THE PRESIDENT,
Municipal Commission,
Madras.

Order No 125 dated 30-1-97

M. W. No. 1515

The remarks of the Chief Engineer
should be placed before the Commissioners
for consideration and their resolution
thereon submitted to Government, as
required in G.O. No. 1984M, dated 18th
November 1896.

SUBJECT.

It being stated that, from the comparison
of the cost of Pumping shown,
it must be admitted that the
Municipal expenditure has not
been excessive, and admits
that temporary Pumping is
expensive, and hopes before
long to establish permanent
Engine and quaters.

To
The President, Municipal Commission, Madras.

MUNICIPALITY OF MADRAS,

Public Works Department,

LOCAL & MUNICIPALITY DEPT.
MADRAS, 18 December 1896.
CURRENT No. 3390. m.

From

LIEUT.-COL. G. M. J. MOORE, C. I. E.,
President, Municipal Commission.

To

The Secretary to Government,
Local and Municipal Department,
Fort St. George.

SIR,

With reference to G.O. No 1984 M. Mis. dated 18th November 1896 I have the honour to point out that I find that when Government pumped for the Municipality in 1876-77 the cost was Rs 23,213-8-3 and the amount of water delivered was about 240 million gallons.

Enclosure.

When the Municipality pumped for itself in 1887, 91, 92 & 93 the average yearly cost was Rs 20,271 and the amount of water delivered was 621 million gallons so that the Municipality pumped at $\frac{1}{3}$ rd the cost that Government did.

I quite admit that temporary pumping must be expensive and I hope that before long permanent Engines and quarters will be established at the Red Hills.

If Government require any further information I shall be happy to afford it so far as I can, but I think that in face of the comparative cost of pumping shown above it must be admitted that the Municipal expenditure has not been excessive.

I have the honor to be,

Sir,

Your most obedient servant,

G. M. J. Moore Lt.-Col.

President, Munl. Commn.
