PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following:-

Letter from the Collector of Godavari, No. 284/Eng., dated 5th March 1896:-

Adverting to G.O. No. 1994 M. Mis., dated 27th November 1895, I have the honor to submit herewith the proceedings of the Committee appointed under the above G.O., which assembled at Ellore on the 5th February 1896.

Enclosure.

Proceedings of a Committee appointed under G.O. dated 27th November 1895, No. 1994 M. Mis., Local and Municipal, assembled at Ellore on the 5th February 1896.

Read G.O. dated 27th November 1895, No. 1994 M. Mis. and G.O., dated 7th January 1896, No. 8 M. Mis.

Resolved it be reported to Government that the Committee is of opinion-

(1). That the irrigation channels now within Municipal limits together with all land pertaining thereto should be placed in the possession of the Municipal Council, Ellore, and under its direct control, with permission to alter their course through the inhabited area, or in any other way to effect such alterations as it may desire; provided their efficiency as distributary channels be in no way impaired.

(2). That certain of the six channels passing through the town, and which the Superintending Engineer will subsequently specify to the Municipal Council, not being required for irrigation purposes should no longer be utilised for the conveyance of water and the land thus rendered available be placed in the possession of the Municipality unconditionally.

(3). That

(3). That changing the mooring site of the boats to a point lower down the canal so as to fulfill sanitary requirements will in no way inconvenience the trading community, but is likely to prove a costly procedure, in that the Superintending Engineer roughly estimates that Rs.20,000 would be necessary for provision of due accommodation.

(4). That in the event of a new site for the moorings of boats being arranged for, it would also be desirable to require that no wood ^{rafts} ~~crafts~~ should be placed above the point selected.

Endorsement thereon in the Local and Municipal Department, No.400 dated 27th March 1896:-

Transferred to the Public Works (Irrigation) Department, for necessary action.

Note by the Chief Engineer for Irrigation, No.100 I., dated 16th April 1896:-

Submitted to Government with the remark that Resolutions 1 and 2 of the Proceedings of the Committee may be approved.

2. With regard to Resolution (3), the cost of changing the site of the mooring place for boats seems prohibitory and it is considered that some other remedy for the evil complained of should be found.

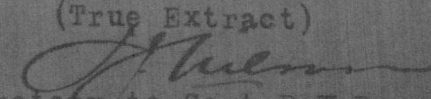

Order thereon: No. 444 I., dated 19 May 1896.

Approved.

2. The Superintending Engineer, ~~III~~ ^{II} Circle, will take the necessary action with reference to Resolutions (1) and (2).

3. Para 2 of the endorsement of the Chief Engineer for Irrigation will be referred to the Local and Municipal Department for consideration by the Collector of Godavari, in communication with the officers concerned.
