as follows:- "The year closed with a
balance of Rs 36,078, or 44.5 per cent of

P. S. Since writing the above, I
have addressed the Municipal Council
on the subject at a special meeting, in
which it was resolved by the Council
to devote the balance to the im-
provement of insanitary, urgent
requirement of sewage removal, and
the

such portion of it as is available with
reference to existing budget, should be
devoted to placing upon a correct
footing the insanitary requirements
of the town which are very inade-
quately met, notwithstanding the
number of years this Municipality
has been in existence, and for open-
ing up the numerous narrow
streets of the town. The latter would
seem almost essential preliminary
to the introduction of either a water or
drainage scheme. Temporary method
for disposal of sewage is also a very
pressing question. Yet, I find from
Resolution of the Council dated 26 March 1895
that it has persisted notwithstanding
the advice of the Director of Public In-
struction, in maintaining classes for
Higher education, although provision in
other institutions exists. I gather that
the Councillors still desire to devote
this large sum to the building of a
new High School. As to this intention
the Collector (Vide para 12 of his endorse-
ment printed with G.O. No 1667 in dated
18 October 1895) writes as follows:- "I am
not aware that the large balance of
Rs 36,000 is ear-marked for the erection

SIR,

I have the honor to offer the following remarks on the Bellary Municipal Budget for 1896-97:-

(1) The proposed expenditure on vaccination calls for no remarks.

(2) The Conservancy allotment is about two-fifths of the anticipated receipts, and shows an increase of Rs. 3,650 over the current year's figure.

(3) The staff of sweepers is above, and that of scavengers far below requirements.

(4) The Municipality has chiefly, I believe, by allowing sums appearing in its budgets to lapse, accumulated a balance that amounted to Rs. 3,607 8/11 (G.O. No 1667 Lu. dated 18 October 1895). The anticipated water supply will be met by a loan. It seems to me highly desirable that this sum, or such
