Budget Statements
for 1896–97 of the
Mayavaram
Municipality

215 M/96

Resolved that his pay be fixed at Rs
from 1st January '96, as the Council is
opinion that the starting pay of Rs 1
too large for the Clerk newly promoted.

6. Proposed by M.R.Ry. T. Kothandarama
Iyer Avl and Seconded by M.R.Ry. A.V. Subr
Iyer Avl that the Private Scavenging fees
reduced from two annas, to one anna
and a half, per mensem. from 1st Ap
1896, in Consideration of the pressing
requests of the poor inhabitants of
town as per their Mahzars dated 6th
& 22nd July 95.

Carried.

1. Proposed by M.R.Ry. K. Lakshmana Iyer Avl
& Seconded by M.R.Ry. T. Kothandarama Iyer Avl
that M.R.Ry. A. Samy Iyer Avl be requested to

take the Chair

Carried.

The Budget Estimates of Charges — Grants III, IV & V — were discussed and passed.

Proposed by M.R.Ry. T. Kothandarama Iyer seconded by M.R.Ry. A. Subramania Iyer supported by M.R.Ry. S. Appasamy Iyengar and M.R.Ry. Chakram Iyengar, that the pay of the newly entertained 2nd Clerk of the Office be reduced from Rs 9 to Rs 7 on the ground that the pay of his predecessor was at, and continued at Rs 7 only for 2 years, till it was increased to Rs 9 from 1st April 1895.

Resolved by a majority of 5 against votes that the present pay of Rs 9 be not interfered with.

Resolved that the Revised Estimates of Receipts & Charges for 1895-96, and the Budget Estimates for 1896-97, as now finally discussed and passed, be submitted to Government at an early date with the necessary explanations.

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 15 January 1896.

From
THE HONORABLE MR. D. DUNCAN, M.A., D.Sc.,
DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

To
THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,
FORT ST. GEORGE.

17/M

SIR,

I have the honour to submit the following remarks on the educational portion of the Budget Estimate of the Mayavaram Municipality for 1896-97.

(i) The estimates under fees and grants may be accepted.

(ii) One of the municipal Primary schools is now worked on the salary system. Its efficiency may improve considerably if it is placed on the salary results system. The Council may be asked to express its views in communication with the Assistant Inspector and to ~~prepare~~ propose

an

Ed. Cor.
15 (5) 1,500—17-11-94.

a revised scale of establishment.

(iii) To the allotment for salary-results schools, I would recommend ~~that~~ Rs 180 be added — Rs 12 towards raising the pay of the First Assistant of the Saliya school, Koranad, as recommended by the Assistant Inspector and Rs 168 towards the revision of the scale of pays for the Municipal Girls' school. There are four teachers on Rs 10, Rs 5, Rs 5 and Rs 4 respectively. The scale is obviously too low to secure good teachers. I would recommend ~~that the~~ pay be raised to Rs 15, Rs 10, Rs 7 and Rs 6 respectively. If the school is to be maintained at all, it must be maintained in a fairly efficient condition.

(iv)

178

(iv) A salary of Rs 18 is provided for the Inspecting Schoolmaster, while the Headmaster of the Municipal Primary school gets Rs 19. This seems anomalous. Unless the latter figure is to be reduced, the pay of ~~the~~ Inspecting Schoolmaster should be fixed at Rs 20. The Council may be asked to consider this suggestion.

2. With the addition of Rs 180 recommended in clause (iii) above, the net expenditure under Grant II will be Rs 2710 (13910 - 1,200) or about 14 per cent of the estimated revenue from taxation rents and markets.

I have the honour to be,
Sir,
Your most obedient servant,
D Duncan
Director of Public Instruction.

MAYAVARAM.

Current No. 26 / ML of 1896

Local & Municipal Dept.
CURRENT No. 215/M

To
THE
Chief Secretary to Government
Fort Saint George
Local & Municipal Department
thro' the Sub Collector of Tanjore.

SIR,

I have the honor to submit herewith the Revised Estimates for 1895-96 and the Budget Estimate for 1896-97 of receipts and charges of the Mayavaram Municipality prepared in the forms prescribed by Government in their Order No. 2193-M, dated the 10th December 1891.

2. The Estimates were discussed and passed by the Council at the meetings held on the 21st, 22nd, 23rd, 24th & the 26th December 1895. Copies of the Resolutions are enclosed.

Revised Estimate.

3. As compared with the Sanctioned Budget the Revised Estimates stand as shewn below:—

	As per Budget Estimate	As per Revised Estimate	Difference
Opening balance	Rs 2780	Rs 7950	Rs 5170.
Receipts	Rs 33840	Rs 35070	Rs 1230
Total	Rs 36620.	[illegible]	[illegible]

Receipts.

4. The Revised figures under 'receipts' show a net increase of Rs 1230 over the Budget Estimate sanctioned in G.O. No 464-M. dated the 18th March 1895, the items mostly contributing to this increase being, 'Tax on Vehicles and Animals' (Rs 130), 'Avenue Receipts' (Rs 200), 'School fees' (Rs 600) 'License fees' (Rs 130), & 'Private Scavenging fees' (Rs 330). In the remarks Column of Statement VI, the necessary explanations for these as well as other minor variations between the Budget and the Revised Estimates are given in full. The large increase of Rs 5170 in the opening balance was mainly due as explained in para 30 of the Annual Report for 1894-95, to the non-utilization of the amount provided for the Construction of the new Traveller's Bungalow, and for the extension of the High School buildings.

5. Tax on Buildings — This tax was thoroughly revised in the Current year by the ward Councillors. As proposed in para 8 of the last Budget Report, the annual rent value of buildings in the Mayavaram and Tiruvilandoor Divisions was raised to the highest possible figure, with the result that the Current demand

in the Kornad Division fetching no increase. In the opinion of the Council any attempt to enhance the assessment still further will not be fair.

6. Tax on Lands — This tax could not be revised thoroughly as anticipated in para 9 of the last Budget Report. The lists received from some of the Kurnams were mere copies of the Pymash and Survey registers, and they did not correctly show the land owned by each individual. After waiting in vain for a sufficiently long time in the Current year for the correct lists, and on my assuming Charge of the Chairmanship, the register was prepared with necessary alterations, and bills were issued. I shall arrange for expediting the Collection before the Close of the year and for the satisfactory revision of the tax for the next year.

7. Avenue Receipts — The income from this source is estimated at Rs 600 or Rs 200 more than the Budget figure. The branches of tamarind and other trees which were overhanging the roads and proved obstructive to the free passage of Carriages etc, were cut and sold in large quantities. This caused the increase. Referring to the remarks of Government in para 3(3) of their Order No 1666-M. dated the 18th October 1895 reviewing the last Annual Report in regard to the removal of [illegible]

I beg to state that the tamarind trees on the sides of roads were planted so close to each other that as they grew bigger the branches thereof formed a dense covering over the metalled roads which, for want of exposure to sun in the rainy season, became miry, and caused considerable inconvenience to passengers and traffic. Besides, in some places the roots of these trees extended far and wide and caused damage even to the well built houses close by. Each application for the removal of such avenue trees is laid before the Council and no tree is ordered to be removed without recovering from the parties concerned, its highest estimated cost of 10 years' produce, and the tree is sold in public auction by the Municipality. In some cases the removal has been ordered on the applicants' undertaking to plant cocoa trees instead. The suggestion of Govt. in this matter will be invariably attended to in future.

8. School fees.— While framing the Budget, the Council took credit for a fee income of Rs 9500. But the Govt. reduced it to Rs 9000 on the recommendation of the Director of Public Instruction to the strength and finance of the High and Primary Schools, Mayavaram; advance year after year, the Council think that the fee income may safely be raised to Rs 9600 at the least, which is fully justified by the Actuals (Rs 9581) of the last year.

Charges.

9. Grant I. Public Works.— A sum of Rs 11710 is provided in the Revised Estimate under this grant which is Rs 4500 over the Budget figure. This excess was caused by the allotments made for the following works:—

(a) Rs 3000 for the construction of the new Travellers' Bungalow. For the reasons assigned in para 32 of the last Annual Report, this work was not taken on hand last year and the provision is repeated for the current year. The plan and estimate for the building has been forwarded to the Superintending Engineer, and his approval is awaited.

(b) Rs 960 for renewing the superstructure of the remaining portion of the Mayavaram Primary School building. The northern portion of the building for which allotment was made (vide para 25 of the Budget Report) has been repaired. During the recent heavy rains a portion of the unrepaired roof gave way. The Inspector of Schools, Sou. Circle, who visited the School in [illegible] to the notice of the Council that the building is in an unsafe condition, and that it should be repaired immediately. The Council in view of the urgency of the work has sanctioned Rs 965 and has ordered the work to be taken on hand in anticipation of the approval of Government. It is now being pushed on in the hope of completing it during the Christmas vacations.

(c) Rs 40 to be added to Rs 920, allotted in the Budget for the extension of the Municipal High School building.

(d) Rs 150 for a latrine — With this provision supplemented by Rs 100 originally sanctioned for 10 thatti latrines, it is proposed to construct a masonry one of suitable design agreeably to the instructions of Government in para 4 (5) of their order reviewing the last year's administration Report.

(e) Rs 50 for constructing a tunnel to a drainage channel.

(f) Rs 220 for miscellaneous public improvements:- The District Medical and Sanitary Officer, Tanjore and other officers who visited the Hospital, suggested that the small tank behind the Hospital building should be filled up on [illegible] For want of funds this work was held in abeyance. It is now proposed to undertake it for which Rs 220 is provided in the Revised estimate.

10. Grant IV. Compensation for lands — Rs 20 is provided for purchasing lands for extending Hospital Compound and for a latrine site.

11. Pensions and gratuities. — A Sum of Rs 250 is provided under this head. The Council at ~~its~~ meeting held on 12 Dec 1895, has proposed to grant gratuity the Ex Collection Clerk retired, as a speci case in consideration of his long, use fu and zealous service. A separate applica will soon be submitted.

Budget Estimate for 1896-97

12. The year is expected to open with balance of Rs 2750. Adding to this Rs 350 the estimated receipts of the year, the tot assets amount to Rs 37830. Out of this Rs 35 are proposed to be expended, leaving Rs 2 as the closing balance at the end of 1896-

Receipts.

13. The revised figures for the Current are more or less repeated for the Budget. The increased revenue expected from the following heads, namely, 'Tax on ~~A to~~ Vehi and animals', 'School fees' etc is alm counterbalanced by the decrease in a avenue Receipts.

14. Rates and Taxes — The Council es not expect any increase under any of taxes next year, except under 'Vehicles nd Animals' which show a tendency increase year after year. The House nd Profession Taxes underwent careful nd complete revision in the current year, and it is not possible under existing circumstances to increase e demand still further. With reference the remark made by the Collector para 7 of his endorsement embodied the G.O. reviewing the last annual eport, I beg to observe that the Councillors ho revised the tax spared no pains see that the houses are carefully sessed and that no taxable buildings nd persons escaped taxation.

15. Sale of Street refuse — There is great demand for rubbish for filling pits in garden lands within Municipal mits which, if allowed, would fetch large sum. As this is not permitted on Sanitary grounds, it is not possible develope further this source of revenue. nce the Current Year's figure (Rs 200) is peated for the Budget year.

16. School fees — a sum of Rs 9940 luding fines is expected under head against Rs 9600 in the Revised imate. The remarks made in para 8 supra

17. Avenues — As a major portion of the obstructive branches of avenue trees have been lopped off this year, and as very few trees and branches will be cut next year a less income is expected from avenue produce. This accounts for the decrease of Rs 200 below the Revised Estimate.

18. Slaughter house — The income from Slaughter house is estimated at Rs 360 against Rs 340 in the Current Year, as a keen competition is expected for next year.

19. Provincial Grants — The Director of Public Instruction in his endorsement No 11205 dated the 18th October 1895, says that there is no prospect of any increase to the existing Scale (Rs 71-3-2 per mensem), being sanctioned for the present on account of Salary Grants on behalf of certain teachers of the High School who are eligible for the same. Agreeably to his suggestion, a sum of Rs 1200 is taken credit as per details given below:—

Salary Grant to the High School....	Rs 850
Do. Common Gymnast...	90
Do. Do. Drawing master...	60
Results, rent and Conductress Grant to the Mt. Girls' School ...	200
Total	Rs 1200

20. Private Contributions — The Mattakulam tank, situated behind the Taluq Cutchery is used for bathing purposes and washing

Clothes. For the present it is fed by a Channel running from the Palan Cauvery Channel through the backyards of Pattamangalam Street. As the water of the tank is much Contaminated during the rainy Season, it is proposed to dig a fresh supply Channel on the south of the tank alongside of Ayarappar east Street. In doing so, two tunnels have to be Constructed for which a Contribution of Rs 200 is expected from the inhabitants Concerned.

21. Private Scavenging fees.— While framing the Current Year's budget, the Council introduced enhanced rates i.e. 2 annas per measure for single service and 4 annas for double service, daily, as a tentative measure. As these rates are now Considered oppressive, the Council has reduced them to three-fourths. To make up for the loss of income by the reduction of the rates, it is proposed to increase the number of houses served without much additional expenditure and thus give effect to the instructions contained in para 3(4) of the Order reviewing the last Annual Report.

Charges.

22. Grant I – Public Works – New Works Buildings — A sum of Rs 1000 is provided for the Construction of a fish market in Korunad Division as per suggestion of the Sanitary Commissioner, Rs 200 for a masonry latrine, and Rs 50 for Corrugated iron dust bins. The Council has resolved to provide for one masonry latrine and for half a dozen dust bins every year, until the number is Considered sufficient for the requirements of the Town.

23. New Works – Drainage.— The northern portion of the Korunad Division along the right bank of the Cauvery is naturally low and receives the drainage of the ground north of Road No. 2. The drainage after collecting near Sangamedhu Street is discharged into the Cauvery thro' 2 sluices. When the river rises high, the drainage of this low ground during the rainy season is almost impossible and the adjoining streets are under water for some months until the river water subsides. To effect a satisfactory drainage, it is proposed to cut a Channel from Pattamangalam running round southward along the Cane and Connect it with the Palan Cauvery Channel which branches off from the Cauvery and runs west to east almost thro' the middle of the Town. This large irrigation Channel serves the purpose of a drainage Channel for the whole Town. It is supplied with a screw shutter at its head sluice which may be shut with the kind Cooperation of the Public Works Department

whenever the town waters have to be drained. In cutting the proposed new channel some tunnels and protective dams have to be constructed. For this purpose Rs 150 is allotted. Similarly to drain off waters in the backyards of Mahadanapuram and Pattamangalam streets during rains and to construct a drainage tunnel etc. therefor, Rs 100 is provided.

24. New Works—Water Supply.— Besides Rs 400 allotted for cutting a feeder channel for Mattakulam tank (vide para 20 supra), a sum of Rs 150 is provided for constructing a new well on the bank of a drinking water tank and for constructing platforms to 2 of the wells sunk last year.

25. Miscellaneous public improvements.— The sum of Rs 200 provided under this head is intended to supplement the allotment made in the Revised Estimate for filling up the Hospital tank (vide para 9 supra).

26. Repairs—Communications.— A sum of Rs 3000 or 64 per cent of the net toll receipts is provided for the maintenance of gravel and other roads.

27. Establishment.— A small increase of one rupee is proposed to be given to the Overseer's maistry who is working hard and with zeal. The pay (Rs 6) already allowed is, in the opinion of the Council, very low for his useful and intelligent work.

28. The usual provision for the pay of tank watchmen and of river coolies is repeated for the Budget year. The other items under this grant call for no remarks.

29. Grant II—Education.— The total expenditure on education in the Budget year is estimated at Rs 13730 against Rs 12820 in the Revised Estimate, the increase occurring mainly under 'Municipal Schools'. Deducting from the above, the whole of the educational receipts viz. Rs 11200 in the shape of school fees and grants from Provincial funds, the net cost on education in the Budget year is estimated at Rs 2530 or nearly 13 per cent of the income (Rs 19570) from taxation, markets & rents.

30. The statement subjoined shows in one view the estimated receipts and charges, as well as the net cost of each of the 7 schools proposed to be maintained by the Council on the salary and on the Salary Results Grant [illegible]

Name of School	Receipts				Charges.				Net Cost.

31. Municipal Schools on Salary System.

Under 'Establishment' a sum of Rs 9760 is provided for the maintenance of the High and Primary Schools, Mayavaram, against Rs 8850 in the Revised Estimate. The usual increments to which the teachers have become eligible are provided in the Budget. The Salaries of the 2nd and 3rd assistants of the High School who have passed the L.T. Degree Examination are raised from Rs 55 and Rs 60, to Rs 60 and Rs 65 respectively, as the present low Salaries are not attractive enough to induce men of high attainments to stick to the appointments. [illegible] ale has been fixed

for these 2 posts which were created consequent on the opening of the 2 divisions of the 4th Form after the General Scale was sanctioned. The fourth and the fifth assistants were hitherto allowed Rs 35 each as they are uncertificated men. As one of them is to be sent for training in the Teachers' College, and as the other is to remain in the institution only for a short time, Rs 50 and Rs 40, per mensem, respectively, are proposed for the 2 appointments in view to secure the services of duly qualified teachers in their places. In the Budget the pay of the Sanskrit Pundit is proposed to be increased from Rs 18 recommended in my letter No. 1030 dated 9th Dec 95, to Rs 20 for the reasons already explained. The pay of the Gymnast is raised to Rs 20, as his work has been characterized as very good by the Inspecting officers. In other Centres, higher Salaries are paid for the last 2 appointments. The pay of the High School Clerk which was temporarily fixed at Rs 10 (vide para 34 of the Budget Report for 1894-95), is now raised to Rs 12-8-0, per mensem. Although the Council decided by a majority to fix the Clerk's Salary at Rs 12-8-0. p.m. in the Budget year, I think, that, in consideration of the [illegible] and onerous duties he has to [illegible] the atisfactory manner in which he is ischarging his duties — Collection of chool fees of about Rs 10,000 & the accounts and correspondence business of the High and Primary Schools — the progressive scale already fixed may be restored and he be given the minimum pay of Rs 15.

The Inspector of Schools in his endorsement No 2050-J. dated 1st November 95 observes that Rs 10 now allowed to the Drawing Master is too low, and suggested that his pay should be Rs 15 rising to Rs 20. Considering the great demand for Drawing Masters and the qualifications possessed by the present incumbent, he is allowed Rs 15 as suggested by the Inspector for ~~the~~ doing the duties of a drawing master and a Mochi in both the Schools.

The head peon has been drawing Rs 5 for a long time. He is thoroughly honest and works very hard. The Council has allowed him a small increase of one Rupee. The Sweeper's pay is proposed to be raised from Rs 2 to Rs 3 as, with this small addition, the Council hopes to secure the services of a male sweeper who, besides doing his legitimate duties, would be useful as a night watch &c. The fourth Class

iture.

The provision for a Common
ught on Rs 15, and for a Common
Master on Rs 10, per mensem,
continued for the Budget Year.

Grant III.– Sanitation and
ical Services – The proposed
under this grant during the Budget
estimated at Rs 10670 against
in the Revised Estimate and Rs
of the actuals of 1894-95, the
occurring under 'Hospitals'
'Conservancy'.

Hospitals – Under 'establishment'
of Rs 1866 is provided against
-2-7 of the actuals of 1894-95. As
by the Dt medl and Sanitary
is proposed to appoint

a gardener for the improvement of the Hospital garden. The European medicines, hitherto supplied yearly, sometimes falls short of the requirements of this Town. The Council has therefore increased the allotment to Rs 500. The provision for diet and Contingencies has been slightly raised in view to meet the increasing number of in and out patients. The Council thinks that the present midwife who is very popular, may be retained in service for some years more, and that the provision for a trained midwife may be deferred. The limited funds at the disposal of the Council does not enable to provide for the training of a female medical practitioner. The cost of Scholarship is Rs 25 a month, covering a period of 4 years, on the expiry of which, the female medical practitioner is to be allowed the pay ordinarily given to a Civil Apothecary. This, in the opinion of the Council, is a prohibitive cost, and for a small Town like Mayavaram, the services of a female medical practitioner may not be a pressing want. Referring to G. O. No 2059. L dated 28th October 1895, I beg to state that proposals of the District medical and Sanitary officer received the earnest attention of the Council. As funds were wanting for the increased charge under 'Medicines' and for filling up the

Hospital pond, only Rs 200 could be provided for improving Hospital buildings in the Budget, although Rs 500 was recommended by the Dt Medl and Sanitary officer.

40. The Current year's allotment for Contribution to Provincial Funds and to Local Boards, for Vaccination and Registration of Births and Deaths are repeated for the next year. A sum of Rs 4 was paid in the Current year on account of Contribution to Cutler's establishment for 1894-95. This appears in the Revised Estimate in round numbers, and the provision is omitted for the Budget year with reference to G.O. No 97. L dated 18th January 1895.

41. Conservancy. The outlay proposed under this head is Rs 7040 or Rs 210 more than the Current year's Sanctioned budget. The appointment of a duly qualified Sanitary Inspector sanctioned in G.O. No 1496 M. Mis. dated 4-9-95 is deferred pending the Council's remarks on the Sanitary Commissioner's Suggestions contained in his letter embodied in G.O. No 1658 M. dated 16th Octr 95 in regard to the Salaries to be paid to the Sanitary Ins

and the order of Government thereon. In view to the subsequent adjustment of the Salaries, the rates now allowed to 3 existing Sanitary Inspectors are retained for the Budget year. The provision for 6 peons and 17 sweepers is continued, while the number of Street Cleaning Scavengers is increased from 6 to 7 as suggested by the Dt Medl & Santy officer. At present the Town rubbish is removed by 17 rubbish Carts, 5 night soil Carts and one sewage Cart. The Dt Medl & Santy officer who inspected the Town on the 6th Septr 1895 observed in his Inspection Report that the number of totties and night soil Carts is not sufficient, and recommended that 4 more totties and 2 night soil Carts should, if possible, be entertained. The Council has, for the present increased the number of totties by 3 (1, for street Cleaning and 2 for Private Scavenging), and of the night soil Carts by one.

42. Private Scavenging – The Council proposes to spend Rs 800 under this head against Rs 700 in the Current year's Budget and Rs 770 in the Revised Estimate. The increase in the Current year is due as explained in Statement VI to the entertainment of temporary totties during the late Cholera season. 2 more permanent totties are proposed to be appointed as per suggestion of the

no pains will be spared to make establishment almost self supporting, although Rs 640 only is taken credit on account of private scavenging fees owing to a slight reduction in the scale of the present enhanced rates.

43. Defects noticed by the Dy Sanitary Commissioner and steps taken to remedy them. —

(a) The Sanitary Commissioner while forwarding his Budget proposals for 1894-95, pointed out that several of the tanks are subjected to pollution by surface drainage. The defect will be remedied as far as practicable in the course of this and of the next year, out of general savings.

(b) Provision has been made to carry out the suggestions of the Dy Sanitary Commissioner in his Inspection Report recorded in G. O. No 703 M. dated 26th April 1895, as detailed below: —

(1) Inadequacy of the latrine accommodation, vide paras 9(d) & 22 &
+ (ii) of dust bins Do. Do. 22 sup
(2) Filling up useless tanks — vide paras 9(f) & 25 su
(3) Irregular drainage defiling water supply } vide para 43(a)
(4) Appointment of one qualified } vide
Sanitary

Sanitary Inspector in the place of the existing three (3) } vide para
(5) Extension of Private Scavenging System — vide paras 21 &
(6) Construction of a fish market at Kodnad, vide para 22 supra
(7) Removal of poorer Roman Catholic burial ground } vide para 45 supra
(8) The Dy. Sanitary Commissioner's proposal in para 4 of his Inspection notes, in regard to the disposal of the sewage will be duly considered in the next Budget. To effect a complete and satisfactory cleansing of all the cesspools etc, one or two air-tight iron carts are hardly sufficient.

44. Percentage of Conservancy Charges to Receipts: The probable receipts of the Budget year comes up to Rs 23880, after excluding the opening balance (Rs 2750), as well as the Educational receipts (Rs 11200) in the shape of school fees and grants which should be devoted wholly to Educational purposes. The assignment for Conservancy viz. Rs 7040 is 29 per cent of the above receipts.

45. Grant IV — Lighting etc.

The proposed expenditure under this Grant amounts to Rs 2290 against Rs 2890 and Rs 2090 in the current year's revised ward Budget Estimates respectively. No provision is made for Law Charges next year as the Council does not anticipate any outlay in that direction. Hence is the decrease below the Revised Estimate. For the Budget year, no alteration in the rates of Salaries under Lighting and Revenue establishments, are proposed. Out of Rs 944 under Lighting Contingencies, Rs 900 is intended for oil, Chimneys and Lanterns, and Rs 44 for 6 additional lampposts. A sum of Rs 200 is provided for purchasing lands required for a new burial ground for low Caste Christians (pariahs), in lieu of the existing one to be closed, as per this office letter No 703 dated 21st Aug-1895 to Government. The sum includes also the estimated value of lands required for constructing the masonry latrine provided for in the Budget year. In connection with the closing of the burial ground in question, I beg to state that the Councillor who was requested to suggest suitable measures for the same, reports that the pariah community concerned take strong objection to the closing of the grave yard as, according to their religious scruples, it should be very close to their Church and that they are prepared to pa a proper fence round the existing g If they do not consent for the closure Section 240 of the Act will have to be p into operation, on the Municipality securing a suitable locality for a new burial ground.

46. Grant V. — The Council proposes to spend Rs 2210 under this Grant which is Rs 20 below the Revised Estimate and Rs 141 below the Actuals of 1894-95. It is only 6.3 per cent of the Ordinary receipts. The pay of the new Manager and the new Collection Clerk are fixed at Rs 30 & Rs 15 per mensem respectively, and the number of Bill Collectors has been reduced from 3 to 2 on monthly salaries of Rs 12 and Rs 10 as the Council thinks that a 3rd Bill Collector is unnecessary. One peon is proposed to be permanently appointed to help the Bill Collectors by turns in the execution of warrants etc. The provision for office contingencies is reduced to Rs 200. For Contribution to Central Office Establishment Rs 280 is provided, of which Rs 230 is for Controlling Establishment

t the Presidency Town, Calculated
' the rates Sanctioned in G.O.
2190. L. dated 19th Novr 1895,
d Rs 50 for the proportionate
ay ch of the Collector's municipal
Clerk).

47. Closing balance: The Budget Year is expected to close with a balance of Rs 2030 which is 5.8 per Cent of the Current receipts and I shall endeavour to augment this small balance by savings effected in the Course of the Year.

I have the honor to be

...MADRAS.

...L DEPARTMENT.

...I Avergal, Rao Bahadur, Chairman, ... the Chief Secretary to Government ...), dated 8th January 1896 No. 9.

... revised estimates for 1895–96 and the ...harges of the Máyavaram Municipality ...nt in their Order, No. 2193 M., dated

...d by the council at the meetings held ...ember 1895. Copies of the resolutions

...OR 1895–96.

...et the revised estimates stand as shown

	As per budget estimate.	As per revised estimate.	Difference.
	RS.	RS.	RS.
	2,780	7,950	5,170
	33,840	35,070	1,230
Total	36,620	43,020	6,400
Charges	35,690	40,270	..
Balance	930	2,750	..

Receipts.

4. The revised figures under "Receipts" show a net increase of Rs. 1,230 over the budget estimate sanctioned in G.O., No. 464 M., dated the 18th March 1895, the items mostly contributing to this increase being "Tax on vehicles and animals" (Rs. 130), "Avenue receipts" (Rs. 200), "School-fees" (Rs. 600), "License fees" (Rs.130) and "Private scavenging fees" (Rs. 330). In the remarks column of statement VI the necessary explanations for these as well as other minor variations between the budget and the revised estimates are given in full. The large increase of Rs. 5,170 in the opening balance was mainly due as explained in paragraph 30 of the annual report for 1894–95 to the non-utilization of the amount provided for the construction of the new travellers' bungalow and for the extension of the high school building.

5. *Tax on Buildings.*—This tax was thoroughly revised in the current year by the ward councillors. As proposed in paragraph 8 of the last budget report, the annual rent value of buildings in the Máyavaram and Tiruvelandoor divisions was raised to the highest possible figure with the result that the current demand rose from Rs. 6,825 to Rs. 7,142, the revision in the Kornad division fetching no increase. In the opinion of the council any attempt to enhance the assessment still further will not be fair.

6. *Tax on Lands.*—This tax could not be revised thoroughly as anticipated in paragraph 9 of the last budget report. The lists received from some of the karnams were mere copies of the paimash and survey registers and they did not correctly show

If he Rao Bahadur [illegible] title [illegible]
(9)
[illegible]
G.O. 1/4/[illegible]
No 1820

the lands owned by each individual. After waiting in vain for a sufficiently long time in the current year for the correct lists, and on my assuming charge of the Chairmanship, the register was prepared with necessary alterations and bills were issued. I shall arrange for expediting the collection before the close of the year and for the satisfactory revision of the tax for the next year.

7. *Avenue Receipts.*—The income from this source is estimated at Rs. 600 or Rs. 200 more than the budget figure. The branches of tamarind and other trees which were overhanging the roads and proved obstructive to the free passage of carriages, &c., were cut and sold in large quantities. This caused the increase. Referring to the remarks of Government in paragraph 3 (3) of their Order, No. 1666 M., dated the 18th October 1895, reviewing the last annual report in regard to the removal of avenue trees, I beg to state that the tamarind trees on the sides of roads were planted so close to each other that as they grew bigger the branches thereof formed a dense covering over the metalled roads which, for want of exposure to sun in the rainy season, became miry, and caused considerable inconvenience to passengers and traffic. Besides, in some places the roots of these trees extended far and wide and caused damage even to the well built houses close by. Each application for the removal of such avenue trees is laid before the council and no tree is ordered to be removed without recovering from the parties concerned its highest estimated cost of ten years' produce and the tree is sold in public auction by the municipality. In some cases the removal has been ordered on the applicants' undertaking to plant cocoa trees instead. The suggestion of Government in this matter will be invariably attended to in future.

8. *School-fees.*—While framing the budget the council took credit for a fee income of Rs. 9,500. But the Government reduced it to Rs. 9,000 on the recommendation of the Director of Public Instruction. As the strength and finances of the high and primary schools, Máyavaram, advance year after year, the council think that the fee income may safely be raised to Rs. [illegible]0 at the least, which is fully justified by the actuals (Rs. 9,581) of the last year.

Charges.

9. *Grant I, Public Works*—A sum of Rs. 11,710 is provided in the revised estimate under this grant which is Rs. 4,500 over the budget figure. This excess was caused by the allotments made for the following works:—

(*a*) *Rs.* 3,000 *for the construction of the new travellers' bungalow.*—For the reasons assigned in paragraph 32 of the last annual report, this work was not taken on hand last year and the provision is repeated for the current year. The plan and estimate for the building has been forwarded to the Superintending Engineer and his approval is awaited.

(*b*) *Rs.* 960 *for renewing the superstructure of the remaining portion of the Máyavaram primary school building.*—The northern portion of the building for which allotment was made (*vide* paragraph 25 of the budget report) has been repaired. During the recent heavy rains a portion of the unrepaired roof gave way. The Inspector of Schools, Southern Circle, who visited the school in October last, brought to the notice of the council that the building is in an unsafe condition and that it should be repaired immediately. The council in view of the urgency of the work has sanctioned Rs. 965 and has ordered the work to be taken on hand in anticipation of the approval of Government. It is now being pushed on in the hope of completing it during the Christmas vacation.

(*c*) *Rs.* 40 to be added to Rs. 920 allotted in the budget for the extension of the Municipal High school building.

(*d*) *Rs.* 150 *for a Latrine.*—With this provision supplemented by Rs. 100 originally sanctioned for ten tatti latrines, it is proposed to construct a masonry one of suitable design agreeably to the instructions of Government in paragraph 4 (5) of their order reviewing the last year's administration report

(*e*) *Rs.* 50 for constructing a tunnel to a drainage channel.

(*f*) *Rs.* 220 *for Miscellaneous Public Improvements.*—The District Medical and Sanitary Officer, Tanjore, and other officers who visited the hospital suggested that the small tank behind the hospital building should be filled up on sanitary

grounds. For want of funds this work was held in abeyance. It is now proposed to undertake it for which Rs. 220 is provided in the revised estimate.

10. *Grant IV, Compensation for Lands.*—Rs. 200 is provided for purchasing lands for extending hospital compound and for a latrine site.

11. *Pensions and Gratuities.*—A sum of Rs. 250 is provided under this head. The council at its meeting held on 12th December 1895 has proposed to grant gratuity to the *ex*-collection clerk retired, as a special case, in consideration of his long, useful and zealous service. A separate application will soon be submitted.

BUDGET ESTIMATE FOR 1896–97.

12. The year is expected to open with a balance of Rs. 2,750. Adding to this Rs. 35,080, the estimated receipts of the year, the total assets amount to Rs. 37,830. Out of this Rs. 35,800 are proposed to be expended, leaving Rs. 2,030 as the closing balance at the end of 1896–97.

Receipts.

13. The revised figures for the current year are more or less repeated for the budget year. The increased revenue expected from the following heads, namely, "Tax on vehicles and animals," "School-fees," &c., is almost counterbalanced by the decrease under avenue receipts.

14. *Rates and Taxes.*—The council does not expect any increase under any of the taxes next year, except under "Vehicles and animals," which show a tendency to increase year after year. The house and profession taxes underwent careful and complete revision in the current year, and it is not possible under the existing circumstances to increase the demand still further. With reference to the remark made by the Collector in paragraph 7 of his endorsement embodied in the Government Order reviewing the last annual report, I beg to observe that the councillors who revised the tax spared no pains to see that the houses are carefully assessed and that no taxable buildings and persons escaped taxation.

15. *Sale of Street Refuse.*—There is a great demand for rubbish for filling up pits in garden lands within municipal limits which, if allowed, would fetch a large sum. As this is not permitted on sanitary grounds, it is not possible to develop further this source of revenue; hence the current year's figure (Rs. 200) is repeated for the budget year.

16. *School-fees.*—A sum of Rs. 9,940 excluding fines is expected under this head against Rs. 9,600 in the revised estimate. The remarks made in paragraph 8 *supra* apply to this as well.

17. *Avenues.*—As a major portion of the obstructive branches of avenue trees have been lopped off this year, and as very few trees and branches will be cut next year, a less income is expected from avenue produce. This accounts for the decrease of Rs. 200 below the revised estimate.

18. *Slaughter-house.*—The income from slaughter-house is estimated at Rs. 360 against Rs. 340 in the current year, as a keen competition is expected for next year.

19. *Provincial Grants.*—The Director of Public Instruction in his endorsement No. 11205, dated the 18th October 1895, says that there is no prospect of any increase to the existing scale (Rs. 71–3–2 per mensem) being sanctioned for the present on account of salary grants on behalf of certain teachers of the High school who are eligible for the same. Agreeably to his suggestion, a sum of Rs. 1,200 is taken credit as per details given below:—

	RS.
Salary grant to the High school	850
Do. do. common gymnast	90
Do. do. drawing master	60
Results, rent and conductress' grant to the Municipal Girls' School ..	200
Total ..	1,200

20. *Private Contributions.*—The Mattakulam tank situated behind the taluk cutcherry is used for bathing purposes and washing clothes. For the present it is fed

by a channel running from the Palan Cauvery channel through the back-yards of Pattamangalam Street. As the water of the tank is much contaminated during the rainy reason, it is proposed to dig a fresh supply channel on the south of the tank along side of Ayarappar East Street. In doing so two tunnels have to be constructed, for which a contribution of Rs. 200 is expected from the inhabitants concerned.

21. *Private Scavenging Fees.*—While framing the current year's budget the council introduced enhanced rates, *i.e.*, As. 2 per mensem for single service and As. 4 for double service daily as a tentative measure. As these rates are now considered oppressive, the council has reduced them to three-fourths. To make up for the loss of income by the reduction of the rates, it is proposed to increase the number of houses served without much additional expenditure and thus give effect to the instructions contained in paragraph 3 (4) of the order reviewing the last annual report.

Charges.

22. *Grant I, Public Works—New Works, Buildings.*—A sum of Rs. 1,000 is provided for the construction of a fish market in Kornad division as per suggestion of the Sanitary Commissioner, Rs. 200 for a masonry latrine and Rs. 50 for corrugated iron dust-bins. The council has resolved to provide for one masonry latrine and for half-a-dozen dust-bins every year, until the number is considered sufficient for the requirements of the town.

23. *New Works—Drainage.*—The northern portion of the Kornad division along the right bank of the Cauvery is naturally low and receives the drainage of the ground north of road No 2. The drainage after collecting near Sangamottu Street is discharged into the Cauvery through two sluices. When the river rises high the drainage of this low ground during the rainy season is almost impossible and the adjoining streets are under water for some months until the river-water subsides. To effect a satisfactory drainage, it is proposed to cut a channel from Pattamangalam burning-ground southward along the lane and connect it with the Palan Cauvery channel which branches off from the Cauvery and runs west to east almost through the middle of the town This large irrigation channel serves the purpose of a drainage channel for the whole town. It is supplied with a screw shutter at its head sluice which may be shut with the kind co-operation of the Public Works Department whenever the town waters have to be drained. In cutting the proposed new channel some tunnels and protective dams have to be constructed. For this purpose Rs. 350 is allotted. Similarly to drain off the waters in the back-yards of Mahadanapuram and Pattamangalam Streets during rains and to construct a drainage tunnel, &c., therefor, Rs. 100 is provided.

24. *New Works—Water-supply.*—Besides Rs. 400 allotted for cutting a feeder channel for Mattakulam tank (*vide* paragraph 20 *supra*), a sum of Rs. 150 is provided for constructing a new well on the tank of a drinking-water tank and for constructing platforms to two of the wells sunk last year

25. *Miscellaneous Public Improvements.*—The sum of Rs. 200 provided under this head is intended to supplement the allotment made in the revised estimate for filling up the hospital tank—*vide* paragraph 9 (*f*) *supra.*

26. *Repairs—Communications.*—A sum of Rs. 3,000 or 64 per cent. of the net toll receipts is provided for the maintenance of gravel and other roads.

27. *Establishment.*—A small increase of one rupee is proposed to be given to the overseer's maistry who is working hard and with zeal. The pay (Rs. 6) already allowed is, in the opinion of the council, very low for his useful and intelligent work.

28. The usual provision for the pay of tank watchmen and of river coolies is repeated for the budget year. The other items under this grant call for no remarks.

29. *Grant II, Education.*—The total expenditure on education in the budget year is estimated at Rs. 13,730 against Rs. 12,820 in the revised estimate, the increase occurring mainly under "Municipal schools." Deducting from the above the whole of the educational receipts, viz., Rs. 11,200, in the shape of school-fees and grants from Provincial funds, the net cost on education in the budget year is estimated at Rs. 2,530 or nearly 13 per cent. of the income (Rs. 19,570) from taxation, markets and rents.

---

30. The statement subjoined shows in one view the estimated receipts and charges, as well as the net cost of each of the seven schools proposed to be maintained by the council on the salary and on the salary results system during 1896–97 :—

Name of school.	Receipts.				Charges.				Net cost.
	Fees.	Fines.	Grants.	Total.	Fixed stipends.	Results stipends.	Contingencies.	Total.

7. Municipal Salary Results School for Pariahs ..	..	..	..	..	77	27	20	124	124

Under "Establishment" a sum of Rs. 9,760 31. *Municipal schools on Salary system.*—Máyavaram, against is provided for the maintenance of the High and Primary schools, Máyavaram, against the teachers have Rs. 8,850 in the revised estimate. The usual increments to which the teachers have become eligible are provided in the budget. The salaries of the Second and Third Assistants of the High school who have passed the L.T. Degree Examination are raised from Rs. 55 and Rs. 60 to Rs. 60 and Rs. 65, respectively, as the present low salaries are not attractive enough to induce men of high attainments to stick to the appointments. No progressive scale has been fixed for these two posts which were created consequent on the opening of the two divisions of the Fourth Form after the general scale was sanctioned. The Fourth and the Fifth Assistants were hitherto allowed Rs. 35 each as they are uncertificated men. As one of them is to be sent for training in the Teachers' College, and as the other is to remain in the institution only for a short time, Rs. 50 and Rs. 40 per mensem, respectively, are proposed for the two appointments in view to secure the services of duly qualified teachers in their places. In the budget the pay of the Sanskrit pundit is proposed to be increased from Rs. 18 recommended in my letter No. 1030, dated 9th December 1895, to Rs. 20 for the reasons already explained. The pay of the gymnast is raised to Rs. 20, as his work has been characterized as very good by the inspecting officers. In other centres higher salaries are paid for the last two appointments. The pay of the high school clerk which was temporarily fixed at Rs. 10 (*vide* paragraph 34 of the budget report for 1894–95) is now raised to Rs. 12–8–0 per mensem. Although the council decided by a majority to fix the clerk's salary at Rs. 12–8–0 per mensem in the budget year, I think that, in consideration of the heavy and onerous duties he has to perform, and the satisfactory manner in which he is discharging his duties,—collection of school-fees of about Rs. 10,000 and the account and correspondence business of the high and primary schools,—the progressive scale already fixed may be restored and he be given the minimum pay of Rs. 15. The Inspector of Schools in his endorsement No. 2050-T, dated 1st November 1895, observes that Rs. 10 now allowed to the drawing master is too low and suggested that his pay should be Rs. 15 rising to Rs. 20. Considering the great demand for drawing masters and the qualifications possessed by the present incumbent, he is allowed Rs. 15 as suggested by the Inspector for doing the duties of a drawing master and a moochi in both the schools. The head peon has been drawing Rs. 5 for a long time. He is thoroughly honest and works very hard. The council has allowed him a small increase of one rupee. The sweeper's pay is proposed to be raised from Rs 2 to Rs. 3 as, with this small addition, the council hopes to secure the services of a male sweeper who, besides doing his legitimate duties, would be useful as a night-watch, &c. The fourth class of the Máyavaram Primary school being too unwieldy, it is proposed to open a third section and the minimum pay (Rs. 15) is provided. For want of sufficient strength in the

60/55

d/e/

65/

first class, the two sections have been amalgamated as a temporary measure. The pay of the Seventh Assistant of this school is increased from Rs. 8 to Rs. 10, as this teacher with his fair knowledge of Sanskrit is made to help the High school pundit who finds it difficult to get through the Sanskrit subjects of the High and Middle school forms, single-handed. In the case of other teachers, the usual provision is made for their increments. As the High and Primary schools, Máyavaram, will be worked at a profit to the council of Rs. 221 and Rs. 89, respectively, in the budget year, the sanction of Government for the above increased salaries, &c., is earnestly solicited.

32. *Municipal schools on Salary Result system.*—A sum of Rs. 1,950 or Rs. 130 more than the revised estimate is provided for the maintenance of the five schools, viz.—(1) the Upper Primary school, Tiruvelandoor, (2) the Saliya school, Kornad, (3) the Muhammadan school, Kornad, (4) the Lower Secondary Girls' school, Máyavaram, and (5) a school for Pariahs; the last-mentioned school being proposed to be newly started. The Assistant Inspector's proposal to open another school for weavers will be considered next year after placing the Saliya school (where pupils of the weaving class are also taught) on a satisfactory basis. As proposed by the Assistant Inspector an increase of As. 8 is given to the Fourth Assistant of the Tiruvelandoor school. The provision for the Fifth Assistant is struck out as the present strength of the school can be managed by five teachers. The Assistant Inspector recommends that the salaries of the Headmaster and the First Assistant of the Saliya school may be raised to Rs. 9 and Rs. 7 respectively for their good work in a backward part of the town. The council allows Rs. 9 for the headmaster, Rs. 6 for the First Assistant, and an increase of half a rupee to each of the Second and the Third Assistants. In regard to the Muhammadan school, Kornad, it is suggested that a Hindustani munshee should be appointed in the place of the Second Assistant. The council adopts the suggestion and allows Rs. 6 for the said teacher. In regard to the Municipal Girls' school, proposals have been made to provide the school with a suitable staff on salaries of Rs. 15, 12, 7 and 6. For want of funds to maintain the school at such a high cost, the council has repeated the current year's scale. The school is in a good condition and, unless and until the Government is able to take the school under its departmental management, the council does not think it proper to disconnect itself from the institution, either by closing it or by leaving it to private agency, agreeably to the resolution passed at the meeting held on 24th December 1895 (copy of resolution enclosed).

33. The allotments for results stipends and contingencies are more or less repeated for the budget year, the increase in the latter being intended for supplying the new school for Pariahs with one or two benches and a black board.

34. *Results grants.*—Rs. 900 is, as usual, entered under this head.

35. *Inspection.*—The council has allowed a small increase of Re. 1 to the Municipal Inspecting schoolmaster who, it is reported, is doing good work.

36. *For Building and furniture grants to results schools Rs.* 100 *is provided for the budget year.*—With this sum supplemented by Rs. 100 allotted in the current year, almost all the well conducted results schools could be supplied with benches and other furniture.

37. The provision for a common gymnast on Rs. 15 and for a common drawing master on Rs. 10 per mensem are continued for the budget year.

38. *Grant III, Sanitation and Medical Services.*—The proposed outlay under this grant during the budget year is estimated at Rs. 10,670 against Rs. 10,290 in the revised estimate and Rs. 9,776–9–10 of the actuals of 1894–95, the increase occurring under "Hospitals" and "Conservancy."

39. *Hospitals.*—Under "Establishment" a sum of Rs. 1,866 is provided against Rs. 1,819–2–7 of the actuals of 1894–95. As suggested by the District Medical and Sanitary Officer, it is proposed to appoint a gardener for the improvement of the hospital garden. The European medicines, &c., hitherto supplied yearly sometimes falls short of the requirements of this town. The council has therefore increased the allotment to Rs. 500. The provision for diet and contingencies has been slightly raised in view to meet the increasing number of in and out patients. The council thinks that the present midwife, who is very popular, may be retained in service for

& the Council

some years more, and that the provision for a trained midwife may be deferred. The limited funds at the disposal of the council does not enable to provide for the training of a female medical practitioner. The cost of scholarship is Rs. 25 a month, covering a period of four years, on the expiry of which the female medical practitioner is to be allowed the pay ordinarily given to a civil apothecary. This, in the opinion of the council, is a prohibitive cost, and, for a small town like Máyavaram, the services of a female medical practitioner may not be a pressing want. Referring to G.O., No. 20,9 L., dated 28th October 1895, I beg to state that the proposals of the District Medical and Sanitary Officer received the earnest attention of the council. As funds were wanting for the increased charge under "Medicines" and for filling up the hospital pond, only Rs. 200 could be provided for improving hospital buildings in the budget, although Rs. 500 was recommended by the District Medical and Sanitary Officer.

40. The current year's allotment for contribution to Provincial Funds and to local boards for vaccination and registration of births and deaths are repeated for the next year. A sum of Rs. 4 was paid in the current year on account of contribution to cutlers' establishment for 1894–95. This appears in the revised estimate in round numbers, and the provision is omitted for the budget year with reference to G.O., No. 97 L., dated 18th January 1895.

41. *Conservancy.*—The outlay proposed under this head is Rs. 7,040 or Rs. 210 more than the current year's sanctioned budget. The appointment of a duly qualified sanitary inspector sanctioned in G.O., Mis. No. 1496 M., dated 14th September 1895, is deferred pending the council's remarks on the Sanitary Commissioner's suggestions contained in his letter embodied in G.O., No. 1658 M., dated 16th October 1895, in regard to the salaries to be paid to the sanitary inspector and the order of Government thereon. In view to the subsequent adjustment of the salaries, the rates now allowed to the three existing sanitary inspectors are retained for the budget year. The provision for six peons and seventeen sweepers is continued, while the number of street cleaning scavengers is increased from six to seven as suggested by the District Medical and Sanitary Officer. At present the town rubbish is removed by seventeen rubbish carts, five night-soil carts and one sewage cart. The District Medical and Sanitary Officer, who inspected the town on the 6th September 1895, observed in his inspection report that the number of toties and night-soil carts is not sufficient, and recommended that four more toties and two night-soil carts should, if possible, be entertained. The council has for the present increased the number of toties by three (one for street cleaning and two for private scavenging) and of the night-soil carts by one.

42. *Private Scavenging.*—The council proposes to spend Rs. 800 under this head against Rs. 700 in the current year's budget and Rs. 770 in the revised estimate. The increase in the current year is due as explained in statement VI to the entertainment of temporary toties during the late cholera season. Two more permanent toties are proposed to be appointed as per suggestion of the District Medical and Sanitary Officer.

No pains will be spared to make the establishment almost self-supporting, although Rs. 640 only is taken credit on account of private scavenging fees owing to a slight reduction in the scale of the present enhanced rates.

43. *Defects noticed by the Deputy Sanitary Commissioner, &c., and steps taken to remedy them.*—(*a*) The Sanitary Commissioner while forwarding his budget proposals for 1894–95 pointed out that several of the tanks are subjected to pollution by surface drainage. The defect will be remedied as far as practicable in the course of this and of the next year out of general savings.

(*b*) Provision has been made to carry out the suggestions of the Deputy Sanitary Commissioner in his inspection report recorded in G.O., No. 703 M., dated 26th April 1895, as detailed below:—

(1) Inadequacy of (i) the latrine accommodation—*vide* paragraphs 9 (*d*) and 22 *supra*, and (ii) of dust-bins—*vide* paragraph 22 *supra*.

(2) Filling up useless tanks—*vide* paragraphs 9 (*f*) and 25 *supra*.

(3) Irregular drainage defiling water-supply—*vide* paragraph 43 (*a*) *supra*.
(4) Appointment of one qualified sanitary inspector in the place of the existing (3)—*vide* paragraph 41 *supra*.
(5) Extension of private scavenging system—*vide* paragraphs 21 and 42 *supra*.
(6) Construction of a fish market at Kornad—*vide* paragraph 22 *supra*.
(7) Removal of poorer Roman Catholic burial-ground—*vide* paragraph 45 *infra*.
(8) The Deputy Sanitary Commissioner's proposal in paragraph 4 of his inspection notes in regard to the disposal of the sewage will be duly considered in the next budget. To effect a complete and satisfactory cleansing of all the cess-pools, &c., one or two air-tight iron carts are hardly sufficient.

44. *Percentage of Conservancy charges to Receipts.*—The probable receipts of the budget year comes up to Rs. 23,880 after excluding the opening balance (Rs. 2,750), as well as the educational receipts (Rs. 11,200) in the shape of school-fees and grants which should be devoted wholly to educational purposes. The assignment for conservancy, viz., Rs. 7,040, is 29·5 per cent. of the above receipts.

45. *Grant IV, Lighting, &c.*—The proposed expenditure under this grant amounts to Rs. 2,290 against Rs. 2,390 and Rs. 2,090 in the current year's revised and budget estimates, respectively. No provision is made for "Law charges" next year, as the council does not anticipate any outlay in that direction; hence is the decrease below the revised estimate. For the budget year no alteration in the rates of salaries under lighting and avenue establishments are proposed. Out of Rs. 944 under lighting contingencies, Rs. 900 is intended for oil, chimneys and lanterns, and Rs. 44 for six additional lamp-posts. A sum of Rs. 200 is provided for purchasing lands required for a new burial-ground for low caste christians (Pariahs), in lieu of the existing one to be closed, as per this office letter, No. 703, dated 21st August 1895, to Government. The sum includes also the estimated value of lands required for constructing the masonry latrine provided for in the budget year. In connection with the closing of the burial-ground in question, I beg to state that the councillor, who was requested to suggest suitable measures for the same, reports that the Pariah community concerned take strong objection to the closing of the graveyard as, according to their religious scruples, it should be very close to their church and that they are prepared to put up a proper fence round the existing yard. If they do not consent for the closure, section 240 of the Act will have to be put into operation on the municipality securing a suitable locality for a new burial-ground.

G.O. 1496 Mun
14.9.95.

46. *Grant V.*—The council proposes to spend Rs. 2,210 under this grant, which is Rs. 20 below the revised estimate and Rs. 141 below the actuals of 1894–95. It is only 6·3 per cent. of the ordinary receipts. The pay of the new manager and the new collection clerk are fixed at Rs. 30 and Rs. 15 per mensem, respectively, and the number of bill-collectors has been reduced from 3 to 2 on monthly salaries of Rs. 12 and 10, as the council thinks that a third bill-collector is unnecessary. One peon is proposed to be permanently appointed to help the bill-collectors by turns in the execution of warrants, &c. The provision for office contingencies is reduced to Rs. 200. For contribution to central office establishment Rs. 280 is provided, of which Rs. 230 is for controlling establishment at the Presidency town, calculated at the rates sanctioned in G.O., No. 2190 L., dated 19th November 1895, and Rs. 50 for the proportionate pay, &c., of the Collector's Municipal clerk.

47. *Closing Balance.*—The budget year is expected to close with a balance of Rs. 2,030, which is 5·8 per cent. of the current receipts, and I shall endeavour to augment this small balance by savings effected in the course of the year.

× Sanctioned
Cur No 431—

TANJORE,
18th January 1896.

(Signed) G. STOKES,
Acting Collector.

From the Honourable Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 15th January 1896, No. 292.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Máyavaram Municipality for 1896–97 :—

(i) The estimates under fees and grants may be accepted.

(ii) One of the Municipal Primary schools is now worked on the salary system. Its efficiency may improve considerably if it is placed on the salary-results system. The council may be asked to express its views in communication with the Assistant Inspector and to propose a revised scale of establishment.

(iii) To the allotment for salary-results schools I would recommend that Rs. 180 be added—Rs. 12 towards raising the pay of the First Assistant of the Saliya School, Koranad, as recommended by the Assistant Inspector, and Rs. 168 towards the revision of the scale of pay for the Municipal Girls' school. There are four teachers on Rs. 10, Rs. 5, Rs. 5 and Rs. 4, respectively. The scale is obviously too low to secure good teachers. I would recommend that the pay be raised to Rs. 15, Rs. 10, Rs. 7 and Rs. 6, respectively. If the school is to be maintained at all, it must be maintained in a fairly efficient condition.

(iv) A salary of Rs. 18 is provided for the Inspecting schoolmaster, while the Headmaster of the Municipal Primary school gets Rs. 19. This seems anomalous. Unless the latter figure is to be reduced, the pay of the Inspecting schoolmaster should be fixed at Rs. 20. The council may be asked to consider this suggestion.

2. With the addition of Rs. 180 recommended in clause (iii) above, the net expenditure under Grant II will be Rs. 2,710 (13,910—11,200) or about 14 per cent. of the estimated revenue from taxation, rents and markets.

Madras, 30th January 1896.

369 M

SURGEON-MAJOR-GENERAL C. SIBTHORPE, F.R.C.P.I.,
SURGEON-GENERAL WITH THE
GOVERNMENT OF MADRAS,
Madras,

To
THE Honorable the Chief Secretary to Government,
Local and Municipal department

SIR,

With reference to Grant III of the Budget estimate of the Mayavaram Municipality for the year 1896-97, I have the honor to offer the following remarks:-

(1) The proposal of the Municipality for the entertainment of a gard[illegible] meets with my approval.

(2) The retention of the present untrained midwife is most objectionable. Steps should therefore be taken by the Municipality to provide a properly trained woman for the hospital.

(3) As regards the improvement of hospital buildings a sum of Rs 200/- is provided instead of Rs 500/- as recommended by the District Medical and Sanitary Officer Tanjore. It is most desirable that provision should be made yearly for

the

the necessary repairs of hospital buildings and it is also necessary that the report of an Engineer should be obtained on the requirements.

(4) It is a pity that the Municipality does not see the importance of encouraging the Dufferin-Fund Scheme. In an important place like Mayaveram there must be a large number of native women who cannot or will not attend the out patient Department of the Municipal Hospital.

I have the honor to be,
Sir,
Your most obedient Servant,

Enclosure.

SIR,

Referring to the Mayavaram Munl Budget for 1896-97, I have the honor to state that the provision therein made for vaccination calls for no remarks, while that for Conservancy which amounts to 18.6 percent of the estimated receipts needs revision with reference to the following remarks:—

(1) Instead of the 3 untrained Sanitary Inspectors now in service, I would recommend the appointment of two certificated men – one of the 2d grade on Rs 45 + Rs 15, and the other of the 3d grade on Rs 25 + Rs 7½.

(2) The number of scavengers at present employed is far below requirements, and should at least be doubled.

Revised Estimate 1895-96.

2. The Current receipts and Charges are now estimated at Rs. 35,070, and Rs. 40,270, respectively against Rs. 33,840 and Rs 35,690 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under Rent of lands &c, schoolfees and private scavenging fees and that in the Charges under Grant I. The provision for Contribution for the Central Office establishments will be reduced from Rs 250 to Rs 230, the ~~allotment in the~~ budget estimate for the current year. The allotment of Rs: 965 referred to in para. 9 of the Chairman's letter, for which an application in the prescribed form should have been submitted, is

is sanctioned. The application referred to in para. 11 will be awaited. Meanwhile the provision made for payment of the proposed gratuity will be reduced from Rs 250 to Rs 100, being the salary of the collection clerk for six months. The balance to be carried forward to the next year's budget will then be Rs 2920.

Budget Estimate 1896-97

3. Receipts. The receipts for the ensuing year are placed at Rs 35,080 against Rs 35070 in the revised estimate.

4. Charges. (1) The probable charges are put down at Rs 35,800 against Rs 40270 in the revised estimate, the decrease appearing mainly under Grant I.

(2) Grant I. The proposed increase of one Rupee in the salary of the Public Works maistry is approved.

(3) Grant II. The Council's proposal to increase the salaries of the Sanskrit Pandit and the Gymnastic Instructor of the High School cannot be approved, as the former was appointed only recently and was, as a special case, given a salary of Rs 18 to start with instead of Rs 15 according to the sanctioned scale, and the latter ~~was~~ ~~granted~~ received an increase of ~~two~~ rupees in the current year. The remaining additions to and alterations in the establishments, proposed in paras 31, 32 and 35 of the Chairman's letter are sanctioned. The recom

mendations of the Director in clauses ii, iii, and iv of his letter read above will be referred to the Municipal Council for consideration.

(4) Grant III The entertainment of a gardener on Rs 4 for the Hospital and three additional Scavengers on Rs 4 each for the Conservancy and private Scavenging establishments, proposed in paragraphs 39 & 41, is sanctioned. The sanction of Government should have been obtained for the entertainment of the temporary coolies referred to in para 42. This should now be done. The Council's attention will be drawn to the remarks of the Surgeon General and the Sanitary Commissioner in their letters read above.

Considering that the private scavenging service is still being worked at a considerable loss, this was hardly a suitable occasion for reducing the fees. Steps should be taken to render the service self supporting at a very early date.

(5) Grant V. The alterations in the Municipal Office and collection establishments, proposed in paragraph 46, are approved. The provision for interest on loans will be raised from Rs 210 to Rs 220.

5. The budget as revised by Government closes with a balance of Rs 2250 or 6.4 per cent of the estimated receipts

Proposition Statement

for the Revision of

Ml establishment

for the Budget year

No. 398 M., 10th March 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. T. A. ALAGA PILLAI Avargal, Chairman, Municipal Council, Máyavaram, to the Chief Secretary to Government (through the Sub-Collector of Tanjore), dated 8th January 1896 No. 9.

I have the honour to submit herewith the revised estimates for 1895–96 and the budget estimate for 1896–97 of receipts and charges of the Máyavaram Municipality prepared in the forms prescribed by Government in their Order, No. 2193 M., dated the 10th December 1891.

2. The estimates were discussed and passed by the council at the meetings held on the 21st, 22nd, 23rd, 24th and the 26th December 1895. Copies of the resolutions are enclosed.

Revised Estimate for 1895–96.

3. As compared with the sanctioned budget the revised estimates stand as shown below:—

—	As per budget estimate.	As per revised estimate.	Difference.
	RS.	RS.	RS.
Opening balance ..	2,780	7,950	5,170
Receipts ..	33,840	35,070	1,230
Total ..	36,620	43,020	6,400
Charges ..	35,690	40,270	..
Balance. ..	930	2,750	..

Receipts.

4. The revised figures under "Receipts" show a net increase of Rs. 1,230 over the budget estimate sanctioned in G.O., No. 464 M., dated the 18th March 1895, the items mostly contributing to this increase being "Tax on vehicles and animals" (Rs. 130), "Avenue receipts" (Rs. 200), "School-fees" (Rs. 600), "License fees" (Rs.130) and "Private scavenging fees" (Rs. 330). In the remarks column of statement VI the necessary explanations for these as well as other minor variations between the budget and the revised estimates are given in full. The large increase of Rs. 5,170 in the opening balance was mainly due as explained in paragraph 30 of the annual report for 1894–95 to the non-utilization of the amount provided for the construction of the new travellers' bungalow and for the extension of the high school building.

5. *Tax on Buildings.*—This tax was thoroughly revised in the current year by the ward councillors. As proposed in paragraph 8 of the last budget report, the annual rent value of buildings in the Máyavaram and Tiruvelandur divisions was raised to the highest possible figure with the result that the current demand rose from Rs. 6,825 to Rs. 7,142, the revision in the Kornad division fetching no increase. In the opinion of the council any attempt to enhance the assessment still further will not be fair.

6. *Tax on Lands.*—This tax could not be revised thoroughly as anticipated in paragraph 9 of the last budget report. The lists received from some of the karnams were mere copies of the paimash and survey registers and they did not correctly show

the lands owned by each individual. After waiting in vain for a sufficiently long time in the current year for the correct lists, and on my assuming charge of the Chairmanship, the register was prepared with necessary alterations and bills were issued. I shall arrange for expediting the collection before the close of the year and for the satisfactory revision of the tax for the next year.

7. *Avenue Receipts.*—The income from this source is estimated at Rs. 600 or Rs. 200 more than the budget figure. The branches of tamarind and other trees which were overhanging the roads and proved obstructive to the free passage of carriages, &c., were cut and sold in large quantities. This caused the increase. Referring to the remarks of Government in paragraph 3 (3) of their Order, No. 1666 M., dated the 18th October 1895, reviewing the last annual report in regard to the removal of avenue trees, I beg to state that the tamarind trees on the sides of roads were planted so close to each other that as they grew bigger the branches thereof formed a dense covering over the metalled roads which, for want of exposure to sun in the rainy season, became miry, and caused considerable inconvenience to passengers and traffic. Besides, in some places the roots of these trees extended far and wide and caused damage even to the well built houses close by. Each application for the removal of such avenue trees is laid before the council and no tree is ordered to be removed without recovering from the parties concerned its highest estimated cost of ten years' produce and the tree is sold in public auction by the municipality. In some cases the removal has been ordered on the applicants' undertaking to plant cocoa trees instead. The suggestion of Government in this matter will be invariably attended to in future.

8. *School-fees.*—While framing the budget the council took credit for a fee income of Rs. 9,500. But the Government reduced it to Rs. 9,000 on the recommendation of the Director of Public Instruction. As the strength and finances of the high and primary schools, Máyavaram, advance year after year, the council think that the fee income may safely be raised to Rs. 9,600 at the least, which is fully justified by the actuals (Rs. 9,581) of the last year.

Charges.

9. *Grant I, Public Works*—A sum of Rs. 11,710 is provided in the revised estimate under this grant which is Rs. 4,500 over the budget figure. This excess was caused by the allotments made for the following works:—

(*a*) *Rs. 3,000 for the construction of the new travellers' bungalow.*—For the reasons assigned in paragraph 32 of the last annual report, this work was not taken on hand last year and the provision is repeated for the current year. The plan and estimate for the building has been forwarded to the Superintending Engineer and his approval is awaited.

(*b*) *Rs. 960 for renewing the superstructure of the remaining portion of the Máyavaram primary school building.*—The northern portion of the building for which allotment was made (*vide* paragraph 25 of the budget report) has been repaired. During the recent heavy rains a portion of the unrepaired roof gave way. The Inspector of Schools, Southern Circle, who visited the school in October last, brought to the notice of the council that the building is in an unsafe condition and that it should be repaired immediately. The council in view of the urgency of the work has sanctioned Rs. 965 and has ordered the work to be taken on hand in anticipation of the approval of Government. It is now being pushed on in the hope of completing it during the Christmas vacation.

(*c*) *Rs.* 40 to be added to Rs. 920 allotted in the budget for the extension of the Municipal High school building.

(*d*) *Rs. 150 for a Latrine.*—With this provision supplemented by Rs. 100 originally sanctioned for ten tatti latrines, it is proposed to construct a masonry one of suitable design agreeably to the instructions of Government in paragraph 4 (5) of their order reviewing the last year's administration report.

(*e*) *Rs.* 50 for constructing a tunnel to a drainage channel.

(*f*) *Rs. 220 for Miscellaneous Public Improvements.*—The District Medical and Sanitary Officer, Tanjore, and other officers who visited the hospital suggested that the small tank behind the hospital building should be filled up on sanitary grounds. For want of funds this work was held in abeyance. It is now proposed to undertake it for which Rs. 220 is provided in the revised estimate.

10. *Grant IV, Compensation for Lands.*—Rs. 200 is provided for purchasing lands for extending hospital compound and for a latrine site.

11. *Pensions and Gratuities.*—A sum of Rs. 250 is provided under this head. The council at its meeting held on 12th December 1895 has proposed to grant gratuity to the *ex*-collection clerk retired, as a special case, in consideration of his long, useful and zealous service. A separate application will soon be submitted.

Budget Estimate for 1896–97.

12. The year is expected to open with a balance of Rs. 2,750. Adding to this Rs. 35,080, the estimated receipts of the year, the total assets amount to Rs. 37,830. Out of this Rs. 35,800 are proposed to be expended, leaving Rs. 2,030 as the closing balance at the end of 1896–97.

Receipts.

13. The revised figures for the current year are more or less repeated for the budget year. The increased revenue expected from the following heads, namely, "Tax on vehicles and animals," "School-fees," &c., is almost counterbalanced by the decrease under avenue receipts.

14. *Rates and Taxes.*—The council does not expect any increase under any of the taxes next year, except under "Vehicles and animals," which show a tendency to increase year after year. The house and profession taxes underwent careful and complete revision in the current year, and it is not possible under the existing circumstances to increase the demand still further. With reference to the remark made by the Collector in paragraph 7 of his endorsement embodied in the Government Order reviewing the last annual report, I beg to observe that the councillors who revised the tax spared no pains to see that the houses are carefully assessed and that no taxable buildings and persons escaped taxation.

15. *Sale of Street Refuse.*—There is a great demand for rubbish for filling up pits in garden lands within municipal limits which, if allowed, would fetch a large sum. As this is not permitted on sanitary grounds, it is not possible to develop further this source of revenue; hence the current year's figure (Rs. 200) is repeated for the budget year.

16. *School-fees.*—A sum of Rs. 9,940 excluding fines is expected under this head against Rs. 9,600 in the revised estimate. The remarks made in paragraph 8 *supra* apply to this as well.

17. *Avenues.*—As a major portion of the obstructive branches of avenue trees have been lopped off this year, and as very few trees and branches will be cut next year, a less income is expected from avenue produce. This accounts for the decrease of Rs. 200 below the revised estimate.

18. *Slaughter-house.*—The income from slaughter-house is estimated at Rs. 360 against Rs. 340 in the current year, as a keen competition is expected for next year.

19. *Provincial Grants.*—The Director of Public Instruction in his endorsement No. 11205, dated the 18th October 1895, says that there is no prospect of any increase to the existing scale (Rs. 71–3–2 per mensem) being sanctioned for the present on account of salary grants on behalf of certain teachers of the High school who are eligible for the same. Agreeably to his suggestion, a sum of Rs. 1,200 is taken credit for as per details given below:—

	RS.
Salary grant to the High school	850
Do. do. common gymnast	90
Do. do. drawing master	60
Result, rent and conductress' grant to the Municipal Girls' School ..	200
Total ..	1,200

20. *Private Contributions.*—The Mattakulam tank situated behind the taluk cutcherry is used for bathing purposes and washing clothes. For the present it is fed

by a channel running from the Palan Cauvery channel through the back-yards of Pattamangalam Street. As the water of the tank is much contaminated during the rainy reason, it is proposed to dig a fresh supply channel on the south of the tank along side of Ayarappar East Street. In doing so two tunnels have to be constructed, for which a contribution of Rs. 200 is expected from the inhabitants concerned.

21. *Private Scavenging Fees.*—While framing the current year's budget the council introduced enhanced rates, *i.e.*, As. 2 per mensem for single service and As. 4 for double service daily as a tentative measure. As these rates are now considered oppressive, the council has reduced them to three-fourths. To make up for the loss of income by the reduction of the rates, it is proposed to increase the number of houses served without much additional expenditure and thus give effect to the instructions contained in paragraph 3 (4) of the order reviewing the last annual report.

Charges.

22. *Grant I, Public Works—New Works, Buildings.*—A sum of Rs. 1,000 is provided for the construction of a fish market in Kornad division as per suggestion of the Sanitary Commissioner, Rs. 200 for a masonry latrine and Rs. 50 for corrugated iron dust-bins. The council has resolved to provide for one masonry latrine and for half-a-dozen dust-bins every year, until the number is considered sufficient for the requirements of the town.

23. *New Works—Drainage.*—The northern portion of the Kornad division along the right bank of the Cauvery is naturally low and receives the drainage of the ground north of road No. 2. The drainage after collecting near Sangamottu Street is discharged into the Cauvery through two sluices. When the river rises high the drainage of this low ground during the rainy season is almost impossible and the adjoining streets are under water for some months until the river-water subsides. To effect a satisfactory drainage, it is proposed to cut a channel from Pattamangalam burning-ground southward along the lane and connect it with the Palan Cauvery channel which branches off from the Cauvery and runs west to east almost through the middle of the town. This large irrigation channel serves the purpose of a drainage channel for the whole town. It is supplied with a screw shutter at its head sluice which may be shut with the kind co-operation of the Public Works Department whenever the town waters have to be drained. In cutting the proposed new channel some tunnels and protective dams have to be constructed. For this purpose Rs. 350 is allotted. Similarly to drain off the waters in the back-yards of Mahadanapuram and Pattamangalam Streets during rains and to construct a drainage tunnel, &c., therefor, Rs. 100 is provided.

24. *New Works—Water-supply.*—Besides Rs. 400 allotted for cutting a feeder channel for Mattakulam tank (*vide* paragraph 20 *supra*), a sum of Rs. 150 is provided for constructing a new well on the bank of a drinking-water tank and for constructing platforms to two of the wells sunk last year.

25. *Miscellaneous Public Improvements.*—The sum of Rs. 200 provided under this head is intended to supplement the allotment made in the revised estimate for filling up the hospital tank—*vide* paragraph 9 (*f*) *supra.*

26. *Repairs—Communications.*—A sum of Rs. 3,000 or 64 per cent. of the net toll receipts is provided for the maintenance of gravel and other roads.

27. *Establishment.*—A small increase of one rupee is proposed to be given to the overseer's maistry who is working hard and with zeal. The pay (Rs. 6) already allowed is, in the opinion of the council, very low for his useful and intelligent work.

28. The usual provision for the pay of tank watchmen and of river coolies is repeated for the budget year. The other items under this grant call for no remarks.

29. *Grant II, Education.*—The total expenditure on education in the budget year is estimated at Rs. 13,730 against Rs. 12,820 in the revised estimate, the increase occurring mainly under "Municipal schools." Deducting from the above the whole of the educational receipts, viz., Rs. 11,200, in the shape of school-fees and grants from Provincial funds, the net cost on education in the budget year is estimated at Rs. 2,530 or nearly 13 per cent. of the income (Rs. 19,570) from taxation, markets and rents.

30. The statement subjoined shows in one view the estimated receipts and charges, as well as the net cost of each of the seven schools proposed to be maintained by the council on the salary and on the salary result system during 1896–97:—

Name of school.	Receipts.				Charges.				Net cost.
	Fees.	Fines.	Grants.	Total.	Fixed stipends.	Results stipends.	Contingencies.	Total.	
1	2	3	4	5	6	7	8	9	10
	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.
1. Municipal High School, Máyavaram	8,000	50	850	8,900	8,279	..	400	8,679	— 221
2. Municipal Primary School, Máyavaram	1,600	10	..	1,610	1,481	..	40	1,521	— 89
3. Municipal Salary Result School, Tiruvelandoor ..	300	..	..	300	425	100	30	555	255
4. Municipal Salary Result Saliya School, Kornad ..	..	..	..	..	285	100	60	445	445
5. Municipal Muhammadan School, Kornad	40	..	..	40	210	50	40	300	260
6. Municipal Lower Secondary Girls' School, Máyavaram.	..	..	200	200	306	120	100	526	326
7. Municipal Salary Result School for Pariahs ..	..	..	..	..	77	27	20	124	124

31. *Municipal schools on Salary system.*—Under "Establishment" a sum of Rs. 9,760 is provided for the maintenance of the High and Primary schools, Máyavaram, against Rs. 8,850 in the revised estimate. The usual increments to which the teachers have become eligible are provided in the budget. The salaries of the Second and Third Assistants of the High school who have passed the L.T. degree examination are raised from Rs. 60 and Rs. 55 to Rs. 65 and Rs. 60, respectively, as the present low salaries are not attractive enough to induce men of high attainments to stick to the appointments. No progressive scale has been fixed for these two posts which were created consequent on the opening of the two divisions of the Fourth Form after the general scale was sanctioned. The Fourth and the Fifth Assistants were hitherto allowed Rs. 35 each as they are uncertificated men. As one of them is to be sent for training in the Teachers' College, and as the other is to remain in the institution only for a short time, Rs. 50 and Rs. 40 per mensem, respectively, are proposed for the two appointments in view to secure the services of duly qualified teachers in their places. In the budget the pay of the Sanskrit pundit is proposed to be increased from Rs. 18 recommended in my letter No. 1030, dated 9th December 1895, to Rs. 20 for the reasons already explained. The pay of the gymnast is raised to Rs. 20, as his work has been characterised as very good by the inspecting officers. In other centres higher salaries are paid for the last two appointments. The pay of the high school clerk which was temporarily fixed at Rs. 10 (*vide* paragraph 34 of the budget report for 1894–95) is now raised to Rs. 12–8–0 per mensem. Although the council decided by a majority to fix the clerk's salary at Rs. 12–8–0 per mensem in the budget year, I think that, in consideration of the heavy and onerous duties he has to perform, and the satisfactory manner in which he is discharging his duties,—collection of school-fees of about Rs. 10,000 and the account and correspondence business of the high and primary schools,—the progressive scale already fixed may be restored and he be given the minimum pay of Rs. 15. The Inspector of Schools in his endorsement No. 2050-T, dated 1st November 1895, observes that Rs. 10 now allowed to the drawing master is too low and suggested that his pay should be Rs. 15 rising to Rs. 20. Considering the great demand for drawing masters and the qualifications possessed by the present incumbent, he is allowed Rs. 15 as suggested by the Inspector for doing the duties of a drawing master and a moochi in both the schools. The head peon has been drawing Rs. 5 for a long time. He is thoroughly honest and works very hard. The council has allowed him a small increase of one rupee. The sweeper's pay is proposed to be raised from Rs. 2 to Rs. 3 as, with this small addition, the council hopes to secure the services of a male sweeper who, besides doing his legitimate duties, would be useful as a night-watch, &c. The fourth class of the Máyavaram Primary school being too unwieldy, it is proposed to open a third section and the minimum pay (Rs. 15) is provided. For want of sufficient strength in the

first class, the two sections have been amalgamated as a temporary measure. The pay of the Seventh Assistant of this school is increased from Rs. 8 to Rs. 10, as this teacher with his fair knowledge of Sanskrit is made to help the High school pundit who finds it difficult to get through the Sanskrit subjects of the High and Middle school forms, single-handed. In the case of other teachers, the usual provision is made for their increments. As the High and Primary schools, Máyavaram, will be worked at a profit to the council of Rs. 221 and Rs. 89, respectively, in the budget year, the sanction of Government for the above increased salaries, &c., is earnestly solicited.

32. *Municipal schools on the Salary Result system.*—A sum of Rs. 1,950 or Rs. 130 more than the revised estimate is provided for the maintenance of the five schools, viz.—(1) the Upper Primary school, Tiruvelandúr, (2) the Saliya school, Kornad, (3) the Muhammadan school, Kornad, (4) the Lower Secondary Girls' school, Máyavaram, and (5) a school for Paraiya; the last-mentioned school being proposed to be newly started. The Assistant Inspector's proposal to open another school for weavers will be considered next year after placing the Saliya school (where pupils of the weaving class are also taught) on a satisfactory basis. As proposed by the Assistant Inspector an increase of As. 8 is given to the Fourth Assistant of the Tiruvelandur school. The provision for the Fifth Assistant is struck out as the present strength of the school can be managed by five teachers. The Assistant Inspector recommends that the salaries of the Headmaster and the First Assistant of the Saliya school may be raised to Rs. 9 and Rs. 7 respectively for their good work in a backward part of the town. The council allows Rs. 9 for the headmaster, Rs. 6 for the First Assistant, and an increase of half a rupee to each of the Second and the Third Assistants. In regard to the Muhammadan school, Kornad, it is suggested that a Hindustani munshee should be appointed in the place of the Second Assistant. The council adopts the suggestion and allows Rs. 6 for the said teacher. In regard to the Municipal Girls' school, proposals have been made to provide the school with a suitable staff on salaries of Rs. 15, 12, 7 and 6. For want of funds to maintain the school at such a high cost, the council has repeated the current year's scale. The school is in a good condition and, unless and until the Government is able to take the school under its departmental management, the council does not think it proper to disconnect itself from the institution, either by closing it or by leaving it to private agency, agreeably to the resolution passed at the meeting held on 24th December 1895 (copy of resolution enclosed).

33. The allotments for result stipends and contingencies are more or less repeated for the budget year, the increase in the latter being intended for supplying the new school for Paraiyas with one or two benches and a black board.

34. *Result grants.*—Rs. 900 is, as usual, entered under this head.

35. *Inspection.*—The council has allowed a small increase of Re. 1 to the Municipal Inspecting schoolmaster who, it is reported, is doing good work.

36. *For Building and furniture grants to result schools Rs. 100 is provided for the budget year.*—With this sum supplemented by Rs. 100 allotted in the current year, almost all the well conducted result schools could be supplied with benches and other furniture.

37. The provision for a common gymnastic instructor on Rs. 15 and for a common drawing master on Rs. 10 per mensem are continued for the budget year.

38. *Grant III, Sanitation and Medical Services.*—The proposed outlay under this grant during the budget year is estimated at Rs. 10,670 against Rs. 10,290 in the revised estimate and Rs. 9,776–9–10 of the actuals of 1894–95, the increase occurring under "Hospitals" and "Conservancy."

39. *Hospitals.*—Under "Establishment" a sum of Rs. 1,866 is provided against Rs. 1,819–2–7 of the actuals of 1894–95. As suggested by the District Medical and Sanitary Officer, it is proposed to appoint a gardener for the improvement of the hospital garden. The European medicines, &c., hitherto supplied yearly sometimes fall short of the requirements of this town. The council has therefore increased the allotment to Rs. 500. The provision for diet and contingencies has been slightly raised in view to meet the increasing number of in and out patients. The council thinks that the present midwife, who is very popular, may be retained in service for some years more, and that the provision for a trained midwife may be deferred. The limited funds at the disposal of the council do not enable the council to provide for the training of a female medical practitioner. The cost of scholarship is Rs. 25 a month, covering a period of four years, on the expiry of which the female medical practitioner is to be allowed the pay ordinarily given to a civil apothecary. This, in the opinion of the council, is a prohibitive cost, and, for a small town like Máyavaram, the services of a female medical practitioner may not be a pressing want. Referring to G.O., No. 2059 L., dated 28th October 1895, I beg to state that the proposals of the District Medical and Sanitary Officer received the earnest attention of the council. As funds were wanting for the increased charge under "Medicines" and for filling up the hospital pond, only Rs. 200 could be provided for improving hospital buildings in the budget, although Rs. 500 was recommended by the District Medical and Sanitary Officer.

40. The current year's allotment for contribution to Provincial Funds and to local boards for vaccination and registration of births and deaths are repeated for the next year. A sum of Rs. 4 was paid in the current year on account of contribution to cutlers' establishment for 1894–95. This appears in the revised estimate in round numbers, and the provision is omitted for the budget year with reference to G.O., No. 97 L., dated 18th January 1895.

41. *Conservancy.*—The outlay proposed under this head is Rs. 7,040 or Rs. 210 more than the current year's sanctioned budget. The appointment of a duly qualified sanitary inspector sanctioned in G.O., Mis. No. 1496 M., dated 14th September 1895, is deferred pending the council's remarks on the Sanitary Commissioner's suggestions contained in his letter embodied in G.O., No. 1658 M., dated 16th October 1895, in regard to the salaries to be paid to the sanitary inspector and the order of Government thereon. In view to the subsequent adjustment of the salaries, the rates now allowed to the three existing sanitary inspectors are retained for the budget year. The provision for six peons and seventeen sweepers is continued, while the number of street cleaning scavengers is increased from six to seven as suggested by the District Medical and Sanitary Officer. At present the town rubbish is removed by seventeen rubbish carts, five night-soil carts and one sewage cart. The District Medical and Sanitary Officer, who inspected the town on the 6th September 1895, observed in his inspection report that the number of toties and night-soil carts is not sufficient, and recommended that four more toties and two night-soil carts should, if possible, be entertained. The council has for the present increased the number of toties by three (one for street cleaning and two for private scavenging) and of the night-soil carts by one.

42. *Private Scavenging.*—The council proposes to spend Rs. 800 under this head against Rs. 700 in the current year's budget and Rs. 770 in the revised estimate. The increase in the current year is due as explained in statement VI to the entertainment of temporary toties during the late cholera season. Two more permanent toties are proposed to be appointed as per suggestion of the District Medical and Sanitary Officer.

No pains will be spared to make the establishment almost self-supporting, although only Rs. 640 are taken credit for on account of private scavenging fees owing to a slight reduction in the scale of the present enhanced rates.

43. *Defects noticed by the Deputy Sanitary Commissioner, &c., and steps taken to remedy them.*—(*a*) The Sanitary Commissioner while forwarding his budget proposals for 1894–95 pointed out that several of the tanks are subjected to pollution by surface drainage. The defect will be remedied as far as practicable in the course of this and of the next year out of general savings.

(*b*) Provision has been made to carry out the suggestions of the Deputy Sanitary Commissioner in his inspection report recorded in G.O., No. 703 M., dated 26th April 1895, as detailed below :—

(1) Inadequacy of (i) the latrine accommodation—*vide* paragraphs 9 (*d*) and 22 *supra*, and (ii) of dust-bins—*vide* paragraph 22 *supra*.

(2) Filling up useless tanks—*vide* paragraphs 9 (*f*) and 25 *supra*.

(3) Irregular drainage defiling water-supply—*vide* paragraph 43 (*a*) *supra.*

(4) Appointment of one qualified sanitary inspector in the place of the existing (3)—*vide* paragraph 41 *supra.*

(5) Extension of private scavenging system—*vide* paragraphs 21 and 42 *supra.*

(6) Construction of a fish market at Kornad—*vide* paragraph 22 *supra.*

(7) Removal of poorer Roman Catholic burial-ground—*vide* paragraph 45 *infra.*

(8) The Deputy Sanitary Commissioner's proposal in paragraph 4 of his inspection notes in regard to the disposal of the sewage will be duly considered in the next budget. To effect a complete and satisfactory cleansing of all the cess-pools, &c., one or two air-tight iron carts are hardly sufficient.

44. *Percentage of Conservancy charges to Receipts.*—The probable receipts of the budget year come up to Rs. 23,880 after excluding the opening balance (Rs. 2,750), as well as the educational receipts (Rs. 11,200) in the shape of school-fees and grants which should be devoted wholly to educational purposes. The assignment for conservancy, viz., Rs. 7,040, is 29·5 per cent. of the above receipts.

45. *Grant IV, Lighting, &c.*—The proposed expenditure under this grant amounts to Rs. 2,290 against Rs. 2,390 and Rs. 2,090 in the current year's revised and budget estimates, respectively. No provision is made for "Law charges" next year, as the council does not anticipate any outlay in that direction; hence is the decrease below the revised estimate. For the budget year no alteration in the rates of salaries under lighting and avenue establishments are proposed. Out of Rs. 944 under lighting contingencies, Rs. 900 is intended for oil, chimneys and lanterns, and Rs. 44 for six additional lamp-posts. A sum of Rs. 200 is provided for purchasing lands required for a new burial-ground for low caste christians (Pariahs), in lieu of the existing one to be closed, as per this office letter, No. 703, dated 21st August 1895, to Government. The sum includes also the estimated value of lands required for constructing the masonry latrine provided for in the budget year. In connection with the closing of the burial-ground in question, I beg to state that the councillor, who was requested to suggest suitable measures for the same, reports that the Pariah community concerned take strong objection to the closing of the graveyard as, according to their religious scruples, it should be very close to their church and that they are prepared to put up a proper fence round the existing yard. If they do not consent to the closure, section 240 of the Act will have to be put into operation on the municipality securing a suitable locality for a new burial-ground.

46. *Grant V.*—The council proposes to spend Rs. 2,210 under this grant, which is Rs. 20 below the revised estimate and Rs. 141 below the actuals of 1894–95. It is only 6·3 per cent. of the ordinary receipts. The pay of the new manager and the new collection clerk are fixed at Rs. 30 and Rs. 15 per mensem, respectively, and the number of bill-collectors has been reduced from 3 to 2 on monthly salaries of Rs. 12 and 10, as the council thinks that a third bill-collector is unnecessary. One peon is proposed to be permanently appointed to help the bill-collectors by turns in the execution of warrants, &c. The provision for office contingencies is reduced to Rs. 200. For contribution to central office establishment Rs. 280 is provided, of which Rs. 230 is for controlling establishment at the Presidency town, calculated at the rates sanctioned in G.O., No. 2190 L., dated 19th November 1895, and Rs. 50 for the proportionate pay, &c., of the Collector's Municipal clerk.

47. *Closing Balance.*—The budget year is expected to close with a balance of Rs. 2,030, which is 5·8 per cent. of the current receipts, and I shall endeavour to augment this small balance by savings effected in the course of the year.

No. 183-Rev.

Forwarded.

10th January 1896. (Signed) W. B. AYLING,
Acting Sub-Collector.

Cur. No. 26-Ml.

Forwarded.

2. The Chairman will be requested to send a proposition statement embodying all the changes in establishments referred to in the report.

TANJORE, (Signed) G. STOKES,
18th January 1896. *Acting Collector.*

From the Honourable Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 15th January 1896, No. 292.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Máyavaram Municipality for 1896–97 :—

(i) The estimates under fees and grants may be accepted.

(ii) One of the Municipal Primary schools is now worked on the salary system. Its efficiency may improve considerably if it is placed on the salary-result system. The council may be asked to express its views in communication with the Assistant Inspector and to propose a revised scale of establishment.

(iii) To the allotment for salary-result schools I would recommend that Rs. 180 be added—Rs. 12 towards raising the pay of the First Assistant of the Saliya School, Koranad, as recommended by the Assistant Inspector, and Rs. 168 towards the revision of the scale of pay for the Municipal Girls' school. There are four teachers on Rs. 10, Rs. 5, Rs. 5 and Rs. 4, respectively. The scale is obviously too low to secure good teachers. I would recommend that the pay be raised to Rs. 15, Rs. 10, Rs. 7 and Rs. 6, respectively. If the school is to be maintained at all, it must be maintained in a fairly efficient condition.

(iv) A salary of Rs. 18 is provided for the Inspecting schoolmaster, while the Headmaster of the Municipal Primary school gets Rs. 19. This seems anomalous. Unless the latter figure is to be reduced, the pay of the Inspecting schoolmaster should be fixed at Rs. 20. The council may be asked to consider this suggestion.

2. With the addition of Rs. 180 recommended in clause (iii) above, the net expenditure under Grant II will be Rs. 2,710 (13,910—11,200) or about 14 per cent. of the estimated revenue from taxation, rents and markets.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 30th January 1896, No. 57.

With reference to Grant III of the budget estimate of the Máyavaram Municipality for the year 1896–97, I have the honour to offer the following remarks :—

(1) The proposal of the municipality for the entertainment of a gardener meets with my approval.

(2) The retention of the present untrained midwife is most objectionable. Steps should therefore be taken by the municipality to provide a properly-trained woman for the hospital.

(3) As regards the improvement of hospital buildings, a sum of Rs. 200 is provided instead of Rs. 500 as recommended by the District Medical and Sanitary Officer, Tanjore. It is most desirable that provision should be made yearly for the necessary repairs of hospital buildings and it is also necessary that the report of an Engineer should be obtained on the requirements.

(4) It is a pity that the municipality does not see the importance of encouraging the Dufferin Fund scheme. In an important place like Máyavaram, there must be a large number of native women who cannot, or will not, attend the out-patient department of the municipal hospital.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 1st February 1896, No. 217-S.

Referring to the Máyavaram municipal budget for 1896–97, I have the honour to state that the provision therein made for vaccination calls for no remarks, while that for conservancy, which amounts to 18·6 per cent. of the estimated receipts, needs revision with reference to the following remarks:—

(1) Instead of the three untrained sanitary inspectors now in service, I would recommend the appointment of two certificated men — one of the second grade on Rs. 45 + Rs. 15, and the other of the third grade on Rs. 25 + Rs. 7-8-0.

(2) The number of scavengers at present employed is far below requirements and should at least be doubled.

From the Chairman, Municipal Council, Máyavaram, dated 2nd February 1896, No. 123.

Abstract.—Submitting the proposition statement for the revision of the municipal establishments for the budget year.

Order—No. 398 M., dated 10th March 1896.

The estimated receipts and charges of the Máyavaram Municipality for 1896–97, as passed by Government, are compared below with the budget and revised estimates for the year 1895–96 and the actuals of 1894–95:—

—	Actuals, 1894–95.	Budget Estimate, 1895–96.	Revised Estimate, 1895–96.	Budget Estimate, 1896–97.
Receipts.	RS.	RS.	RS.	RS.

Total	41,387	36,620	43,020	38,000

Revised Estimate for 1895–96.

2. The current receipts and charges are now estimated at Rs. 35,070 and Rupees 40,270, respectively, against Rs. 33,840 and Rs. 35,690 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under rent of lands, &c., school fees and private scavenging fees and that in the charges under Grant I. The provision for contribution for the central office establishments will be reduced from Rs. 250 to Rs. 230, the budget estimate for the current year. The allotment of Rs. 965 referred to in paragraph 9 of the Chairman's letter, for which an application in the prescribed form should have been submitted, is sanctioned. The application referred to in paragraph 11 will be awaited. Meanwhile the provision made for payment of the proposed gratuity will be reduced from Rs. 250 to Rs. 100, being the salary of the collection clerk for six months. The balance to be carried forward to the next year's budget will then be Rs. 2,920.

Budget Estimate for 1896–97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 35,080 against Rs. 35,070 in the revised estimate.

4. *Charges.*—(1) The probable charges are put down at Rs. 35,800 against Rs. 40,270 in the revised estimate, the decrease appearing mainly under Grant I.

(2) *Grant I.*—The proposed increase of one rupee in the salary of the Public Works maistri is approved.

(3) *Grant II.*—The council's proposal to increase the salaries of the Sanskrit pandit and the gymnastic instructor of the high school cannot be approved, as the former was appointed only recently and was, as a special case, given a salary of Rs. 18 to start with instead of Rs. 15 according to the sanctioned scale, and the latter

received an increase of Rs. 2 in the current year. The remaining additions to, and alterations in, the establishments proposed in paragraphs 31, 32 and 35 of the Chairman's letter are sanctioned. The recommendations of the Director in clauses (ii), (iii) and (iv) of his letter read above will be referred to the municipal council for consideration.

(4) *Grant III.*—The entertainment of a gardener on Rs. 4 for the hospital and three additional scavengers on Rs. 4 each for the conservancy and private scavenging establishments, proposed in paragraphs 39 and 41, is sanctioned. The sanction of Government should have been obtained for the entertainment of the temporary toties referred to in paragraph 42. This should now be done. Considering that the private scavenging service is still being worked at a considerable loss, this was hardly a suitable occasion for reducing the fees. Steps should be taken to render this service self-supporting at a very early date. The council's attention will be drawn to the remarks of the Surgeon-General and the Sanitary Commissioner in their letters read above.

(5) *Grant V.*—The alterations in the municipal office and collection establishments proposed in paragraph 46 are approved. The provision for interest on loans will be raised from Rs. 210 to Rs. 220.

5. The budget, as revised by Government, closes with a balance of Rs. 2,250, or 6·4 per cent. of the estimated receipts.

(True Extract.)
