SURGEON-LT.-COL. W. G. KING, M.B., C.M., D.P.H., AG. SANITARY COMMISSIONER, MADRAS.

J. A. JONES, Esq., M.I.C.E., F.R.S.P., SANITARY ENGINEER TO GOVERNMENT.

Read the following:—

G.O. No 1809 in dated 1st November 1895
Local and Municipal, para 2

The Sanitary Board is of opinion, in consideration of the amount of vegetable matter found in the Marlumund Reservoir water, that preparatory to its issue for supply to certain houses on the hill (which cannot otherwise be served) and, in the event of its being necessary to look to the reservoir as a reserve in times of drought, the quantity deemed requisite for the town should be submitted to the action of "Anderson's revolvers", followed by filtration through the ordinary type of sand beds.

2. Details as to the exact mode of the adaptation of this system with reference

reference to the power to be employed the Board is of opinion can best be considered by the officer appointed to work out the scheme generally. Such information as has been gathered on the subject, it therefore places at the disposal of Mr. Welch.
