L. & M. DEPARTMENT

C. No. 1071 h.

from San. Bd.

FOR ORDERS.

The scheme seems a good one & I have no remark to make on it at present. When it is sanctioned, however, it should be pointed out that the proposed compensation to landholders should not be paid until it is ascertained that they actually do suffer from the diminution of the water supply in the springs. It seems quite possible that they will not.

The proposed grant of Rs 10,000 may be sanctioned at once, without waiting for a reply from the W.L.

Rs
12/5796

The grant

On the current a draft order is put up ^{for approval} referring the scheme to the Mun- Council for remarks or report as to how it will meet the annual charges on account of it. In the budget of grants of loans for 96-97 provision is made for a grant of Rs 141,750 or a loan of Rs 47,250, i.e. a grant of $\frac{3}{4}$ of the cost of the scheme has been approved. The question of the amount of the grant to be given from Provincial may however be considered, when the Council's remarks are received.

2. With reference to para. 2 of the San. Bd's resolution & para. 10 of the San. Eng's scheme it is submitted for orders whether a grant of Rs 10,000 may be given at once, as the San. Eng. wishes to construct a filter well & test the yield to make experimental pumping before the end of the present dry season - which is now

not far off, & the San. Bd. supports
this proposal.
