RESOLUTION.

In the circular read in the preamble Local Governments and Administrations were consulted upon a proposal to modify Statement * II (A.—Vaccine Department) appended to the Annual Vaccination

* Prescribed by Home Department Resolution No. 86 (Sanitary), dated the 9th May 1877.

Reports as indicated in the form which was annexed to that circular in such a manner as to show the amounts expended on the different sections of the Vaccine establishments, namely, the amounts paid as salaries to the Administrators, Inspectors, Clerks, Vaccinators, Peons, etc., and were asked whether, in their opinion, the amended form would meet the object in view, on the assumption that the minor headings under "Expenditure" might be changed to suit local requirements.

2. The Government of Madras while accepting the proposed form suggest that an additional column might be opened in which should be shown the cost of lymph. The Governor General in Council is of opinion that the advantages to be gained by the adoption of this proposal would be more than outweighed by the drawbacks attending any further amplification of the form of the return. The Government of the North-Western Provinces and Oudh suggest that the cost of the Deputy Sanitary Commissioners and their office establishments should, as is said to be the practice in Bengal, be shown as a total only for the whole Province, instead of being spread over the various districts under their control. This suggestion commends itself to the Government of India and should, with a view to secure uniformity, be generally adopted in those Provinces in which such appointments and establishments exist. In some Provinces, such as the Central Provinces, Burma and Assam, the Administrative Medical officer is also the Sanitary Commissioner and in Coorg this duty is performed by the Civil Surgeon and Superintendent. It is not intended that the salaries of these officers should be included in the Statement.
