His Excellency
Governor of
Madras

May it please your Excellency.

The humble memorial of Yadvu
Le howappa 2^d grade Pleader Gooty
Judge's Court & ryot.

Respectfully sheweth.

1. That your humble memorialist
begs to submit there has been a water
- source at Adoni called Rangherry
by Hindus & Ismalgherry by Mohamma
- dous.
2. That your humble memorialist
begs to submit he had for several
years enjoyed the scenery and water
of Rangherry at Adoni which has
been within jurisdiction of the Joint
Magistrate (till its abolition) and within
the jurisdiction of Gooty Judge's Court
wherein your humble memorialist
practices.
3. That your humble memorialist begs

- 2
- to submit the Municipality at Adoni having recently given effect to the progress of pipe water have without power & without sanction blocked Ramgherry and prevented the enjoyment of finest water available.
4. That your humble memorialist begs to submit also the blocking up and taking the water to the pipes is unwarranted during ~~the~~ ^{heavy} rains as the tank supply would sufficiently meet the requirements and during scarcity the supply of Ramgherry is so small as not worth while taking the source to the pipes &c.
5. That your humble memorialist begs to submit it is highly dangerous and offensive to the people in general to have a Municipality at Adoni - which does prevent the enjoyment of natural scenery and taste of excellent water and which ^{in Municipality} assumes high handed powers not their own.
6. That your humble memorialist begs to submit prevention is better than cure and as such he prays ^{he} _m

may not be driven to litigation
by acts of a municipality^{or} body
the members of which foreign
to European independent training
and ideas would simply yield
to the arbitrary will of a President
who is also a Revenue officer
and a local 1st class Magistrate
wielding enormous power over
lives and liberties of Her Majesty's
Subjects under your Excellency's
direct control.

7. That your humble memorialist
begs to submit a charitable building
has also been raised to accomodate
the visitors on picnic excursions
and to relieve them from sun & rain
8. That your humble memorialist
also begs to submit it is highly
unjust improper and unpleasant
to stand in the way of poor down
trodden people whose only enjoyment
is that of nature bestowed by Almighty
Providence

9. That under the above circumstances
Your humble memorialist prays to
issue necessary instructions to undo
the blocking up of Rungerry building
and have the source in the very shake
in which it was.

For this act of generosity shall
ever pray.

Begs to remain

Your Excellency's most-obedient
Servant.

No 819

From.

Mr R. S. Ramu Esq. M.A.

Chairman, Municipal

Council, Adoni

To,

The Secretary

to Government,

Local & Municipal Dept.

Fork. St. George, Madras

Through,

The Collector of

Bellary

Sir,

I have the honor
to return the petition of
one *Zadiki Chowdappa*
presented to H. E. the
Governor regarding the
Ramjerri Spring, and to
submit the following
remarks thereon. —

2. The petitioner is a
Second

from the tenor of his writing,
appears to be an eccentric
Gentleman.

3. His Complaints are, so far
as I can understand,

(1) that the Municipality
have without power and
without sanction blocked
Ranjjerri and prevented
the enjoyment of finest
water available, and that
it was not necessary to
supplement the Tank
supply by means of the
water of the Ranjjerri
Spring, (2) that the wall by
which the Spring has been
enclosed, has deprived
the Spring of its natural
beauty, and (3) that the
present arrangement
by which people are
prevented from having

access

me

public of a privilege of
which they had enjoyment
for a long time.

4. As regards his first
item of Complaint, I beg
to refer you to the Corres-
pondence embodied in
G.O. No. 694. In Local and
Municipal Dated 25th
May 1893, sanctioning the
Adoni Water Supply Scheme,
from which it will be seen
that the proposal to utilize
this Spring as a part and
parcel of the project, has
been duly sanctioned by
Government under Section
145 of the District Muni-
cipalities Act, that it was
included on due consi-
deration of the inadequa-
cy of the Tank Supply to
meet the wants of the Town

And

water to the Town for as
many as three months in
the year. The public of Adoni,
so far from being inconvenienced
by the inclusion
of the Spring in the water
project, have been greatly
benefitted in that, during
the rainy season when the
Spring is full, the Spring water
which, before, used to be ob-
tained at much cost & trou-
ble, is supplied to all parts
of the Town. —

5. As regards the items
(2) & (3) of the petitioners Com-
-plaint there is an old
Maintapam (stone roofed open
building) built over the Spring,
which is enclosed fully on
the northern side of it,
and partly on the east
and western sides by the

natural

the

bottom of the main spring
issues, and ^{it is} was open on
the other sides. The Sanitary
Engineering Department
when carrying out the
water works, blocked up
the Spring completely by
means of walls, providing
ventilation by means of
lattice work on the
Southern side, and access
to the Spring by means of
a door way on the Western
side from which the Spring
is approached. This
arrangement is intended
to prevent the water from
pollution, by the public
and the dust from getting
into it. With a view,
however, to allow the
public the use of the
water of the Spring, ^{it is}
when they attend the spot
for

now may wish to take
potsful of it for drinking
purposes, the Municipal
Council has employed a
watchman who is always
on the spot during the day
time to open the spring for
any body that may want
to take water from it.

The Council has already
obtained a hand pump
which will be fixed up
shortly, outside the
enclosure, and when that
is done, the present rather
objectionable practice
of the people going into the
enclosure and drawing
water with their feet placed
in the water which is also
condemned by the Sanitary
Commissioner will cease.
It may be mentioned
that the scheme provides
for

water in the filter beds
below the tank, before
use. —

6. It must be admitted
however, that the view of
the spring has been quite
shut out by the present
arrangement. I thought
that it would have been
better if an ornamental
railing were put up
round the spot, instead
of a dead wall, and I
mentioned this verbally
to the Assistant Engineer
who promised to see
about it. But I did not
press this matter and
the wall enclosure has
been built as provided
for in the estimate. —

7. A copy of the Council's
resolution approving
the draft of this letter
and

the locality are herewith
Submitted.

I have the honor to be,
Sir,
Your most obedt. servt.

I remain
Yours
J. R. ...
Chairman
