No. 471 M., 19th March 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From , Deputy Collector and Chairman, Municipal Council, Trichinopoly, to the Chief Secretary to Government (through the Collector of Trichinopoly), dated 14th January 1896, No. 2.

I have the honour to submit, for sanction of Government, the budget estimates of this municipality for the year 1896–97 and the revised estimates for the current year. These were sanctioned by the municipal council at their meeting held on the 11th January 1896. An extract from the proceedings of the council sanctioning the same and approving this report is enclosed, together with the prescribed statements.

REVISED ESTIMATES.

Receipts.

2. The total receipts, as now revised, amount to Rs. 1,72,500 against Rs. 1,57,220 anticipated in the budget, and show an increase of Rs. 15,280 over the original estimates.

3. *Tax on Arts.*—This tax has been carefully revised in this year. An additional income of Rs. 1,000 is expected under it.

4. *Tax on Buildings and Lands.*—The receipts under these items show an increase of Rs. 4,800 and Rs. 600, respectively. This increase is due to the revision of these taxes in the current year and the collection of the arrears outstanding in previous years. I hope to completely adjust in the current year all arrears of taxes.

5. *Market Rents.*—The income under markets shows an increase of Rs. 3,900. It is due also to the revision of the rents of the stalls in the fort and the grain markets which was undertaken by my predecessor.

6. *Cart-stand.*—The collection of fees at the municipal cart-stand was leased out for Rs. 5,510 by the council for a term of two years from April 1895. The income is due to competition at the auction sale.

7. *Contribution from the Local Boards.*—The sum of Rs. 6,000 comprises the usual annual contributions of Rs. 3,000 and of Rs. 1,500 paid by the local taluk and district boards for the municipal hospital and of Rs. 1,500 due by the taluk board, being the balance of contribution on account of the previous year.

Expenditure.

8. The revised estimates under the charges amount to Rs. 2,49,880 against Rs. 2,11,700 provided for in the budget, and show an increase of Rs. 38,180 over the original figures. The chief items under which increased expenditure occurs are noticed below.

The sum of Rs. 500 required for putting up a flight of steps to the municipal office has been transferred from the provision under repairs to buildings. The work is urgently needed, and hence the alteration of the figures under buildings.

9. *Water-supply.*—The water-supply works are expected to be completed in the current year. The balance of Rs. 1,15,350 is entered accordingly against this item. The increase over the allotment anticipated in the budget is due to the allotment of last year not having been spent fully in that year.

10. *Salary or Carriage Allowance.*—The excess of revised over budget estimate is due to the payment of charge allowance of Rs. 150 to the Divisional officer, who was in charge of the municipality, sanctioned by the council, and to an allowance of Rs. 75 to the Deputy Collector deputed by the Government to serve as chairman *plus* his pay.

11. *Refunds.*—The sum of Rs. 5,883 has been refunded to Government as the amount was paid to the municipality twice over on account of the water-works contribution.

12. *Repayment of Debt.*—The sum of Rs. 7,670 is required for paying the instalments and interest due for the current year on account of the loans taken for the water-works, instead of Rs. 5,960 provided previously.

Budget Estimates.

Receipts.

13. *Tax on Arts.*—This tax is levied on all the classes of the schedule. The demand for the ensuing year is put down at Rs. 11,000, which may be reasonably expected as the result of a careful assessment of the tax.

14. *Tax on Buildings.*—The demand under this tax has also been raised to Rupees 31,800. The tax has been carefully revised in the current year.

15. *Tax on Lands.*—The tax has been revised in the current year and the settled demand for the ensuing year will be Rs. 3,400.

16. *Water-tax on Buildings and Lands.*—A water-tax will have to be levied for the ensuing year, as the water-works will most likely be opened in April next. Sanction of Government is requested to levy the tax at the maximum rate of 4 per cent. on the rental value of houses. An income of Rs. 13,000 is expected from this source. The water will be supplied to only five out of the seven wards of the municipality, and hence the lower figure.

17. *Tax on Vehicles, Animals and Carts.*—The figures are repeated under these items for the ensuing year and require no explanation. No large increase can be hoped for in these cases.

18. *Tolls.*—The sum of Rs. 10,000 has been provided with reference to the revised budget. In this connection it seems necessary to point out that while the municipality has to spend on the roads more than Rs. 13,000 and possibly much more in 1896–97, the contribution by the local fund board on account of tolls amounts to only Rs. 10,000. Reason and justice seem to demand that in local fund contribution must be raised to equal at least the outlay. The special attention of Government is invited to the subject in view to a decision.

19. *Income from Markets.*—The sum of Rs. 19,980 is expected for the next year from this source. The rents of the stalls in the fort and grain markets have been revised in the current year.

The other markets may also give a slightly increased income when they are leased out in February next.

20. *Water-supply.*—A contribution of Rs. 2,500 from Government in the Military and Judicial departments and of Rs. 2,000 from the railway company are due on account of the working charges of the water-works for the ensuing year. These sums are, however, only approximate. The Sanitary Engineer to Government states from his past experience at Madura and Tanjore that the townspeople will not appreciate the benefits of the new water-supply all at once and consequently the town may not require its full quantity for two or three years to come, while the other parties to the scheme will receive their full supply from the commencement. For this reason the apportionment of the amounts to be recovered from these parties to the scheme can be considered only approximate.

21. *Private Scavenging Fees.*—The system is now working in four wards and will be extended to the remaining wards. Accordingly the income from this source is raised from Rs. 6,000 to Rs. 7,000. It is hardly necessary to repeat that in the

present defective state of the Municipal Act in respect of this subject the extension of private scavenging carries with it a probable loss to municipal funds.

Expenditure.

22. *Grant I, New Works.*—The sum of Rs. 5,700 is provided for construction of new buildings, which are two slaughter-houses, two pairs of latrines and a lying-in hospital.

A new sheep slaughter-house has to be built in place of the existing one, which has to be pulled down, owing to its close proximity to the proposed new Muhammadan burial-ground—*vide* G.O., Mis. No. 1822 M., dated 2nd November 1895.

A slaughter-house for pigs is also needed, as the one that existed fell down two years ago. Provision has been made for these two buildings.

A pair of new latrines is to be constructed in Chintamoni in the fifth ward on the site recently purchased and another pair in Rock Fort. The lying-in hospital sanctioned for the current year could not be built as the provision of Rs. 500 made then is quite insufficient. The plans and estimates prepared by Mr. Minchin, the Assistant Sanitary Engineer, show that the cost of the proposed building will amount to Rs. 2,600. The sanction of Government is requested for constructing this hospital at a cost of Rs. 2,600 as it is very necessary.

23. *Repairs—Communications.*—Rs. 13,000 is provided as usual for repairs to the roads in the town. The sum is found to be insufficient for keeping the 37 miles of roads in a fair condition throughout the year. Some of the roads are absolutely out of shape and condition, due to continued neglect. The council has, therefore, not only to maintain roads, but to re-form some of them. The council is now spending much more than it gets from tolls, and cannot afford to spend more without injustice to other and equally important demands. But it seems possible, by careful and considerate economy, to make even this sum of Rs. 13,900 go a much greater way.

24. *Repairs to Buildings.*—The repair of the several buildings mentioned in the statement II-A are all necessary and will be taken up in the order of their urgency.

25. *Water-supply.*—The water-works are expected to be opened early in April next. A sum of Rs. 3,500 is provided, of which Rs. 2,500 is for any repairs which may be necessary to the new machinery purchased for the water-supply scheme and the balance of Rs. 1,000 for repairs to wells, improving steps, &c., in the second and third wards to which the water-supply system will not apply. Rs. 12,600 is provided under contingencies for the working charges of the scheme for the ensuing year. The sum of Rs. 8,530 is also provided for the maintenance of the establishment proposed by the Sanitary Engineer to Government for the new water-works. This allotment includes the provision required for the maintenance of five tank watchers on Rs. 3 each for the second and third wards to which the new scheme does not extend.

26. *Grant I, (3) Public Works Establishment.*—It is proposed to entertain some officer of superior qualification—preferentially a pensioned sub-engineer or supervisor—to look after the public works of this municipality which costs altogether about Rs. 30,000 a year, and, if the maintenance of water-works is included, the total will come to over Rs. 50,000. It will therefore be real economy to employ a man that has the necessary attainments and can be trusted. I think no such man can be had for less than Rs. 150 a month. He will require two clerks on Rs. 20 and Rs. 15 and two peons on Rs. 6 and a lascar on Rs. 7.

27. *Grant II, Education—Salary-results Schools.*—The provisions under this grant are almost in entire accordance with the proposals of the Assistant Inspector of Schools supported by the Director of Public Instruction. The council maintains in the current year six primary schools, one of which is intended for the Muhammadans and the rest for the Pallars and Pariahs. It is proposed to open four more salary-result schools for the sole benefit of the Muhammadans at Woraiyur, Jail street and Chintamoni, and the remaining one will be a night school in Woraiyur for the adults working in the cigar manufactories, with a teacher in each on Rs. 7 a month. An assistant master on Rs. 5 is provided for the Devadanam Pariah school as the numbers in the school have risen beyond what can be managed by one man. It is also proposed

to raise the pay of the first, second, third, fourth and fifth assistant teachers from Rs. 10, 10, 7, 6 and 5 to Rs. 15, 12, 8, 7 and 6, respectively, for the good work turned out by them. Accordingly the provision under the fixed payments is raised from Rs. 1,450 to Rs. 1,940; while those under the results grants and contingencies are also correspondingly increased.

28. *Girls' Schools.*—The Inspectress of Girls' Schools recommends the opening of a salary-result school for Muhammadan girls in the municipality at a cost of Rs. 350 per annum. But as Government has on a former occasion decided that the female education is not a legitimate charge upon municipal funds, no provision has been made.

29. *Salary Grants.*—A sum of Rs. 1,200 is provided under salary grants, as it is proposed to aid a few well-conducted schools by salary grants. If the managers do not consent to place their schools on the salary-grants system, the amount will be utilised in the payment of results grants.

30. *Results Grants.*—Rs. 4,800 is provided for payment of results grants to approved schools.

31. *Municipal Inspectors.*—The two inspectors will be maintained for the next year. The junior inspecting schoolmaster has been doing good work and it is proposed to raise his pay from Rs. 16 to Rs. 20. This increase is recommended by the inspecting officers and has the strong approval of the Director of Public Instruction.

32. *Common Gymnasium.*—The existing establishment of two gymnastic instructors on Rs. 12 each will be maintained, as well as a drawing master on Rs. 20 sanctioned in the current year.

33. *Grant III, Medical.*—The hospital at Trichinopoly and the dispensary at Woraiyur will be maintained in their present condition.

34. *Registration of Vital Statistics.*—The present establishment consists of five registrars on Rs. 14 each. The council propose to employ for the ensuing year eight registrars on Rs. 10 each. This arrangement costs Rs. 120 per annum more, but has the advantage of giving one registrar for each of the eight wards into which the municipality is proposed to be divided. Each registrar will have to gather information of all births and deaths for an average population of 11,500. These men will work under the supervision of a health officer, whose entertainment is now under serious consideration. The registration as at present conducted is highly defective owing partly to the faultiness of the system and partly to want of adequate supervision.

35. *Conservancy and Establishment.*—The present staff of twelve sanitary inspectors and one maistry is not required. Eight Inspectors, to correspond with eight wards, will be quite sufficient to supervise the sanitary arrangements in the municipality. Their pay will be as follows:—

Two men on Rs. 20 each,
Two „ on „ 17–8–0 each, and
Four „ on „ 15 each.

In addition to this an inspector for the night-soil depôt is necessary as recommended by the Sanitary Commissioner, and one will be entertained on Rs. 12. A staff of sixteen peons will be required to help the sanitary inspectors at the rate of two for each ward. It is also proposed to add two sweepers to each ward at Rs. 4–8–0 each, as the present number is found insufficient. The pay of health officer referred to in paragraph ~~35~~ *supra* have been provided for under grant I, as the man to be entertained will also be expected to work the Public Works branch of the municipality.

One of the serious defects noticed by the new chairman is the want of an adequate number of rubbish, sewage and night-soil carts of a serviceable kind. Whatever may be the rapidity with which the sweepers, &c., may work, unless the sweepings, &c., are speedily carried out of town, the later condition will be worse than the earlier, in that accumulated filth is more dangerous to public health than when it is distributed. It is, therefore, proposed to add a decent number of serviceable carts and to pay well and employ serviceable bullocks. It will fall considerably short of the mark when it is stated that the bullocks now in use are disgraceful in condition. Rs. 20,000 are therefore provided instead of the usual allotment of Rs. 18,000.

36. *Private Scavenging.*—This system is proposed to be extended from the ensuing year into the 1st, 3rd and 7th wards (old state) also. Therefore an allotment of Rs. 6,940 is provided for the maintenance of the establishment required for the purpose.

37. *Cholera Charges.*—A sum of Rs. 3,000 is provided under cholera charges instead of the usual allotment of Rs. 1,000, so that the measures suggested in G.O., No. 1028 M., dated 26th June 1895, may be carried out as fully and completely as possible, should cholera appear in an epidemic form in the town.

38. *Grant IV, Lighting and other purposes.*—The present establishment for the lighting the markets and slaughter-houses will be slightly modified to suit requirements felt on experience. Two superintendents to supervise the lighting of a town having about 700 lamps are found insufficient. It is, therefore, proposed to add a third. But the number of lamp-lighters is excessive, and each man can safely light 30 lamps on an average. It is proposed to cut the number down to 25.

39. For the *markets* one inspector on Rs. 15, instead of two on Rs. 12 and Rs. 9, will quite suffice, no assistant being required.

40. *Slaughter-houses.*—One other subject of chronic complaint is the neglect of supervision of slaughter-houses. Both in the matter of sanitation and in the inspection of the kind of cattle brought for slaughter there is much to be desired. There are three slaughter-houses, and it is proposed to have one superintendent for each. It is proposed to secure the aid of the medical staff for seeing that only healthy cattle are brought for slaughter.

41. *Grant V, Office Establishment.*—No changes can now be proposed, as it will take some little time for the present chairman to note the excess or defect. The entertainment of two additional peons on Rs. 7 each is provided for service under the chairman.

42. *Inspection.*—The sum of Rs. 4,280 is provided for the salary required for a whole-time chairman of the municipality at Rs. 250 per mensem including his pensionary contribution and a carriage allowance of Rs. 75.

43. Against a present staff of seven bill collectors at Rs. 12 each, it is proposed to entertain a staff of eight men, one for each ward. There is no need for an amin on Rs. 14, as he is now doing only clerical work.

44. *Debt.*—A sum of Rs. 4,400 is provided for paying an instalment in the ensuing year towards the repayment of the loans taken from Government for the accomplishment of the water-supply scheme and a further sum of Rs. 5,470 is provided on account of interest for one year.

45. In conclusion, I beg to state that having assumed charge of the municipality only very recently, I have had to frame the budget in accordance with the existing state of affairs. But owing to the various changes that are impending, such as revision of wards, the opening of the water-works and the consequent imposition of water-tax, it seems to me it will be necessary to apply to Government very frequently to alter the provisions. The foregoing reason also accounts for the delay of nearly a fortnight in the submission of this report.

Submitted.

(Signed) KADIR NAVAZ KHAN,
Deputy Collector.

16*th January* 1896.

Endorsement on C. No. 121-Rev.

Submitted.

REVISED ESTIMATE (1895–96).

2. The short expenditure under new works—buildings and drainage, and the increased expenditure under hospitals—medicines and supplies might have been explained.

3. The increased receipts under tax on houses and lands and under markets, the result of recent inquiries is very satisfactory.

4. *Grant III (a), Vaccination Establishment.*—The reasons for reducing the establishment might have been given, as Government has not very long since commented unfavourably on the want of satisfactory progress in this respect.

5. *Grant IV, Lighting Charges.*—The figure "3" in column "proposed scale" is evidently a clerical error for "5." The increase for the "market superintendent" is not marked in the column "increase per month."

6. The Sanitary Engineer and the Superintending Engineer, Madras Circle, have been addressed on the subject of appointing a man who could discharge the combined duties of overseer and chief sanitary inspector (or health officer) on adequate salary.

TRICHINOPOLY,
29*th January* 1896.

(Signed) J. ANDREW,
Acting Collector.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, Madras, to the Chief Secretary to Government, dated 17th January 1896, No. 377.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Trichinopoly Municipality for 1896–97:—

(i) It is not clear how the estimate of Rs. 140 as Government grant has been arrived at. The council will be entitled to a third grant of Rs. 180, in round numbers, for the gymnastic and drawing masters. Provision should be made for the training of at least two teachers. Credit may be taken for a stipendiary grant of Rs. 70 from Provincial funds on this account.

(ii) The allotments proposed under grant II may be accepted with an addition of Rs. 120 for stipends to two primary teachers who may be sent for training.

2. The net expenditure under grant II will then be Rs. 10,000 (10,560—560), which is only 10 per cent. of the estimated income from taxation, rents and markets. Trichinopoly is a very important town and, as the Government already aids two first-grade colleges in the town, it is not in a position to establish girls' schools. Though female education is not an obligatory charge on municipal or local funds, there seems no objection to the establishment of girls' schools by those bodies when funds permit after the primary education of boys has been fully and adequately provided for. The tax-payers in municipalities do not bind the municipalities to provide for the education of their sons only and not for that of their daughters. I would recommend Miss Carr's proposal for the favourable re-consideration of the council.

From J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E., Sanitary Engineer to Government, to the Chief Secretary to Government, dated Fort St. George, 22nd January 1896, No. 193.

With reference to the budget estimate of the Municipal Council of Trichinopoly for 1896–97, an extract of which has been forwarded to this office, I have the honour to report as follows:—

(i) The allotment of Rs. 1,15,350 made under new works—water-supply in the revised estimate of 1895–96 represents the balance of the sanctioned estimate of Rs. 5,02,050 for the works. Though the works are expected to be completed before the end of the current official year, the entire sum of Rs. 1,15,350 will not be required for payment during the year. It is estimated that Rs. 70,000 will be enough for the purpose, and the balance may be provided in the budget estimate of 1896–97.

(ii) The provision of Rs. 2,500 and Rs. 2,000 under contribution in the budget estimate of 1896–97 under receipts—water-supply is correctly made and the figures are given by this department.

(iii) The amount of the contribution from the Military, Jail and Railway departments were originally based on the amount of water demanded as compared with the total expected demand, which included 15 gallons per head for Trichinopoly. But it is unlikely that town will take 15 gallons per head at first; it is not likely to

exceed 6 or 7 gallons just after opening, therefore if the original proportion were maintained, if the town used less water, the cost to other parties would be more, whether they took their full supply or not. I suggested therefore that the only possible way of arriving at a just demand against the participators was first to determine the amount of water actually consumed by each, and that the chairman should enter a sum of Rs. 6,400 for four meters as under:—

		RS.
One meter Railway, size of main 8″	.. ..	2,500
One „ Military „ 5″	.. ..	1,500
One „ „ „ 4″	.. ..	1,200
One „ Jail „ 4″	.. ..	1,200
	Total ..	6,400

This charge can be easily met as it was expected that a charge for pumping of Rs. 29,295 per annum would have had to be met, whereas the expected annual expenditure in the first year will not be above Rs. 19,224 made up in budget as follows:—

	RS.
Repairs to machinery	1,500
Establishment	5,124
Contingencies (fuel, &c.)	12,600
Total ..	19,224

I therefore request that the amount of Rs. 6,400 may be entered for meters.

(iv) The allotments made under 2. Repairs—(*d*) water-supply are considered adequate and call for no remarks.

Trichinopoly MUNICIPALITY.

Statement of Proposition [illegible]vision of Establi-hment.

Order sanctioning present establishment.		Office to which the proposition refers.	NATURE. Present Scale.				RGE. Proposed Scale.				PROPOSITION.		Grounds of proposition.

Revised Estimate for 1895-96

2. The current receipts and charges are now estimated at Rs. 172500 and Rs. 249880 respectively against Rs. 157220 and Rs. 211700 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts and buildings, income from markets, cart stand fees, and contributions from ~~forces~~ local boards, while that in the charges appears mainly under grant I. The collections under the taxes on buildings and lands and the expenditure on buildings during the first eight months of the year were far from satisfactory. The transfer of funds referred to in para 8 of the Chairman's first letter read above is approved. As regards the other allotments and transfers included in statement VII A of funds, for which the sanction of government is requested separate applications in

the prescribed form should be submitted. With reference to clause (i) ~~the remarks~~ of the Sanitary Engineer's ~~in clause (i) of this~~ letter read above, the allotment ~~to~~ under New Walks — Water Supply will be reduced from Rs. 115350 to Rs. 70,000. The temporary arrangement referred to in para 3 of the Chairman's second letter read above is approved, but the proposal to entertain two additional peons, ~~in~~ para 2 cannot be sanctioned as the Government is not satisfied of its ~~the~~ necessity ~~for it~~. The provision of Rs. 20 for contribution to the Cutlers Establishment will be struck out with reference to Fo. No 972 dated 18th January 1895. The amounts provided for repayment of debt and for interest will be reduced from Rs. 3340 and Rs. 4330 respectively to Rs. 1710 and Rs. 4250. The balance to be carried

(Note. The amount to pay off the Loan in 30 years is 5-96% of it: 4½ on one lakh is Rs 4250 leaving Rs 1710 to make up the 5-96%)

15th February 1896 T. W.

forward to the ensuing year's budget will ~~then~~ be Rs. 65770.

for
Budget Estimate 1896-97.

3. Receipts. The receipts for the ensuing year are placed at Rs. 137870 against Rs. 172000 in the revised estimate, the decrease ~~appearing~~ under (due to) loans and Government grants being partly counter balanced by an increase under Water — tax. The proposed imposition ~~levying~~ of this tax at the maximum rate of 4 percent is sanctioned. With reference to ~~the remarks of the Director~~ in para (ii) of the (the Director's) letter read above the grant from Government for Education will be raised from Rs. 140 to Rs. 250. (Paragraph 18) ~~The~~ suggestion of the Chairman's ~~in para 18 of his~~ last letter will be referred to the District Board for early remarks.

4. Charges (1) The probable charges are put down at

Rs. 15477 against Rs. 24980 the revised estimate, the decrease under Grant I being partly met by an increase under Grants III & V.

(2) Grant I. The proposal ~~to construct a building for the~~ to construct a building for the lying-in-hospital referred to in para 22 is approved, but ~~the Construction of~~ this and the other new buildings for which provision has been made in the budget, should not be commenced until the plans and estimates have been approved by Competent Authority. With reference to para 2 Supra a Sum of Rs. 46350 will be provided under New Works - Water Supply. Owing to want of funds the Sanitary Engineer's Suggestion in Clause (iii) of his letter cannot be adopted. The alterations at present in the Water Works Establishment which from the proposition statement appears to be contemplated are approved; but these should have been explained in the Chairman's letter ~~With reference to the remarks~~

15th February 1916

To look after the health & public works & the health dept.,

The proposal to entertain a Supervisor on Rs. 150/ with two clerks on Rs. 20 and Rs. 15, two peons on Rs. 6 each and a lascar on Rs. 7, in lieu of the existing overseer on Rs. 70 with a clerk on Rs. 10 and a peon on Rs. 6 should be reconsidered in the light of the remarks of the Sanitary Commissioner in his letter read above. It seems desirable that there should be separate officials for the supervision of public works & the duties of health officer

(3) Grant II. The additions to and alterations in the Educational establishments proposed in paras 27 and 31 of the Chairman's first letter are sanctioned. As recommended by the Director in para (iii) of his letter, a Sum of Rs. 120 will be provided under "Training Schools". The Council's attention will be drawn to his recommend

-ation in para. 2.

(4) Grant 1a. The attention of the D.P.I. will be drawn to para. 28 of the chairman's letter and he will consider whether funds can be made available for opening a girls' school for Muhammadans in the town. The changes in the Registration, Conservancy and Private Scavenging Establishments proposed in paras. 34 35 and 36 are sanctioned but the proposal to reduce the number of vaccinators by two cannot be approved as no reasons have been given for it. The Sanitary Commissioner's remarks regarding the inadequacy of the Private Scavenging Establishment will be referred to the Municipal Council for consideration. (no reference made to the reduction except in the proposition statement.)

(5) Grant IV. The proposals contained in paras 38, 39 and 40 regarding the Lighting, Market, and Slaughter-house establishments are approved.

(6) Grant V. The entertainment of two additional peons proposed in para 41 will, with reference to para 2 supra be disallowed. The proposed changes in the Collection Establishment referred to in para 43 are sanctioned.

5. Debt and Closing balance

The provision for repayment of debt will be reduced from Rs. 4400 to Rs. 2330 and that for interest raised from Rs. 5470 to Rs. 5540. The budget as revised by Government closes with a balance of Rs. 6860 or 5.0 percent of the estimated receipts.

Issue

No. 471 M., 19TH MARCH 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—The following papers :—

From M.R.Ry. P. SINGARAVELU PILLAI, Avargal, Deputy Collector and Chairman, Municipal Council, Trichinopoly, to the Chief Secretary to Government (through the Collector of Trichinopoly), dated 14th January 1896, No. 2.

I have the honour to submit, for sanction of Government, the budget estimates of this municipality for the year 1896–97 and the revised estimates for the current year. These were sanctioned by the municipal council at their meeting held on the 11th January 1896. An extract from the proceedings of the council sanctioning the same and approving this report is enclosed, together with the prescribed statements.

REVISED ESTIMATE.

Receipts.

2. The total receipts, as now revised, amount to Rs. 1,72,500 against Rs. 1,57,220 anticipated in the budget, and show an increase of Rs. 15,280 over the original estimates.

3. *Tax on Arts.*—This tax has been carefully revised in this year. An additional income of Rs. 1,000 is expected under it.

4. *Tax on Buildings and Lands.*—The receipts under these items show an increase of Rs. 4,800 and Rs. 600, respectively. This increase is due to the revision of these taxes in the current year and the collection of the arrears outstanding in previous years. I hope to completely adjust in the current year all arrears of taxes.

5. *Market Rents.*—The income under markets shows an increase of Rs. 3,900. It is due also to the revision of the rents of the stalls in the fort and the grain markets which was undertaken by my predecessor.

6. *Cart-stand.*—The collection of fees at the municipal cart-stand was leased out for Rs. 5,510 by the council for a term of two years from April 1895. The income is due to competition at the auction sale.

7. *Contribution from the Local Boards.*—The sum of Rs. 6,000 comprises the usual annual contributions of Rs. 3,000 and of Rs. 1,500 paid by the local taluk and district boards for the municipal hospital and of Rs. 1,500 due by the taluk board, being the balance of contribution on account of the previous year.

Expenditure.

8. The revised estimate under the charges amounts to Rs. 2,49,880 against Rs. 2,11,700 provided in the budget, and show an increase of Rs. 38,180 over the original figures. The chief items under which increased expenditure occurs are noticed below.

The sum of Rs. 500 required for putting up a flight of steps to the municipal office has been transferred from the provision under repairs to buildings. The work is urgently needed, and hence the alteration of the figures under buildings.

9. *Water-supply.*—The water-supply works are expected to be completed in the current year. The balance of Rs. 1,15,350 is entered accordingly against this item. The increase over the allotment anticipated in the budget is due to the allotment of last year not having been spent fully in that year.

10. *Salary or Carriage Allowance.*—The excess of revised over budget estimate is due to the payment of charge allowance of Rs. 150 to the Divisional officer, who was in charge of the municipality, sanctioned by the council, and to an allowance of Rs. 75 to the Deputy Collector deputed by the Government to serve as chairman *plus* his pay.

11. *Refunds.*—The sum of Rs. 5,883 has been refunded to Government as the amount was paid to the municipality twice over on account of the water-works contribution.

12. *Repayment of Debt.*—The sum of Rs. 7,670 is required for paying the instalments and interest due for the current year on account of the loans taken for the water-works, instead of Rs. 5,960 provided previously.

BUDGET ESTIMATE.

Receipts.

13. *Tax on Arts.*—This tax is levied on all the classes of the schedule. The demand for the ensuing year is put down at Rs. 11,000, which may be reasonably expected as the result of a careful assessment of the tax.

14. *Tax on Buildings.*—The demand under this tax has also been raised to Rupees 31,800. The tax has been carefully revised in the current year.

15. *Tax on Lands.*—The tax has been revised in the current year and the settled demand for the ensuing year will be Rs. 3,400.

16. *Water-tax on Buildings and Lands.*—A water-tax will have to be levied for the ensuing year, as the water-works will most likely be opened in April next. Sanction of Government is requested to levy the tax at the maximum rate of 4 per cent. on the rental value of houses. An income of Rs. 13,000 is expected from this source. The water will be supplied to only five out of the seven wards of the municipality, and hence the lower figure.

17. *Tax on Vehicles, Animals and Carts.*—The figures are repeated under these items for the ensuing year and require no explanation. No large increase can be hoped for in these cases.

18. *Tolls.*—The sum of Rs. 10,000 has been provided with reference to the revised budget. In this connection it seems necessary to point out that while the municipality has to spend on the roads more than Rs. 13,000 and possibly much more in 1896–97, the contribution by the local fund board on account of tolls amounts to only Rs. 10,000. Reason and justice seem to demand that the local fund contribution must be raised to equal at least the outlay. The special attention of Government is invited to the subject in view to a decision.

19. *Income from Markets.*—The sum of Rs. 19,980 is expected for the next year from this source. The rents of the stalls in the fort and grain markets have been revised in the current year.

The other markets may also give a slightly increased income when they are leased out in February next.

20. *Water-supply.*—A contribution of Rs. 2,500 from Government in the Military and Judicial departments and of Rs. 2,000 from the railway company are due on account of the working charges of the water-works for the ensuing year. These sums are, however, only approximate. The Sanitary Engineer to Government states from his past experience at Madura and Tanjore that the townspeople will not appreciate the benefits of the new water-supply all at once and consequently the town may not require its full quantity for two or three years to come, while the other parties to the scheme will receive their full supply from the commencement. For this reason the apportionment of the amounts to be recovered from these parties to the scheme can be considered only approximate.

21. *Private Scavenging Fees.*—The system is now working in four wards and will be extended to the remaining wards. Accordingly the income from this source is raised from Rs. 6,000 to Rs. 7,000. It is hardly necessary to repeat that in the

15th February 96 J. M.

present defective state of the Municipal Act in respect of this subject the extension of private scavenging carries with it a probable loss to municipal funds.

Expenditure.

22. *Grant I, New Works.*—The sum of Rs. 5,700 is provided for construction of new buildings, which are two slaughter-houses, two pairs of latrines and a lying-in hospital.

A new sheep slaughter-house has to be built in place of the existing one, which has to be pulled down, owing to its close proximity to the proposed new Muhammadan burial-ground—*vide* G.O., Mis. No. 1822 M., dated 2nd November 1895.

A slaughter-house for pigs is also needed, as the one that existed fell down two years ago. Provision has been made for these two buildings.

A pair of new latrines is to be constructed in Chintamani in the fifth ward on the site recently purchased and another pair in Rock Fort. The lying-in hospital sanctioned for the current year could not be built as the provision of Rs. 500 made then is quite insufficient. The plans and estimates prepared by Mr. Minchin, the Assistant Sanitary Engineer, show that the cost of the proposed building will amount to Rs. 2,600. The sanction of Government is requested for constructing this hospital at a cost of Rs. 2,600 as it is very necessary.

23. *Repairs—Communications.*—Rs. 13,000 is provided as usual for repairs to the roads in the town. The sum is found to be insufficient for keeping the 37 miles of roads in a fair condition throughout the year. Some of the roads are absolutely out of shape and condition, due to continued neglect. The council has, therefore, not only to maintain roads, but to re-form some of them. The council is now spending much more than it gets from tolls, and cannot afford to spend more without injustice to other and equally important demands. But it seems possible, by careful and considerate economy, to make even this sum of Rs. 13,000 go a much greater way.

24. *Repairs to Buildings.*—The repairs of the several buildings mentioned in Statement II-A are all necessary and will be taken up in the order of their urgency.

25. *Water-supply.*—The water-works are expected to be opened early in April next. A sum of Rs. 3,500 is provided, of which Rs. 2,500 is for any repairs which may be necessary to the new machinery purchased for the water-supply scheme and the balance of Rs. 1,000 for repairs to wells, improving steps, &c., in the second and third wards to which the water-supply system will not apply. Rs. 12,600 is provided under contingencies for the working charges of the scheme for the ensuing year. The sum of Rs. 8,530 is also provided for the maintenance of the establishment proposed by the Sanitary Engineer to Government for the new water-works. This allotment includes the provision required for the maintenance of five tank watchers on Rs. 3 each for the second and third wards to which the new scheme does not extend.

26. *Grant I,* (3) *Public Works Establishment.*—It is proposed to entertain some officer of superior qualifications—preferentially a pensioned sub-engineer or supervisor—to look after the public works of this municipality which cost altogether about Rs. 30,000 a year, and, if the maintenance of water-works is included, the total will come to over Rs. 50,000. It will therefore be real economy to employ a man that has the necessary attainments and can be trusted. I think no such man can be had for less than Rs. 150 a month. He will require two clerks on Rs. 20 and Rs. 15 and two peons on Rs. 6 and a lascar on Rs. 7.

27. *Grant II, Education—Salary-result Schools.*—The provisions under this grant are almost in entire accordance with the proposals of the Assistant Inspector of Schools supported by the Director of Public Instruction. The council maintains in the current year six primary schools, one of which is intended for the Muhammadans and the rest for the Pallars and Paraiyas. It is proposed to open four more salary-result schools for the sole benefit of the Muhammadans at Woraiyur, Jail street and Chintamani, and the remaining one will be a night school in Woraiyur for the adults working in the cigar manufactories, with a teacher in each on Rs. 7 a month. An assistant master on Rs. 5 is provided for the Devadanam Paraiya school as the numbers in the school have risen beyond what can be managed by one man. It is also proposed

to raise the pay of the first, second, third, fourth and fifth assistant teachers from Rs. 10, 10, 7, 6 and 5 to Rs. 15, 12, 8, 7 and 6, respectively, for the good work turned out by them. Accordingly the provision under the fixed payments is raised from Rs. 1,450 to Rs. 1,940; while those under the result grants and contingencies are also correspondingly increased.

28. *Girls' Schools.*—The Inspectress of Girls' Schools recommends the opening of a salary-result school for Muhammadan girls in the municipality at a cost of Rs. 350 per annum. But as Government has on a former occasion decided that female education is not a legitimate charge upon municipal funds, no provision has been made.

29. *Salary Grants.*—A sum of Rs. 1,200 is provided under salary grants, as it is proposed to aid a few well-conducted schools by salary grants. If the managers do not consent to place their schools on the salary-grants system, the amount will be utilised in the payment of result grants.

30. *Result Grants.*—Rs. 4,800 is provided for payment of result grants to approved schools.

31. *Municipal Inspectors.*—The two inspectors will be maintained for the next year. The junior inspecting schoolmaster has been doing good work and it is proposed to raise his pay from Rs. 16 to Rs. 20. This increase is recommended by the inspecting officers and has the strong approval of the Director of Public Instruction.

32. *Common Gymnasium.*—The existing establishment of two gymnastic instructors on Rs. 12 each will be maintained, as well as a drawing master on Rs. 20 sanctioned in the current year.

33. *Grant III, Medical.*—The hospital at Trichinopoly and the dispensary at Woraiyur will be maintained in their present condition.

34. *Registration of Vital Statistics.*—The present establishment consists of five registrars on Rs. 14 each. The council propose to employ for the ensuing year eight registrars on Rs. 10 each. This arrangement costs Rs. 120 per annum more, but has the advantage of giving one registrar for each of the eight wards into which the municipality is proposed to be divided. Each registrar will have to gather information of all births and deaths for an average population of 11,500. These men will work under the supervision of a health officer, whose entertainment is now under serious consideration. The registration as at present conducted is highly defective owing partly to the faultiness of the system and partly to want of adequate supervision.

35. *Conservancy and Establishment.*—The present staff of twelve sanitary inspectors and one maistri is not required. Eight inspectors, to correspond with eight wards, will be quite sufficient to supervise the sanitary arrangements in the municipality. Their pay will be as follows:—

Two men on Rs. 20 each,
Two „ on „ 17-8-0 each, and
Four „ on „ 15 each.

In addition to this an inspector for the night-soil depôt is necessary as recommended by the Sanitary Commissioner, and one will be entertained on Rs. 12. A staff of sixteen peons will be required to help the sanitary inspectors at the rate of two for each ward. It is also proposed to add two sweepers to each ward at Rs. 4-8-0 each, as the present number is found insufficient. The pay of the health officer referred to in paragraph 34 *supra* has been provided under Grant I, as the man to be entertained will also be expected to work the Public Works branch of the municipality.

One of the serious defects noticed by the new chairman is the want of an adequate number of rubbish, sewage and night-soil carts of a serviceable kind. Whatever may be the rapidity with which the sweepers, &c., may work, unless the sweepings, &c., are speedily carried out of town, the later condition will be worse than the earlier, in that accumulated filth is more dangerous to public health than when it is distributed. It is, therefore, proposed to add a decent number of serviceable carts and to pay well and employ serviceable bullocks. It will fall considerably short of the mark when it is stated that the bullocks now in use are disgraceful in condition. Rs. 20,000 are therefore provided instead of the usual allotment of Rs. 18,000.

Private Scavenging.—This system is proposed to be extended from the ensuing year to the 1st, 3rd and 7th wards (old state) also. Therefore an allotment of Rs. 6,940 is provided for the maintenance of the establishment required for the purpose.

37. *Cholera Charges.*—A sum of Rs. 3,000 is provided under cholera charges instead of the usual allotment of Rs. 1,000, so that the measures suggested in G.O., No. 1[illegible]3 M., dated 26th June 1895, may be carried out as fully and completely as possible, should cholera appear in an epidemic form in the town.

38. *Grant IV, Lighting and other purposes.*—The present establishment for lighting the markets and slaughter-houses will be slightly modified to suit requirements felt on experience. Two superintendents to supervise the lighting of a town having about 700 lamps are found insufficient. It is, therefore, proposed to add a third. But the number of lamp-lighters is excessive, and each man can safely light 30 lamps on an average. It is proposed to cut the number down to 25.

39. For the *markets* one inspector on Rs. 15, instead of two on Rs. 12 and Rs. 9, will quite suffice, no assistant being required.

40. *Slaughter-houses.*—One other subject of chronic complaint is the neglect of supervision of slaughter-houses. Both in the matter of sanitation and in the inspection of the kind of cattle brought for slaughter there is much to be desired. There are three slaughter-houses, and it is proposed to have one superintendent for each. It is proposed to secure the aid of the medical staff for seeing that only healthy cattle are brought for slaughter.

41. *Grant V, Office Establishment.*—No changes can now be proposed, as it will take some little time for the present chairman to note the excess or defect. The entertainment of two additional peons on Rs. 7 each is provided for service under the chairman.

42. *Inspection.*—The sum of Rs. 4,280 is provided for the salary required for a whole-time chairman of the municipality at Rs. 250 per mensem including his pensionary contribution and a carriage allowance of Rs. 75.

43. Against a present staff of seven bill collectors at Rs. 12 each, it is proposed to entertain a staff of eight men, one for each ward. There is no need for an amin on Rs. 14, as he is now doing only clerical work.

44. *Debt.*— A sum of Rs. 4,400 is provided for paying an instalment in the ensuing year towards the repayment of the loans taken from Government for the accomplishment of the water-supply scheme and a further sum of Rs. 5,470 is provided on account of interest for one year.

45. In conclusion, I beg to state that having assumed charge of the municipality only very recently, I have had to frame the budget in accordance with the existing state of affairs. But owing to the various changes that are impending, such as the revision of wards, the opening of the water-works and the consequent imposition of water-tax, it seems to me it will be necessary to apply to Government very frequently to alter the provisions. The foregoing reason also accounts for the delay of nearly a fortnight in the submission of this report.

Submitted.

(Signed) KHADIR NAVAZ KHAN,
Deputy Collector.

16*th January* 1896.

Endorsement on C. No. 121-Rev.

Submitted.

Revised Estimate (1895-96).

2. The short expenditure under new works—buildings and drainage, and the increased expenditure under hospitals—medicines and supplies might have been explained.

3. The increased receipts under tax on houses and lands and under markets, the result of recent enquiries is very satisfactory.

Budget Estimate (1896–97).

4. *Grant III (a), Vaccination Establishment.*—The reasons for reducing the establishment might have been given, as Government has not very long since commented unfavourably on the want of satisfactory progress in this respect.

5. *Grant IV, Lighting Charges.*—The figure "3" in column "proposed scale" is evidently a clerical error for "5." The increase for the "market superintendent" is not marked in the column "increase per month."

6. The Sanitary Engineer and the Superintending Engineer, Madras Circle, have been addressed on the subject of appointing a man who could discharge the combined duties of overseer and chief sanitary inspector (or health officer) on adequate salary.

Trichinopoly,
29*th January* 1896.

(Signed) J. ANDREW,
Acting Collector.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, Madras, to the Chief Secretary to Government, dated 17th January 1896, No. 377.

I have the honour to submit the following remarks on the educational portion of the budget estimate of the Trichinopoly Municipality for 1896–97 :—

(i) It is not clear how the estimate of Rs. 140 as Government grant has been arrived at. The council will be entitled to a third grant of Rs. 180, in round numbers, for the gymnastic and drawing masters. Provision should be made for the training of at least two teachers. Credit may be taken for a stipendiary grant of Rs. 70 from Provincial funds on this account.

(ii) The allotments proposed under Grant II may be accepted with an addition of Rs. 120 for stipends to two primary teachers who may be sent for training.

2. The net expenditure under Grant II will then be Rs. 10,000 (10,560—560), which is only 10 per cent. of the estimated income from taxation, rents and markets. Trichinopoly is a very important town and, as the Government already aids two first-grade colleges in the town, it is not in a position to establish girls' schools. Though female education is not an obligatory charge on municipal or local funds, there seems no objection to the establishment of girls' schools by those bodies when funds permit after the primary education of boys has been fully and adequately provided for. The tax-payers in municipalities do not bind the municipalities to provide for the education of their sons only and not for that of their daughters. I would recommend Miss Carr's proposal for the favourable re-consideration of the council.

From J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E., Sanitary Engineer to Government, to the Chief Secretary to Government, dated Fort St. George, 22nd January 1896, No. 193.

With reference to the budget estimate of the Municipal Council of Trichinopoly for 1896–97, an extract of which has been forwarded to this office, I have the honour to report as follows :—

(i) The allotment of Rs. 1,15,350 made under new works—water-supply in the revised estimate of 1895–96 represents the balance of the sanctioned estimate of Rs. 5,02,050 for the works. Though the works are expected to be completed before the end of the current official year, the entire sum of Rs. 1,15,350 will not be required for payment during the year. It is estimated that Rs. 70,000 will be enough for the purpose, and the balance may be provided in the budget estimate of 1896–97.

(ii) The provision of Rs. 2,500 and Rs. 2,000 under contribution in the budget estimate of 1896–97 under receipts—water-supply is correctly made and the figures are given by this department.

(iii) The amount of the contribution from the Military, Jail and Railway departments was originally based on the amount of water demanded as compared with the total expected demand, which included 15 gallons per head for Trichinopoly. But it is unlikely that the town will take 15 gallons per head at first; it is not likely to

exceed 6 or 7 gallons just after opening; therefore if the original proportion were maintained, if the town used less water, the cost to other parties would be more, whether they took their full supply or not. I suggested therefore that the only possible way of arriving at a just demand against the participators was first to determine the amount of water actually consumed by each, and that the chairman should enter a sum of Rs. 6,400 for four meters as under :—

			Rs.
One meter Railway, size of main	8″	.. ..	
One „ Military	„ 5″	.. ..	2,500
One „ „	„ 4″	.. ..	1,500
One „ Jail	„ 4″	.. ..	1,200
	„ 4″	.. ..	1,200
		Total ..	6,400

This charge can be easily met as it was expected that a charge for pumping of Rs. 29,295 per annum would have had to be met, whereas the expected annual expenditure in the first year will not be above Rs. 19,224 made up in budget as follows :—

	Rs.
Repairs to machinery	1,500
Establishment	5,124
Contingencies (fuel, &c.)	12,600
Total ..	19,224

I therefore request that the amount of Rs. 6,400 may be entered for meters.

(iv) The allotments made under 2. Repairs—(*d*) water-supply are considered adequate and call for no remarks.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Camp Bellary, 14th February 1896, No. 302-S.

With reference to the budget estimate of the Trichinopoly Municipality for 1896–97, I have the honour to submit the following remarks on the provision therein made for vaccination and conservancy :—

(*a*) The proposed expenditure on vaccination (Rs. 880) shows an increase of Rs. 220 as compared with the current year's figure, which has not been explained.

(*b*) The conservancy charges are placed at Rs. 42,340 being 30·7 per cent. of the estimated current receipts and Rs. 5,230 in excess of the sanctioned budget figure. The increase mainly occurs under "5 (*a*) (ii) other charges" and "(*c*) cholera charges," and is explained in paragraphs 35 and 37 of the Chairman's letter.

(*c*) Statement II-B shows that there is a staff of nine sanitary inspectors on salaries varying from Rs. 12 to Rs. 20. The council propose to employ a subordinate who shall fulfil the duty of both sanitary inspector and Public Works overseer. Such a combination of functions is impossible, *if efficiency in either one or the other branch attended to is required.* Trichinopoly is of sufficient importance to have a Medical Officer of Health of its own of the Assistant Surgeon class, specially trained in Hygiene. But, in consideration of the fact that it has now a whole-time Chairman, a certificated Chief Sanitary Inspector on Rs. 75 + Rs. 15, horse allowance, will sufficiently meet requirements. He should be assisted by four third-class sanitary inspectors on Rs. 25 + Rs. 7–8–0 each. Allowing that the private conservancy arrangements are correctly worked with the staff contemplated under that head, fully 63 more scavengers would be necessary. Notwithstanding the highly defective state of the conservancy plant, as alluded to in paragraph 35 of the Chairman's letter, I cannot ascertain from the figures supplied me that any provision is made for carts, although evidently better bullocks are to be employed in future.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 15th February 1896, No. 133.

I have the honour to state that the provision made in Grant III of the budget estimate of the Trichinopoly Municipality for the year 1896–97 is sufficient.

2. I approve of the proposal of the municipality for the construction of a lying-in hospital at a cost of Rs. 2,600, but it is observed that the proposed plan for such a building does not appear to have been sanctioned by the sanitary board as yet.

From the Deputy Collector and Chairman, Municipal Council, Trichinopoly, dated 15th February 1896, No. 10.

ABSTRACT.—Soliciting sanction for the employment of two additional peons on Rs. 7 each and the splitting up into two of the appointment of the overseer.

ORDER—No. 471 M., dated 19th March 1896.

The estimated receipts and charges of the Trichinopoly Municipality for 1896–97, as passed by Government, are compared below with the budget and revised estimates for the year 1895–96 and the actuals of 1894–95 :—

REVISED ESTIMATE FOR 1895–96.

2. The current receipts and charges are now estimated at Rs. 1,72,500 and Rs. 2,49,880, respectively, against Rs. 1,57,220 and Rs. 2,11,700 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under the taxes on arts and buildings, income from markets, cart-stand fees, and contributions from local boards, while that in the charges appears mainly under Grant I. The collections under the taxes on buildings and lands and the expenditure on buildings during the first eight months of the year were far from satisfactory. The transfer of funds referred to in paragraph 8 of the Chairman's first letter read above is approved. As regards the other allotments and transfers of funds included in Statement VI-A, for which the sanction of Government is requested, separate applications in the prescribed forms should be submitted. With reference to clause (i) of the Sanitary Engineer's letter read above, the allotment for new works—water-supply will be reduced from Rs. 1,15,350 to Rs. 70,000. The temporary arrangement referred to in paragraph 7 of the Chairman's second letter read above is approved; but the proposal to entertain two additional peons contained in paragraph 2 cannot be sanctioned, as the Government is not satisfied of its necessity. The provision of Rs. 20 for contribution to the cutlers' establishment will be struck out with reference to G.O., No. 97 L., dated 18th January 1895. The amounts provided for repayment of debt and for interest will be reduced from Rs. 3,340 and Rs. 4,330 respectively to Rs. 1,710 and Rs. 4,250. The balance to be carried forward to the ensuing year's budget will be Rs. 65,770.

BUDGET ESTIMATE FOR 1896–97.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 1,94,870 against Rs. 1,72,500 in the revised estimate, the decrease under loans and grants from Government being partly counterbalanced by an increase under water-tax. The proposed imposition of this tax at the maximum rate of 4 per cent. is sanctioned. With reference to paragraph 1 (i) of the Director's letter read above, the grant from Government for education will be raised from Rs. 140 to Rs. 250. Paragraph 18 of the Chairman's first letter will be referred to the district board for early remarks.

4. *Charges.*—(1) The probable charges are put down at Rs. 1,54,770 against Rs. 2,49,880 in the revised estimate, the decrease under Grant I being partly met by an increase under Grants III and V.

(2) *Grant I.*—The proposal to construct a building for the lying-in hospital referred to in paragraph 22 is approved, but this and the other new buildings, for which provision has been made in the budget, should not be commenced until the plans and estimates have been approved by competent authority. With reference to paragraph 2 *supra*, a sum of Rs. 45,350 will be provided under new works—water-supply. Owing to want of funds, the Sanitary Engineer's suggestion in clause (iii) of his letter cannot be adopted at present. The reductions in the water-works establishment, which from the proposition statement appear to be contemplated, are approved; but these should have been explained in the Chairman's letter. The proposal to entertain a supervisor on Rs. 150 to look after both public works and the health department, with two clerks on Rs. 20 and Rs. 15, two peons on Rs. 6 each and a lascar on Rs. 7, in lieu of the existing overseer on Rs. 70, with a clerk on Rs. 10 and a peon on Rs. 6, should be reconsidered in the light of the remarks of the Sanitary Commissioner in his letter read above. It seems desirable that there should be separate officials for the supervision of public works and the duties of Health Officer.

(3) *Grant II.*—The additions to and alterations in the educational establishments proposed in paragraphs 27 and 31 of the Chairman's first letter are sanctioned. As recommended by the Director in paragraph 1 (ii) of his letter, a sum of Rs. 120 will be provided under "Training schools." The council's attention will be drawn to his recommendation in paragraph 2. The attention of the Director of Public Instruction will be drawn to paragraph 28 of the Chairman's letter and he will consider whether funds can be made available for opening a girls' school for Muhammadans in this town.

(4) *Grant III.*—The changes in the registration, conservancy and private scavenging establishments, proposed in paragraphs 34, 35 and 36, are sanctioned; but the proposal to reduce the number of vaccinators by two cannot be approved, as no reasons have been given for it, nor any reference made to the reduction except in the proposition statement. The Sanitary Commissioner's remarks regarding the inadequacy of the private scavenging establishment will be referred to the municipal council for close consideration.

(5) *Grant IV.*—The proposals contained in paragraphs 38, 39 and 40 regarding the lighting, market and slaughter-house establishments are approved.

(6) *Grant V.*—The entertainment of two additional peons, proposed in paragraph 41, will, with reference to paragraph 2 *supra*, be disallowed. The proposed changes in the collection establishment, referred to in paragraph 43, are sanctioned.

5. *Debt and Closing Balance.*—The provision for repayment of debt will be reduced from Rs. 4,400 to Rs. 2,330 and that for interest raised from Rs. 5,470 to Rs. 5,540. The budget, as revised by Government, closes with a balance of Rs. 6,850 or 5·0 per cent. of the estimated receipts.
