SIR,

With reference to your footnote R.C. No. 946
8 dated 20 May 1897 to G. O. No. 996 M., dated 27.4.97
I have the honour to report as follows:-

In para 5 of the Deputy Sanitary Commissioner's
report he makes suggestions for the conservancy
of the Langubia river near Chicacole and I am
directed to make a report on this.

From personal observation I know that
the river is fouled in various ways.

1st by using it as a latrine. This is done in the
early morning when few constables are about.

A special staff of four men to stop all nuisances
might be entertained to watch the banks. I
have already told the Stationary Sub-magis-
trate to impose suitable fines in nuisance
cases, and I think they are now four times
what they were 3 months ago.

2^d By washing clothes and animals. This can
hardly be stopped unless the river can be
conserved

Edw. Linn

Conserved by magisterial order on both banks
