LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. K. SESHACHALAPATI Garu, Chairman, Municipal Council, Cocanada, to the Collector, Gódávari district (through the Deputy Collector, Head-quarters Division), dated 24th September 1895, No. 675.

In continuation of my letter, No. 1555, dated 25th February 1895, addressed to the Head-quarters Deputy Collector, I have the honour to bring to your notice that this municipality, with a population of over 40,000 souls (40,553 according to the census of 1891) is entitled, under G.Os., No. 864, Financial, dated 30th April 1883, and No. 188 M., Financial, dated 12th June 1885, paragraph 2, to have eighteen to twenty-two councillors. The present number is only sixteen and is less than the minimum strength allowable under the orders of Government. The Government has recently increased the number of councillors for the Rajahmundry Municipality to the maximum strength of eighteen allowable for a population of 28,397 which it has.

2. I beg to propose that the strength of this council may be raised from sixteen to twenty-two and that the six new seats may, for a term of three years at least, be filled by nomination by Government. This arrangement will give twelve elected and ten nominated councillors. The desirability and necessity for increasing the proportion of nominated members have been urged by me once already in the interests of municipal administration.

3. In my letter, No. 182, dated 11th May 1895, I proposed a reduction in the number of elected seats from twelve to six, but such a reduction does not seem essential if the total strength be raised to twenty-two with ten nominated councillors.

4. On account of the revision of house-tax it is likely that the number of appeals to be presented to the council will be enormous. I am therefore anxious that the council should be strengthened by additional nominated councillors as soon as possible. The attitude of the council in this matter has been already represented to you.

Dis. No. 1426-Eng.

Submitted to Government, Local and Municipal Department. The strength of the council is below the prescribed minimum with reference to the population of the town according to the census of 1891, and it is therefore necessary to raise it. The Chairman wants to have the maximum number of councillors, but I think twenty is quite sufficient, the additional four seats being filled by nomination until further orders, as it would be well for the present not to have men dependent on election whose principal hopes of success depend on promises to resist enhanced taxation, whereas at present taxation is unequal and inadequate, and until the taxes are fairly and honestly levied and the income of the council thereby increased, it can do little from want of funds to carry out the many improvements urgently needed.
