From

SURGEON-MAJOR-GENERAL C. SIETHORPE, F.R.C.P.I.

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Local and Municipal DEPARTMENT.

SIR,

With reference to Grant III of the
budget estimate of the Bellary Municipality
for the year 1896-97, I have the honor to state
that the recommendations of the District Medi-
cal and Sanitary Officer regarding establishment
has been attended to with the following
exceptions:-

(i) Sabapathy Mudaliar's hospital - con-
-struction of (a) a new kitchen (b) two bath
rooms (c) one cinerator (d) a fence.

(ii) The municipality proposes to construct
a hospital at Brucepetta at a cost of Rs 4800
but reserves it for the present. In this connec-
-tion, the District Medical and Sanitary Officer
suggests that the present Sabapathy Mudaliar's
hospital and the lying-in ward hospital be
sold or otherwise utilized by the municipality
and from the proceeds supplemented by the
allotment of Rs 4800 for the Brucepetta
hospital, to construct a substantial hospital
including accommodation for both in and
out patients of male and female ^{classes} ~~rank~~
with suitable establishments.

2.

During my recent inspection
of

of this hospital, I recorded my remarks in the official visitor's book after due consultation with the Collector and the District Medical and Sanitary Officer; a copy of which is herewith attached for the information of Government.

I have the honor to be,

Sir,

Your most obedient Servant,

Chitambar

Surgeon-Major-General

Surgeon-General

with the Govt. of Madras.

Extract from the Visitor's Book of Sabapathy Hospital, Bellary dated 20th February 1896.

Visited the hospital to day, there are 21 in patients. I wish to call the attention of the Municipal Council to my remarks of the 20th and 21st September '94 and the remarks of the Sanitary Commissioner of the 13th of this month. No steps appear to have been taken to carry out thoroughly many necessary repairs &c which I then showed were required to place the hospital in a satisfactory sanitary condition. It does not show efficient administration — allowing the hospital and out buildings to be in such a dreadful state and it is not fair to the Medical Officer to ask him to treat patients in an hospital which is so badly equipped and arranged. I understand that the Municipality is not a poor one. I see the wretched shed for cholera cases has been renewed, but it is not according to the Standard plan nor can its plan have been passed by the Sanitary Board in accordance with the Orders of Government. Certainly no such plan

plan was submitted to me as should have been done by the Sanitary Board. The hospital will not be in a satisfactory state until the suggestions made by me are acted on. I am also convinced that there should be a separate Out-Patient Dispensary on the Standard plan erected near the side of the main Road. There should also be one or two Standard plan huts for high caste patients. Regarding the Lying-in-Hospital it would be far better to equip and open this hospital causing Mrs Carmody to live in the quarters and to hold a dispensary daily for such women as will not or cannot attend the ordinary dispensaries. She should carry on her work under the immediate supervision of the District Medical and Sanitary Officer and his assistant. This would I consider be the best arrangement as long as there is only a third class female Hospital Assistant available. She should be permitted to give an anna a day's batta to any poor woman for the last fortnight of their pregnancy, on their agreeing to visit the hospital daily and to come into it for their confinement. If the

Council

Council decide to build a Lying-in-Hospital on the Standard plan and site it in the compound of this hospital, which I think would be a good plan if the quarters were also built near it for Mrs Carmody and the midwives, I would suggest that a separate dispensary for females on the Standard plan with quarters for a female medical practitioner duly qualified for independent charge should be erected on some site in proximity to the high caste and Mahomedan females. Funds for both the new Lying-in-Hospital and the Caste and Gosha Dispensary would be eventually available if the present Lying-in-Hospital was sold which should not be done until the other buildings are ready for use. I understand the Municipality has a reserve of funds which would meet the expenditure pending the realization of the amount which the present building would bring. I am pleased to see that the professional work done in the Hospital has increased steadily in 1895. There were 736 In-patients treated compared with

with 584 in 1894 and there were 128 major operations performed compared with 47 the year before.
