Boards after all are only administrators of Government property & it seems unreasonable to charge them a high fee, and consequently embarrass them in their efforts to keep roads which are only one form of Government property, in a satisfactory condition.

I apprehend that in revising the Navigation Rules a very high rate may be charged for temporary occupancy of canal bankas. I venture to address Government in the interests of the Local Fund Boards.

3. The enclosed table gives a list of sites on canal bankas at present occupied by Local Fund Boards. These extents cannot be reduced; on the other hand with the gradual improvement and extension of roads it may be necessary to occupy more ground. I do not think that Government looks on the rentals for such ground as a source of revenue, but only as a means of preserving Government rights. Furthermore Local Fund

Boards

Office as to the cause of this great disparity between the two rates, the Superintending Engineer informs me that the revised Navigation rules are now under consideration of Government and that he has instructed the Executive Engineer, Kistna Western Dn., to charge only Re 1 per 20 yards frontage in accordance with G.O. No. 5713C/21-9-91 pending the issue of the revised rules.

2. At the same time it has been reported to me by the District Board Engineer that the Executive Engineer Kistna Western Dn. informed him that the Superintending Engineer had sanctioned the imposition of the Rs. 10 charge, prior to my addressing him on the subject. As

SIR,

The amount of rent hitherto collected by the D.P.W. for canal lankas on which Local Fund materials are stored is one rupee (a year) for twenty yards of frontage in the Kistna Eastern and Northern Divisions. But the Executive Engineer, Kistna Western Division charged Rs. 10 per annum for an equal extent of land. On a reference from this Office
