SIR,

In reply to Government order
No. 584 M. Mis. dated 31st March 1896
I have the honor to state that I understand
Government has now decided to ignore
the complaints made by Mr. Vivian of
the nuisance of toll collecting near his
house, which gave rise to the whole
matter, vide Government Order No.
1740 M. Mis., dated 20th December
1893. I think this may well be done,
as it has always seemed true un-
reasonable, and I know that the present
Sub Collector is of the same opinion.

2. The retention of the toll gate
in its old position will however (vide
latter part of para 3 of my last letter
Dis No. 132 dated 25th January last) without an

an illegality, leave untolled carts coming along the Allapuram road, which can either enter the town by the red dotted road behind the tollgate or by the Santarapolliyem road. It would be necessary therefore to place a bar across the Allapuram road where it joins the Santarapolliyem road. Tolls could be levied (at the existing shed) both at this new bar and at the bar across the Arni road. This would, however, require a notification under Section 50 and the issue thereof should I think be postponed till the determination of the existing leases.

3. I request orders, before submitting the draft notification called for.

Please see the notes and orders in the Government Order read above.

As stated by the Collector the question of moving the toll shed arose out of a complaint made to the Municipal Council by Mr. Vivian about the inconvenience caused to him by tolls being collected just opposite to his house. (Please see Vivian's letter in G.O. No 326 M. dated 10-3-93). In Government Order No 584 M. dated 31-3-96 it was suggested by Government that the toll shed should continue to remain where it is, and that certain alterations should be made in the limits of the Municipality. The Collector states that he understands from this order that Government has decided to ignore Mr. Vivian's complaint, which he thinks is — an unreasonable one.

2. If the alterations in the limits of the Municipality proposed by Government are carried out, carts coming along the Allapuram road may without paying toll enter the town either by the road behind the existing toll shed or by the Sankarampalayam road. To meet this difficulty, the Collector suggests that a bar should be placed across the Allapuram road at the point where it joins the Sankarampalayam road, so that carts coming along that road and along the Arni road may be caught at the bars placed across them and be tolled at the existing shed. It is not however understood why the Collector thinks that a notification under Section 50 of Act IV of 1884 is necessary to enable the Municipal Council to do this.

13/5/96. 5. This extra bar across the Allapuram road would be about 50 yds from the existing toll shed "B". As however it is proposed to alter the Municipal limits from the West to the East side of the Arni road, from the North to the South side of the Sankarampalayam road, it is submitted that the

shed "B" should be moved across the road to the place marked in the plan & then it will have a bar on each side of it across the two roads. As no new tolls will be levied, it appears that no notification under sec. 50 is necessary.

Order No 912 dated 1.6.96

It appears to me that, if the Municipal limits are altered in accordance with the ^{proposed} S.O. 5844/31.3.96, the only ^{change} alteration in the position of toll sheds necessary will be for the shed "B" to be moved across the road, so that it may have a bar on each side of it, one across the Arni road, & the other across the Allapuram road. As ^{the} ~~no new tolls~~ will ^{not} be levied involve the levying of any new tolls, a special notification under S. 50 of Act IV of 1884 would appear to be unnecessary. The Collector will now report whether there is any objection to this course, if ^{not} ~~to~~ submit proposals accordingly.
