Sir,

From your Vaccination Returns (in accordance with G.O. No. 1502 M. dated 19 Octr) for the months of January and February it is observed that in January out of a total of 170 births liable to compulsory Vaccination in that month only 21 are reported as successfully Vaccinated. In February out of a total of 170 – only 14 were successfully Vaccinated. The monthly returns for these

No. 1287/V

Memo

Returned for explanation with ref: to this office No. 1256/S dated 30-7-95 and para 5(b) (c) & (d) of G. O 1502 Mr dated 19 October 1894.

2. It is observed that out of 327 cases liable to Vaccination only 4 have been Vaccinated.

Out of those liable in the month of June not a single case has been Vaccinated.

The monthly return* for June 1895 shows 55 cases "under one year of age" successfully Vaccinated - this requires explanation.

An early reply is requested.

Memorandum

To

Sanitary Commissioner.

Vaccination in Vellore Municipality

Total births liable to Vaccn: during May		325
Deduct	deaths 21 left town 36	57
	Balance remg.	268

Of these

Postponed on M.C.	26	
Refd to Magistrate	20	55
Vaccinated	9	

Remaining to be accounted for - 213.

Of the 20 cases referred to the Magistrate 10 were referred in March last & granted postponement of 1 week but no further action is reported. In 126 cases no action whatever has been taken - not even a notice issued - Although 3 reporters are employed under the Registrar.

The Births in this May return must include all under one year of age as 1st notices have been issued in some instances in Aug 94. Only 9 are here shown as Vaccinated while the ordinary monthly return for May shows 65 cases "under 1 year of age" successfully Vaccinated.

Municipal Councillors Office
No. 951 G.   Vellore 4th September 1895

From,

Muhammad Habibullah Sahib
Chairman Delegate,
Municipal Council, Vellore

To,

The Inspector of Vaccination and
Dy Sanitary Commr, Madras.

Sir,

In reply to your No. 1287 dated 13th August 1895, I have the honor to inform you that of the 327 cases liable to Vaccination in June the following are the results for June, July & August:-

	June	July	August	Total
Vaccinated	4	87	79	170
Died	"	9	2	11
Left the town	"	12	16	28
				209

There remains therefore 108 cases to be accounted for, most of which refer to Sick Children or to those in which a reference has been made to the Magistrate.

Incorrect. Vide August return - 115 cases in which no action whatever has been taken.
(Ind) C. [illegible]
5.9.95

Steps however will be taken to have all these cases accounted for by the end of the current month.

With reference to the discrepancy pointed

pointed out between the number shown in the statement submitted under G. O No. 1502 & that shown in the monthly Vaccination Return for June 1895, I have the honor to state that the former represents the number vaccinated out of those unaccounted for from January to June 1895 whereas the number 55 in the Vaccination Return includes births of towns other than Vellore, vaccinated in Vellore, as also births of this town prior to January 1895.

I have &c
Sd/ Mahomed Abdullah
Chairman Delegate.

(True Copy)
W G King
Surg. Lt. Col
Sanitary Commr., Madras.

There is no explanation. It simply gives the result of action taken after the state of affairs was brought to notice.

To

THE Chief Secretary to Government,
Local & Municipal Department,
Fort St. George.

Enclosure.

SIR,

I have the honor to submit for favor of consideration by Government the accompanying correspondence as to the neglect of Compulsory Vaccination by the Municipality of Vellore. In spite of my request that the Chairman would kindly devote special attention to the subject — after much previous correspondence by the Inspector of Vaccination and Deputy Sanitary Commissioner — I now find that no progress has been made, and I therefore suggest that such action as Govt. may think fit may be taken under Section 37 of Act No. IV of 1884.

2. The following is the state of progress as reported by the Chairman in the last return received — that for November 1895. —

(a) Of 213 cases that were liable to Compulsory Vaccination but were not operated on in in previous months, during November only 49 cases were subjected to the operation.

(b) Of 110 cases available for Compulsory Vaccination in November, after making allowance for deaths and those who had left the town, only 3 cases were Vaccinated.

(c) In 144 cases no action whatsoever has been taken, and no explanation of this has been given — notwithstanding that under G. O No. 1502 this should have been forthcoming in each case otherwise not accounted for in an authorized manner.

(d) In a very large number of cases, no second notice as to Vaccination has been served.

(e) No cases have been referred to the Magistrate, and where a Medical Certificate has been granted, instead of dates being given, the indefinite word "week" has been inserted in the Return.

3. Under the above Circumstances, & in consideration of the Correspondence — which has already taken place, I think there can remain no reasonable doubt that the Municipality of Vellore has no real intentions as to carrying out the Compulsory clauses of the Act in an efficient

manner

[1,500—27-3-94.]

manner.

dated

Sir,

With reference to the letter from the Chairman, Vellore Municipality recorded in G. O No. 288 Mis. dated 17th February 1896, I have the honor to point out that while his statement that 55 cases still remain unvaccinated of those remaining to be disposed of in August last is correct, the general condition of vaccination remains in the same unsatisfactory state.

Enclosures.

(Through the Divisional Officer.)

Sir,

With reference to your endorsement No. 877 dated 11th February 1896 forwarding for early remarks letter No. 138 dated 29th January 1896 from the Sanitary Commissioner for Madras, I have the honor to report as follows:—

2. I took charge of my office on the 1st July 1895 and soon after, finding that compulsory vaccination was not as satisfactory as it should be in this municipality, I at once set out to put matters on a more satisfactory footing.

3. On a reference to the statement for June 1895 submitted under G.O. No. 1502, I found that there were 327 cases to be accounted for from January to June 1895 as shewn below:—

January

January	28
February	63
March	54
April	50
May	60
June	72
Total	327

Up to 31st January 1896 there remain of these cases only 7 to be accounted for viz:-

January	"
February	"
March	1
April	1
May	5
June	"

4. Of the 213 cases liable to compulsory vaccination up to end of October 1895 only 98 cases now remain viz:-

January	"
February	"
March	1
April	1
May	5
June	"
July	4
August	26 out of 162 births
September	30 out of 140 births
October	31 out of 136 births
	98

5. Out of 110 cases available for compulsory vaccination in November only 47 remain to be accounted for and I hope that these 145 remaining cases will be disposed of by the end of this month.

6. With reference to the other objections of the Sanitary Commissioner, I respectfully beg to state that the complaint regarding the information required but not supplied is mainly due to the ~~lax~~ lax manner in which the compulsory provisions of the Act as regards vaccination were worked in this municipality prior to my taking charge. Further, the procedure laid down in sections 134 to 137 was thoroughly ignored, and hence considerable difficulty was experienced in supplying the necessary information called for in G.O No 1502.

7. All these irregularities have been rectified by me and the necessary notice books and certificates required to be issued under the Act have been adopted since my assumption of office.

8. I have had occasion to fine vaccinators for short work, and have also insisted on each vaccinator submitting a diary shewing not less than 5 successful cases. These diaries are scrutinized by me every

Further orders No. A/26/3/96

every day. — In addition to this I have prosecuted 94 cases under section 138 of the Act.

9. From the facts set forth above it will be seen that since my assumption of office I have endeavoured, as far as practicable to carry out the compulsory provisions of the Act relating to vaccination, to which I am paying special attention, and that much progress has in consequence been made and that therefore no action need be taken by Government under section 37 of Act No IV of 1884 as required by the Sanitary Commissioner for Madras.—

I have the honor to be,
Sir,
