CURRENT No. 1713. M

The Chief Secretary to Government

Local & Municipal Department

MADRAS.

Through the Sub-Collector Godavery.

Sir,

With reference to G.O. No 212 M. No dated 12th February 1897, I have the honor to state that the Council is of opinion that the bund should be raised as near the river edge as possible, in order that there may be room for a broad road and a row of godowns. The Chief Engineer observes that it would cost more to raise a bund nearer the river edge as the ground slopes towards the river, but the price that the ground that will be sold for constructing godowns, fetches will more than cover the increase in expenditure thus caused, and it is therefore more economical to run the bund nearer the river edge, providing for a row of godowns. Besides by having a

T. S. Narayan

row of godowns on the river side. There is this additional advantage that the traffic on the main road (which is very narrow) will be diverted to a great extent. The vacant land now to be bounded will be raised as the Chief Engineer suggests, the site of the godowns at the cost of the purchasers, and the site of the road by the Municipality. I therefore request that you will be pleased to move Government to sanction the work, and a loan of Rs 50,000 required therefor, to be repaid within 10 years, as suggested by the District Collector. The Council also prays that the vacant site to be reclaimed from the river by the bund, be made over to it, in order that it may make a road and sell a portion of it for constructing godowns.

2. If Government should accord its sanction, I shall put myself in communication with the Superintending Engineer, and have plans and estimates prepared in accordance with his instructions and submit them to Government.

3. A copy of the Council's resolution is enclosed.

I have the honor to be,

Sir,

Your most obedient Servant

G. L. Narasimham

Chairman delegate

Extract from the proceedings of the Municipal
Council, Rajahmundry dated 17-3-97.

Read G.O. No 212 M. No dated 12-2-97. Communicating
the Chief Engineer's letter No 218 dated 2-12-96 for
necessary action regarding the construction of
protective bund.

Resolution No 1501 dated 17-3-97.

Even if it should cost 50,000 Rs., the Council
is of opinion that the bund should be constructed
so as to leave space for godowns being raised,
as thereby a large portion of the cost can be
recovered, and as thereby much of the traffic
on the present main road (which is very narrow)
can be diverted. The Council therefore requests
for a loan of the required sum to be repaid
within 10 years if not earlier.

Please see the notes
and order in G.O. No. 212. m.
dated 12th February 1897.

2. In his letter read
above, the Chairman now states
that the Municipal Council is
of opinion that the bund
should be raised as near the
river edge as possible, in
order that there may be room
for a broad road and a row
of godowns, as the sale of
the reclaimed land would fetch
more than the increase in
expenditure caused by the con-
struction of the bund near
the edge of the river and
thus render this course more
economical, besides diverting
the heavy traffic on the main
road which is very narrow. He
says that the land enclosed by
