FOR ORDERS.

See para 43 (page 5) of the Chairman's letter in p/s 296m. (C) 25-2-97

In its budget for 1897-98 the Municipal Council of Bezawada proposed to appoint a conservancy overseer on Rs 8 for each of the five electoral wards in the town, on the ground that it was not possible for one Sanitary inspector to cope with the work, and stated that the Sanitary inspector will exercise a general supervision over their work. As there were already two such overseers on Rs 8, the sanction of Government was requested for the entertainment of three additional men. With reference to this proposal, however, the Sanitary Commissioner remarked that the position of Bezawada as the great junction of canal, rail and road traffic of the north and the great route for pilgrims passing south, dictates the advisability of the available sanitary staff being of a correct type and therefore suggests the

See para 105 of the Sanitary Commissioner's letter printed on page 7 of p/s 296m. (C) 25-2-97

that with the sum proposed to be spent upon the employment of the Conservancy overseers, the services of a certificated Assistant Sanitary inspector might be secured. The Government in reviewing this budget approved the Council's proposal, but referred the Sanitary Commissioner's remarks to it for careful consideration. The Municipal, however, resolved on the 15th April last to employ three additional overseers as originally proposed by it. The Collector of Kistna now states that the Council passed the above resolution during the absence of the Chairman, without assigning any reason for its decision, that the Chairman, the District Medical and Sanitary officer, the Revenue Divisional officer and himself entirely agree with the Sanitary Commissioner in advocating the employment of a certificated Sanitary inspector, and that as a grand festival called "Kistna Pushkaram" which occurs once in twelve years and in which a large number of pilgrims are expected to assemble, comes off in September next, it is essential that a trained Sanitary inspector should be appointed. He therefore requests that the Municipal Council's

S.H.

Council's resolution of the 15th April last, above referred to, may be cancelled under section 35 of the Municipal Act; but this section does not at all apply to the present case, as none of the circumstances mentioned therein exist here.

Further, the present conservancy establishment, including the three overseers above referred to, consists of,

one Sanitary inspector	on Rs 50
5 overseers	on Rs 8
1 mistry	on Rs 6
27 sweepers	on Rs 5
26 scavengers	on Rs 6
and 6 peons	on Rs 6

The population of Bezawada being only 20,741, the existing Sanitary Inspector appears to be sufficient under paras 2 (3) and 3 (1) offd. No. 42, dated 4th January 1897, and the five overseers on Rs 8 are evidently necessary under para 2 (4) of that order. As for the Pushkaram festival, a special Sanitary staff may be employed if the permanent staff be considered insufficient

insufficient to meet the requirements of the occasion, and it seems to be undesirable and unnecessary to saddle the Municipality with permanent additional charges to serve the purpose of a festival which occurs once in twelve years.

It is therefore submitted that the Council may be allowed to have its own way in the matter. The following draft order is submitted for approval:-

Order No 1416 M. mis. dt 16-6-97.

The resolution of the Municipal Council, however it is desired, cannot be cancelled under section 35 of the District Municipalities Act, as requested by the Collector.

2. The Municipal Council with, however, be requested to make special arrangements for the conservancy of the town during the ensuing Pookkaram festival.

14th May 1897.

FROM,

J. K. Batten Esquire.

Acting Collector, Kistna District.

TO,

The Chief Secretary to Government,

Local and Municipal Department,

Fort St. George.

SIR,

I have the honor to request that, under Section 35 of the Municipal Act, the enclosed resolution of the Municipal Council, Belwada, may be cancelled.

2. The facts are these —

In submitting its budget for 1897-98, the Municipal Council proposed to appoint for each of the 5 wards into which the town is divided, a conservancy overseer on Rs 8 per mensem. The Sanitary Commissioner, however, suggested that the services of a certificated Assistant Sanitary Inspector might be obtained for the sum proposed to be given to these so called conservancy overseers. The Government referred this suggestion for the careful consideration of the Council (Vide G.O. 296 m. dated 25th February 1897). But the

The resolution in question can hardly be considered as having been passed under the provisions of Sec 35.

This proposal has been sanctioned in G.O. 296 m. 25-2-97.

The present Conservancy Establishment, including the overseers newly sanctioned, consists of a Sanitary Inspector, 5 overseers on Rs 8, 1 masonry on Rs 4, & a number of laborers. The population of Belwada is only 2071 & under para 3 (ii) of the Act, one

Council at a meeting held on 15th April 1897 during the absence of the Chairman, resolved without giving reasons to quote its own words "to employ 3 overseers as originally proposed."

3. The Chairman, the District Medical and Sanitary Officer and the Divisional Officer all agree with the Sanitary Commissioner in advocating the employment of a certificated Inspector. I ^{entirely} agree with them. Bezwada is an important centre and as remarked by the Sanitary Commissioner is a great junction of Canal, rail, and road traffic. Moreover a festival called "the Kistna pushkaram" which occurs once in 12 years comes off in September next on a grand scale. A large number of pilgrims are expected to assemble and consider it important to secure the services of a trained man. The Chairman's letter is enclosed.

I have the honor to be,
