the whole amount due for 1894–95 having been collected in the current year.

(*h*) and (*i*) Income from butchers' stalls and cart-stands are not likely to come up to the current year's figures for the reasons given in paragraph 3 (k) (l).

(*j*) No grant for buildings is expected after the construction of a latrine for the school and no other building is intended to be taken on hand in connection with the schools.

The increase shown in the salary grants is on account of the present acting headmaster being a man holding an untrained certificate, for whom a reduced contribution is obtained in the current year. The appointment of a trained headmaster on Rs. 60 will raise it to what it was in the former year.

The supply of furniture, as recommended by the educational authorities, is expected to bring a contribution of Rs. 50 from Government.

(*k*) An increase of Rs. 100 under grants from local boards is expected, as the present maximum of Rs. 200, payable to the council by the district board, will have to be increased to Rs. 300, if the female dispensary should continue to be maintained in Karúr. The additional expenses in connection with the main dispensary will also bring an increase in contribution.

(*l*) The council expects an extension of the private scavenging system.

Charges.

6. The total charges come to Rs. 18,140 against Rs. 17,763 of the revised estimate, showing an increase of Rs. 377 over the current year. The charges are distributed as follows:—

		Rs.
Grant	I	
„	II	3,220
„	III	3,960
„	IV	7,990
„	V	1,770
		1,200

7. *Grant I.*—The amount allotted for communications is Rs. 2,000, and is nearly 50 per cent. of the estimated receipts under tolls. Some of the streets originally gravelled will be metalled and a few lanes will newly be macadamized. It is proposed to construct a drain in the car street so as to lead to the channel behind the Kurumba lane. The sewage from a portion of the bazaar now runs into the side ditches of the car street and is offensive. The construction of a latrine for the use of the people in the Ambalakara street is provided for at a cost of Rs. 150 and a shed for contageous diseases in the hospital is estimated to cost Rs. 100.

Under repairs to drainage a sum of Rs. 100 is provided for the Mavadiyan kovil pucka masonary drain, a part of which only will be repaired in the current year. Rs. 100 is provided for a well in Pallar's street and Rs. 70 for repairing municipal wells and maintaining springs in the river-bed during summer.

8. An increase of Rs. 5 to the salary of the first assistant, which is at present Rs. 30 a month, is recommended. The salary of the headmaster is Rs. 60, and it seems fair to pay his first assistant Rs. 35. He has been doing good work and as acting headmaster has improved the school.

The primary school, hitherto under the salary-results system, will be brought under salary system as recommended by the educational authorities with the scale of pay given in statement II-B. The salary of the headmaster is fixed at Rs. 20, but as the present incumbent is a pensioner and cannot receive more than Rs. 17–8–0, which, together with the amount of his pension, ought not to exceed his original pay, a saving Rs. 2–8–0 a month, or Rs. 30 a year, is expected. He is doing good work and has turned out very satisfactory results in the examination conducted this month. An additional teacher for the infant standard on Rs. 7 is necessary, as the number of boys is at present 60.

A sum of Rs. 200 is provided for the supply of furniture and contingencies both to the high and primary schools. As recommended by the Assistant Inspector of Schools, a sum of Rs. 250 is provided for results grants to other schools in the town. A sum of Rs. 50 is recommended by the Assistant Inspector under grants to buildings to results schools, which the council thinks it unnecessary, as the teachers in Karúr are not in a position to conduct new buildings or engage better ones. An annual increase of Rs. 15 is also provided,* as advised by the educational authorities, to the salary of the inspecting schoolmaster.

* Not included in the proposition statement.

A sum of Rs. 75 has been placed for scholarships to two non-Christian students attending the industrial school at Rs. 3 each a month at the request of Rev. W. H. Findlay, M.A., of the Wesleyan Mission industrial school.

9. *Grant III.*—(*a*) Provision has been made for the appointment of a woman-servant on Rs. 4 to the main dispensary, as the service of the midwife attached to it will be transferred to the "Caste and gosha dispensary" under the suggestion of the District Surgeon. The salary of the midwife will be raised by Rs. 2 in reference to G.O., No. 441 L., dated 9th March 1895.

A sum of Rs. 800 is provided for medicines and supplies against an average of Rs. 500 in previous years. The two hospitals are much appreciated by the people and the average of patients attending both is rising. Provision for the supply of furniture to the hospitals is made under contingencies.

The district board pays half the charges for maintaining the female dispensary not exceeding Rs. 200, but as it is not possible to bring down the expenditure to anything less than Rs. 600, an additional contribution from the board will be applied for. The figures of the previous years are repeated in the case of vaccination and registration of births and deaths.

(*b*) *Conservancy, Road-cleaning and Watering, &c.*—A small increase of Rs. 2 a month to the salary of the deputy nuisance inspector, which at present is Rs. 10, is recommended, as he has to supervise lighting and private scavenging in addition to the work of sanitation in one half of the town, and in the place of a watchman on Rs. 4–8–0 a peon on Rs. 5 will be appointed. The District Sanitary officer has suggested the appointment of two additional peons to supervise the conservancy, but for the present the watchman may, with a small increase of pay, do the work of a peon. As stated in the annual report, a drainage cart to remove the sewage of the town is necessary, and the appointment of two men to remove the sewage and draw the cart are proposed on Rs. 5 each. A toty for the new latrine on Rs. 5–8–0 is also provided for. The supply of a night-soil cart and twenty dust-bins in the current year accounts for the decrease.

10. *Grant IV.*—The number of lamps is 126 and is not found to be sufficient. Five more are needed which are estimated to cost nearly Rs. 100 under contingencies. It is proposed to plant avenues in the hospital and Dindigul roads. A place for trenching night-soil and a site for a new latrine will have to be acquired.

11. *Grant V.*—The allotment under this head call for no remarks.

12. The budget closes with a balance of Rs. 407; or a little more than 2 per cent. of the total receipts. The usual proposition statements are submitted.

13. The resolution of the council approving the budget is submitted.

Before placing the estimates in the council, a public meeting of the citizens, who, by their property or other qualifications, are eligible to be made councillors was convened and the budget was explained and discussed with a non-official gentleman in the chair. This method of consulting the wishes of the people and inviting their suggestions is beneficial in creating an interest among the rate-payers in the welfare of the municipality and was appreciated by them. Some of their proposals related to the selection of the burning and burial grounds and the provision of scholarships to the Mission industrial school, which have been accepted by the council and embodied in the budget. The arrangement is not attended with any inconvenience or difficulty, as the number of gentlemen who are entitled to nomination to the council is not above fifty, and will be adopted in future years should the Government approve of it.

(*h*) and (*i*) The ferry-rents and fees under Act II of 1888 are fluctuating items calling for no remarks.

(*j*) No arrears are likely to accrue in the current year, while the dues of the previous years have all been collected.

(*k*) and (*l*) The butchers' stalls were leased out for the large sum of Rs. 220 on account of a keen competition among butchers, and the cart-stand fees for the same reason have nearly doubled.

(*m*) The headmaster of the high school, a trained man, having been transferred and the salary of the acting incumbent having been reduced by Rs. 10, the salary grant shows a decrease.

(*n*) The increase in the supply of medicines, a third of the cost of which is contributed by the district board, accounts for the rise.

(*o*) The increase in the number of houses requiring the services of municipal scavengers did not take place to the extent expected.

Charges.

4. The total charges come to Rs. 17,763 against Rs. 16,270 of the budget grant. The variations are shown below :—

		Rs.
(i) Grant I—		
(*a*) Communications—		
New works and repairs	+	300
(*b*) Buildings—		
Repairs	+	230
(ii) Grant II—		
Municipal schools, salary system—Establishment	—	60
(iii) Grant III—		
(1) Hospitals—		
(*a*) Establishment	+	160
(*b*) Medicines and supplies	+	410
(*c*) Diet of patients	—	70
(*d*) Contingencies	+	50
(*e*) Contribution to local boards	—	110
(2) Conservancy, &c.—		
(*a*) Establishment	—	80
(*b*) Other charges	+	180
(*c*) Private scavenging establishment	—	50
(iv) Grant IV—		
(*a*) Printing	+	50
(*b*) Compensation for lands	+	400
(v) Grant V—		
(*a*) Purchase of account books, &c.	+	70

(i) (*a*) The tolls having fetched a large increase, a proportionate addition to the formation and repair of roads has been provided in the revised estimate.

(*b*) The market and hospital sheds were repaired as required by the Sanitary Commissioner and the bandipettah shed was renewed. A sum of Rs. 100 will be spent for repairing three pucka masonry latrines before March next.

(ii) The present permanent headmaster on Rs. 60 having been deputed on other duty in July, the acting incumbent has been allowed a salary of Rs. 50.

(iii) (1) (*a*) and (*e*) The increase in the salary of the establishment is nominal, as in the budget submitted for the year 1895–96 the salary of the establishment of the female dispensary was wrongly treated as part of the contribution to the local board. The salary of the lady apothecary is paid by the district board, half the sum, amounting to Rs. 450, being contributed by the municipality, while the salaries of her establishment are borne by the municipal council, receiving in its turn contribution from the board for the same.

(*b*) Part of the arrears due for the medicines supplied last year was paid in the current year. Appliances and instruments supplied to the "Caste and gosha dispensary" cost Rs. 170. The District Medical officer's indent exceeded the budget figures considerably, owing to the value of the instruments indented for having been incorrectly calculated by the Medical officer at the time of the budget last year.

(*c*) Better management in respect of the supply of diet to in-patients under the present apothecary will result in a saving of Rs. 70.

(*d*) An almirah has been supplied to the hospital.

(iii) (2) (*a*) The decrease under the head of conservancy establishment is due to the watchman and a scavenger not having been appointed till November last. The services of an additional scavenger on Rs. 4–8–0 could not be secured and a watchman was not needed.

(*b*) The increase under other charges, such as hire of carts, &c., is due to an iron night-soil cart and twenty corrugated iron dust-bins which have been recently ordered as suggested by the Sanitary Commissioner.

(*c*) An additional man was not appointed till November for private scavenging, as the number of houses served increased to 130 only in the third quarter.

(iv) (*a*) The budget figure was found to be too small.

(*b*) The Government in their review of the annual report for 1894–95 direct the selection of a site for a burning and burial ground at once. It is proposed to acquire two acres of wet land in the vicinity of the town at a cost of Rs. 600. Two sites for public latrines and a new depôt for trenching night-soil are expected to cost Rs. 200.

(v) The increase of Rs. 70 under grant V is due to payment for account books, &c., supplied in 1894–95 having been made in the current year.

The closing balance according to the revised estimate will be Rs. 1,687, with which the budget estimate for 1896–97 opens.

BUDGET ESTIMATE FOR 1896–97.

5. The total receipts, inclusive of the opening balance, are estimated at Rs. 18,547 against Rs. 19,450 of the revised estimate for the current year, showing a decrease of Rs. 903. The following exhibits the chief variations under important heads :—

		Rs.
(*a*) Opening balance	—	733
(*b*) Tax on buildings	—	150
(*c*) „ on lands	—	110
(*d*) Tolls	+	440
(*e*) Fees under Act II of 1888	—	50
(*f*) Sale-proceeds of lands	—	200
(*g*) „ of night-soil, street refuse, &c.	—	130
(*h*) Income from markets	—	50
(*i*) Cart-stand fees	—	140
(*j*) Grants and contributions from Government—		
Buildings	—	40
Municipal schools—Salary grants	+	70
Other purposes—Furniture	+	50
(*k*) Contributions from local boards—Medical	+	200
(*l*) Private scavenging	+	20

The estimated receipts show a decline under nearly all the heads owing mainly to the circumstance that the arrears expected to remain at the close of the year 1895–96 will not be large; attempts will be made to have no arrears of previous years left uncollected. The following are further explanations in respect of the individual items :—

(*a*) The opening balance in the current year was very large for reason stated in paragragh 3 (*a*).

(*d*) I consider it safe to estimate the demand under tolls below that of the current year, as the same keen competition may not arise. A sum of Rs. 500 under tolls, for which the local board's share has already been paid, remains now as a deposit in the postal savings bank and will be adjusted in 1896–97, as the pass-book is in court and is not likely to be returned before the close of the year.

(*e*) The dramatic performances, which mainly brought the fees, were unusually large in the current year.

ENCLOSURE.

PROCEEDINGS of a special meeting of the Municipal Councillors of Karúr held on the 23rd December 1895.

* * * * *

I. Read—The draft budget estimate of the Karúr Municipality for the year 1896–97.

Resolution.—The draft budget is approved.

C. No. 57-Rev.

As the holidays intervened and the figures had to be checked the report could not be forwarded earlier.

(Signed) T. M. SWAMINATHA AIYAR,
Acting Sub-Collector.

10*th January* 1896.

Forwarded for the orders of Government.

2. The principal variations between the sanctioned and revised estimates for 1895–96 and between the latter and the proposed budget for 1896–97 are explained by the chairman.

3. The collections of house-tax during the first eight months of 1895–96 were fair; those of the land-tax were only 39 per cent. of the full amount. No portion of the sanctioned allotments for communications and buildings was spent during the same period, nor was more than 20 per cent. of that provided for repair of buildings expended.

4. The noticeable feature of the budget for 1896–97 on the receipt side is the decline under all the heads, as compared with the revised estimate. On the charges side—

(1) an increase of Rs. 5 per mensem to the salary of the first assistant in the municipal school;
(2) the conversion of a salary-result system school into a salary system one;
(3) an annual increase of Rs. 15 to the salary of the inspecting school-master;
(4) scholarships, amounting to Rs. 75, to two non-Christian students attending the Wesleyan Mission industrial school;
(5) the appointment of a woman-servant for the main hospital;
(6) the raising of the pay of the midwife and of the deputy nuisance inspector by Rs. 2 each a month;
(7) the conversion of a watchman on Rs. 4–8–0 into a peon on Rs. 5 under "Conservancy, road-cleaning, &c., establishment," the purchase of one sewage and one night-soil carts and twenty additional dust-bins;
(8) the entertainment of two men in connection with the sewage cart and of a toty for a new latrine; and
(9) the addition of five more lamps,

are the chief novelties.

Provision is also made for compensation for land for trenching night-soil and for a site for a new latrine. These proposals may be approved, although the closing balance comes to only Rs. 407, or a little more than 2 per cent. of the expected total receipts of the year.

5. In both the revised and budget estimates round numbers are not always used as they should be.

6. It is not clear how the figures Rs. 1,820 deducted in the body of statement I from the gross toll receipts were arrived at.

7. Under (6) Inspection (page 20) in statement II-B, the salary per annum according to details comes to Rs. 105, not Rs. 104.

(Signed) S. SOUNDARAJ AIYANGAR,
for *Collector.*

15*th January* 1896.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, Madras, to the Chief Secretary to Government, dated 7th January 1896, No. 38.

Referring to the educational portion of the budget estimate of the Karúr Municipality for 1896–97, I have the honour to state that the allotments made under the several heads are sufficient and may be accepted. The net expenditure proposed under grant II is Rs. 1,610 (3,960—2,350), which is less than 15 per cent. of the estimated income of the municipality from taxation and markets.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated 15th January 1896, No. 89-S.

I have the honour to state that I consider the allotment made for vaccination in the Karúr Municipality for 1896–97 sufficient. In regard to staff maintained for conservancy purposes, I would advise that a single certificated assistant sanitary inspector be employed on Rs. 25 + 7–8–0 instead of the two men now in service on a total salary of Rs. 32. I consider the proposal to employ a sewage cart and two toties at the expense of the municipality would be a waste of money; as transport of sewage is even more expensive than supplying good water to a town. Any cost on this head should be defrayed by house-holders, under an arrangement similar to that for private scavenging.

2. Under grant I, a sum of Rs. 1,170 is provided for the execution of works of a sanitary nature.

CAO: 43. 126 + 189m

16270 17760 18140

Revised Estimate for 1895-96.

2. The Current receipts and charges are now estimated at Rs 17,030 and Rs 17,760 respectively, against Rs 15030 and Rs 16,270 anticipated in the sanctioned budget. The very satisfactory increase in the receipts occurs under nearly all heads of income, and chiefly under the tax on buildings and lands, and tolls. The increase in the charges is mainly under grants I, III and IV. The municipal Council's attention will be drawn to the Collector's remarks in para. 3 of his endorsement.

Budget Estimate for 1896-97

3. Receipts. The receipts for the ensuing year are placed at Rs 16860, against Rs 17030, in the revised estimate. The recoveries for private service must be raised by Rs 200 to cover the cost of the service. The duty, it is seemed, anticipates an extension of the service, & if the system is properly encouraged & managed there appears to be no good reason to believe that the cost of it will not be met by the receipts.

4. Charges. (1) The probable charges are entered as Rs 18140, against the revised estimate of Rs 17,760, the increase being chiefly under grant I.

(2) Grant II. The proposed transfer of the municipal salary result School to the Salary System, the increase in the salaries of its teachers shown in the proposition Statement, the entertainment of an additional teacher on Rs 7, and the increase of Rs 5 and Rs 1-4- respectively, in the salaries of the first assistant master of the high school and the dispecting school-master, are sanctioned.

(3) Grant III. The addition to and alterations in

the medical and Conservancy establishments, proposed in paragraphs 9 of the Chairman's letter are sanctioned, except the increase in the Salary of the Deputy Nuisance Inspector, which does not appear to be necessary, ~~the establishment of the~~ ~~will take for the whole~~ ~~direction to appear~~. The municipal Council's attention will be drawn to the remarks and suggestions in para 3 of the Surgeon-General's & ~~para 4~~ the Sanitary Commissioner's letters read above, and the Chairman will be requested to report whether a service for the removal of sewage from private Cesspools cannot be organized on a self-supporting basis.

(4) part IV - The proposal to increase the number of lights, ~~although~~ when the finances of the municipality are ~~at such a low~~ in an ebb, appears to be ill considered. The provision of Rs 100 ~~made~~ therefor for this purpose will be struck out.

5. The budget, as revised by you, closes with a balance of ~~only~~ Rs 530 or 3·4 per cent of the estimated receipts.

6. The Government ~~sees no reason to interfere with~~ ~~has no objection to the arrangement referred to in para 13 of the Chairman's letter~~. To ~~proceed adopted by~~ the Chairman ~~in forming the budget referred to in~~ para 13 of his letter. The matter ~~is entirely for the Council.~~

want [illegible]

[illegible] 1896-97

on tiruppur Union

No. 318 M., 24TH FEBRUARY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. V. SUBBA RAO Avargal, B.A., Chairman, Municipal Council, Karúr, to the Chief Secretary to Government (through the Revenue Officer of the Division, Coimbatore District), dated 26th December 1895, No. 25.

I have the honour to submit herewith the budget estimate of the Karúr Municipality for the year 1896–97, together with the revised estimate for the current year.

2. The Government in reviewing the budget estimate for the current year in their order No. 511 M., dated 21st March 1895, directed that every effort should be made to improve the finances by developing the revenues. The rise in the receipts under all heads for the year 1895–96 will show that no endeavour was spared by the council to develop the income.

REVISED ESTIMATE.

3. The grand total of receipts for the current year, including the opening balance, is estimated at Rs. 19,450, showing an advance of Rs. 2,960 over the budget. The rise occurs under all heads, and the important items in which it is noticeable are the following :—

		Rs.
(a)	Opening balance	+ 960
(b)	Tax on buildings	+ 500
(c)	„ on lands	+ 230
(d)	„ on vehicles with springs	+ 120
(e)	„ on animals	+ 60
(f)	„ on carts	— 40
(g)	Tolls	+ 300
(h)	Ferry rents	+ 100
(i)	Fees under Act II of 1888	+ 60
(j)	Sale-proceeds of night-soil, street refuse	+ 130
(k)	Income from markets	+ 150
(l)	Cart-stand fees	+ 210
Grants and Contributions—		
(m)	Municipal schools—Salary grants	— 70
(n)	Medical—Local boards	+ 200
(o)	Private scavenging	— 40

(a) The rise in the opening balance is due to the actual receipts under the head of tolls and taxes on buildings for the last year having increased, while the estimated expenditure to the extent of Rs. 270 under buildings was not incurred.

(b) and (c) The revision of house and land tax registers in the current year and collections of arrears account for the increase.

(d), (e) and (f) There has been an increase of twenty spring vehicles to make up for the fall of the same number under carts without springs. Vehicles with springs gradually displace country carts in towns. The tax is not, however, below the actuals of 1894–95.

(g) The tolls were leased out for Rs. 5,606, or Rs. 500 more than they were expected to fetch, and a sum of Rs. 500, being a portion of the tolls remitted in the year 1893–94, was recovered. The district board having claimed their share on what was collected in the previous year but was embezzled, a deduction of Rs. 400 on this account is made.

(*h*) and (*i*) The ferry-rents and fees under Act II of 1888 are fluctuating items calling for no remarks.

(*j*) No arrears are likely to accrue in the current year, while the dues of the previous years have all been collected.

(*k*) and (*l*) The butchers' stalls were leased out for the large sum of Rs. 220 on account of a keen competition among butchers, and the cart-stand fees for the same reason have nearly doubled.

(*m*) The headmaster of the high school, a trained man, having been transferred and the salary of the acting incumbent having been reduced by Rs. 10, the salary grant shows a decrease.

(*n*) The increase in the supply of medicines, a third of the cost of which is contributed by the district board, accounts for the rise.

(*o*) The increase in the number of houses requiring the services of municipal scavengers did not take place to the extent expected.

Charges.

4. The total charges come to Rs. 17,763 against Rs. 16,270 of the budget grant. The variations are shown below :—

		Rs.
(i) Grant I—		
(*a*) Communications—		
New works and repairs	+	300
(*b*) Buildings—		
Repairs	+	230
(ii) Grant II—		
Municipal schools, salary system—Establishment	—	60
(iii) Grant III—		
(1) Hospitals—		
(*a*) Establishment	+	160
(*b*) Medicines and supplies	+	410
(*c*) Diet of patients	—	70
(*d*) Contingencies	+	50
(*e*) Contribution to local boards	—	110
(2) Conservancy, &c.—		
(*a*) Establishment	—	80
(*b*) Other charges	+	180
(*c*) Private scavenging establishment	—	50
(iv) Grant IV—		
(*a*) Printing	+	50
(*b*) Compensation for lands	+	400
(v) Grant V—		
(*a*) Purchase of account books, &c.	+	70

(i) (*a*) The tolls having fetched a large increase, a proportionate addition to the formation and repair of roads has been provided in the revised estimate.

(*b*) The market and hospital sheds were repaired as required by the Sanitary Commissioner and the bandipettah shed was renewed. A sum of Rs. 100 will be spent for repairing three pucka masonry latrines before March next.

(ii) The present permanent headmaster on Rs. 60 having been deputed on other duty in July, the acting incumbent has been allowed a salary of Rs. 50.

(iii) (1) (*a*) and (*e*) The increase in the salary of the establishment is nominal, as in the budget submitted for the year 1895–96 the salary of the establishment of the female dispensary was wrongly treated as part of the contribution to the local board. The salary of the lady apothecary is paid by the district board, half the sum, amounting to Rs. 450, being contributed by the municipality, while the salaries of her establishment are borne by the municipal council, receiving in its turn contribution from the board for the same.

(*b*) Part of the arrears due for the medicines supplied last year was paid in the current year. Appliances and instruments supplied to the "Caste and gosha dispensary" cost Rs. 170. The District Medical officer's indent exceeded the budget figures considerably, owing to the value of the instruments indented for having been incorrectly calculated by the Medical officer at the time of the budget last year.

(*c*) Better management in respect of the supply of diet to in-patients under the present apothecary will result in a saving of Rs. 70.

(*d*) An almirah has been supplied to the hospital.

(iii) (2) (*a*) The decrease under the head of conservancy establishment is due to the watchman and a scavenger not having been appointed till November last. The services of an additional scavenger on Rs. 4–8–0 could not be secured and a watchman was not needed.

(*b*) The increase under other charges, such as hire of carts, &c., is due to an iron night-soil cart and twenty corrugated iron dust-bins which have been recently ordered as suggested by the Sanitary Commissioner.

(*c*) An additional man was not appointed till November for private scavenging, as the number of houses served increased to 130 only in the third quarter.

(iv) (*a*) The budget figure was found to be too small.

(*b*) The Government in their review of the annual report for 1894–95 direct the selection of a site for a burning and burial ground at once. It is proposed to acquire two acres of wet land in the vicinity of the town at a cost of Rs. 600. Two sites for public latrines and a new depôt for trenching night-soil are expected to cost Rs. 200.

(v) The increase of Rs. 70 under grant V is due to payment for account books, &c., supplied in 1894–95 having been made in the current year.

The closing balance according to the revised estimate will be Rs. 1,687, with which the budget estimate for 1896–97 opens.

Budget Estimate for 1896–97.

5. The total receipts, inclusive of the opening balance, are estimated at Rs. 18,547 against Rs. 19,450 of the revised estimate for the current year, showing a decrease of Rs. 903. The following exhibits the chief variations under important heads :—

	Rs.
(*a*) Opening balance	— 733
(*b*) Tax on buildings	— 150
(*c*) „ on lands	— 110
(*d*) Tolls	+ 440
(*e*) Fees under Act II of 1888	— 50
(*f*) Sale-proceeds of lands	— 200
(*g*) „ of night-soil, street refuse, &c.	— 130
(*h*) Income from markets	— 50
(*i*) Cart-stand fees	— 140
(*j*) Grants and contributions from Government—	
Buildings	— 40
Municipal schools—Salary grants	+ 70
Other purposes—Furniture	+ 50
(*k*) Contributions from local boards—Medical	+ 200
(*l*) Private scavenging	+ 20

The estimated receipts show a decline under nearly all the heads owing mainly to the circumstance that the arrears expected to remain at the close of the year 1895–96 will not be large; attempts will be made to have no arrears of previous years left uncollected. The following are further explanations in respect of the individual items :—

(*a*) The opening balance in the current year was very large for reason stated in paragragh 3 (*a*).

(*d*) I consider it safe to estimate the demand under tolls below that of the current year, as the same keen competition may not arise. A sum of Rs. 500 under tolls, for which the local board's share has already been paid, remains now as a deposit in the postal savings bank and will be adjusted in 1896–97, as the pass-book is in court and is not likely to be returned before the close of the year.

(*e*) The dramatic performances, which mainly brought the fees, were unusually large in the current year.

(*f*) The difference is due to the sale of land used for storing rubbish on the Coimbatore road, for which the sanction of Government has been obtained.

(*g*) The fall in the proceeds of the sale of sweepings is due to the whole amount due for 1894–95 having been collected in the current year.

(*h*) and (*i*) Income from butchers' stalls and cart-stands is not likely to come up to the current year's figures for the reasons given in paragraph 3 (k) (l).

(*j*) No grant for buildings is expected after the construction of a latrine for the school and no other building is intended to be taken on hand in connection with the schools.

The increase shown in the salary grants is on account of the present acting headmaster being a man holding an untrained certificate, for whom a reduced contribution is obtained in the current year. The appointment of a trained headmaster on Rs. 60 will raise it to what it was in the former year.

The supply of furniture, as recommended by the educational authorities, is expected to bring a contribution of Rs. 50 from Government.

(*k*) An increase of Rs. 100 under grants from local boards is expected, as the present maximum of Rs. 200, payable to the council by the district board, will have to be increased to Rs. 300, if the female dispensary should continue to be maintained in Karúr. The additional expenses in connection with the main dispensary will also bring an increase in contribution.

(*l*) The council expects an extension of the private scavenging system.

Charges.

6. The total charges come to Rs. 18,140 against Rs. 17,763 of the revised estimate, showing an increase of Rs. 377 over the current year. The charges are distributed as follows :—

	Rs.
Grant I	3,220
„ II	3,960
„ III	7,990
„ IV	1,770
„ V	1,200

7. *Grant I.*—The amount allotted for communications is Rs. 2,000, and is nearly 50 per cent. of the estimated receipts under tolls. Some of the streets originally gravelled will be metalled and a few lanes will newly be macadamized. It is proposed to construct a drain in the car street so as to lead to the channel behind the Kurumba lane. The sewage from a portion of the bazaar now runs into the side ditches of the car street and is offensive. The construction of a latrine for the use of the people in the Ambalakara street is provided for at a cost of Rs. 150 and a shed for contagious diseases in the hospital is estimated to cost Rs. 100.

Under repairs to drainage a sum of Rs. 100 is provided for the Mavadiyan kovil pucka masonary drain, a part of which only will be repaired in the current year. Rs. 100 is provided for a well in Pallar's street and Rs. 70 for repairing municipal wells and maintaining springs in the river-bed during summer.

8. *Grant II.*—An increase of Rs. 5 to the salary of the first assistant, which is at present Rs. 30 a month, is recommended. The salary of the headmaster is Rs. 60, and it seems fair to pay his first assistant Rs. 35. He has been doing good work and as acting headmaster has improved the school.

The primary school, hitherto under the salary-results system, will be brought under salary system as recommended by the educational authorities with the scale of pay given in statement II-B. The salary of the headmaster is fixed at Rs. 20, but as the present incumbent is a pensioner and cannot receive more than Rs. 17–8–0, which, together with the amount of his pension, ought not to exceed his original pay, a saving Rs. 2–8–0 a month, or Rs. 30 a year, is expected. He is doing good work and has turned out very satisfactory results in the examination conducted this month. An additional teacher for the infant standard on Rs. 7 is necessary, as the number of boys is at present 60.

A sum of Rs. 200 is provided for the supply of furniture and contingencies both to the high and primary schools. As recommended by the Assistant Inspector of Schools, a sum of Rs. 250 is provided for results grants to other schools in the town. A sum of Rs. 50 is recommended by the Assistant Inspector under grants to buildings to results schools, which the council thinks it unnecessary, as the teachers in Karúr are not in a position to conduct new buildings or engage better ones. An annual increase of Rs. 15 is also provided,* as advised by the educational authorities, to the salary of the inspecting schoolmaster.

* Not included in the proposition statement.

A sum of Rs. 75 has been placed for scholarships to two non-Christian students attending the industrial school at Rs. 3 each a month at the request of Rev. W. H. Findlay, M.A., of the Wesleyan Mission industrial school.

9. *Grant III.*—(*a*) Provision has been made for the appointment of a woman-servant on Rs. 4 to the main dispensary, as the service of the midwife attached to it will be transferred to the "Caste and gosha dispensary" under the suggestion of the District Surgeon. The salary of the midwife will be raised by Rs. 2 in reference to G.O., No. 441 L., dated 9th March 1895.

A sum of Rs. 800 is provided for medicines and supplies against an average of Rs. 500 in previous years. The two hospitals are much appreciated by the people and the average of patients attending both is rising. Provision for the supply of furniture to the hospitals is made under contingencies.

The district board pays half the charges for maintaining the female dispensary not exceeding Rs. 200, but as it is not possible to bring down the expenditure to anything less than Rs. 600, an additional contribution from the board will be applied for. The figures of the previous years are repeated in the case of vaccination and registration of births and deaths.

(*b*) *Conservancy, Road-cleaning and Watering, &c.*—A small increase of Rs. 2 a month to the salary of the deputy nuisance inspector, which at present is Rs. 10, is recommended, as he has to supervise lighting and private scavenging in addition to the work of sanitation in one half of the town, and in the place of a watchman on Rs. 4–8–0 a peon on Rs. 5 will be appointed. The District Sanitary officer has suggested the appointment of two additional peons to supervise the conservancy, but for the present the watchman may, with a small increase of pay, do the work of a peon. As stated in the annual report, a drainage cart to remove the sewage of the town is necessary, and the appointment of two men to remove the sewage and draw the cart are proposed on Rs. 5 each. A toty for the new latrine on Rs. 5–8–0 is also provided for. The supply of a night-soil cart and twenty dust-bins in the current year accounts for the decrease.

10. *Grant IV.*—The number of lamps is 126 and is not found to be sufficient. Five more are needed which are estimated to cost nearly Rs. 100 under contingencies. It is proposed to plant avenues in the hospital and Dindigul roads. A place for trenching night-soil and a site for a new latrine will have to be acquired.

11. *Grant V.*—The allotment under this head call for no remarks.

12. The budget closes with a balance of Rs. 407, or a little more than 2 per cent. of the total receipts. The usual proposition statements are submitted.

13. The resolution of the council approving the budget is submitted.

Before placing the estimates in the council, a public meeting of the citizens, who, by their property or other qualifications, are eligible to be made councillors was convened and the budget was explained and discussed with a non-official gentleman in the chair. This method of consulting the wishes of the people and inviting their suggestions is beneficial in creating an interest among the rate-payers in the welfare of the municipality and was appreciated by them. Some of their proposals related to the selection of the burning and burial grounds and the provision of scholarships to the Mission industrial school, which have been accepted by the council and embodied in

he budget. The arrangement is not attended with any inconvenience or difficulty, as the number of gentlemen who are entitled to nomination to the council is not above fifty, and will be adopted in future years should the Government approve of it.

Enclosure.

Proceedings of a special meeting of the Municipal Councillors of Karúr held on the 23rd December 1895.

* * * * *

I. Read—The draft budget estimate of the Karúr Municipality for the year 1896–97.

Resolution.—The draft budget is approved.

C. No. 57-Rev.

As the holidays intervened and the figures had to be checked the report could not be forwarded earlier.

(Signed) T. M. SWAMINATHA AIYAR,
Acting Sub-Collector.

10*th January* 1896.

Forwarded for the orders of Government.

2. The principal variations between the sanctioned and revised estimates for 1895–96 and between the latter and the proposed budget for 1896–97 are explained by the chairman.

3. The collections of house-tax during the first eight months of 1895–96 were fair; those of the land-tax were only 39 per cent. of the full amount. No portion of the sanctioned allotments for communications and buildings was spent during the same period, nor was more than 20 per cent. of that provided for repair of buildings expended.

4. The noticeable feature of the budget for 1896–97 on the receipt side is the decline under all the heads, as compared with the revised estimate. On the charges side—

(1) an increase of Rs. 5 per mensem to the salary of the first assistant in the municipal school;

(2) the conversion of a salary-result system school into a salary system one;

(3) an annual increase of Rs. 15 to the salary of the inspecting schoolmaster;

(4) scholarships, amounting to Rs. 75, to two non-Christian students attending the Wesleyan Mission industrial school;

(5) the appointment of a woman-servant for the main hospital;

(6) the raising of the pay of the midwife and of the deputy nuisance inspector by Rs. 2 each a month;

(7) the conversion of a watchman on Rs. 4–8–0 into a peon on Rs. 5 under "Conservancy, road-cleaning, &c., establishment," the purchase of one sewage and one night-soil carts and twenty additional dust-bins;

(8) the entertainment of two men in connection with the sewage cart and of a toty for a new latrine; and

(9) the addition of five more lamps,

are the chief novelties.

Provision is also made for compensation for land for trenching night-soil and for a site for a new latrine. These proposals may be approved, although the closing balance comes to only Rs. 407, or a little more than 2 per cent. of the expected total receipts of the year.

5. In both the revised and budget estimates round numbers are not always used as they should be.

6. It is not clear how the figures Rs. 1,820 deducted in the body of statement I from the gross toll receipts were arrived at.

7. Under (6) Inspection (page 20) in statement II-B, the salary per annum according to details comes to Rs. 105, not Rs. 104.

(Signed) S. SOUNDARAJ AIYANGAR,
for *Collector.*

15*th January* 1896.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, Madras, to the Chief Secretary to Government, dated 7th January 1896, No. 38.

Referring to the educational portion of the budget estimate of the Karúr Municipality for 1896–97, I have the honour to state that the allotments made under the several heads are sufficient and may be accepted. The net expenditure proposed under Grant II is Rs. 1,610 (3,960—2,350), which is less than 15 per cent. of the estimated income of the municipality from taxation and markets.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated 15th January 1896, No. 89-S.

I have the honour to state that I consider the allotment made for vaccination in the Karúr Municipality for 1896–97 sufficient. In regard to staff maintained for conservancy purposes, I would advise that a single certificated assistant sanitary inspector be employed on Rs. 25 + 7–8–0 instead of the two men now in service on a total salary of Rs. 32. I consider the proposal to employ a sewage cart and two toties at the expense of the municipality would be a waste of money, as transport of sewage is even more expensive than supplying good water to a town. Any cost on this head should be defrayed by house-holders, under an arrangement similar to that for private scavenging.

2. Under Grant I, a sum of Rs. 1,170 is provided for the execution of works of a sanitary nature.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 7th February 1896, No. 85.

I have the honour to state that the provision made in Grant III of the budget estimate of the Karúr Municipality for the year 1896–97 is sufficient.

2. The proposal of the municipality to entertain a woman servant, and to grant an increase to the pay of the midwife in accordance with the existing orders of Government, meets with my approval.

3. The woman servant should be designated "Female attendant."

Order—No. 318 M., dated 24th February 1896.

The estimated receipts and charges of the Karúr Municipality for 1896–97, as passed by Government, are compared below with the budget and revised estimates for the year 1895–96 and the actuals of 1894–95 :—

	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Budget estimate, 1896–97.

Revised Estimate for 1895–96.

2. The current receipts and charges are now estimated at Rs. 17,030 and Rs. 17,760, respectively, against Rs. 15,030 and Rs. 16,270 anticipated in the sanctioned budget. The very satisfactory increase in the receipts occurs under

nearly all heads of income, and chiefly under the tax on buildings and lands and tolls. The increase in the charges is mainly under Grants I, III and IV. The municipal council's attention will be drawn to the Collector's remarks in paragraph 3 of his endorsement.

Budget Estimate for 1896–97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 16,860 against Rs. 17,030 in the revised estimate. The recoveries for private scavenging will be raised to Rs. 200 to cover the cost of the service. The municipality, it is observed, anticipates an extension of the service, and if the system is properly encouraged and managed there appears to be no good reason to believe that the cost of it will not be met by the receipts.

4. *Charges.*—(1) The probable charges are entered as Rs. 18,140 against the revised estimate of Rs. 17,760, the increase being chiefly under Grant I.

(2) *Grant II.*—The proposed transfer of the municipal salary-result school to the salary system, the increase in the salaries of its teachers shown in the proposition statement, the entertainment of an additional teacher on Rs. 7, and the increase of Rs. 5 and Rs. 1-4-0, respectively, in the salaries of the first assistant master of the high school and the Inspecting Schoolmaster, are sanctioned.

(3) *Grant III.*—The addition to, and alterations in, the medical and conservancy establishments proposed in paragraph 9 of the Chairman's letter are sanctioned, except the increase in the salary of the deputy nuisance inspector, which does not appear to be necessary. The municipal council's attention will be drawn to the remarks and suggestions in paragraph 3 of the Surgeon-General's and paragraph 1 of the Sanitary Commissioner's letters read above, and the Chairman will be requested to report whether a service for the removal of sewage from private cess-pools cannot be organized on a self-supporting basis.

(4) *Grant IV.*—The proposal to increase the number of lights when the finances of the municipality are at so low an ebb appears to be ill-considered. The provision of Rs. 100 for this purpose will therefore be struck out.

5. The budget, as revised by Government, closes with a balance of Rs. 570, or 3·4 per cent. of the estimated receipts.

6. The Government sees no reason to interfere with the arrangements referred to by the Chairman in paragraph 13 of his letter. The matter is one entirely for the council.

(True Extract.)

G. S. FORBES,
for *Chief Secretary.*

To the Chairman, Municipal Council, Karúr.
,, Collector of Coimbatore.
,, President, District Board, Coimbatore.
,, Accountant-General.
,, Director of Public Instruction.
,, Surgeon-General.
,, Sanitary Commissioner.
,, Sanitary Engineer.
