Order No. 816 mins 8/11/57

The changes in the water-
works establishment proposed by the
Municipal Council cannot be
sanctioned, as ^{likely to be} government Council
- ders that they are ^{likely to be} independent.
2. The Chairman will be
requested to report whether the
proposals have already been
fully effect to, and if so, to explain
why the order of government
was not awaited.

3. The attention of the Council
will be drawn to para. 2 of the
San. Engr's letter, ~~and copy~~ on
which a report should be submitted
without delay.

Order and a week ahead observation.

that one of the late Head Turn cocks has been put on as a fireman at the Pumping Station in the place of one Abraham a fireman who resigned his post. This I do not consider a wise step as the Head Turn cock was not trained as a fireman and the boilers he has to deal with Babcock Wilcox are of peculiar construction and need careful attention when in steam."

2. To transfer a man from the position of Turn cock to that of fireman is a measure that can only be taken at present because there is no law in this Presidency preventing the employment of untrained persons but I would point out that it is an act very much to be deprecated - I was made aware of the fact when the transfer occurred but it is now out of my power to prevent such occurrences.

3. The alteration of establishment without the sanction of Government is believed to be opposed to Government Orders and a more strict observance

with reference to the proposed alteration in the out door staff of the Sangre Water Works. The idea seems to have emanated from the Overseer.

Personally I do not approve of the abolition of Head Turn-cocks. They should be trained pipe fitters and men capable of regulating the pressure on the mains. It might be a serious matter in a direct pumping system such as Sangre, if a valve on the main was shut when working at high pressure. The under Turn cocks are only coolies and are supposed only to regulate the fountain supplies. Again in the event of a pipe bursting on a main or other serious mishap the permanent staff should be capable of repairing the damages. The maintenance staff as revised will have only the two fountain fitters as skilled labour, the remainder are little better than coolies. There would be great difficulty in finding a trained joiner in Sangre to assist the permanent staff temporarily in the case of a break down.

I believe the proposed modifications have already been given effect to by the Chairman, Municipal Council, Sangre. I may mention

that

GOVERNMENT OF MADRAS.

OFFICE OF SANITARY ENGINEER,
Fort St. George, 17th April 1896.

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,
SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government,
Local and Municipal Department.

SIR,

Your reference No. 423 dated 4th April 1896

I have the honor to state that I do not approve of the changes proposed but which I believe have already been made - the following extracts from a letter of the Assistant Sanitary Engineer who was lately in charge of Tanjore shews exactly why the changes are inexpedient - as long as things go right no doubt the men can be done away with but what is wanted is to keep things right and to keep men ready for emergencies

I have not been in any way consulted by the Chairman, Municipal Council, Tanjore.

Fort St. George,
MADRAS.

Thro. the Divisional Officer,
TANJORE.

SIR,

In forwarding herewith extracts from the Proceedings of the Muni. Council dated 20 February and 4 March 1896 sanctioning certain changes in the out door establishment attached to the water-works which were handed over to this Municipality in January last, I have the honor to inform you that it was found necessary to abolish the appointment of the Head turn Cocks as they had very little work to do, and to allow an horse allowance of Rs 10 a month to the water works Overseer who will be able to do the duties of the Head turn Cocks also. A lascar on Rs 5 is also provided to the Overseer.
