[Despatch Abstract.]

Caddapah water supply
Informing the L.C.C. Caddapah, with
remarks that the Council should raise the
amount required for the extension of the water
supply gallery by increasing the rate of the
water & drainage tax under the Amended Act,
and that the work should be put in hand
without delay.

SUBJECT.

FOR ORDERS.

The water supply of Cuddapah from the Bugga springs, having been found to fall short of the requirements of the town, the Municipal Council closed all house service pipes from the 28th March to 4th April last and requested the Sanitary Engineer to depute a competent officer to examine and report upon the capacity of the Springs. The Assistant Sanitary Engineer who was deputed for this purpose, having stated that the supply might be increased considerably by the extension of the gallery so as to obviate any restriction on house service pipes and ^{having} estimated this extension at Rs 11000. As the District Council balances Act Amendment Act III of 1897 of the prop. that it should.

Lapah, however, then pointed out that was not possible as the town of Lapah had not been considered affected locality and ^{stated that,} as the work is an urgent one, it could not be postponed until it could be executed as a famine relief work.

The Municipal Council, whose attention was drawn to the Collector's remarks, now states that it has no funds to carry out the work, that it was with extreme difficulty it was able to balance the budget for the current year and that, unless the Order of Government directing the Municipality to contribute Rs. 2000 to the District Board on account of tolls is suspended for the current year or the Government affords aid from Provincial funds, it would be unable to undertake the work which is ^{so} absolutely essential. The Collector recommends that Government may advance Rs. 1600, which is the amount actually required, and recover it from the Municipality in instalments.

District Board, and the mere fact that unless the payment of the contribution is suspended for the current year, the ^{municipal Council} will not be able to carry out the proposed ^{improvement} of the water works does not appear to be a sufficient reason for reopening the question. In the existing state of the Provincial finances, the grant of any aid by Government for this purpose, seems to be out of the question. The budget for 1897-98, however, closes with a balance of Rs. 2730 and the Council may utilize a portion of this amount for expenditure on the proposed work. If this is not found to be practicable, the only course open to the Council is to raise a loan of the amount in the open market for a short period, say for five years, which it can repay by increasing the rate of taxation, if necessary, under the District Municipalities Act Amendment Act III of 1897.

The amount required is trifling. The asst Sanitary Eng^r, with whose report Mr Jones concurs "in every particular" estimates the cost at Rs 1100. While the Collector apparently calculates the amount required at "Rs 1600(?)". In any case the sum needed is small: & I think the Govt might advance the money on short loan of say five years.

Yes, why can't they raise what they want by increasing their water & drainage tax under the new Act?

Sir,

In reference to G. O. No. $\frac{1235}{19.5.97}$ M. Mis.
drawing the attention of the Municipal
Council Cuddapah to the Collector's
remarks in para 2 of his endorsement
on my letter No 539 dated 28th April 1897,

I have the honor to forward copy of a
resolution of the Council passed at a meeting
held on the 27th May 1897.

It is simply impossible for the Council
to undertake the proposed extension of
the

the infiltration gallery in the present
condition of the finances.

It was with ~~the~~ extreme difficulty that
the budget for the current year was
prepared to meet ordinary expenditure,
and unless the order of Government in
directing this Municipality to contribute
Rs 2000 out of the Tolls revenue to the
District Board is suspended for the
current year, or Government aid is
afforded the Municipal Council
will be powerless to undertake a work
that is absolutely essential.

I have the honor etc.
