No. M., TH FEBRUARY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. J. M. B. ROCHE VICTORIA Avergal, Chairman, Municipal Council, Tuticorin, to the Chief Secretary to Government, dated Tuticorin, 23rd December 1895, No. 516.

I beg to submit the revised estimates of receipts and charges of this municipality for the current official year and the budget estimates for the coming year 1896–97 as adopted by the Council in their meeting convened on Wednesday the 18th instant.

1. Extracts of budget estimates.
2. Copy of the resolution of the Council.
3. Educational budget estimates (through Director of Public Instruction).
4. A proposition statement of revision of establishment.

2. A copy of the resolution of the Council passing the above and other papers as detailed in the margin are enclosed.

REVISED ESTIMATES FOR 1895–96.

Receipts.

3. The grand total of receipts for the year is Rs. 51,000 including the opening balance of Rs. 5,974 as reviewed in G.O., No. 1622 M., dated 9th October 1895. As compared with the budget estimate for the year, there is an increase of Rs. 9,300 which is explained as follows. The actual balance has an increase of Rs. 2,394. The Council expect to realize Rs. 1,295 from sale-proceeds of certain lands about which applications have been made to Government in this office letters Nos. 425 and 435, dated 8th and 11th October last, respectively. The sum of Rs. 4,170 against 5 (*a*) (i) *other receipts*, includes the sum of Rs. 3,981 recovered from Provincial funds under G.O., No. 111, Marine, dated 19th April 1895, as compensation for a portion of foreshore (once reclaimed by the Council) which has been taken back by Government. The two latter items are unforeseen receipts. The remaining sum of Rs. 1,530 is mainly an increase from taxes on arts, &c., buildings, vehicles, animals, &c., and from fines under Municipal and other Acts. Contribution from local fund boards, on account of medical institution and fees for private scavenging service, &c. The buildings are increasing in number year after year, while improvements are effected to the existing ones. Likewise the traders are rising in number and status ; hence annual increase under these items.

Charges.

4. The expenditure will amount to Rs. 39,500 against the estimate of Rs. 37,900 which, no doubt, excludes the amounts subsequently sanctioned and shown in statement VI-A.

5. *New Works.*—An increase of Rs. 200 is found necessary under (*b*) Buildings for the purpose of meeting the expenditure incurred in completing the bath-rooms constructed in the premises of the hospital and for fitting up iron latrines.

6. (*c*) *Drainage.*—The sum of Rs. 1,020 being the actuals spent during the first eight months includes Rs. 526 disbursed during the year as sanctioned in G.O., Mis. No. 1474 M., dated 12th September 1895.

7. *Repairs*—(*a*) *Communications.*—An increase of Rs. 200 is shown under this item over the revised estimate, the same being found necessary to maintain the roads up to the end of the current official year.

2/191 Prof

8. (*d*) (*i*) *Water-supply.*—The decrease of Rs. 200 under this head was owing to the failure of water-supply to the town for four and half months of the year.

9. *Grant II.*—No student was sent up for training, and yet the sum of Rs. 20 against 1 (*b*) stipends is to pay as a bonus to two teachers on condition of their passing the Lower Primary examination this year as recommended by the Assistant Inspector of Schools.

(7) (*b*) (*ii*) *Common Gymnasium—Contingencies.*—Rs. 500 have been provided for under this item against Rs. 50. This includes Rs. 160, being the cost of wire purchased for fencing the ground and Rs. 350 being the estimated cost of erecting a small shed in it for the safe custody of the apparatuses.

10. *Grant IV* (6) (*b*), *Public Garden.*—There is an increase of Rs. 150 under this item over the revised estimate, as it is required for completing the channels in the garden and procuring seedlings, &c., from other places.

(8) *Fire* (*b*).—The sum of Rs. 200 in the revised estimate was spent in procuring extra suction and delivery hoses, the former supply being short and of no avail.

11. The remaining items of variations stand explained in column 7 of statement VI-A where necessary.

12. The balance to be carried forward to the ensuing year's budget will thus be Rs. 11,500.

BUDGET ESTIMATE FOR 1896-97.

Receipts.

13. It is proposed to continue the levy of usual rates and taxes, and the Council expect to realize from all sources Rs. 36,700 against the revised estimate of Rs. 42,026. The several heads of rates and taxes are estimated to have more or less the same figure as the revised estimate except the taxes on animals and carts. They are reduced by Rs. 70 and Rs. 60, respectively, to be on the safe side now that the proposed introduction of the railway line up to the Government pier will probably tend to reduce the number of carts and bullocks which are now largely used for removing the imports into the railway station.

(4) (*b*) (*i*).—There is a large decrease of Rs. 1,245 against sale-proceeds of lands, which is accounted for in paragraph 3 above.

14. A credit of Rs. 270 is taken from Provincial funds under grants and contributions which consists of Rs. 60 being scholarship grant against normal stipends, and Rs. 210 (Rs. 180+30) being the moiety of pay of common gymnastic instructor and drawing master, and result grant for municipal schools.

15. (6) *Miscellaneous.*—The Council intend to further the system of private scavenging service and to increase the service thereunder; hence an increase of Rs. 150 over the revised estimate is put down under this item.

Expenditure.

16. *Grant I, New Works—Communications.*—A sum of Rs. 3,500 is set down as detailed in statement II-A, part I. A branch road from the south beach has been constructed by Messrs. A. and F. Harvey of Tuticorin for a distance of about 150 yards, at a cost of about Rs. 500, on the way to their bungalow, past several timber yards, along the sea-shore. This road has been handed over to the Council for nothing and it is most beneficial to the carts resorting to the timber bazaars and chunam kilns which are situated a few yards further off. The extension of this portion of the road as far as the timber bazaars is absolutely necessary to make it completely useful to the traffic; and the company undertook to finish it up at once on the understanding that a lump sum of Rs. 500 (the probable cost being more) be paid them after making necessary provision in the budget. A copy of the resolution of the Council on the subject is enclosed. The remaining sum of Rs. 3,000 is allotted to complete the extension of Victoria street referred to in paragraph 7 of this office letter embodied in G.O., No. 151 M., dated 7th February 1893. The completion of this road at once so as to connect the same with Palamcottah road past the fresh water-supply channel is found necessary for all purposes. It will not only greatly minimise the traffic that passes over the great cotton road (the only main artery) which is

seriously cut up, but will also tend to instil into the minds of the people the idea of inhabiting the place which is nothing but sandy palmyra tope. This idea will also considerably relieve the people passing over the present busy road from the probable danger they are likely to fall victim to and nuisance and inconvenience. By this arrangement the traffic to and from the town will be distributed. This idea, which was engaging the attention of the Council for a long time, was deferred owing to the remarks of Government on the bad state of the roads already existing. Now that they are maintained in fair order to a great extent, and that there is a large saving in the opening balance, the attention of the Council has now been devoted to this road which is all the more important for reasons explained above.

17. (*b*) *Building.*—The provision of Rs. 200 for purchase of 20 movable dust-bins and Rs. 300 for accommodation of iron latrine are usual items. An allotment of Rs. 300 is now made for construction of a beef slaughter-house which is sadly wanted for this town, as at present bulls are being slaughtered at random and sometimes even at backyards of butchers' houses. It is proposed to construct a public market on an open ground which is now at the disposal of the Council at an estimated cost of Rs. 2,500, it being in compliance with the suggestion of the Deputy Sanitary Commissioner Dr. Bannerman embodied in G.O., No. 302 M., dated 26th February 1895; besides it is a step to develop the resources of the municipality. The present private markets are situated at low-lying levels in the heart of the busy part of the town infested all round with bazaars of various trades, and will have to be closed by withholding licenses under section 198 (2) of the Act. A sum of Rs. 1,000 is provided for the construction of a lying-in ward and operating room in the premises of the hospital as recommended by the Surgeon-General in his recent inspection of the hospital. These last three items account for provision of only one iron latrine instead of two as usual.

(*d*) *Water-supply.*—The sum of Rs. 150 provided hereunder is to sink a well along the fresh water-supply channel so as to be serviceable to the public on occasions of failure of supply of Korampallam tank. The stones required are already purchased and in stock.

18. (2) *Repairs.*—Under maintenance of roads, Rs. 5,000 have been allotted so as to keep the present roads in good order. This and the provision for new roads make the allotment exceed the prescribed percentage by Rs. 2,640, for which I beg to ask for a special sanction. Under repair of building, Rs. 700 have been allotted as per details exhibited in statement II, part II.

19. (*d*) (*ii*) *Establishment.*—A small sum of As. 8 has been added to the pay of each of the four watchmen considering the dearness of the place.

20. (3) *Establishment.*—A maistri is added on a salary of Rs. 12 a month to assist the overseer in looking after road works, avenues, &c., when he is engaged often times in plan-drawing, estimate-making, &c. This item is not a new one, as the pay of the said maistri was hitherto debited under Communications. He is now taken under permanent establishment with a view to give him some stimulus considering his satisfactory work.

21. *Grant II.*—The total expenditure of the grant is proposed to be Rs. 3,810 as per details furnished by the Assistant Inspector of Schools and recommended by the Director of Public Instruction with some modification made by him. The Assistant Inspector has apparently calculated at the usual rate of Rs. 6 per student trained while the Director has reduced the same to Rs. 5. The remaining items are, as usual, and the budget statements received from the Assistant Inspector have been submitted through the Director of Public Instruction, together with extracts from the budget statements.

22. As regards the appointment of an inspecting schoolmaster for the municipality, the Council do not consider it necessary at present. The recommendation of the Director of Public Instruction in paragraph 5 of his letter for a provision of Rs. 1,000 for construction of a school-house for Panchamas will have the attention of the Council when funds are available.

23. *Grant III, Hospitals and Dispensaries—(a) Establishment.*—The provision under this head has been increased over the revised estimate by Rs. 160. The present midwife, whose pay is Rs. 12 a month, is proposed to be replaced by a nurse, and

midwife on Rs. 25 a month as suggested by the civil apothecary who was specially asked to be present at the meeting, and the pay of the present peon attached to the hospital has been raised from Rs. 8 to Rs. 9 in consideration of his long and good services. He has passed for a compounder and is actually found working at the compounding table without prejudice to his legitimate work. The increase is therefore deserving.

24. (*b*) Under medicines and supplies, the allotment has been increased by Rs. 300, considering the value of medicines supplied by Messrs. Burgoyne Burbidges and Company, London, combined with loss in exchange, import duty, &c. The other two items call for no remark.

25. The contributions to Provincial funds towards Medical College, Sanitary Inspection, Medical Reserve staff and cutler's establishment are repeated as per revised estimate.

26. (3) *Vaccination.*—An increase of Rs. 3 is proposed to be given to the vaccinator considering the satisfactory work he has turned out for the past few years. His service as a first-class vaccinator is about 10 years, and he always endeavours to keep pace with the requirements of the department notwithstanding the obstacles contravening him in furthering his work.

27. (5) *Conservancy—(a) (i) Establishment.*—The allotment under this item is Rs. 4,135 against the revised estimate of Rs. 3,660. The conservancy inspectors, who are three in number, under G.O., Mis. No. 198 M., dated 8th February 1895, and whose pay was uniformly Rs. 15 each have been given, one an increase of Rs. 5 and the other two of Rs. 2–8–0 each. The one inspector, who was appointed under the revised system in January last, has acquitted himself satisfactorily in his work and deserves the promotion of Rs. 5 now given him. To secure efficiency in the sanitation of the town and to attend to some of the out-of-way streets which are not now regularly looked after, and to permanently post men to some of the more frequented iron latrines, the Council have increased 3 additional ~~big~~ scavengers at Rs. 6 each and 1 boy scavenger at Rs. 4 and 7 more sweepers at Rs. 6 each, the present staff being 6 male and 3 female scavengers and 20 sweepers. These items account for the increase and the remaining ones are more repetitions and need no comment.

28. *Grant IV* (1) (*a*), *Establishment.*—Year after year the lamps are increased in number with a view to light the town in parts which have no lamps and to plant posts in places which are far between. It is found by experience that the present number of masalchis, viz., 8 is not enough to systematically work, and light all the lamps in time, an additional hand is therefore deemed necessary to maintain regularity.

29. (5) *Avenues.*—Seedlings have now been planted in many places wherever required. It is therefore proposed to engage a person on Rs. 5 a month.

30. (6) *Public Garden* (*b*).—A sum of Rs. 130 is provided against Rs. 400 in the revised estimate. The construction of branch channels for distribution of water (the soil being sandy) will be almost finished before the end of the current official year and consequently the allotment is reduced.

31. (8) *Fire* (*b*).—The sum of Rs. 30 provided hereunder is for anticipated repair of engines and pipes.

32. (9) (*v*), *Other items, Rs.* 400.—This is composed of Rs. 75 towards the maintenance of water-pandal during hot weather, Rs. 100 for law expenses. Rs. 25 for dog-killing and Rs. 50 for miscellaneous purposes, besides Rs. 150 for remuneration to vakil who conducts prosecutions. The remuneration of Rs. 125 which the vakil was allowed is found to be comparatively very small in consideration of his labour and the increasing number of prosecutions. The fines recovered under Municipal and other Acts are alone sufficient to convince the necessity for increased remuneration, and the punishment inflicted by the magistrate are rather adequate and not as lenient as before.

33. *Grant V.*—The provisions against the several items under the grant are, as usual, except under (*b*) (*ii*) (purchase of account books, &c.), in which a reduction of Rs. 100 is made as compared with the revised estimate, as there are yet in stock some

books which have been supplied last year from the Jubilee Press and under (*d*) Office Contingencies wherein Rs. 40 have been reduced since the stationery ordered last year is available for use during the ensuing year.

34. The year 1896–97 will close with a balance of Rs. 4,500.

Forwarded.

(Signed) G. CAMPBELL,
Ag. Sub-Collector.

4th January 1896.

No. 55-Gen.

Submitted to Government.

2. *Revised Estimates for* 1895–96.—The general increase under taxes and fines under Municipal and other Acts is satisfactory.

3. *Budget Estimates for* 1896–97.—The increased income anticipated under private scavenging fees is satisfactory.

4. *Charges.*—The increased provision under Grant V "Communications" and under Grant III (5) "Conservancy" is justified by the increasing mercantile importance of the town.

5. The allotment of Rs. 150 for sinking a fresh-water well should prove beneficial.

6. The other proposals for expenditure seem generally desirable.

7. The budget closes with a balance of Rs. 4,500 or 11 per cent. of the estimated receipts.

(Signed) A. W. B. HIGGENS,
Collector.

TINNEVELLY,
15th January 1896.

From the Honourable Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Honourable the Chief Secretary to Government, dated Madras, 7th January 1896, No. 37.

Referring to the budget estimate of the Tuticorin Municipality for 1896–97 I have the honour to state that the provision made therein for education is sufficient and may be adopted. Credit has been taken for a stipendiary grant of Rs. 60 from Provincial funds on behalf of two students of the primary grade to be sent for training. This should, however, be raised to Rs. 70 in round numbers (12×2×3 = 72 or Rs. 70).

2. The net expenditure proposed under Grant II is Rs. 3,530 (3,810—280) or less than 12 per cent. of the estimated income of the municipality from taxation, markets and rents.

3. Seeing the large proportion of unqualified teachers in the municipality, I would strongly request that the Chairman may be directed to take timely steps to see that the allotment under "Training schools" is fully utilized.

Revised Estimate for 1895-96.

2. The Current receipts and Charges are now estimated at Rs 42,030 and Rs 39,500, respectively, against Rs 35,720 and Rs 37,900, anticipated in the Sanctioned budget. The increase in the receipts occurs chiefly under the tax on buildings, Sale proceeds of lands and miscellaneous and that in the Charges under parts I, III and IV. The Collections under the principal taxes and the expenditure on Repairs-Buildings, during the first eight months of the year were not at all Satisfactory

Budget Estimate for 1896-97.

3. Receipts. The receipts for the ensuing year are placed at Rs 36,700, against Rs 42,030 in the revised estimate, the decrease being mainly under Sale proceeds of lands and miscellaneous. The Credit taken under Provincial grants on account of annual Stipends will be raised from Rs 60 to Rs 70, as recommended by the Director and the Chairman's attention will be drawn to the remarks in paragraph 3 of D. Circular letter, read above.

4. Charges (1) The probable charges are entered as Rs 43,700, against the revised estimate of Rs 39,500, the increase appearing chiefly under parts I and III.

(2) Grant I - None of the new works for which provision has been made in the budget should be undertaken until the plans and estimates have been approved by Competent authority. With reference to para. 18 of the Chairman's letter, it is observed that the percentage

prescribed by Government represents the minimum expenditure and that no sanction is required for exceeding that limit. The proposed transfer of the public works maistri on Rs 12 to the permanent establishment is approved, but the increase of eight annas in the salary of each of the watchmen cannot be sanctioned, as it does not appear to be necessary.

(3) Grant III :- The remarks of the Surgeon general on the allotment for hospitals & dispensaries will be awaited. Meanwhile the provision of Rs 20 for Contribution to the Cutlers' establishment will be struck out with reference to G.O. No 972. dated 18th January 1895. The proposed increase of Rs 3 in the salary of the Vaccinator will be disallowed as advised by the Sanitary Commissioner. The entertainment of the additional Scavengers and sweepers referred to in para. 27 of the Chairman's letter is sanctioned; but the increase in the salaries of the Conservancy Inspectors cannot be approved as the Government is not satisfied of its necessity. The Municipal Council's attention will be drawn to the Sanitary Commissioner's suggestion in para. 3 of his letter and that of the Chairman to the omission pointed out by him in para. 4.

(4) Grant III. The proposed entertainment of an additional Camplighter on Rs 7 and the increase of one rupee in the salary of the Ayacut Servant are sanctioned.

(5) Grant IV. The Contribution for the Central office establishments will be raised from Rs 190 to Rs 210 with reference to G.O. No 2190 dated 19th November

6—

it is undesirable to raise the salaries than
of these unqualified men, when for
a slightly higher salary the Council
can obtain the services of men
properly trained in sanitation &
hygiene.

5 The budget as revised by Government closes with a balance of Rs 4,690 or 12.8 per Cent of the estimated receipts.

No. 329 M., 25th February 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From M.R.Ry. J. M. B. ROCHE VICTORIA Avargal, Chairman, Municipal Council, Tuticorin, to the Chief Secretary to Government, dated Tuticorin, 23rd December 1895, No. 516.

I beg to submit the revised estimates of receipts and charges of this municipality for the current official year and the budget estimates for the coming year 1896–97 as adopted by the Council in their meeting convened on Wednesday the 18th instant.

1. Extracts of budget estimates.
2. Copy of the resolution of the Council.
3. Educational budget estimates (through Director of Public Instruction).
4. A proposition statement of revision of establishment.

2. A copy of the resolution of the Council passing the above and other papers as detailed in the margin are enclosed.

Revised Estimates for 1895–96.

Receipts.

3. The grand total of receipts for the year is Rs. 51,000 including the opening balance of Rs. 8,974 as reviewed in G.O., No. 1622 M., dated 9th October 1895. As compared with the budget estimate for the year, there is an increase of Rs. 9,300 which is explained as follows. The actual balance has an increase of Rs. 2,394. The Council expect to realize Rs. 1,295 from sale-proceeds of certain lands about which applications have been made to Government in this office letters Nos. 425 and 435, dated 8th and 11th October last, respectively. The sum of Rs. 4,170 against 5 (*a*) (i) *other receipts*, includes the sum of Rs. 3,981 recovered from Provincial funds under G.O., No. 111, Marine, dated 19th April 1895, as compensation for a portion of foreshore (once reclaimed by the Council) which has been taken back by Government. The two latter items are unforeseen receipts. The remaining sum of Rs. 1,530 is mainly an increase from taxes on arts, &c., buildings, vehicles, animals, &c., and from fines under Municipal and other Acts. Contribution from local fund boards, on account of medical institution and fees for private scavenging service, &c. The buildings are increasing in number year after year, while improvements are effected to the existing ones. Likewise the traders are rising in number and status ; hence annual increase under these items.

Charges.

4. The expenditure will amount to Rs. 39,500 against the estimate of Rs. 37,900 which, no doubt, excludes the amounts subsequently sanctioned and shown in statement VI-A.

5. *New Works.*—An increase of Rs. 200 is found necessary under (*b*) Buildings for the purpose of meeting the expenditure incurred in completing the bath-rooms constructed in the premises of the hospital and for fitting up iron latrines.

6. (*c*) *Drainage.*—The sum of Rs. 1,020 being the actuals spent during the first eight months includes Rs. 526 disbursed during the year as sanctioned in G.O., Mis. No. 1474 M., dated 12th September 1895.

7. *Repairs*—(*a*) *Communications.*—An increase of Rs. 200 is shown under this item over the revised estimate, the same being found necessary to maintain the roads up to the end of the current official year.

8. (*d*) (*i*) *Water-supply.*—The decrease of Rs. 200 under this head was owing to the failure of water-supply to the town for four and half months of the year.

9. *Grant II.*—No student was sent up for training, and yet the sum of Rs. 20 against 1 (*b*) stipends is to pay as a bonus to two teachers on condition of their passing the Lower Primary examination this year as recommended by the Assistant Inspector of Schools.

(7) (*b*) (*ii*) *Common Gymnasium—Contingencies.*—Rs. 500 have been provided under this item against Rs. 50. This includes Rs. 160, being the cost of wire purchased for fencing the ground and Rs. 350 being the estimated cost of erecting a small shed in it for the safe custody of the apparatus.

10. *Grant IV* (6) (*b*), *Public Garden.*—There is an increase of Rs. 150 under this item over the revised estimate, as it is required for completing the channels in the garden and procuring seedlings, &c., from other places.

(8) *Fire* (*b*).—The sum of Rs. 200 in the revised estimate was spent in procuring extra suction and delivery hoses, the former supply being short and of no avail.

11. The remaining items of variations stand explained in column 7 of statement VI-A where necessary.

12. The balance to be carried forward to the ensuing year's budget will thus be Rs. 11,500.

Budget Estimate for 1896-97.

Receipts.

13. It is proposed to continue the levy of usual rates and taxes, and the Council expect to realize from all sources Rs. 36,700 against the revised estimate of Rs. 42,026. The several heads of rates and taxes are estimated to have more or less the same figure as the revised estimate except the taxes on animals and carts. They are reduced by Rs. 70 and Rs. 60, respectively, to be on the safe side now that the proposed introduction of the railway line up to the Government pier will probably tend to reduce the number of carts and bullocks which are now largely used for removing the imports into the railway station.

(4) (*b*) (*i*).—There is a large decrease of Rs. 1,245 against sale-proceeds of lands, which is accounted for in paragraph 3 above.

14. A credit of Rs. 270 is taken from Provincial funds under grants and contributions which consists of Rs. 60 being scholarship grant against normal stipends, and Rs. 210 (Rs. 180+30) being the moiety of pay of common gymnastic instructor and drawing master, and result grant for municipal schools.

15. (6) *Miscellaneous.*—The Council intend to further the system of private scavenging service and to increase the service thereunder; hence an increase of Rs. 150 over the revised estimate is put down under this item.

Expenditure.

16. *Grant I, New Works—Communications.*—A sum of Rs. 3,500 is set down as detailed in statement II-A, part I. A branch road from the south beach has been constructed by Messrs. A. and F. Harvey of Tuticorin for a distance of about 150 yards, at a cost of about Rs. 500, on the way to their bungalow, past several timber yards, along the sea-shore. This road has been handed over to the Council for nothing and it is most beneficial to the carts resorting to the timber bazaars and chunam kilns which are situated a few yards further off. The extension of this portion of the road as far as the timber bazaars is absolutely necessary to make it completely useful to the traffic; and the company undertook to finish it up at once on the understanding that a lump sum of Rs. 500 (the probable cost being more) be paid them after making necessary provision in the budget. A copy of the resolution of the Council on the subject is enclosed. The remaining sum of Rs. 3,000 is allotted to complete the extension of Victoria street referred to in paragraph 7 of this office letter embodied in G.O., No. 151 M., dated 7th February 1893. The completion of this road at once so as to connect the same with Palamcottah road past the fresh water-supply channel is found necessary for all purposes. It will not only greatly minimise the traffic that passes over the great cotton road (the only main artery) which is

seriously cut up, but will also tend to instil into the minds of the people the idea of inhabiting the place which is nothing but sandy palmyra tope. This idea will also considerably relieve the people passing over the present busy road from the probable danger they are likely to fall victim to and nuisance and inconvenience. By this arrangement the traffic to and from the town will be distributed. This idea, which was engaging the attention of the Council for a long time, was deferred owing to the remarks of Government on the bad state of the roads already existing. Now that they are maintained in fair order to a great extent, and that there is a large saving in the opening balance, the attention of the Council has now been devoted to this road which is all the more important for reasons explained above.

17. (*b*) *Buildings.*—The provision of Rs. 200 for purchase of 20 movable dust-bins and Rs. 300 for accommodation of iron latrine are usual items. An allotment of Rs. 300 is now made for construction of a beef slaughter-house which is sadly wanted for this town, as at present bulls are being slaughtered at random and sometimes even at backyards of butchers' houses. It is proposed to construct a public market on an open ground which is now at the disposal of the Council at an estimated cost of Rs. 2,500, it being in compliance with the suggestion of the Deputy Sanitary Commissioner Dr. Bannerman embodied in G.O., No. 302 M., dated 26th February 1895, besides it is a step to develop the resources of the municipality. The present private markets are situated at low-lying levels in the heart of the busy part of the town infested all round with bazaars of various trades, and will have to be closed by withholding licenses under section 198 (2) of the Act. A sum of Rs. 1,000 is provided for the construction of a lying-in ward and operating room in the premises of the hospital as recommended by the Surgeon-General in his recent inspection of the hospital. These last three items account for provision of only one iron latrine instead of two as usual.

(*d*) *Water-supply.*—The sum of Rs. 150 provided hereunder is to sink a well along the fresh water-supply channel so as to be serviceable to the public on occasions of failure of supply of Korampallam tank. The stones required are already purchased and in stock.

18. (2) *Repairs.*—Under maintenance of roads, Rs. 5,000 have been allotted so as to keep the present roads in good order. This and the provision for new roads make the allotment exceed the prescribed percentage by Rs. 2,640, for which I beg to ask for a special sanction. Under repair of buildings, Rs. 700 have been allotted as per details exhibited in statement II, part II.

19. (*d*) (*ii*) *Establishment.*—A small sum of As. 8 has been added to the pay of each of the four watchmen considering the dearness of the place.

20. (3) *Establishment.*—A maistri is added on a salary of Rs. 12 a month to assist the overseer in looking after road works, avenues, &c., when he is engaged often times in plan-drawing, estimate-making, &c. This item is not a new one, as the pay of the said maistri was hitherto debited under Communications. He is now taken under permanent establishment with a view to give him some stimulus considering his satisfactory work.

21. *Grant II.*—The total expenditure of the grant is proposed to be Rs. 3,810 as per details furnished by the Assistant Inspector of Schools and recommended by the Director of Public Instruction with some modification made by him. The Assistant Inspector has apparently calculated at the usual rate of Rs. 6 per student trained while the Director has reduced the same to Rs. 5. The remaining items are, as usual, and the budget statements received from the Assistant Inspector have been submitted through the Director of Public Instruction, together with extracts from the budget statements.

22. As regards the appointment of an inspecting schoolmaster for the municipality, the Council do not consider it necessary at present. The recommendation of the Director of Public Instruction in paragraph 5 of his letter for a provision of Rs. 1,000 for construction of a school-house for Panchamas will have the attention of the Council when funds are available.

23. *Grant III, Hospitals and Dispensaries—(a) Establishment.*—The provision under this head has been increased over the revised estimate by Rs. 160. The present midwife, whose pay is Rs. 12 a month, is proposed to be replaced by a nurse, and midwife on Rs. 25 a month as suggested by the civil apothecary who was specially asked to be present at the meeting, and the pay of the present peon attached to the hospital has been raised from Rs. 8 to Rs. 9 in consideration of his long and good services. He has passed for a compounder and is actually found working at the compounding table without prejudice to his legitimate work. The increase is therefore deserving.

24. (*b*) Under medicines and supplies, the allotment has been increased by Rs. 300, considering the value of medicines supplied by Messrs. Burgoyne Burbidges and Company, London, combined with loss in exchange, import duty, &c. The other two items call for no remark.

25. The contributions to Provincial funds towards Medical College, Sanitary Inspection, Medical Reserve staff and cutler's establishment are repeated as per revised estimate.

26. (3) *Vaccination.*—An increase of Rs. 3 is proposed to be given to the vaccinator considering the satisfactory work he has turned out for the past few years. His service as a first-class vaccinator is about 10 years, and he always endeavours to keep pace with the requirements of the department notwithstanding the obstacles contravening him in furthering his work.

27. (5) *Conservancy—(a) (i) Establishment.*—The allotment under this item is Rs. 4,435 against the revised estimate of Rs. 3,660. The conservancy inspectors, who are three in number, under G.O., Mis. No. 198 M., dated 8th February 1895, and whose pay was uniformly Rs. 15 each have been given, one an increase of Rs. 5 and the other two of Rs. 2–8–0 each. The one inspector, who was appointed under the revised system in January last, has acquitted himself satisfactorily in his work and deserves the promotion of Rs. 5 now given him. To secure efficiency in the sanitation of the town and to attend to some of the out-of-way streets which are not now regularly looked after, and to permanently post men to some of the more frequented iron latrines, the Council have increased 3 additional scavengers at Rs. 6 each and 1 boy scavenger at Rs. 4 and 7 more sweepers at Rs. 6 each, the present staff being 6 male and 3 female scavengers and 20 sweepers. These items account for the increase and the remaining ones are mere repetitions and need no comment.

28. *Grant IV* (1) (*a*), *Establishment.*—Year after year the lamps are increased in number with a view to light the town in parts which have no lamps and to plant posts in places which are far between. It is found by experience that the present number of mashalchis, viz., 8 is not enough to systematically work, and light all the lamps in time, an additional hand is therefore deemed necessary to maintain regularity.

29. (5) *Avenues.*—Seedlings have now been planted in many places wherever required. It is therefore proposed to engage a person on Rs. 5 a month.

30. (6) *Public Garden* (*b*).—A sum of Rs. 130 is provided against Rs. 400 in the revised estimate. The construction of branch channels for distribution of water (the soil being sandy) will be almost finished before the end of the current official year and consequently the allotment is reduced.

31. (8) *Fire* (*b*).—The sum of Rs. 30 provided hereunder is for anticipated repair of engines and pipes.

32. (9) (*v*), *Other items, Rs.* 400.—This is composed of Rs. 75 towards the maintenance of water-pandal during hot weather, Rs. 100 for law expenses. Rs. 25 for dog-killing and Rs. 50 for miscellaneous purposes, besides Rs. 150 for remuneration to vakil who conducts prosecutions. The remuneration of Rs. 125 which the vakil was allowed is found to be comparatively very small in consideration of his labour and the increasing number of prosecutions. The fines recovered under Municipal and other Acts are alone sufficient to convince the necessity for increased remuneration, and the punishment inflicted by the magistrate are rather adequate and not as lenient as before.

33. *Grant V.*—The provisions against the several items under the grant are, as usual, except under (*b*) (*ii*) (purchase of account books, &c.), in which a reduction of Rs. 100 is made as compared with the revised estimate, as there are yet in stock some books which have been supplied last year from the Jubilee Press and under (*d*) Office Contingencies wherein Rs. 40 have been reduced since the stationery ordered last year is available for use during the ensuing year.

34. The year 1896–97 will close with a balance of Rs. 4,500.

Forwarded.

(Signed) G. CAMPBELL,
Ag. Sub-Collector.

4th January 1896.

No. 55-Gen.

Submitted to Government.

2. *Revised Estimates for* 1895–96.—The general increase under taxes and fines under Municipal and other Acts is satisfactory.

3. *Budget Estimates for* 1896–97.—The increased income anticipated under private scavenging fees is satisfactory.

4. *Charges.*—The increased provision under Grant I "Communications" and under Grant III (5) "Conservancy" is justified by the increasing mercantile importance of the town.

5. The allotment of Rs. 150 for sinking a fresh-water well should prove beneficial.

6. The other proposals for expenditure seem generally desirable.

7. The budget closes with a balance of Rs. 4,500 or 11 per cent. of the estimated receipts.

TINNEVELLY,
15th January 1896.

(Signed) A. W. B. HIGGENS,
Collector.

From the Honourable Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Honourable the Chief Secretary to Government, dated Madras, 7th January 1896, No. 37.

Referring to the budget estimate of the Tuticorin Municipality for 1896–97 I have the honour to state that the provision made therein for education is sufficient and may be adopted. Credit has been taken for a stipendiary grant of Rs. 60 from Provincial funds on behalf of two students of the primary grade to be sent for training. This should, however, be raised to Rs. 70 in round numbers (12×2×3 = 72 or Rs. 70).

2. The net expenditure proposed under Grant II is Rs. 3,530 (3,810—280) or less than 12 per cent. of the estimated income of the municipality from taxation, markets and rents.

3. Seeing the large proportion of unqualified teachers in the municipality, I would strongly request that the Chairman may be directed to take timely steps to see that the allotment under "Training schools" is fully utilized.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 14th February 1896, No. 279-S.

Referring to the Tuticorin municipal budget for 1896–97, I have the honour to offer the following remarks.

2. In view of the falling off in the number vaccinated last year, I would suggest that the giving of an increase of salary to the vaccinator be deferred pending the results of the outturn of the current year.

3. The allotment for conservancy is 27·8 per cent. of the estimated current receipts. Statement II-B shows that there are three sanitary inspectors in service on a total salary of Rs. 55 per mensem. Considering the commercial importance of the place and the rapid increase in population as shown by the last census, I would recommend the appointment of one certificated second-grade sanitary inspector on Rs. 45 + 7½ and one-third class certificated sanitary inspector on Rs. 25 + 7½.

4. No extract from Statement I has been furnished to me, and, in consequence, I am unable to say whether the private scavenging service will be worked at a profit or loss.

ORDER—No. 329 M., dated 25th February 1896.

The estimated receipts and charges of the Tuticorin Municipality for 1896–97, as passed by Government, are compared below with the budget and revised estimates for the year 1895–96 and the actuals of 1894–95 :—

REVISED ESTIMATE FOR 1895–96.

2. The current receipts and charges are now estimated at Rs. 42,030 and Rs. 39,500, respectively, against Rs. 35,120 and Rs. 37,900 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the tax on buildings, sale-proceeds of lands and miscellaneous, and that in the charges under Grants I, III and IV. The collections under the principal taxes and the expenditure on "Repairs—Buildings" during the first eight months of the year were not at all satisfactory.

BUDGET ESTIMATE FOR 1896–97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 36,700 against Rs. 42,030 in the revised estimate, the decrease being mainly under sale-proceeds of lands and miscellaneous. The credit taken under Provincial grants on account of normal stipends will be raised from Rs. 60 to Rs. 70, as recommended by the Director, and the council's attention will be drawn to the remarks in paragraph 3 of Dr. Duncan's letter read above.

4. *Charges.*—(1) The probable charges are entered as Rs. 43,700 against the revised estimate of Rs. 39,500, the increase appearing chiefly under Grants I and III.

(2) *Grant I.*—None of the new works for which provision has been made in the budget should be undertaken until the plans and estimates have been approved by competent authority. With reference to paragraph 18 of the Chairman's letter, it is observed that the percentage prescribed by Government represents the minimum expenditure and that no sanction is required for exceeding that limit. The proposed transfer of the public works maistry on Rs. 12 to the permanent establishment is approved, but the increase of eight annas in the salary of each of the watchmen cannot be sanctioned as it does not appear to be necessary.

(3) *Grant III.*—The remarks of the Surgeon-General on the allotment for hospitals and dispensaries will be awaited. Meanwhile, the provision of Rs. 20 for contribution to the cutlers' establishment will be struck out with reference to G.O., No. 97 L., dated 18th January 1895. The proposed increase of Rs. 3 in the salary of the vaccinator will be disallowed as advised by the Sanitary Commissioner. The entertainment of the additional scavengers and sweepers referred to in paragraph 27 of the Chairman's letter is sanctioned; but the increase in the salaries of the conservancy inspectors cannot be approved, as it is undesirable to raise the pay of these unqualified men when, for a slightly higher salary, the council can obtain the services of men properly trained in sanitation and hygiene. The municipal council's attention will be drawn to the Sanitary Commissioner's suggestion in paragraph 3 of his letter, and that of the Chairman to the omission pointed out by him in paragraph 4.

(4) *Grant IV.*—The proposed entertainment of an additional lamplighter on Rs. 7 and the increase of one rupee in the salary of the avenue servant are sanctioned.

(5) *Grant V.*—The contribution for the central office establishments will be raised from Rs. 190 to Rs. 210 with reference to G.O., No. 2190 L., dated 19th November 1895.

5. The budget, as revised by Government, closes with a balance of Rs. 4,690, or 12·8 per cent. of the estimated receipts.
