GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

G.O., No. 967 W., dated 17th March 1896.

Read—the following letter from Lieutenant-Colonel C. C. RAWSON, R.E., in charge of Consulting Architect's Division, to the Chief Engineer, Public Works Department, dated Chepāk, 28th February 1896, No. 4683 :—

With reference to your office-note, No. 912 C., dated the 15th instant, I have the honour to forward, for your approval, a notice to be printed and issued to all heads of departments to take precautions against fire.

2. The superstructure of the Public Works Secretariat building at Simla was of half timber work, hence the almost entire destruction of the building; but there is also a great deal of timber in the roofs of public building of Madras, and, as a further precaution, I venture to suggest that enquiries be made through the India Office if any reliable fire-proof paint is available, and, if so, that a small quantity may be sent for experiment, with price lists, samples of the various tints available, &c.

ENCLOSURE.

Precautions to be taken against fire in the Public Works Offices, Madras.

Heads of offices are to direct the head clerks of their offices to see that the following rules are carried out and the head clerk is to be held responsible for this being done.

2. Before closing the office for the night, the head clerk will go round each room and see that everything is safe, his special attention being directed to the receptacle for waste paper.

3. None but safety matches are to be used in the office.

4. The matches used for official purposes should be in the custody of one person in the office whose name should be registered.

5. The person named in paragraph 4 should keep the matches during the day under lock and key and should invariably take them away with him at night.

6. No naked lights should be used in any office. All candles or wicks must be protected by glass.

7. Fire-places for the preparation of paste should not be allowed near any building.

8. Any temporary sheds built of combustible materials required for any purpose should not be erected without the permission of the Consulting Architect.

9. Waste paper is not to be allowed to accumulate in large quantities in any office. Every evening the waste paper of the day is to be collected and put into a special place, the key of which should be in charge of the head clerk.

(Signed) C. C. RAWSON, Lt.-Col., R.E.,
In charge of Consulting Architect's Divn.

26th February 1896.

Order—No. 967 W., dated 17th March 1896.

The proposed rules, with slight modifications, are sanctioned for adoption as regards the Public Works offices at Chépák. But it is desirable that similar precautions should be taken in all public offices. The rules will accordingly be circulated to heads of departments for information and guidance in drawing up rules, altered as may be necessary to suit local requirements.

2. The Consulting Architect will himself make such inquiries as he may consider necessary in regard to fire-proof paints.
