and has also remarked that as the Municipality has grown fruit-bearing trees and has used Government water without permission there is no reason why Government should forego the ~~the~~ charge for water.

4. Though the Municipality does not derive any profit at present yet when the trees begin to bear fruit, there will be profit.

5. The Board in its Proceedings No.339,dated 16th Sept.1895 (Land Revenue) has ordered that water-rate should not be charged on topes and gardens under the control of the Forest or other departments of Government. This order does not appear to apply to Municipalities.

6. The Deputy Collector who conducted the Jamabandy of Periyatulam Taluk has also charged water-rate for taking Government water for trees planted by private persons even though they do not yield fruit at present.

7. Under these circumstances, I think the charge was rightly imposed.

Sir,

I have the honor to inform you that water-rate is charged by the Revenue authorities for watering tamarind trees on the Kallar road within Municipal limits with water taken in pots from the river Varahanadi. As the trees are grown for public convenience and as they are watered with water taken in pots on the head of coolies, it seems unfair that the Municipality should be charged with water-rate, though permission was applied for before water was taken. I therefore solicit orders of Government on the subject.
