1. Read G. O. No 528 M. Dated 25th March 1896, reviewing the budget of the Adoni Municipality for 1896-97. The Chairman's draft reply is approved. —.

(Signed) S. Ramu Iyer
Chairman.

(True Extract)

P. Hanumantha Rao
for Chairman
Asst

Government the provision for urinals made in the current year's budget will be struck out & the saving utilized towards the purchase of additional land for the night-soil depot. It must be explained that the 5 urinals provided for in the last year's budget were not constructed in view of the improved designs which the Sanitary Board had under preparation. These having since been received, steps are being taken to carry out the works.

4. The delay in the submission of the budget was due to the pressure of work on the office establishment caused by the introduction of the water tax & the considerable addition to the account

work entailed by the construction of the water works.

5. Copy of paragraph 2 of this letter has been forwarded to the Sanitary Engineer to Government & of paras 3(a), 3(b), 3(c), & 3(d) to the Sanitary Commissioner for Madras.

I have the honor to be,
Sir,
Your most obt. servt.
P. Hanumanthachari
for Chairman
Asst

that at present, the number of urinals in the Town is only 5, of which two are enclosures made of stone Slabs, and of the other three, one has two seats & the other two single seats only, & that in desiring to increase the provision on this account, the Council had in mind the great hardship to which the public is subjected by being prosecuted for committing nuisance in the absence of adequate provision of urinals in the frequented parts of the Town. The Council has not overlooked the importance of having efficient arrangements for the disposal of night-Soil. —

In deference, however, to the views of the Sanitary Commissioner & the Government

Sanitary Commissioner's Inspection Notes embodied in G. O. No 732 M, dated 1st May 1895. Two had been provided for in the Budget for 1895-96 and another two have been in the Current Year's. — The provision is included in the allotment under Grant III. 5 a ii Other Charges Conservancy. I regret that the fact was not noticed in the Covering Letter to the Budget. —. The Carts have been ordered.

(d) The remarks of the Sanitary Commissioner, & Government, that due provision, for dealing with night-Soil is of more importance than the Construction of urinals are noted. But the Council begs to explain that

11th February 1896, No. 419 to inclusive of the Sum of Rs. 1000-- provided for "Improving existing Supply Channel" and Rs. 100--, for "Land Compensation". It further includes a Sum of Rs. 100/00 being the Sale proceeds of trees Standing on the Tank bund which were cut and Sold, but which the Sanitary Engineering Department has not taken into account. —.

Para 4 (4) – 3(a). With reference to the Suggestion of the Sanitary Commissioner that a 2nd Grade Sanitary Inspector be entertained on a Salary of Rs. 45 plus Rs. 7½ house-allowance, the Council proposes to take the question into consideration when framing the Budget for next

next year.—

(b) In regard to remark No. (2) of the Sanitary Commissioner, it is to be explained that there were already two rubbish carts working in the Municipality even when the System of removing Sweepings by Contract was in force, So that we have 12 carts for the purpose against the 13, the estimated requirement as Calculated by the Sanitary Commissioner.—. If experience should suggest that an increase is necessary, necessary provision will be made in future budgets. —.

(c) Provision has been made for the three iron night-Soil carts and even more as promised by the Council in its reply to the

Adoni Municipal Councils
office.
