LATRINE
ESTIMATE RS. 15
SCALE 1/30

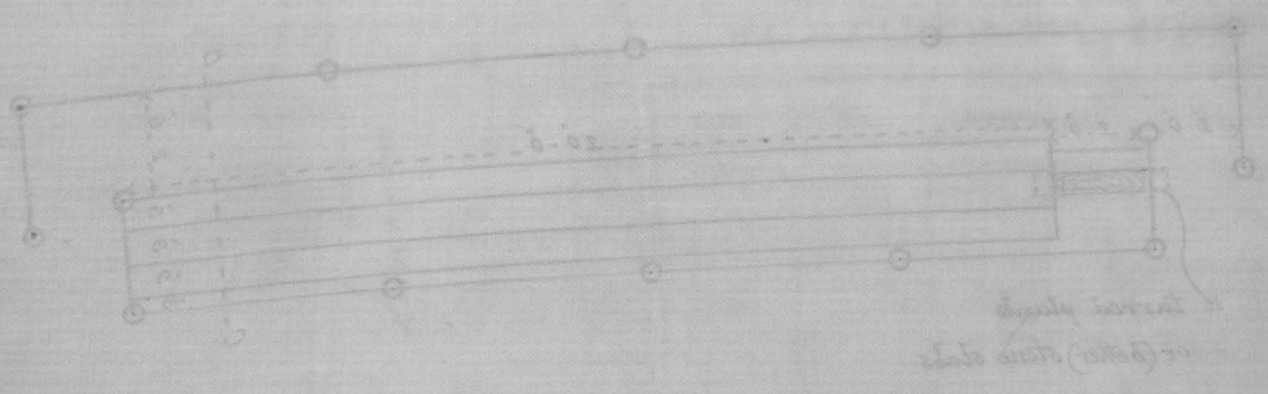

ELEVATION

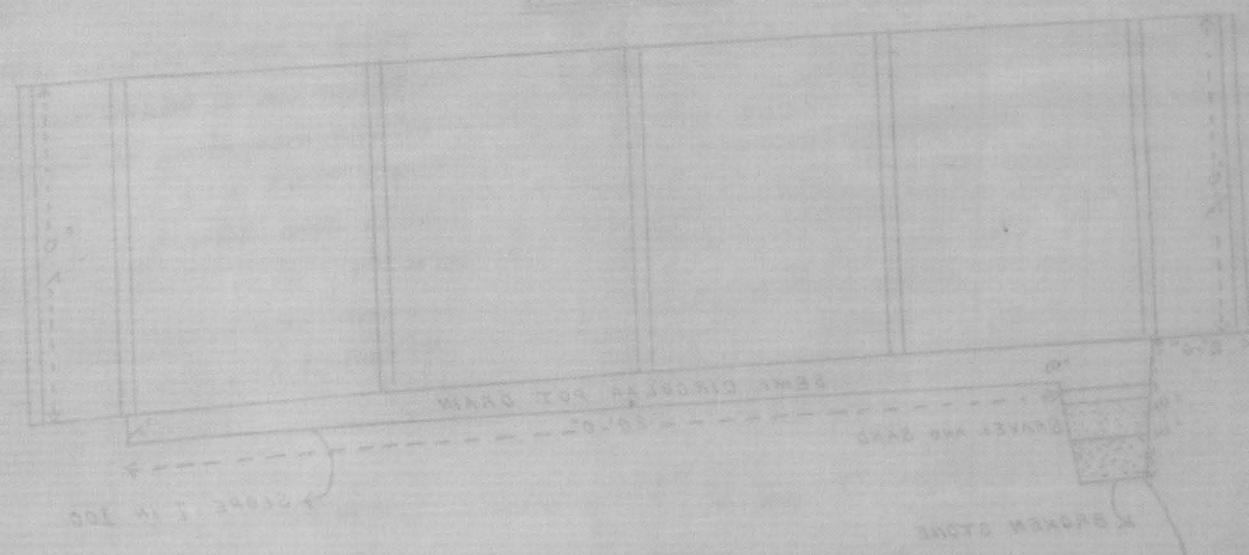

Note. Dry earth to be used in drains, a bed of clay behind the pipe would be an improvement. These latrines might be made permanently useful by employing Buru, B.C.S. salt-glazed open stone ware drains, jointed with cement and laid on lime concrete, or by making an ordinary cement lined Egg-shaped drain. If permanent, a light roof with free ventilation below the eaves must be employed.
