SIR,

William Joseph a Local Fund
Hospital assistant in charge of Hosgi Dispensary was ordered to be in charge of Adoni Municipal Dispensary during the absence of Civil apothecary Adoni who was ordered to appear before a Magistrate as witness. The former claims travelling allowance for the journey to and from Adoni. As I feel doubt whether this travelling allowance can be paid from Provincial funds as in the case of Govt Medical Sub-ordinates ordered to be in charge of a dispensary temporarily. I request your instructions on the point. If debitable to Provincial Funds, I presume that the travelling allowance of has to be

SIR,

In forwarding for the orders of Govern-
ment letter from the Treasury Officer,
Bellary No. 1236 dated 20 November 1895 en-
quiring to which Fund he should debit
the travelling allowance of William Joseph
a locally trained Hospital Assistant in
charge of the Hosgi Local Fund Dispensary
for the journey to and from Adoni on the
occasion of his temporary deputation
thereto during the absence of the perma-
nent incumbent who was required to
appear before a Criminal Court as a witness
I have the honour to make the following
observation

observation.

In Government Order No 518 M-Local and Municipal dated 13 April 1891 it was decided that Medical Subordinates employed on relieving duties, as in the case of deputation to relieve medical Officers summoned to Courts as witnesses, should be regarded as on the reserve staff and that their salary and travelling allowance should be paid from Provincial Funds, provided the transfer is a purely temporary one, and the Surgeon General either passes the order of transfer or countersigns the bills presented.

I do not think the Government Order quoted can be held to cover the present case. It refers only to Government Medical Subordinates employed on relieving duties and the principle which underlay the decision of Government, was apparently that as Local Boards and Municipalities contribute towards the reserve Medical staff the expenses in connection with such subordinates temporarily loaned to them should not be again charged.

Ordinarily, cases of transfer would be regulated

but the travelling allowance paid to such officers shall not, without the express sanction of the Local Govt, exceed what would be admissible to similar officers under these regulations.

regulated by Article 1295 Civil Service Regulations, but Article 873 declares that the Civil Service Regulations do not apply to Local Funds. Therefore Article 1295 cannot apply of itself, but it could be applied if relevant to the present question because Government has declared that the Regulations should be applied to Local Funds and Municipalities of the rules framed under Section 144 of Act V of 1884 and Section 250 of Act IV of 1884.

Article 1295 is obviously intended to meet cases of transfer between Government Departments or at most cases of transfer between Government and Foreign services. The present case is however a transfer between two entirely distinct and independent bodies not bound by any ties save that they are both subordinate to Government. I therefore think that Government should in the exercise of its plenary statutory powers to frame rules under Section 250 of Act IV direct that the Travelling Allowance for the journey to and fro in cases ~~like~~ the present should be paid by the Municipality, the journey having been made in the interests of that body.

DEPARTMENT

SIR,

With reference to your memorandum No 203 Local and Municipal dated the 15th February 1896, I have the honor to state that the District Medical and Sanitary officer Bellary reports that no reserve hospital assistant was available at the time and by sending hospital assistant Joseph from Hosgi the nearest place to Adoni less expense was incurred than by sending a reserve man even if one had been available.

Order no 598 dated

As the Municipal Council
of Adoni pays a contribution
to Provincial Funds for the
maintenance of the reserve
medical staff, it was clearly
entitled to the services of a
medical subordinate from
that staff during the absence
of the Civil apothecary. The
travelling allowance of the
Hospital assistant referred
to should therefore be paid
from Provincial Funds.
The fact that William Joseph
was not a Government medi-
cal subordinate does not
alter the case.
