Letter—from the Superintendent of Telegraphs, Madras division.
To—the Collector of South Arcot.
Dated—the 8th November 1895.
No.—5573.

In returning the papers received with your endorsement No. 4261, dated the 23rd ultimo, I have the honour to inform you that a combined office was opened at Vriddhachalam as an experiment on 8th November 1893 and that as a consequence the line erected was of only a temporary nature. Ample time having elapsed to show the revenue that we might expect from the office, the following facts were represented to the Director-General of Telegraphs for orders, viz., (i) that the average monthly revenue was only Rs. 26, (ii) that the cost of maintaining the line was increasing rapidly as the temporary supports were fast becoming unserviceable owing to the attacks of white ants and to decay, and (iii) that if the office was to be retained the entire line would need reconstruction at a heavy cost.

2. In reply, the Director-General of Telegraphs wrote that as the connection had proved a financial failure it would have to be dismantled and subsequently the 15th instant was fixed upon as the date to commence this work, it being feared that the line would collapse in the north-west monsoon. Since the receipt of certain petitions, however, I have referred to the Director-General of Telegraphs again with the result that the dismantlement is postponed for another month, *i.e.*, until 15th December next.

3. In the meantime the Director-General of Telegraphs has desired me to ascertain if a guarantee is likely to be forthcoming and has named the sum of Rupees (960) nine hundred and sixty *per annum* as the amount of guarantee that would be required, and acting under request from the Chairman of a public meeting at Vriddhachalam, I beg to enquire if you, as President of the District Board, will agree to this arrangement.

4. I should perhaps explain that the guarantee would have to be drawn up by you in communication with the Madras Government, that if accepted it would result in our building a permanent line of telegraph to Vriddhachalam, and that the guarantee would mean that the actual takings of the Vriddhachalam office in the Telegraph branch would have to be made up from Local funds to the Rs. 960 named. To make this latter point clearer,—suppose the takings continue to average Rs. 26 per mensem ; this amounts to Rs. 312 per annum. The Local funds would then have to make good the difference between Rs. 960 and Rs. 312 or Rs. 648. I may also add that the accounts are checked by the Examiner of Telegraph Accounts who bills for the deficiency, in any, half-yearly.

5. As the time in which to settle this matter is short, I shall be obliged if you will give it your early consideration and favour me with a reply as soon as possible.

Letter—from A. R. Cumming, Esq., I.C.S., President, Taluk Board, Chidambaram.
To—the Collector and President, District Board, South Arcot.
Dated—Cuddalore, the 26th November 1895.
No.—Ref. on Cur. 1320-T.B.

In returning herewith your endorsement, dated 10th November 1895, No. 4261 Pet. of 1895, together with a copy of resolution No. 1, dated 22nd November 1895, I have the honour to inform you that the Taluk Board has resolved to contribute towards the guarantee required for the maintenance of telegraphic communication to Vriddhachalam.

It is needless for me to point out how desirable it is that the people should not be deprived of this great boon which I have no doubt will be more widely used and appreciated in the course of a few years. The upkeep of the system is an object to which I consider a contribution from the Local fund will be most wisely and profitably applied. At the same time the Taluk Board must appeal for help in this matter to the District Board as the funds at its own disposal are so limited and I earnestly request that you will be good enough to get the Board to contribute one-half of the yearly guarantee required.

Read letter from the President, Taluk Board, Chidambaram, dated 26th instant, No. 1320, requesting the District Board to contribute one-half or at least one-tbird of the yearly guarantee Rs. 960 required for the maintenance of telegraphic communication to Vriddhachalam.

Resolution No. 16.—The Board is strongly of opinion that the abolition of the telegraph office at Vriddhachalam would be a most retrograde measure. It accepts the Taluk Board's proposal to guarantee half of the money required.

"The Board considers that the telegraphic line to Vriddhachalam should be so laid as to pass through Kurinjipadi at which it thinks an office might well be opened with every prospect of financial success. Kurinjipadi has become an important circle of the groundnut trade."

Letter—from A. E. Castlestuart Stuart, Esq., I.C.S., President, District Board, South Arcot.
To—the Chief Secretary to Government, Local and Municipal Department.
Dated—the 12th December 1895.
No.—Ref. on Cur. Regr. No. 1499-D.B.

In submitting herewith a copy of the marginally-noted papers, I have the honour to state that in October last many of the respectable inhabitants of Vriddhachalam presented a petition protesting against the proposed closure of the telegraph line to Vriddhachalam. This petition was referred to the Superintendent of the Government Telegraph department for favour of report as to how far the statement in the petition was true. In reply, he stated that as the line had proved to be financially a failure it would be dismantled on the 15th December 1895. The papers were then forwarded to the Chidambaram Taluk Board President. The Taluk Board resolved to contribute one-half of the guarantee (Rs. 960) required for the maintenance of the line and requested the District Board to meet the balance. The District Board agreed to do this and with reference to this agreement the Superintendent of Telegraphs was addressed on the 30th ultimo. In reply, that officer states: "The settlement of the guarantee would have to be arranged between you and the Government of Madras." I therefore solicit the orders of Government in the matter and request instructions, in case the proposals of the Taluk Board and the District Board are accepted, as to the form in which the guarantee should be drawn up. It would be a retrograde measure to abolish this telegraphic line, if it could be avoided, and if it is taken *viâ* Kurinjipadi there is a likelihood of its paying its way. Vriddhachalam is the head-quarters of the taluk of the same name and far from any railway. The line should, I think, be maintained if possible.

Read endorsement, dated 10th November 1895, of the President, District Board, requesting to report if the Taluk Board will be prepared to contribute towards the proposed guarantee for the maintenance of the telegraph office at Vriddhachalam.

Resolution No. 1.—The Board resolves to contribute towards the guarantee required for the maintenance of telegraphic communication to Vriddhachalam: in view of the paucity of the funds at its disposal, it earnestly requests the District Board to contribute one-half the guarantee and will be prepared to contribute the other half, but should the District Board consider that it cannot contribute half, the Board requests that it will at least contribute one-third and will endeavour to meet the balance from the funds at its disposal. The charges thus incurred will be met from savings under Grant II which has already a larger allotment than is required by the rules of the department.

[Subject.—*Proposals of the Taluk Board of Chidambaram and the District Board of South Arcot to undertake the guarantee for the maintenance of the telegraph line to Vriddhachalam.*]

From the President, District Board, South Arcot, dated 7th December 1895, Ref. on Cur. Regr. No. 1499-*D.B.*

This can hardly be regarded as a “measure of local public utility calculated to promote the safety, health, comfort or convenience of the people” under clause (vi) section 95 of the Local Boards Act.

2. The following draft order is suggested:—

“The Government consider that the maintenance of telegraphic communication is not a legitimate charge on Local funds.”

V. Raghava Charlu—18-12-95.

Even if this is considered as a “measure of public utility calculated to promote the . . . . convenience of the people,” it is hardly of sufficient importance to justify such an expenditure from Local funds for the benefit of Government (*i.e.*, the Taluk office) and the very few people, who hitherto have used the telegraph, the total receipts from which have averaged Rs. 26 per mensem. Submitted that the above order may be issued.

W. W. Philips—18-12-95.

J. F. Price—2-1-96.

I really can't see why, if the people of a district (as represented by the Taluk and District Boards) like to spend a little money on opening telegraphic communication, the Government should prevent their doing so. The sum at stake is only Rs. 600 or Rs. 700 per annum and the expenditure is not, in my opinion, illegal. If Local Boards may not have their own way in regard to such a trifle, what's the use of them?

In the mean time the Director General of Telegraphs has desired me to ascertain if a guarantee is likely to be forthcoming and has named the sum of Rs (960/-) Nine hundred and Sixty per annum as the amount of guarantee that would be required, and acting under request from the Chairman of a public meeting at Vaidhachelam, I beg to enquire if you, as President of the District Board, will agree to this arrangement.

4) I should perhaps explain that the guarantee would have to be drawn up by you in communication with the Madras Government, that if accepted it would result in our building

a permanent line of telegraph to Vridhachelam, and that the guarantee would mean that the actual takings of the Vridhachelam office in the Telegraph Branch would have to be made up from Local Funds to the Rs 960/- named. To make this latter point clearer — suppose the takings continue to average Rs 26/ per mensem, this amounts to Rs 312/- per annum. The Local Funds would then have to make good the difference between Rs 960/- and Rs 312/- or Rs 648/- I may also add that the accounts are checked by the Examiner of Telegraph Accounts who bills for the deficiency in any half yearly.

5) As the time in which to settle this matter is short I shall be obliged if you will give it your early consideration & favor me with a reply as soon as possible.

SIR,

In returning herewith your Indorsement dated 10-11-95 No. 4261/Pet. of 95 together with a Copy of Reso. No. 1 dated 22. 11. 95, I have the honour to inform you that the Taluq Board has resolved to contribute towards the guarantee required for the maintenance of it Telegraphic Communic to Vridhachelam.

It is needless for me to point out how desirable it is that the people should not be deprived of this great boon which I have no doubt will be more widely used and appreciated in the course of a few years. The up keep of the System is an object to which I consider a contribution from the Local Fund will be most wisely and profitably applied. At the same time the Taluq Board must appeal for help in this matter to the District Board as the funds at its own disposal are so limited and I earnestly request that you will be good enough to get the Board to contribute one half of the yearly guarantee required.

Sir,

In returning the papers received with your endorsement [illegible] dated the 23rd ultimo I have the honour to inform you that a Combined office was opened at Vridhachelam as an experiment on 8-11-93 and that as a consequence the line erected was of only temporary nature. Ample time having elapsed to show the revenue that we might expect from the office, the following facts were represented to the Director General of Telegraphs for orders, viz: (i) that the average monthly revenue was only Rs 26/- (ii) that the cost of maintaining the line was increasing rapidly as the temporary supports were fast becoming unserviceable owing to the attacks of white ants and to decay,

and

and (iii) that if the office was to be retained the entire line would need reconstruction at a heavy cost.

2. In reply the Director General of Telegraphs wrote that as the connection had proved a financial failure it would have to be dismantled and subsequently the 15th instant was fixed upon as the date to commence this work — it being feared that the line would collapse in the North ~~West~~ East? monsoon. Since the receipt of certain petitions however I have referred to the Director General of Telegraphs again with the result that the dismantlement is postponed for another month i.e. until 15th December next.

3. In the meantime the Director General of Telegraphs has desired me to ascertain if a guarantee is likely to be forthcoming and has named the Rs

3. District Boards' Resolution No. 16/30-11-95

SIR,

In submitting herewith a copy of the marginally noted papers I have the honour to state that in October last many of the respectable inhabitants of Vridhachallam presented a petition protesting against the proposed closure of the Telegraph line to Vridhachallam. This petition was referred to the Superintendent of the Government Telegraph Department for favour of report as to how far the statement in the petition was true. In reply he stated that as the line had proved to be financially a failure it would be dismantled on the 15th December 1895. The papers were then forwarded to the Chidambaram Taluq Board President. The Taluq Board resolved to contribute one-half of the guarantee (Rs 960) required for the maintenance of the line and requested the District Board to meet the balance. The District Board agreed to do this and with reference to this agreement the Superintendent of Telegraphs was addressed on the 30th Ultimo. In reply that officer states:—

"The Settlement of the guarantee would have to be arranged between you and the Government of Madras"

I therefore solicit the orders of Government in the matter and request instructions in case the proposals of the Taluq Board and the District Board are accepted as to the form in which the guarantee should be drawn up. It would be a retrograde measure to abolish this telegraphic line, if it could be avoided and if it is taken via Kurinjipadi there is a likelihood of its paying its way. Vridhachallam is the Head Quarters of the Taluq of the same name and far from any railway. The line should, I think, be maintained if possible.

2. The following draft order is ~~[illegible]~~ submitted:

The Government ~~does not~~ considers that the maintenance of ~~lines of~~ telegraphic communication is not a legitimate charge on Local Funds, & that, even if the charge is a legitimate one, the maintenance of this particular line of telegraph is not a measure of sufficient public utility to justify the proposed expenditure from Local Funds.

Note

This can hardly be regarded as a "measure of local public utility calculated to promote the safety, health, comfort or convenience of the people" under Clause (vi) Sec. 95 of the Local Boards Act.

Even if this is considered as a "measure of public utility calculated to promote ... the convenience of the people", it is ... hardly of sufficient importance to ... justify such an expenditure from Local Funds for the benefit of Govt. (i.e. the Taluk offices) ... the very few people who hitherto have ... used the telegraph, the total receipts from which have averaged Rs 7 ... per mensem. Submitted that the above order may be issued.

I really can't see why, if the people of a District (as represented ✱ by the Taluk & Dist. Bds.) like to spend a little money on opening telegraphic commn., the Govt. should prevent their doing so. The sum at stake is only Rs 600 or 700 p. a. and ~~the~~ expenditure is not, in my opinion, illegal. If L. Bds. may not have their own way in regard to such a trifle, what's the use of ~~them~~?
