MEMORANDUM.

Extract from the Government Inspector's
Inspection Report of the South Indian
Railway for the half year ending the
31st December 1895.

Para 13. Approaches roads and feeder roads.

The question of feeder roads is receiving special attention. The Pakala & Hanamaya section is probably the worst off in this respect and an officer has been specially deputed to report. The following table shows the requirements of this section:-

Station	Name of village to which feeder road is required	Distance in mile	Remarks.
Mangalampet	Mangalampet	1½	President N. Anet P.O. unable to ascertain 3 bridges estimated at Rs. 5000. Local P.O. has no funds.
Pulichula	Kathapet	1½	
	Kallurkottam	4	Estimate framed by Local P.O.
	Rompichula	5	No reply received from Local P.O.
Kalukiri	Mahab	9	Local P.O. has sent Rs. 100 for repair of road.
	Kundur	7	Local P.O. has no funds.
Vayalpandi	Samayarasapati	6	President of Local P.O. has asked for an estimate.
Immamangetta	Ghattu	5	Local P.O. has no funds.
Battalaparam	Kothakotta	7	do
Mulachelacheruvu	Mudukadupalli	5	do
Mudigallu	Panadurti	5	do

The remaining sections should also be reported on by an officer specially deputed for this work, and a complete report submitted to Government as soon as possible.

Pallur — Feeder roads wanted to two large villages Panapakam and Tirumalpur to the west of the line.

Serandam — A trial station. An approach road is wanted and connection with the main road at Venkatasri. Adoni. This should be made by the Local Funds Board.

Namilam — Approach road to goods shed in a very bad state; should be remitted at once.

Veltar — Both approach roads in bad order.

Chavadepalayam — The approach from the main road is very bad; the Local Funds Board should be addressed.

A feeder road is wanted to Madu-Kurichi $2\frac{1}{2}$ miles ^{from} and to Tirumattayagan-gudi. There is no approach road to the station on the west.

Forwards to the Local and Municipal Department, for favor of necessary action.

F. D. Miller

Under Secretary to the
Railway Branch.
