The Councilors of Municipality Quarter.
The undersigned petition of Muhammadans residing around
the garden of Arabhat Sangadikumbhar Quarter.
Most Respected Sir,
We the undersigned people, sub-
missively beg to report that we have already submitted a
Mahazar petition stating that Polisetty Buchappa and
Panakali & intended to erect an oil factory in the
house which they bought in the garden of Arabhat that
it will be very dangerous to the people around it and that
it will produce tremendous noise at the commencement of
the work at every night. Now Polisetty Buchappa &
intended and want to get a permission to newly erect
a house in the purchased Locality and then to erect a
factory in the same house. We therefore most respect-
fully beg you to kindly consider the matter deeply and not
to give the permission to erect the factory in the Locality
under any circumstances though such permission to erect
the house may be granted.

For this act of charity we as in duty bound shall ever
pray for your long life and prosperity.

We beg to remain

9th November 96.

Most respected Sir

1. 2. 3. 4. 5. 6. 7. 8.

Yours sincerely.

All these petitions relate to the oil factory in question. Most or almost all of those who opposed to having a factory in the site reside at distant places where they can have no possible disturbance. The next door neighbours to the proposed factory site are all quite willing to have it. I don't see any objection to grant Bushay's request - i.e. they may be permitted to have a factory there, just opposite, not far off, there is a factory already in existence. To some of the objectors this factory is nearer than the proposed one. They have apparently no inconvenience from it. Considering all these, I am of opinion that the petitioners may be allowed to have a lesser oil factory in the proposed site. Every thing can be seen clearly from the accompanying plan.

(Initials)

P. V. R

28/11

I quite agree with the Division Councillor - Sanitarising there is no objection to the construction of a factory.

to the construction of a factory.

Meeting

(Initials)

A. H.

1-12-96

Resolution of the council dated 5-12

Sanctioned with a proviso that the walls of the factory

be raised to a sufficient height as to safe guard the

gas, pipes, and that the factory be constructed on the

premises marked in red ink in the plan & must face

towards the road. The chairman is requested to demarcate

the premises of the factory.

19/12

To the Secretary to the Government
of Madras

(Local and Municipal Department)

The most humble petition of
The undersigned inhabitants
of the Municipality
Kistna District

Sheweth
That the petitioners are

poor residents of Sangarigunta the most
thickly populated portion of the Municipality and
most of them are Mahomedans

2 That the existence of oil
factories in the midst of towns is a source of
great nuisance both on account of the bad
smell emanating therefrom during the rainy
weather and on account of the tremendous
noise disturbing the sleep of residents in the
neighbourhood caused by the workmen who
commence their work at midnight as well
as the obnoxious lighting by them while
at work

it work to the greatest disgust and dis-
comfort of the hearers is a fact well known
to your benevolent government and the
inconveniences enumerated above are
only realised by those that have had the
misfortune of experiencing them and they
can be better imagined than described.

There are no doubt some factories which were originally built outside the town and are now found amidst living houses, the town having largely extended in every direction. There also exists some sensation about the matter amongst the people living ~~in the~~ in their vicinity. If people choose to live near such factories in spite of the aforesaid inconvenience, nobody can help it, but the existence of such factories at present amidst houses is no justification for giving sanction to the building of fresh factories in the midst of the town and in spite of several protests from the neighbouring inhabitants.

In such a state of things a
Polacetti, Butcher and five other
baugau merchants of frunk applied
to the municipality of frunk and the
latter notwithstanding several protests
granted permission to the former to
build an oil factory close to the houses
of your petitioners.

At the meeting one of the
petitioners

petitioners appeared by a wakil and urged that such permission should be refused as it would eventually affect the health and the decency of the neighbourhood and the chastity of the Mahomedan women. As to the health being affected by the bad smell, the Civil Surgeon who is a councillor and at present the Chairman delegate disposed off the matter with one stroke of his pen saying that there is no sanitary objection. As to the second objection that the chastity of the Mahomedan women would not suffer by hearing the obscene songs sung by the workmen, the council decided that the compound walls should be raised sufficiently high. The height of the walls may keep off Ghoshas the women from sight. But what consideration the Council gave to the objection that obscene songs are sung by the workmen, the petitioners are not able to see.

6 With due respect to the ~~objection~~ opinion of the Civil Surgeon that the smell does not affect the health, & the petitioners beg to submit that it is an opinion contrary to that of higher authorities on the subject and one passed by him without ever visiting such a spot during the rainy weather and experiencing the awful stink emitted there from

The petitioners beg to add that they could not easily procure the copies of the petitions and have presented to the Municipality and the Municipality's orders thereon.

For which act of Kindness and
justice the petitioners shall
ever pray
