Trivilliputh
Municipal

23^d April

No.

From

Syed Mustafa Sahib Bahadur
Municipal Chairman and
Deputy Collector of Trivilliputhur

To

The Secretary to Government
Local and Municipal Departments
Fort St. George, Madras.

Thro' the Collector of Tinnevely

Sir

I have the honor to state that
the burning and burial ground near
the Rajakulamaperi tank in this
Municipality was recommended by
the District Medical and Sanitary
Officer in his inspection report
dated 28th February 1896 to be removed
to another site on the ground that
it was too close to ~~the~~ habitations.
It is marked, I, in the enclosed plan.

2 — The Council resolved on 8th June
1896 to abandon the said burning and
burial

at ground. In lieu thereof
nal sites were suggested by the
26th - The Sub Committee consisting
six members of the Council with
6, P. P. Narasimha Sasthriar
Vengal, the local Tahsildar, as
Chairman, appointed on 31st March
1896 to select a suitable site instead
of the one objected to, reported on
13th August 1896 that the site marked
H and D in the plan on either banks
of the surplus channel of the Bodi-
petham tank was the best to which
the site near Rajakulamaperi
as well as the site near the supply
channel to Thirumakulam tank
the chief source of drinking water
supply, was to be removed.

3 — The Council at a meeting
held on 26th September 1896 approved
of the Sub Committee's recommendation
and a letter to Government through
the Collector was accordingly sub-
mitted on 19th October 1896 for necessary
sanction

189/97
Sanction for the publication of
notification required by Section
of the District Municipalities Act
This was returned by the Collector
with a request that a sketch showing
the present and proposed sites
and the route through which the
Council would allow the dead
bodies to be taken to the new burn-
ing and burial ground together
with that by which the people
wished to carry them might be
furnished, as also the reason for
not adopting the route suggested
by the people. This information
was furnished to Collector in this
Office letter No. 595 J, dated 26th
November 1896. The reason why the
route suggested by the people was
not agreed to by the Council is
that it is more inconvenient and
round about than the one sanctioned
by the majority of the Council, and
that it passes through some of the
important Brahman and other
high

7-9-05

the class streets of the town who
likely to present dead bodies of
classes being taken through them.
The people referred to above are the
signatories to a petition submitted
to the Council who knew perfectly
well that there would be a strong
objection to their suggestion but who
nevertheless suggested the route with
a view to throw obstacles in abandon-
ing the burning and burial ground
near the Rajakulamaperi tank.

On the other hand the route approved
by the Council is in the words of
the Sub Committee, one through which
"the dead bodies can be very conveniently
taken through the hospital road
to the main ^{road} and thence directly on
to Bodipetham through the road
between Valaikulam and Singam-
malpuram streets."

4 — On 11th and 12th January
1897 the District Medical and Sani-
tary Officer visited this town whilst
this

This letter was under consideration
of the Collector and the site on
side of the Bodipetham surplus
channel to which the burning ground
near Rajakulamaperi tank and
the Thirumakulam supply channel
are proposed to be removed was shown
to him. He is said at first to have
approved of it but subsequently to
have preferred another site (K in
the plan). The Collector on 26th
January 1897 forwarded the papers
to the Council and requested that
the new site selected by the District
Medical and Sanitary Officer
might be considered.

5. — The Council at their meeting
held on 31st March 1897 on a careful
consideration of the merits of the
two sites, have come to the conclusion
that for reasons stated in the enclosed
Resolution No. 1 dated 31st March
1897, the site newly selected by the
District Medical and Sanitary Officer
is

higher to the objections which he himself
are. should be avoided and consequently
all for to have the site near the Bodipe than
plus channel, but in order to meet
Medical Officers wishes, would
be it about 100 yards lower down the
same channel.

b — I request, therefore, that you
will be good enough to obtain the
sanction of Government for the
notification required by Section
240 of the District Municipalities
Act IV of 1884.

I have the honor to be
Sir

Your most obedient servant

Chairman & Deputy Collector

18/4

District General No. 989/97

Submitted.

2 The District Medical
and Sanitary Officer who
has been consulted states
that the site selected by
the Council may be
accepted in case the
burning and burial
grounds are located
100 yards lower down
the channel.

3 A plan showing the
sites of the existing and
proposed burning grounds
are enclosed.

4 Should the Government
agree, I request that
notification under Section
240 of Act IV of 1884 may
be issued.

Resolution No. 1.

Read papers on the question of selection of a burning and burial ground for this Municipality.

Read also the remarks of District Medical and Sanitary Officer regarding the site chosen by the Council near surplus channel of the Boshipetham tank.

The Council is of opinion that the site for burial and burning ground selected by the District Medical and Sanitary Officer

Officer during his recent visit to this town is open to the same objections that he urges in regard to the site already selected and approved by the Council. It is close to a suburb of this town and to the Thirumakulam supply channel which is the chief drinking water supply of this town. Moreover the rain water falling on the site now selected by him flows into the above supply channel during rainy season, the latter being on a much lower level than the former. Water convenience there is none near the proposed site; and water is an absolute ^{necessity on} funeral occasions. The site already selected has, on the other hand, got some wells near it. The Council would in these circumstances prefer to have the

9. " G. Alagappa Mudaliar Aungal

the site already selected rather than the new site, and to meet the District Medical Officers wishes, about 100 yards lower down the Channel. The resolution has been passed by a full Council after careful consideration. ^{Mudgal} Mr. Alagappa, alone dissenting, in favor of the old site near Rajakulamapet tank or if that is not practicable, in favor of the new proposed site.
