OFFICE OF THE ASSISTANT INSPECTOR OF SCHOOLS,
SECOND DIVISION.

CAMP Rajahmundry
26th December 1895.

From Mr R. R. V. Vasudevasastri garu B. A.,
Assistant Inspector of schools
Second Division.

To
The Inspector of schools,
Establishment & salaries

Northern circle

Sir, Referring to your endorsement No. 580 of 2.5.95

And to the telegram dated 15th Instant but received on the 24th; I have the honor to state that I examined the Municipal Lower Secondary school & more on the 14th Instant.

The school has produced good results at my examination. The several Registers are very neatly kept. The school is located in a spacious building with a good compound on all sides, and is furnished with the gymnastic apparatus, library, sufficient number of benches, some of which are with backs

The Headmaster possesses a trained teachers certificate and the 1st Assistant, who is an able teacher, will undergo training at the local college from July next. The school has recently been recognized (vide Fort St. George Gazette of 11th December 1895)

2. It will be seen from the accompanying financial statement received from the Chairman of the Council that net cost to the Council for the up keeping of the school is only Rs 199. This is not much considering the benefits that the institution is intended to confer on the residents of the Municipality.

3. I therefore beg to propose that the continuance of the school may be recommended for the sanction of the Government.

I have the honor to be,
Sir,

Your most obedient servant

OFFICE OF THE DIRECTOR OF

PUBLIC INSTRUCTION,

Madras, 17th January 1896.

No. 386

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

FORT ST. GEORGE.

SIR,

With reference to G. O. No. 37-2, dated
8th January 1896, I have the honour to submit for the
information of Government a report from the Assistant
Inspector of Schools, Second Division, on the Municipal
Middle School, Ellore. The net cost to the Municipality
on account of the school since its institution was Rs
629-12-4, of which Rs 430-12-0 were expended on
furniture, apparatus and appliances. At the last
Lower Secondary Examination 11 students passed
out of 22 examined. The school is at present nearly
self-supporting and may even continue to be so.
But, as I have urged in my previous commu-
nication, I think it is opposed to the policy
enunciated by the Education Commission
to continue to maintain a school from public

I have the honour to be,

Sir

Your most obedient servant.

J. Durran

Director of Public Instruction

Memorial dated 15th January 1876

Resolved that the following be presented to the Board of Public Instruction regarding the situation of the Principal Lower Secondary School, for very early prospects.

Resolved that the following be presented to the Board of Public Instruction regarding the situation of the Principal Lower Secondary School, as it is not in a position to be maintained by the State, but only a private school, as it is also self-supporting.

Despatched 18th January 1896.

No. 87 Eng. Enclosure 1.

FROM,

M-R-Ry,

C. SITARAMAYYA PANTULU GARU;

CHAIRMAN,

MUNICIPAL COUNCIL ELLORE.

To,

The Chief Secretary to Government
Fort Saint George
Madras.

Sir,

Referring to G.O. dated 8th January 1896 No 37

M. No., on a reference from the Director of Public Instruction
Madras dated 21st December 1895 No 13903 I have the honor
to state as follows:—

(1) As regards the
necessity to continue
a Municipal Middle
School.

Extract from Chairman's
Letter.

In this connection I beg to draw the attention of the Government
to my remarks and observations of the Director of Public Instru-
ction embodied in G.O. No 278
8-3-94. The Council proposes to open a new Middle school, as there
is no other well conducted Middle school for Hindu boys except
the Church Mission Society High school. The necessity for
such a school was admitted so far back as 1890 both by
the Chairman and by the Educational authorities:— Vide
G.O. dated 4th February 1890 No 203 M. Local & Municipal,
paragraph 12, clause 2, Grant II. There is no other Middle
school in the Town except the Church Mission Society High
School, in which I believe, there is already a sufficient number

of students in each class in the Middle department as required under Educational rules. There is another Middle school, called Hindu Anglo-vernacular school, which is entirely unsupported and consequently inefficiently conducted with no less than about 60 boys to receive Middle school education. For want of proper accommodation and efficient establishment, the said school has been deprived of the Municipal grant and is in a tottering condition. This is just the time for the Council to take timely steps to secure to the people of the town an efficient school to impart education in the Middle school department. The town with a population of nearly 30,000 absolutely needs another Middle school for its ^{school} young population, and in this Municipality we have only a few Primary schools. On all the foregoing grounds, the Council considers it quite necessary to have a school of its own to afford good education for the Middle school department."

"With reference to the budget estimate of the Ellora Municipality for 1894-95, I have the honor to state that the provision therein made for education is generally in accord with the recommendations of this department. The proposal of the Council to establish a purely Municipal school is opposed to general policy; but, under the circumstances explained, it may be given a trial for two years. The continuance of the school will be recommended, if it meets with success and is found not more costly to the Municipality than an aided school of that grade."

Extract from the
letter of the
Director of Public
Instruction.
(He Mono)

Government Order
Thereon.

"The opening of a Middle school with the required establishment is sanctioned tentatively for two years as recommended by the Director of Public Instruction." In continuance of the above grounds I may also state here that the Lower Secondary department of the Hindu Lower Secondary school which had been in existence for upwards of 20 years was abolished. The C. M. S. High school with the Lower Secondary department and the Hindu A. V. Middle school have both had a good material supply for the Lower Secondary department for upwards of 20 years and almost all the passed candidates of the Lower Secondary class of the A. V. Middle school during its existence served as a main, if not the sole feeder, to the C. M. S. High school. The present Municipal Middle school occupies no higher position than the late Hindu A. V. Middle school except that it has qualified staff, better material, and efficient management; and thus this school will, I venture to hope, act as a much better feeder to the C. M. S. Upper Secondary School instead of being in conflict with its interests. I may mention here that this Municipal Lower Secondary school has passed 21 boys in the recent Lower Secondary Examination who will & must join the C. M. S. High school, while it passed only ten boys in the said examination. It will thus be seen, that the supply of material, from the Municipal school to the C. M. S. High school,

is a little more than double of the supply from its own.
I fail therefore to see the force of the argument, that the C. M. S. school will have to be closed by the retention of the Ellore Municipal Middle school after the 31st ultimo, especially when we remember that the existence of the Hindu A. V. Middle school for upwards of 20 years, had not in any way interfered with the stability or the strength of the C. M. S. School. This is further supported and strengthened by the fact the Municipal Middle school had hardly had half a dozen boys from the C. M. S. School during a period of 14 months and the rapid growth of the Municipal Middle school is partly due to there being no other Middle school either within the Ellore Municipality or within the Ellore Taluk & mainly due to the abolition of the Middle school department of the Hindu A. V. Middle school. It may not be out of place to mention here that in other Taluqs of the District there are no less than two Middle schools and that at Rajahmundry where the population is less than here, there are three Middle schools, one Municipal, one Mission, and the third Government, besides other Middle schools in the Taluk of Rajahmundry. There does not seem ^{to be} any complaint from the Mission at Rajahmundry against the existence

of other Middle schools in the town. At Peddapur which is comparatively small in point of population, there are, I am informed, two Middle schools one Mission and the other Local Fund, each working with sufficient material. By a reference to the above facts Government will be pleased to find that there is an absolute necessity for another Middle school at Ellore when there is a population of over thirty thousand people.

In this connection I may refer also to the statement of facts contained in G. O. No. 1478 M. Local & Municipal dated 12th September 1895. By a reference to the budget proposals for 1896-97 it will be clear that this

Municipality will not have to pay
Anything out of its pocket. It will thus be
seen that the financial Condition of the
school is sound and that nominal pecuniary help
with proper supervision is all that is required.

As the school is in fact self-supporting there is

practically no real help given to the school. I beg to

state that out of twenty-three Candidates sent up for
the recent Lower Secondary Examination, twenty-one, came

out successful, and out of seventeen who went up to the

Upper Primary Examination fifteen came out successful;

I may be permitted to state here that the results

are entirely satisfactory and that the financial

Condition as was shown above is sound and

does not require even the help which an
aided

II

Results of the school
in the late public

Exam. Lower + Secondary
+ Primary.

This regards people
not willing to send
their boys to the
Mission school.

school of that Grade requires. This state of things
was what was exactly required by the late Director
of Public Instruction for the continuance of this school. I am
confident that if the Directors of Public Instruction, were in
possession of all these facts he would not have taken the
view he did. There is no such Complaint & the Municipal
Middle school was simply started to supply a long-felt want
of a well conducted middle school. It is not the object of the school
to interfere with religious Controversies. I beg to enclose a copy
of the resolution of the Council dated 15th January 1896.

In these circumstances I hope that the Government will be
pleased to accord its permission for the retention of the Municipal
Lower Secondary School. I may state here that the Director of
Public Instruction has recognised this school this year
and placed it under temporary section & that the school
has property of its own to the value of Rs 430-12-0
in the shape of books, maps & furniture.

I have the honor to be

Sir,

Your most obedient servant

C. S. Subramanya

Office of the Inspector of Schools
Northern Circle
Camp Gunder
12th February 1896

From

Mr. R. R. C. Rajee Rao Pantulu J. Sub.
Inspector of Schools,
Northern Circle

To

The Director of Public Instruction
Madra.

Sir,

I have the honour to report that I
was at Ellore on the 7th instant, in order to
see the C. M. S. High School and the Municipal
Middle School there and to ascertain whether
it was desirable that the Municipal
Council should continue to keep up
their school.

2. I found the strength of the Municipal
School had fallen since last year, especially
in the 3rd Form. The number of pupils in
the several classes last year and
this are compared below:-

Form	N ^o . on rolls in 1895	N ^o . on rolls in 1896
III	25	14
II	11	14
I	14	22
4 th class	15	12
Total	65	62

The fee income for the current year would be about

80 Rs

80 Rs a month, whereas the gross expenditure on salaries, house rent &c comes up to about 110 Rs. The school is therefore likely to cost the municipal Council about 30 Rs a month or 360 Rs a year. Whether the Council would be able to keep the school for a number of years even at the present cost is doubtful. The aided C. M. S. High School can charge what fees the managers likes and can at the beginning of every term draw away the boys of the municipal school if he cares to do so, by a liberal offer of full or partial fee scholarships. Under these circumstances it would be unwise on the part of the municipal council to keep up their school any longer; nor would it be fair on their part to spend public money on a departmental school, working in opposition to an aided school, the aid to which they cut down from 600 to 300 Rs a year or two ago.

If it was true that ^{the} C. M. S. High School was not in a position to fully meet the Educational requirements of Ellore, there might be some justification for the municipal council maintaining a school of their own, but I believe the C. M. Society would sanction an extension to their school house and an addition to the teaching staff, if such were found necessary on the abolition of the municipal school and consequent rise in the number of pupils attending the C. M. S. High School. I submit herewith a sketch of the present High School building showing the number of boys each room can accommodate in the

the Principal's opinion. He thinks that he could at once accommodate all the boys of his own as well as the municipal school in his present building. In this I do not agree with him; this however is not of much consequence as I believe the C. M. Society will readily sanction any extension that the department may consider necessary.

I have

Submitting copy of letter from the
Inspector of Schools, Northern circle,
re the retention of the Municipal
Middle School, Alloré.

LOCAL AND MUNICIPAL DEPARTMENT.

Again G.O., dated No. 37. M. Dated 8th Jan 1896, No.

Current No. 213. M. of 1896, dated 17th January from the Director of Public Instruction.

Current No. 238. M. of 1896, dated 18th from the Chairman, M. C. Alloré.

FOR ORDERS.

Have had some doubts
as to whether the School should
be retained or not, as the
S.D. says, "it is opposed to the
policy of the Education
Commission to maintain a
School from Private Funds as
a rival to an aided Mission
School in the town," & it has
been repeated by ruled that
Municipalities should spend their
money on Primary not on
Secondary Education. But in
this case the School is so nearly
self supporting that the latter
consideration may be left
out of account. In the letter
in the linked file Mr. Arden
suggests that the C. M. S. School
may have to be closed because
the Municipal School takes
funds & boys away from it.
In this I think he is wrong. The

The papers read above relate to the
question of retaining the Municipal Middle
School, Alloré.

2. In its budget for 1896-97 the
Municipal Council of Alloré proposed to
open a middle school of its own on the
ground that there were no other well-
conducted middle schools in the town
besides the C. M. S. High School, which,
however, had a sufficient number of
boys in each class of the middle de-
partment as required by the Educational
rules and states that it was intended
to take over under municipal manage-
ment the Hindu A. S. School in the
town which was in a tottering condition,
because the Municipal Grants had been
withdrawn from it owing to its inefficiency.
The Acting Director of Public Instruction
(Mr. Munro) recommended this pro-
posal, which was accordingly sanctioned
in G.O. No. 278 M. Dated 8th March 1896.

The Committee of the A.D. School ~~did~~ not agree to their Council taking over that school, a new school was opened, but as the Inspector of Schools, Northern Circle was of opinion, and the Director (Dr. Duman) concurred with him, that there was no necessity for a municipal middle school at Elora, because even if one were established it was doubtful whether parents would send their children to this school in preference to the C.M.S. and A.D. schools, where lower fees were or might be levied, the sanction accorded in G.O. No. 278 D. dated 8th March 1894, was withdrawn (G.O. No. 1991 D. dated 19th December 1894).

3. The Municipal Council thereupon stated that the school had already been opened and financial responsibilities incurred on its account, and as the Director of Public Instruction who was consulted in the matter recommended its continuance until the close of the year 1895, when the necessity of further retaining the institution may be judged by its numerical strength and financial position, the Government approved this recommendation.

diminution of results sent to the C.M.S. school was made with reference to the income of the Municipality for the establishment of a municipal school, & the Chairman came home to show that the Municipal School is not a rival to the C.M.S. school, but ^{only} a feeder to it. The report of the District Insp. and the results of the L.S. exam. show that the Municipal school is successful & well conducted. The wish of the people to retain it seems very strong. I think, on the whole, it should be retained so long as it is self-supporting.

JG

24/2/96

Lagu - If the Elora people like to spend their own money on this school, let them.

BS

24/2/96

recommendation and requested the Director to report in December on the state of the school and on the desirability of its retention.

In his letter disposed of in G.O. No. 37 D. dated 8th January 1896, the Director (Dr. Duman) states that he cannot see his way to recommend the further retention of the school as the only result of such a step would be that the C.M.S. High School which has already suffered by the opening of the municipal school, will have to be closed, the Municipality being saddled with the whole education of the place, and points out that it is not sound policy to start a school to be maintained from public funds so long as a well-managed aided school meets the requirements of the locality.

5. The Municipal Council to which this paper was referred for remarks, states that the municipal middle school just occupies the same position as the middle department of the A.D. school, which has recently been abolished, and which had for upwards of twenty years been working side by side with the C.M.S. High School, that if the

Municipal

municipal school) acts as a feeder to the C. M. S. High School and not in prejudice to its interests as stated by the Director, that the results achieved by the municipal school at the recent Lower Secondary examination were very satisfactory and that it is now self-sustaining. The Council therefore requests that the retention of the school may be sanctioned. The Educational Inspecting officers also report very favourably on the working and finances of this school and recommend its continuance, but the Director while endorsing their opinion, is not in favour of its retention on the ground that it would be against the policy of the Department.

6. The Director apparently bases his recommendation on the representations made by Mr. Arden, Honorary Secretary to the Church missionary Society, more especially on the statement made by him in para. 13 of his letter dated 29th August 1895 that the municipal middle school took away many of the boys of the C. M. S. school, and considers that the success of the one would necessarily

FOR ORDERS.

CNO 238m

necessarily involve the downfall of the other. The Chairman however avers that during a period of fourteen months the municipal middle school has lost half-a-dozen boys from the C. M. S. school and states that the success of the former is due ^{only} to the abolition of the middle department of the school. The apprehensions of the Director of Public Instruction do not therefore seem to be well-founded. Even if the C. M. S. school should be abolished, it does not follow, as the Director of Public Instruction seems to think, that the municipality will be saddled with the whole education of the place, as private enterprise may very probably spring up to take the room of the Church Mission Society. The municipal middle school is reported on all hands to be doing very well and there is apparently no reason why it should not be continued.

^{1. A}
^{21/1/96} The school is said to be self-sustaining, but from the financial statement it appears that there was a net expenditure of Rs 199.4 in 14 months, excluding cost of furniture, books, gymnastic apparatus etc, which was Rs 430.12. This sum is deducted as representing the

H.M.

property of the school, but no deduction has been made for deterioration. Even if the school only costs Rs 199-4, it is submitted that it should be ~~not~~ closed, as such an expenditure from mun. funds is not justifiable, when there is already a private school, which up to two years ago was found amply capable of meeting the requirements of the town - & should be so now.

lowd

1.11.96

In a case of this sort, where the private school is in the hands of a missionary body, it is not very easy to interfere unless it is quite clear that the new school will not be a success & that its continuance will simply be throwing away public money. I will give it another year's trial.

Note for C.S.

In the Budget for 96-97 the school is estimated to cost Rs 470 (1970-1800), - this is assuming that the whole Rs 1500 are collected in fees. Should the question of closing the school at once be submitted again for orders with ref to the budget.

To The Chairman, M.C. Ellore / The G.O. may issue as it is thus the Collector of Godavari conditional. The budget Director of Public Instruction. better be dealt with separately.
