6. Read again L. C. dated 27th July 1896
No. 1252 & Co.

Read also draft letter addressed
by the Chairman to the Chief Secretary to
Government Local and Municipal Departments
Madras, reporting upon certain points referred
to in the Inspection notes of the Sanitary
Commissioners for Madras, on the Salem
Municipality.

The draft is approved. With reference to para 2 (f), of the Sanitary Commissioner's inspection notes, the Council is of opinion that it is useless to prohibit dhobies from washing in the river as long as drains are allowed to discharge themselves into it just below where the dhobies wash, and until a new drainage scheme is introduced, it is not possible to divert the drains from the river.

To

THE

Chief Secretary, to Government,
Local and Municipal Department,
Madras.

Enclosure

SIR,

With reference to para I (1) of G. O. No. 1252 M dated 27 July 1896, I have the honor to report as follows:

- (1) Para 3 (b) of the Inspection notes of the Sanitary Commissioner. It is ^{to be} observed that in the current year's budget a provision of Rs 1082/- has been made for constructing a tiled drain in the Salem Bazaar street in G. O. at the suggestion of the Sanitary Commissioner, Madras. Arrangements have been made for obtaining the necessary tiles from Messrs Barua & Co., Calcutta, and the work will shortly be completed. If this system of drains be found to be working satisfactorily, arrangements will be made for trying the same in the Kava-

Street pointed out by the Sanitary
Commissioners.

(2) Para 4 (b) of the Sanitary Commissioners' Inspection notes. The introduction of the "Separate receptacle system" for rubbish collection is impracticable in this town. The present system of dust bins is found to be working satisfactorily.

(3) Para 4 (c) of the Sanitary Commissioners' Inspection notes. The people generally seem to object to use Municipal Public Latrines on the bucket system. The council will determine to adopt a certain standard pattern for private latrines and steps will be taken to gradually introduce the same wherever it may be found feasible to do so.

(4) Para 4 (e) of the Sanitary Commissioners' Inspection notes. As the people objected to the putting up of the zinc latrines near the dwelling houses the sites formerly selected for the purpose have been abandoned and fresh sites far away from dwelling houses will be acquired as soon as possible, and the collector has been addressed on this matter. Two new latrines have been constructed during the current official year and all the existing latrines have been thoroughly repaired and improved.

(5) Para 5 (a) of the Sanitary Commissioners' Inspection notes. A provision has been made in the budget for 1897-98 for the

the construction of a new Victoria Jubilee Market on the west of the Salem Saling Butchery. Steps will shortly be taken to abandon the old market and slaughter house buildings in Salem which will eventually be sold in public auction and arrangements will be made for the construction of a new suitable slaughter house for Salem on an approved site.

2. A copy of the resolution of the Council dated 14th Instant is herewith submitted.

I have the honor to be

Sir,

Your most obedient servant.

Comptroller

A. S. Panabaker
Chairman
