5. The variations between the budget and revised estimates have already been explained in the Financial Statement discussed in the Legislative Council at its meeting on the 9th April 1897. The present figures are subject to alteration and the results of the final adjustments and the Accountant-General's appropriation audit report will be awaited.

6. The differences between the revised estimates and the actuals of revenue are comparatively small. Under *I. Land Revenue*, the anticipated fall in the revised estimate was partly counterbalanced by certain advance collections credited within the official year owing to the change of kistbandi in Tanjore. In G.O., No. 400, Financial, dated 15th May 1897, the Revenue department was requested to scrutinise the district accounts, in view to ascertaining how far the collections under this head as well as those under *IV. Stamps* and *V. Excise* have been affected by the famine. The causes of the steady annual increases under *VIII. Assessed Taxes* and *IX. Forest* should also be examined when the budget estimates for the ensuing year are under preparation so that the normal rate of development in ordinary years may be determined as approximately as possible.

7. On the expenditure side the lower rates of exchange compensation allowance sanctioned during the year were accountable for a saving of over a lakh on the budget grant. The revised estimate and altered grant under *3. Land Revenue* did not allow sufficiently for the cost of additional famine establishments debited to departmental heads. The attention of the Board of Revenue will, with reference to the correspondence in G.O., No. 94, Financial, dated 29th January 1897, be drawn to the fact that the actuals under *11. Forest* fell short of the Accountant-General's revised estimates; now that the subordinate establishments have been strengthened, similar lapses should not be allowed to recur.

5. The variations between the budget and revised estimates have already been explained in the Financial Statement discussed in the Legislative Council at its meeting on the 9th April 1897. The present figures are subject to alteration and the results of the final adjustments and the Accountant-General's appropriation audit report will be awaited.

6. The differences between the revised estimates and the actuals of revenue are comparatively small. Under *I. Land Revenue*, the anticipated fall in the revised estimate was partly counterbalanced by certain advance collections credited within the official year owing to the change of kistbandi in Tanjore. In G.O., No. 400, Financial, dated 15th May 1897, the Revenue department was requested to scrutinise the district accounts, in view to ascertaining how far the collections under this head as well as those under *IV. Stamps* and *V. Excise* have been affected by the famine. The causes of the steady annual increases under *VIII. Assessed Taxes* and *IX. Forest* should also be examined when the budget estimates for the ensuing year are under preparation so that the normal rate of development in ordinary years may be determined as approximately as possible.

7. On the expenditure side the lower rates of exchange compensation allowance sanctioned during the year were accountable for a saving of over a lakh on the budget grant. The revised estimate and altered grant under *3. Land Revenue* did not allow sufficiently for the cost of additional famine establishments debited to departmental heads. The attention of the Board of Revenue will, with reference to the correspondence in G.O., No. 94, Financial, dated 29th January 1897, be drawn to the fact that the actuals under *11. Forest* fell short of the Accountant-General's revised estimates; now that the subordinate establishments have been strengthened, similar lapses should not be allowed to recur.

8. It was impossible to frame reliable estimates of *Famine Relief* expenditure during the course of the year, and the figures adopted by the Government of India in the revised estimate, viz., 3.25 under Provincial and .75 under Local, were exceeded by .86 as shown below:—

		Revised Estimate.	Actuals.	Difference.
Civil Department.	{ Provincial	1.25	1.38	+ .13
	{ Local	.75	.82	+ .07
	Total ..	2.00	2.20	+ .20
Public Works Department—Provincial.	{ Civil Department Works ..	2.00	.63	+ .50
	{ Local Fund Works ..	..	1.87	+ .16
	{ Irrigation Works ..	..	.16	+ .16
	Total ..	2.00	2.66	+ .66
	Total, 33. Famine Relief ..	4.00	4.86	+ .86

The bulk of the expenditure in the Public Works Department was incurred in Bellary, chiefly on Local Fund works, which have for the present been classed as Provincial under the instructions issued in G.O., No. 133, Financial, dated 8th February 1897. The correct redistribution as between these funds has not yet been decided upon, but as the accounts of each year should be closed separately*, the Accountant-General will be requested to be so good

* Paragraph 10 of G.O., No. 470, Financial, dated 12th June 1897, as to forward a report on the subject as early as practicable.

9. In consequence of the orders passed by the Government of India in regard to the reduction of expenditure in all possible directions and the deputation of officers on famine duty, the Public Works Department surrendered a considerable portion of the grant under 45. *Civil Works*, the bulk of which was re-appropriated for famine and other purposes.
