To

The Secretary to Government
Local & Municipal Dept.
Madras

Sir:

In acknowledging receipt of
G. O. No. 994 M. dated 13th June 1896 -
reviewing the inspection note of the
Sanitary Commissioner on Tuticorin
I have the honor to submit as follows:-

With reference to 'damp proof
Course' I beg to report that the system
of laying a single line of stones pointed
with Portland Cement is in use in a few
houses, occupied by well to do people
while in other houses the floor is generally
made water-proof by having raised floor
and by having Coral stones laid in mortar
instead of Cement. The poorer classes

Classes invariably use clay in stones.

Glazed bricks are not made in Tuticorin and the cost is prohibitive.

(4). Latrines will be increased as funds are available.

8(c) The market will be constructed agreeably to the plan and specification furnished by the Sanitary Engineer.

9. Bandy pettahs will be considered after the market has been constructed and worked as there is no fund available just now.

10. Crematorium. This subject is engaging the attention of the Council. A site for Roman Catholic Christians Burial Ground has been selected and the value of the said land settled by the Council. The land will be taken possession of under Land Acquisition Act. agreeably to G.O. No 1699 M. dated 5th Oct 96.

11. Vaccination. Calves are very hard to procure with some difficulty as the owners resent allowing their calves to be inoculated.

The Port authorities will be addressed with reference

to paragraph 3(a) and the result reported in due course.

I have the honor to be
Sir,

Your most obedient servant

M. M. M. M. M.
Chairman
