I am directed to invite attention to
Military Department letter No. 2837 M.D.,
dated the 2nd December 1895, asking that
the local authorities may be urged to
take steps towards securing an early
settlement of the question of the provision
of a pipe water supply for the city and
the cantonments of Bellary, and to report
that under the orders of His Excellency
the Governor in Council, the Government
of India may be informed how the question
now stands.

I am,
Sir

SIR,

With reference to the Ag. Assistant Secre-
tary Mr. Phillips' endorsement No. 249 of 22nd
February 1896 on Secretary to Government
of India's No. 396 M. W. I have the honor to inform
you that the investigation of the Copper Mountain
Scheme Supply is just being begun. In my
No. 3529 of 27-11-95 I stated that it would be so in
December but it was found that the subsoil
water had not then attained its lowest level.

2. In case the results of the experiment
do not afford such indications as would induce
preliminary works being undertaken, I have
made arrangements with the Municipality
to spend a portion of the sum of Rs 2,000 allotted
on taking ^{levels} ~~scheme~~ from the Hagari so that

There may be as little delay as possible in the matter. As Governments however are aware the analysis of that river water is unsatisfactory and the difficulties which surround the question of supplying Bellary with water are such that considerable consideration must be given to the subject if both the above sources prove unsuitable. I trust therefore that the Government of India will be assured that the question is being dealt with as speedily as is possible under the circumstances.

I have the honor to be
