Municipal Office
Tuticory 14th December 1895.

From
Mr. C. V. Karunakaran Menon & Aiyar
Chairman
Municipal Council
Tuticory

To
The Chief Secretary to Government
Fort St. George
Thru the Director of Public Instruction
Madras.

Sir,
With reference to the remark in para 4
(2) of G.O. No. 1706 dt. 22nd October 1895, about the
Brenn College, I have the honor to submit the following
explanation.

2. The Institution was originally a Govern-
ment High School. In 1884 it was handed over to muni-
cipal management, Government undertaking to bear the
net cost of the School (vide G.O. No. 160 dated 28th March 1884).

3. In 1890, at the instance of the Director of
Public Instruction, and with the sanction of Government
(vide G.O. No. 184 m. dated 1st February 1890) the Municipality
raised the Institution to the standard of a second grade
college, this was done on the understanding that the muni-
cipality was to receive from Provincial Funds the full
Salary grant due to the Institution. The Director in para
3 of his letter No. 746 dated 29th December 1889 read in
G.O. No. 184 m. dated 1st February 1890 says "the institution
will be more than self supporting with ordinary aid
from Provincial Funds" The scheme submitted by the
Council was modified by the Director in certain
respects.

para 3 489 dt.
letter in G.O. 184 m.

respects and he recommended the appointment of a drawing master (paying in para 2 of the same letter) that "half the cost will be borne from the Provincial Funds." It will be seen that the scheme of 1890 was based upon the receipt by the Municipality of full Provincial grants (to the drawing master included) and that the Director in his letter quoted above allowed it and sanctioned it.

4. But from the year 1892-93 we had not been receiving the full amount of grants we are entitled to under the Grant-in-Aid Code, and no grant on behalf of the drawing master has been given us notwithstanding the Director's express promise. In the three years 1892-93, 1893-94, 1894-95 we received from Provincial Funds Rs 2180, 2054, and 2150, while we are entitled to Rs 2465, 2870 and 2894 respectively which gives a total in round numbers of Rs 1,800 withheld from the College.

5. The Institution has fully justified its existence and more than fulfilled the most sanguine expectations formed of it. The number on its rolls has increased from 188 in 1890-91 to 236 in 1894-95. The income has also increased in spite of the lower rate of fees now levied. It was Rs 6532 in 1890-91 and Rs 7226 in 1894-95. The work turned out by the Institution has always been satisfactory and the College is becoming daily more popular. The Moplah Community of North Malabar have come to appreciate Education solely through the action of the College. In 1890 there were in the College only 26 Moplahs (taking into account the number in the Brennan Primary School also), and today there are no less than 63 boys. That this spread of Education among the Moplahs of Tellicherry is due chiefly, if not solely, to the College is conclusively shown by the fact

fact that while today we have 63 in the College, the local Mission School has not even a dozen boys in all its departments put together. The Brennan College is thus silently doing that work of spreading Education among the Moplahs of North Malabar which in South Malabar has necessitated the employment of a special Agency. During the past five years 6 passed the Lower Secondary Examination, 6 the Matriculation and 2 the F. A. from the College.

6. I now come to the financial question raised in the L. C. under reply. I think it is absolutely impossible to reduce the expenditure on the College as without seriously impairing efficiency. The salaries paid to the teachers are small when compared with those of teachers in the sister Institutions of the Presidency. Successive Inspectors of Schools have remarked upon the economical management of the College. Mr. Marsden in his Inspection Report of the College for 1892/93 remarked "I agree with Mr. Rogers that the Assistants must be better paid." The same officer wrote in his report for 1893/94 "The staff is efficient. The pay has been fixed on the most economical scale." Again Mr. Logan in his report for 1894/95 says "as observed by Mr. Marsden the pay of the teachers has been fixed on a most economical scale."

Further there is no necessity whatever for such a reduction if the Director sanctions on behalf of the College the full grant we are entitled to. The following Statement shows the net cost to the Municipality for the last five years.

Year	Net Cost.		
1890-91	-	649	2 9
1891-92	-	995	12 5
1892-93	+	635	1 4
1893-94	+	216	4
1894-95	+	1080	11 9
Total	+	280	14 3

From the revised estimate for the year 1895/96 and the estimate for 1896/97 sent in by the Head Master of the Opennew College, I find that the net cost to the Municipality for the current year even when the director has not allowed us full grants will be very small (about Rs 30) and that for the next official year 1896/97 there will be a surplus balance of more than Rs 300 if the director sanctions full grants.

I have the honor to be,

Office of the Inspector of

From

The Inspector of Schools,

To

The Director of Public Instruction,
Madras.

Sir,

In returning the accompanying
letter of the Chairman, Municipal
Council, Tuticerry dated 14th Decem-
ber 1895, N.O. 788, referred to me for
remarks and your endorsement
N.O. 72 dt. 8.1.96 and with reference to para
2 of your endorsement N.O. 1314 dt. 7.12.95
G.O. dated 22nd October 1895, N.O. 1706 dt.
I have the honour to state that I
fully endorse the Chairman's remarks
with regard to the Brennan College
which supplies a real want in
the locality.

2. The Brennan College is
maintained on a very economical
scale.

scale. It is highly popular and
is becoming more and more so among
the Mappila community whose edu-
cation Government takes so much
interest in, and has been pro-
ducing generally good results both at
the H. V. and Intermediate examina-
tions. The staff though under paid
is strong and efficient and any
retrenchment in the salary of the
teachers to restore equilibrium in
the financial status of the college
is sure to create discontent and
tell seriously upon the efficiency
of the institution. After all, the
net cost to the Municipality on
account of it, as pointed out
by the Chairman himself, was
not much, and as compared with
the net cost of the Salem Municipal
College, it must be considered
a trifle. The Municipal College
Palghat had a surplus of Rs.
215 in 1894-95 against a large deficit
in the year previous, and the Breemur
College.

19
College has also had in favourable
years viz 1890-91 and 1891-92; the
deficit in the subsequent years is
chiefly due to a larger expendi-
ture on the teaching staff with-
out a proportionate receipt from
provincial funds in the shape of
salary grant. The current year is
however expected to be a prosperous
one and there is likely to be a
surplus in the coming year against
a deficit of Rs 1080 in the past year
which has given rise to the remark
of Government referred to by the
Chairman.

3. On the above circumstances
I do not think it advisable to
propose any reduction in the expendi-
ture on the Breemur College as it
is already fixed at the lowest
minimum possible, considering the
efficiency of the staff employed
and the work it is required to do.
I would moreover recommend that
it

scale. It is similar to popular and
it be allowed the full amount
of grant it is entitled to from
provincial funds.

SIR,

I have the honour to sub-
mit the enclosed letter to your
address from the Chairman, Muni-
cipal Council, Jelliebury, N. 788
dated 14th December 1895, together
with copy of a letter from the Ch-
^{remarking thereon}
Inspector of Schools, Western Circle, and
to state that in the circumstances
therein detailed no reduction need
be made in the scale of establish-
ment sanctioned for the Brennen
College. He contending that the

of grant it is eligible for under
the provisions of the grant. in
aid code, the Chairman has over-
looked the fact that grant to
individual institutions can only
be paid with reference to the funds
at the disposal of the Department.
For the past few years new and
increased grant have generally
had to be refused for want of
funds, and hardly any important
institution in the Presidency gets
the full grant it can claim under
the rules. I do not, therefore, see
any way to comply with the request
of the Chairman in fairness to
the claims of many other institutions
for which increased grant have
had to be refused and which are
not treated even as liberally
as the Breuners College. The fee
income of the institution has
shown a tendency to advance, and
I hope that the College will in
future be more ^{nearly} self-supporting

than

than in the past. In the Budget
Estimate for 1896-97, the net ex-
penditure on Education has been
kept within the usual limit.
