No 57 of 1896

Public Works Department
Bombay Castle 25th January 1896

From

The Secretary to the Govt of Bombay
Public Works Department.

To

The Secretary to the Govt of Madras
Public Works Department.

Sir,

A question having been raised in this Presidency as to whether it is desirable to carry out sanitary works for drainage, water-supply, &c., through the agency of the Public Works Department or by a separate agency under the Sanitary Board, I am directed to request that, under the orders of His Excellency the Governor of Madras in Council, this Government may be favoured with

with any information you can supply on the subject from the results of the working of the Madras system. Information is desired as to whether the Government of Madras, after their experience, have found it advisable to maintain a separate agency or to utilise the Public Works Department for their Sanitary works.

2 I am also to ask whether the Sanitary Engineer acts as Consulting Engineer or is in independent charge of works; and this Government will be glad of a copy of the rules which guide the Sanitary Board and the Sanitary Engineer in regard to

to the preparation and execution of Sanitary projects in the Madras Presidency.

I have the honour to be
Sir,

Your Most obedt. Servant,

H. Little

Secretary to Government

Current No. 4409 of 1896, dated 4th February '96 from the Public Works Department.

Current No. of 189 , dated from the

Order
Letter

No 987 Muis D/12-6-96.

To The Secretary to the
Government of Bombay,
Public Works Department.

Sir,

In reply to your letter No 578
addressed to the Secy to Govt, Public Works Deptt,
of the 25th January 1896, I am
directed to state that the water sup-
ply and drainage schemes, which
are designed by the Sanitary Engi-
neer in this Presidency, have
hitherto been carried out under
his ~~own~~ ^{limited} control and supervision
by special establishments employed
for the purpose at the cost of the
Local bodies concerned. The Govern-
ment, however, is now of opinion
that the work of the Sanitary Engi-
neer should be confined to the
investigation of these projects &
the preparation of the necessary
plans & estimates and has ^{therefore} resolved
to

to entrust the construction of the works and obtaining the plant required for the next project ^{to be made} to the Public Works Department. ^{His opinion can be given of the} ~~to see how the arrangement~~ looking of this scheme for as yet it has had no trial. ~~made~~ The Government has also decided not to undertake the upkeep ^{of the drains} of the works after they have once been started, and has accordingly desired the municipal councils to place them in charge of competent men who will be responsible for keeping them in order, the Government providing only for their supervision and inspection ~~at stated intervals by the District Engineer appointed for the purpose.~~

2. Copies of the Government Orders noted in the margin bearing on this subject and containing the revised rules recently framed for the guidance of the Sanitary Board are forwarded for information.

I have to
