GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. P. RAMA RAO, Tahsildar of Hadagalli, to the Collector of Bellary (through the Head Assistant Collector), dated 26th February 1896, No. ——.

I beg to submit the following report on the sanitary arrangements made during the jatra that took place in the village of Mylar.

2. The jatra commenced on the 28th January and closed by the 4th February 1896. The "Karanikam" ceremony, as it is called, was held on 1st February 1896. The karanikam this year was "సంతృప్తిఆయుక్త వరాగ్." It literally means "Satisfaction."

3. There was a gathering of about 25,000 pilgrims, 7,060 cattle, and 3,530 carts and conveyances of all sorts.

4. River Tungabhadra, which is the only source of water-supply to the village, passes at a distance of one mile from the village. It was divided into three parts, the upper part being set apart for drinking purposes, the middle for bathing, and the lowest for washing the cattle. These parts were specified by fixing flags.

5. Temporary water-sheds also were erected.

5-A. A good staff of scavengers were entertained with kolkars to supervise over them; and the bazaars were daily swept.

6. Ten latrines were erected—five for the use of males and five for females. Both males and females freely resorted to them. A sufficient number of toties also were employed.

7. A temporary hospital shed was erected on high ground with sufficient accommodation, and the hospital assistant, Mr. Muhammad Sheriff, was placed in charge of it.

8. There were no epidemics during the jatra and the public health was good.

9. The Hospet Taluk Board have sanctioned Rs. 250 for making the necessary sanitary arrangements during the jatra. Necessary vouchers, &c., will be submitted to the President with the statement of expenditure incurred.

10. Mr. A. L. Hannay, the Acting Head Assistant Collector and the President, Hospet Taluk Board, was present during the jatra.

11. Temporary tolls were levied on all cattle, as in the previous years, for making the jatra a self-supporting one. This year the right of levying tolls was given on contract for Rs. 255.

To the President Taluk Board Hospet,
thro' the President District Board,
Bellary
" Collector of Bellary
" Sanitary Commissioner.
[illegible]

(with order)

12. It would be better if any substantial sanitary improvement, such as the introduction of water-pipe system in the village, be made. The inhabitants of Mylar promised to contribute towards the cost for the introduction of the pipe system from the Tungabhadra river above Kuruvatti, and the taluk board passed a resolution that the Sanitary Engineer should be addressed to give his opinion on the feasibility of introducing the system, after personal inspection. The difficulty for water during the jatra is insurmountable and some water improvement of the sort is most essential.

13. The necessary tabular statement called for in G.O., No. 1178 L., dated 29th May 1893, and the hospital assistant's letter on the subject are herewith submitted.

ENCLOSURES.

REPORT on the festival held at Mylar in the Hadagalli taluk in the year 1896.

District.	Name of reporter.	Name of festival and where held.	Date of festival.	Number assembled.	Accommodation and sanitary arrangements made.	Water-supply.	Conservancy.	Epidemics.	General health.	Recommendations.	Remarks.
Bellary.	M.R.Ry. P. Rama Rao Garu, Tahsildar of Hadagalli.	Mylar "Karanikam" festival. Held at Mylar, a village in the Hadagalli taluk.	1st February 1896.	About 25,000.	Shops were arranged in lines with sufficient width. The bazaars were daily swept and the sweepings were deposited outside the village.	River Tungabhadra is the only source of water-supply in the village. It passes at a distance of one mile from the village. It was divided into three parts. The upper part was set apart for drinking purposes, the middle for bathing, and the lowest for washing the cattle. Five temporary water-sheds were erected.	Ten latrines were constructed—five for the use of males and five for females. Both males and females freely resorted to them. Twenty toties with a good staff of sweepers and kolkars were employed to clean the latrines and bazaars. The streets were daily swept.	Nil.	Good.	People suffer very much in the jatra for want of water as the river passes at a great distance from the village, where there are no good wells. It would be better if the water-pipe system be introduced in the village from the river above Kuruvatti village. Some kind of substantial improvement towards water-supply is most essential.	The feasibility of introducing water from the Tungabhadra, as suggested by the reporter, is a matter that should receive the serious consideration of the taluk board. The arrangements for conservancy were far below the requirements of a population of twenty-five thousand. 26th March 1896. (Signed) W. G. No. 13

I beg to submit my report on Mylar festival in Hadagalli taluk:—

The "Karanikam" ceremony took place on the 1st February 1896. There was a gathering of about 25,000 pilgrims, cattle and conveyances of all sorts about 7,060 and 3,530, respectively.

2. The shops were arranged in streets sufficiently wide, the shops dealing in similar articles being located in the same line.

3. A big hospital shed was erected with two compartments on a sufficiently high ground. A board was hung up to that effect. This was built in a suitable ground. About eight patients were admitted for treatment—four ague, two constipation, one ulcer and one fistula, respectively.

4. Suitable places were selected away from water sources for the construction of ten latrines.

Sufficiently large latrines—five for males and five for females—were constructed on trench system, and they were being cleaned twice a day. Necessary steps were also taken from the commission of nuisance, and consequently pilgrims freely resorted to them. Female latrines were covered with leaves and screened with date mats. These were indicated by pictures. against

5. The refuse of the town bazaar and streets was deposited outside the village at a distance.

6. The conservancy establishment consisted of a good staff of sweepers and toties with kolkar over them. These discharged their duties to my entire satisfaction.

7. The supply of drinking-water was obtained from Tungabhadra running by the side of the village. Necessary steps were also taken for the erection of four water-sheds. Suggestions were also made to the local magistrate to mark out convenient sections in the river for drinking, bathing and watering cattle, indicated by flags with pictures on them, which he attended to. Sufficient measures were taken by the police to guard the river and prevent the water from being polluted by the pilgrims. the

8. The Head Assistant Collector, who was also present during the festival, took steps to see the place kept clean.

9. In conclusion, the arrangements were satisfactorily made.

To
The Collector of Bellary
through the Head assistant Collector

Sir

I beg to submit the following report, on the sanitary arrangements made during the jatra, that took place in the village of Mylar.

2. The jatra commenced on the 28th January and closed by the 4th February 96. The "Karanikam" ceremony as it is called, was held on 1.2.96. The Karanikam this year was "[illegible]." It literally means "Satisfaction".

3. There was a gathering of about 25,000 pilgrims, 7060 cattle, and 3530 carts and conveyances of all sorts.

4. River Tungabadra, which is the only source of water supply to the village, passes at a distance of one mile from the village. It was divided into 3 parts. The upper part being set apart for drinking purposes, the middle for bathing and the lowest for washing the cattle. These parts were specified by fixing flags.

5. Temporary water sheds also were erected.

5A. A good staff of scavengers were entertained with Kolkars to supervise over them; and the bazaars were daily swept.

6. 10 latrines were erected: 5 for the use of males and 5 for females. Both males and females freely resorted to them. A sufficient number of totties also were employed.

7. A temporary hospital shed was erected on high ground, with sufficient accommodation and the Hospital Assistant Mr. Mahomad Sheriff was placed in charge of it.

8 There were no epidemics during the jatra and the public health was good.

9. The Hospet Taluq Board have sanctioned Rs 250 for making the necessary sanitary arrangements during the jatra. necessary vouchers &c will be submitted to the President with the statement of expenditure incurred.

10. Mr. A. L. Hannay the acting Head Assistant Collector and the President Hospet Taluq Boards was present during the jatra.

11. Temporary tolls were levied on all cattle, as in the previous years, for making the jatra a self supporting one. This year

Number of copies | Order complete. Letter only.

50

the right of levying tolls was given on contract for Rs 255.

12. It would be better if any substantial sanitary improvement, such as the introduction of water pipe system, in the village be made. The inhabitants of Mylar promised to contribute towards the cost, for the introduction of the pipe system, from the Tungabadra river above Kuruvatti, and ~~that~~ the Taluq Board passed a resolution that the Sanitary Engineer should be addressed to give his opinion ~~on~~ the feasibility of introducing the system, after personal inspection. The difficulty for water, during the jatra, is insurmountable and some water improvement of the sort is most essential.

13. The necessary tabular statement called for in ~~Pro~~ G.O. No 1178 L dated 29.5.93 L & M and the Hospital Assistant's letter on the subject, are herewith ~~returned~~ submitted.

I beg to a
